# Agency Summary

## Agency Summary Narrative

The Oregon State Treasury is the state's financial services center and is led by the State Treasurer. The Office of the State Treasurer is established in the Oregon Constitution as a separately elected official within the executive branch, and the Treasurer is responsible for managing Oregon's financial resources. To achieve that, we offer a broad portfolio of services for state agencies, Oregon's sovereign tribes, local governments, universities, families, and individuals across the state.

We serve Oregonians by helping them save for retirement, post-secondary education, and job training. We help people with disabilities save for job training and disability-related costs while protecting their benefits. For all Oregonians, we promote the importance of financial literacy. Our goal with each of these programs is to support financially empowered Oregonians who are prepared for an independent, secure future.

We prudently invest public funds, including the management of the Public Employees Retirement Fund, the Common School Fund, and the Oregon Short Term and Intermediate Funds. We offer investment services to our local government partners through the Local Government Investment Pool and Local Government Intermediate Fund.

We provide centralized banking and debt management services to our government partners. We process payments, protect deposits of public funds, and provide a wide range of financial solutions to state agencies. We help our state and local governments finance long-term capital projects through bonding and debt management services, ensuring that our partners have access to low-cost financing. Together, we ensure that governments across the state have the money they need, whether to pay an invoice, finance a new school, or invest in Oregon's future.

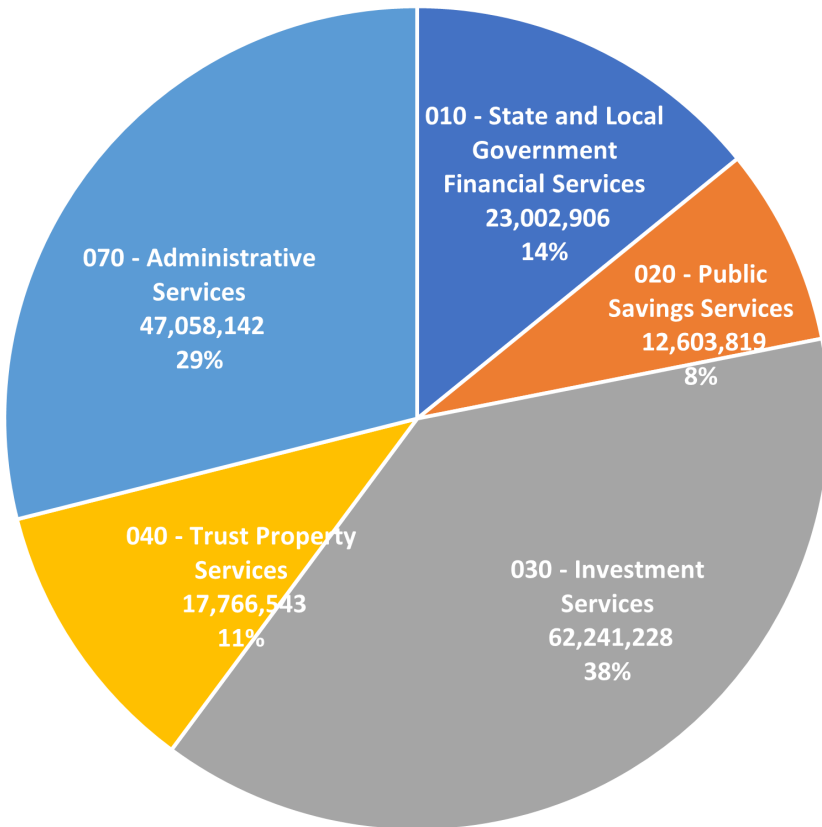

And we help Oregonians access unclaimed assets such as uncashed checks, forgotten security deposits, and tax refunds. We protect the assets of Oregonians who die without a will or known heirs.

**Staffing**

# Agency Summary

## Mission Statement and Constitutional Authority

### Vision Statement

Leading the way for Oregonians to achieve long-term financial security.

### Mission Statement

Improving Oregon governments' and citizens' financial capabilities.

### Values

Integrity, Professionalism, Trust, Innovation, Diversity, Accessibility

The above vision, mission, and values directly influence how Treasury does our work, which is organized into five main areas: state and local government services, public savings services, investment services, trust property services, and administrative services. As detailed in the following sections, Treasury's current and future workplans are driven and tied together by three main strategic themes: equity, resilience, and opportunity. These are the touchstones we refer back to and aspire to as we deliver on behalf of Oregonians.

### Constitutional Authority

Article VI, Section 1, of the Oregon Constitution provides for the election of the State Treasurer as a separately elected office of the Executive Branch. Article VI Section 4 provides that the powers and duties of the Treasurer are established by law.

Article VIII, Section 5, of the Oregon Constitution places the State Treasurer on the State Land Board with the Governor and the Secretary of State. Its constitutional duties are the management and disposition of lands within the Common School Fund.

Article V, Section 8a, of the Oregon Constitution describes the order of succession in the event of a vacancy of the office of the Governor. The State Treasurer is second in line behind the Secretary of State.

# Agency Summary

## Statutory Authority

The Oregon State Treasury's statutory authority is listed in several chapters of the Oregon Revised Statutes:

### General

ORS 178 Duties of State Treasurer

### State and Local Government Financial Services

ORS 283 Interagency Services

ORS 703- Trust Verification and Deception Detection

# Agency Summary

## Boards and Commissions

The Oregon Treasury serves on and supports several Boards and Commissions. An overview of each and its membership is included for reference.

### **Oregon Investment Council**

Sets policy for investment of Oregon State Treasury-managed statutory investment funds, including the Oregon Public Employees Retirement Fund and the State Accident Insurance Fund. Cara Samples, Chair; Lorraine Arvin, Vice Chair; Pia Wilson-Body; Alline Akintore; Kevin Olineck, PERS Director (ex officio); and Elizabeth Steiner, MD, Oregon State Treasurer (ex officio). ORS 293.706.

### **Oregon Short Term Fund**

Advises Oregon Investment Council and State Treasury Investment staff in the management of the Oregon Short Term Fund. Members: Douglas E. Goe, Chair; Michael Kaplan, Treasurer's designee; Michelle Morrison; Brian Nava; Sharon Wojda; Bryan Wolf; and Deanne Woodring. ORS 294.885

### **Oregon 529 Savings Board**

Sets policy for Savings Network, which includes the Oregon College Savings Plan and Oregon ABLE Savings Plan. Members: Elizabeth Steiner, MD, Oregon State Treasurer, Chair; Catherine Schulist; Dr. Robin Holmes-Sullivan; and Melissa (Missy) Olson. ORS 348.849.

### **Oregon Retirement Savings Board**

Sets policy and guides development of the Oregon Retirement Savings Plan. Members: Elizabeth Steiner, MD, Oregon State Treasurer, Chair; Joyce DeMonnin; Kara Backus; Jeff Anderson; Maria Gonzalez; Senator Dick Anderson; and Representative Daniel Nguyen. ORS 178.200.

### **Municipal Debt Advisory Board**

Provides technical assistance to local governments and state agencies to improve the market for bond issues in Oregon. Members: Christine E. Reynolds, Chair/Public Member; Jaime Alvarez, Treasurer's Designee; Eileen Hendricks, Special Districts Association; Brian Nava, Association of Oregon Counties; Sharon Wojda, League of Oregon Cities; and Brett Yancey, Oregon School Board Association. ORS 287A.630-640

### **Infrastructure Finance Authority**

Oversees public infrastructure assistance, and industrial land certification. Members: Christine Bailey; B. Jonas Biery; Kari Duncan; Kathleen Flanagan; Michele Bradley; Jaime Alvarez, Treasurer's Appointment; Senator David Brock Smith; and Representative John

# Agency Summary

Lively. Staffed by Business Oregon. ORS 285A.091-108

## **Oregon Facilities Authority Board**

Helps nonprofit organizations access low-cost financing for capital projects through the issuance of tax-exempt conduit revenue bonds. Members: Andrea Zamora, Chair; Kathleen Cornett, Vice Chair; Eric Johansen; Erika Patton; Roy Kim; Whit Spencer; and Erick Petersen. ORS 289.005-250

## **Private Activity Bond Committee**

Facilitates construction of critical facilities for public benefit through tax-exempt bonds using federally allocated funds. Members: Jaime Alvarez, Chair and Treasurer's Designee; Rhonda L. Nelson, OR DAS Designee; and Theresa K. Deibele, Public Member. ORS 286A.605-630

## **State Debt Policy Advisory Commission**

Advises policymakers on debt capacity and produces annual state debt affordability report. Members: Treasurer Elizabeth Steiner, MD, Chair; Rep. Nancy Nathanson; Sen. Kathleen Taylor; Berri Leslie, Department of Administrative Services Director; and Timothy Duy, public representative. ORS 286A.250

## **Oregon Land Board**

Manages state-owned lands for the benefit of the Common School Fund. Its three members are the Governor, the Secretary of State, and the State Treasurer. Governor Tina Kotek, Chair; LaVonne Griffin-Valade, Secretary of State; and Elizabeth Steiner, MD, State Treasurer. ORS 273.031.

## **State Board of Education**

Oversees curriculum for Oregon's public schools and community colleges. Jennifer Scurlock, Chair; Shimiko Montgomery, Vice Chair; Cynthia Richardson, 2nd Vice Chair; Libra Forde; Vicky López Sánchez; Guadalupe Martinez Zapata; Bridgett Wheeler; Sarah Wofford; LaVonne Griffin-Valade, Secretary of State; and Elizabeth Steiner, MD, State Treasurer. ORS 326.021.

# Agency Summary

## Criteria for 2025-27 Budget Development

We developed our 2025-27 budget based on our vision, values, and program missions, which we have outlined in the preceding sections. These guideposts directly informed our budget development process.

Prior to the 2025 legislative session, a new State Treasurer will be elected. This budget aims to provide flexibility for the new administration to determine the final budget requests that will be made in the 2025 legislative session for the 2025-27 biennium.

The 2025 - 2027 Legislatively Adopted Budget incorporates various requests made prior to the 2025 legislative session from Treasurer Steiner.

## Reduction Options

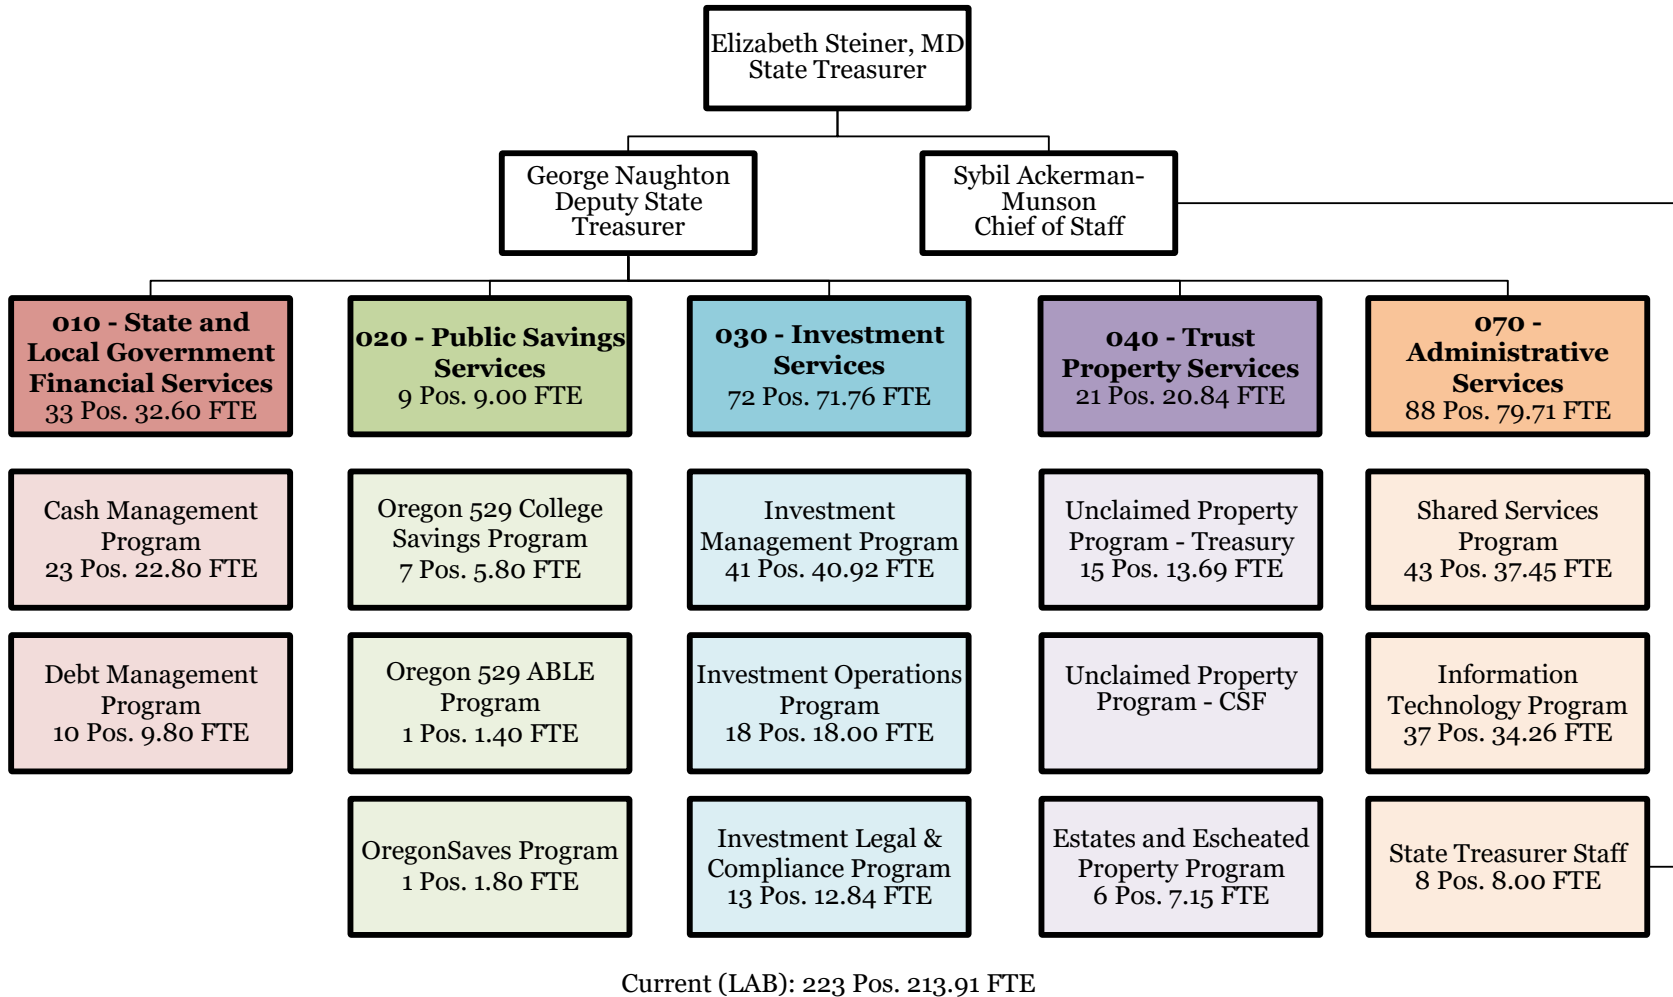

Agency Name (Acronym): Oregon State Treasury (OST)															
2025-27 Biennium															
Detail of Reductions to 2025-27 Current Service Level Budget															
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Priority (ranked most to least preferred)	Agency	SCR or Activity Initials	Program Unit/Activity Description	GF	LF	OF	NL- OF	FF	NL- FF	TOTAL FUNDS	Pos.	FTE	Used in Gov. Budget Yes / No	Impact of Reduction on Services and Outcomes	
Dept	Prgm/ Div														
1		Treasury	Agency-Wide	Reduction - Hiring Freeze			1,429,233				\$ 1,429,233	0	0.00	No	This reduction would require instituting a 12-month hiring freeze for all positions that become vacant during the biennium, with estimated savings based on statewide standard vacancy savings calculations with an average assumed position vacancy of approx. 2 to 3 months, extended to requiring 12 months vacant. This action would cause delays in ongoing projects and service delivery.
2		Treasury	SLGFS (SCR 010)	Reduction - Eliminate the Public Funds Collateralization Program			713,798				\$ 713,798	0	0.00	No	This reduction would eliminate the public funds collateralization program (ORS Chapter 295). Statutory changes would be required to effect this elimination, as program is required by Oregon law. Reduction would have absolutely no impact on the state budget as Commercial Banks and Credit Unions that participate in the program reimburse OST for 100% of the cost of the program. Funds cannot be used for any other purpose.
3		Treasury	PSS (SCR 020)	Reduction - Eliminate the Oregon Retirement Savings Program			2,273,652				\$ 2,273,652	0	0.45	No	This reduction would eliminate the Oregon Retirement Savings Program (ORS 178.200 to 178.245). Statutory changes would be required to implement this elimination, as well as changes to Oregon's tax law. All current accounts would be liquidated and the proceeds returned to the account holders. Reduction would have absolutely no impact on the state budget as the Program is funded by administrative fees paid by the investors and the Program Managers. Funds cannot be used for any other purpose.
4		Treasury	PSS (SCR 020)	Reduction - Eliminate the Oregon 529 ABL Savings Program			1,004,044				\$ 1,004,044	0	0.09	No	This reduction would eliminate the Oregon 529 ABL Savings Program (ORS 178.375 to 178.385). Statutory changes would be required to implement this elimination, as well as changes to Oregon's tax law. All current accounts would be liquidated and the proceeds returned to the account holders, creating a potential tax liability for the account holders. Reduction would have absolutely no impact on the state budget as the Network is funded by administrative fees paid by the investors and the Program Managers. Funds cannot be used for any other purpose.
5		Treasury	PSS (SCR 020)	Reduction - Eliminate the Oregon 529 College Savings Program			9,226,923				\$ 9,226,923	9	8.46	No	This reduction would eliminate the Oregon 529 College Savings Network Program (ORS 178.335 to 178.355). Statutory changes would be required to implement this elimination, as well as changes to Oregon's tax law. All current 529 accounts would be liquidated and the proceeds returned to the account holders, creating a potential tax liability for the account holders. Reduction would have absolutely no impact on the state budget as the Network is funded by administrative fees paid by the investors and the Program Managers. Funds cannot be used for any other purpose.

## Agency-Wide Program Unit Summary

Article VI of the Oregon Constitution establishes the office of the State Treasurer. During the Constitutional Convention, there was discussion regarding the separation of roles within the executive branch for the Governor, State Treasurer, and Secretary of State. While consolidating the roles would have resulted in a cheaper government, ultimately founders feared the inherent conflict of interest and an unwise “union of purse and sword” and established the State Treasurer as a separate office within the executive branch. Additional detail regarding the duties of the State Treasurer are outlined in Oregon Revised Statute 178.050, as well as chapters 286A, 293, 294, and 295.

Broadly, Oregon Treasury operates five service areas: State and Local Government Financial Services, Public Savings Services, Investment Services, Trust Property Services, and Administrative Services. Each service area includes one or more program units. A summary of each program unit and details on their short-term plans are included below.

### State and Local Government Financial Services

For Oregon governments of all sizes to serve the public, they need to manage money efficiently and safely. Treasury enables these activities by providing important financial tools and services to state agencies, public universities, and local governments that allow governments to do business, stretch tax dollars, and better serve Oregonians. Treasury is able to use market impact and economies of scale to reduce costs and streamline operations, saving governments time and money.

State and Local Government Financial Services consists of two primary program units: Cash Management Program and Debt Management Program.

The **Cash Management Program** provides banking and short-term investment services to all state agencies and most public universities, as well as a narrower set of services to local governments. All payments between state agencies and their customers, clients, vendors, and business and government partners flow through Treasury, in and out of the Oregon Short Term Fund (OSTF), on a daily basis. All state accounts at partner financial institutions are owned and managed by Treasury at an aggregate level on behalf of our stakeholders. Treasury further maintains detailed customer account balance and transaction information and communicates that information to stakeholders, partners, and customers. This centralized Treasury services model results in dollar savings to state agencies (and participating public universities and local governments) due to volume pricing. It also creates consistencies in statewide regulatory and security approaches. Further, it allows for rapid deployment of funds into the OSTF where moneys can be put safely to work earning interest.

# Agency Summary

The mission of our Cash Management Program is to improve Oregon governments' and citizens' financial capabilities through protecting public funds and delivering customer-focused cash management solutions. The program's activities are "no fail" operations for Treasury and its customers and partners. With that in mind, the Cash Management Improvement and Renewal Program is a key enabling initiative that is modernizing our cash management systems, processes, and relationships. This modernization drive mitigates risks associated with unsupported and obsolete systems and processes, enables increased security, and provides up-to-date service delivery and payment options for our customers.

Staff in this program area also oversee the Public Fund Collateralization Program. This program ensures deposits of state and local government money that exceed federal deposit insurance amounts are protected in the event a financial institution closes. Banking institutions become "qualified depositories" by complying with important requirements of the program. Most government entities in Oregon must only use these qualified depositories.

The **Debt Management Program** provides central coordination for, and issuance of, all Oregon state agency and authority bonds. In addition, our program provides oversight of local Oregon government bonding activity. Our goals include reducing centralized debt management costs, enhancing the marketing of the Oregon Facilities Authority's financing services to Oregon non-profits, and tightening the interest rate spread on state bonds to pricing indexes. Debt Management achieves these goals through a mix of streamlined services, ongoing staff development and training, improved marketing, and active participation in all state bond transactions.

Over the past several years, Oregon has seen a growing crisis in housing availability and affordability throughout the state. This situation is especially acute in the rental housing market where the demand for, and price of, rental housing far outpaces supply. The legislature has taken several steps to increase housing affordability, and this has resulted in a significant increase in multi-family conduit bonds.

## Public Savings Services

The Oregon Treasury Savings Network oversees several public "defined contribution" investment programs, which advance the connected policy goals of increasing individual savings and quality of life, and reducing long-term government costs. The programs are made available and administered by Treasury via public-private partnerships overseen by the Treasurer and public boards. The oversight consolidation for the three separate savings programs in the Oregon Treasury Savings Network creates efficiencies through overhead cost reduction, a cross-functional staff, and the ability to increase statewide outreach; and decreases costs associated with contract and vendor maintenance.

# Agency Summary

Public Savings Services consists of three 529 program units: Oregon College Savings Plan, Oregon ABLE Savings Plan, and OregonSaves.

The **Oregon Treasury Savings Network** offers tax-advantaged, flexible investment options to help Oregon families save for their future higher education and job training expenses (**Oregon College Savings**) and disability-related expenses (**Oregon ABLE Savings Plan**). The Oregon 529 Savings Board establishes policies and oversees the Network.

The **Oregon Retirement Savings Program**, which is made available to the public as OregonSaves, provides eligible employees and members of the public with automatic enrollment, payroll deduction, and automatic annual contribution escalation in a retirement savings plan (OregonSaves), all on a flexible, opt-out basis. The plan is governed by the Oregon Retirement Savings Board and is run by a private-sector provider, with a minimal employer role.

## Investment Services

All Treasury-managed funds and trust funds are managed in accordance with policies and asset allocation targets set by the Oregon Investment Council. Established under ORS 293.701(6), the Council (or “OIC”) is obligated to ensure the prudent, effective and efficient investment and management of the investment funds for the state. The State Treasurer is the investment officer for the Council, and Treasury is the investment organization. The assets managed by Treasury must be invested and reinvested to make the moneys as productive as possible, while maintaining a fiduciary duty to the beneficiaries of the funds.

Starting in 2014 and with the support of the Oregon Investment Council and Legislature, the Investment Services group began a redesign that increased internal oversight, compliance, and investment management capacity, while also lowering costs. This was accomplished by expanding internal staffing and technology capacity, which enhanced analytical capacity, allowed Treasury to maintain our existing insourced investment management efforts, and ultimately allowed for more assets to be managed internally, with the savings to the portfolios under management now accruing at in excess of \$1.2 million per month.

Investment Services consists of three program units: Investment Management Program, Investment Operations Program, and Investment Legal & Compliance Program.

The **Investment Management Program** is responsible for the daily oversight, direction, and management of a public financial and real asset investment portfolio with approximately \$140 billion in assets under management as of June 30, 2024. The program is divided into units that are responsible for managing public assets, private assets such as real estate and private equity, and fixed income assets. The program also includes the investment risk and resiliency team, which identifies and helps manage strategies to mitigate short- and long-term risks to the portfolio. Treasury-managed assets are managed both internally by Treasury investment staff and externally under contract with private sector portfolio managers. The portfolio under management includes the Oregon Public

# Agency Summary

Employees Retirement Fund (OPERF), Oregon Short-Term Fund, State Accident Insurance Fund, Common School Fund, and other state and agency funds. As noted, the percentage of assets that are managed internally has grown due to enhanced staff and technology capacity, meaning less of the portfolio is managed via external vendors under contract.

The **Investment Operations Program** is responsible for performing the accounting, reconciling, and performance-reporting functions that are required as part of the prudent oversight and management of a large institutional portfolio. Given the scale of the Treasury-managed portfolio, even slight discrepancies in data accuracy can magnify into significant distortions of performance. Investment operations staff help protect Oregon investments by ensuring the financial underpinnings of the portfolio are consistently supported, and provide Treasury with the ability to verify investment transactions, valuations, performance, and other metrics internally, as opposed to relying on expensive third-party vendors.

The **Investment Legal & Compliance Program** performs authorized legal work for the Office of the State Treasurer, overseeing a broad range of investment issues and transactions, and supporting the regulatory compliance activities of the Investment program. The program ensures that investment activity undertaken by Investment staff complies with applicable laws and policies. The legal team provides legal advice and transactional support to the agency's staff pursuant to the terms of an Interagency Agreement with the Oregon Department of Justice. The program's compliance personnel monitor, evaluate, and report on the effectiveness of controls designed to ensure that the investment, regulatory, and operational processes are compliant with the Treasury's policies and applicable regulatory requirements.

## Trust Property Services

Trust Property is the depository of record for unclaimed and presumed abandoned property and funds. These unclaimed funds and properties include dormant bank accounts, safe deposit box contents, utility deposits and refunds, insurance dividends, matured insurance policies, securities such as stocks and mutual funds, wages, credit balances, etc. Essentially, any intangible and certain tangible property that is due and payable but cannot, for various reasons, be delivered to the rightful owner is unclaimed property. Additionally, Trust Property is the court-appointed personal representative for the administration of estates of people who die without known heirs (intestate). The property reported to Trust Property is held in an investment account within the Common School Fund and interest from that fund is used to support Oregon's schools.

Prior to July 2021, this program was administered by the Department of State Lands. In the 2019 legislative session, Senate Bill 454 was passed, moving the Trust Property program to Oregon State Treasury.

Trust Property Services consists of three program units: Unclaimed Property Program – Treasury, Unclaimed Property Program – Common School Fund, and Estates and Escheated Property.

# Agency Summary

The **Unclaimed Property Program – Treasury** is a national program that offers customers a central location for property that may be unclaimed or presumed abandoned. The three distinct responsibilities of the Unclaimed Property program are: Holder Reporting, Education, and Compliance; Claims Management; and Audits. The Holder Reporting, Education, and Compliance team works directly with businesses and organizations, called holders, to report and remit property to the state when they lose contact with the owner, usually after a period of one to three years. Claims Management works directly with owners to reunite them with the unclaimed property. The Audit function completes reviews of Oregon holders and also partners with contract audit firms that specialize in unclaimed property audits of large national and multi-national companies.

The **Unclaimed Property Program – Common School Fund** is the unclaimed money held and invested in the Common School Fund for the benefit of Oregon’s K-12 public education. Trust Property Funds make up about 40% of the total funds in the Common School Fund. The Land Board directs investment earnings distributions to school districts twice a year.

The **Estates and Escheated Property Program** is responsible for handling the affairs of individuals who die without a will or known heirs. Until heirs are found, the unit acts as personal representative for the estate and fulfills the fiduciary responsibilities imposed by law. Millions of dollars pass through the estates program each year, and large amounts are reunited with rightful heirs found by program staff. If no heirs come forward in 10 years from date of death, the value of the estates permanently escheats to the Common School Fund.

This program’s continual goal is to reunite more owners with their unclaimed property and to obtain more unclaimed property for the purpose of investment in the Common School Fund.

## Administrative Services

Administrative Services is the centralized administrative function for Treasury business units and staff directly supporting the State Treasurer. The program provides the support needed to ensure the State Treasury and all Treasury programs have the administrative infrastructure, operational resources, and technology necessary to fulfill their mission and statutory requirements

Administrative Services consists of three program units: State Treasurer’s Staff, Shared Services, and Information Technology. Each program unit supports Treasury-wide operations to help advance the Treasurer’s objectives for an accountable organization that helps Oregonians achieve long-term financial security.

The **State Treasurer’s Policy Staff** serve as the legislative analysts and liaisons between Treasury and other policymaking entities at the local, state, and federal levels, and are responsible for communicating and advancing the policy priorities of the Treasurer and Treasury business units. The policy staff also perform duties connected to the State Land Board, State Board of Education and other state-level panels on which the Treasurer sits, and also are responsible for managing internal and external communications on behalf of

# Agency Summary

the Treasurer.

Our **Shared Services** functions serve as the administrative backbone of Treasury and provide the range of essential central services that allow Treasury business units to operate efficiently and effectively. These functions include internal accounting, auditing, human resources, communications, budgeting and financial recordkeeping, expense auditing and reimbursement, facilities management, reception, procurement, and project management.

Our **Information Technology Services** is the central engine that supports and accelerates many of the agency's business initiatives. The team's primary focus is on ensuring resilient, robust, and customer-centric solutions for Treasury through secure and stable systems and network connectivity. The IT team provides systems integration, infrastructure, service desk, application development, and cybersecurity expertise across the agency to help business units successfully achieve their mission, vision, and goals.

The team is comprised of four functional teams: Technical Services Delivery, Infrastructure Services, Information Security Services, and Application Development Services. Each has a manager overseeing technology projects, workload, personnel, and daily operations.

# Revenues

## Revenue Forecast Narrative

### Sources

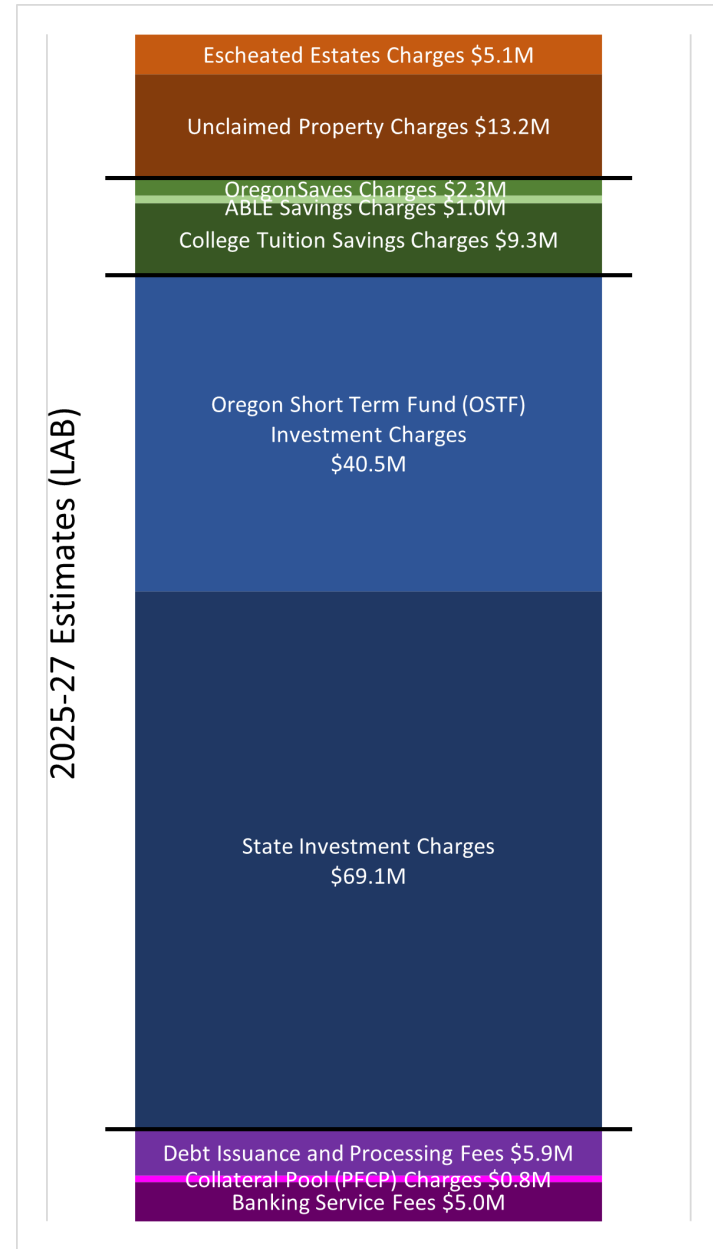

The Oregon State Treasury operates on Other Fund Revenues derived from service charges to our customers. These charges include basis point driven charges on investment assets under management and college savings administration activities, as well as transaction and service-based charges for cash management and debt management related activity.

### Revenue Authorities and Limitations

Statutory directives authorize the purpose and use of Treasury’s primary revenue streams. A chart of Other Fund sources is included.

#### Investment Fund Management Fee (ORS 293.718)

The Investment Management Program, in accordance with ORS 293.718, may deduct monthly a maximum of 0.350 basis points (0.00350 percent) of the most recent market value of assets under management directly from each of the investment funds for administration and portfolio management. Revenue is used to fund the investment division’s operations and support programs. Rates are reviewed annually to ensure that the costs incurred to administer each investment fund is consistent with the fees charged. Once estimated costs have been established, projected assets under management (AUM) are determined for each fund to calculate the necessary basis point charge on those assets. Using the investment return assumptions provided by the Oregon Investment Council’s investment consultant for asset allocation, a Monte Carlo probability simulation of thousands of scenarios is generated for investment funds with over \$1 Billion in assets to determine the likely range of investment asset growth over the biennium. The median return

of the simulation is used to establish rates. The Public Employee Retirement Fund, Common School Fund and SAIF Fund rates are determined with this methodology. These funds account for \$103.8 billion in assets of the \$104.3 billion in individual investment fund assets as of 6/30/2024. The remaining investment funds under \$1 Billion AUM are held constant as the asset growth is slower, are more frequently withdrawn by agencies, and account for less than 1% of fees. Asset management fees for Investment Funds are set at 0.250 basis points per month for all funds except SAIF which is set at 0.150 basis points. The lower fee for SAIF is due to the lower operating costs of their asset allocation model.

### **Commingled Investment Fund Management Fees (ORS 293.718)**

The Investment Management Program, in accordance with ORS 293.718, may charge, for pool administration and portfolio management, a monthly maximum of 0.500 basis points (0.00500 percent) of the most recent market value of assets under management directly from each of the commingled investment funds. This revenue is used to fund the investment division operations, finance division operations and supporting programs. These rates are reviewed annually, ensuring that the costs incurred to administer commingled investments are consistent with the fees charged. Once estimated costs have been established, projected assets under management (AUM) are determined to calculate the necessary basis point charge on those assets. AUM projections are calculated using a triple exponential smoothing approach (i.e. the Holt-Winter methodology) that takes into consideration monthly seasonality. There are currently three commingled investment funds, with a combined \$33 billion in assets as of 6/30/2024: the Oregon Short Term Fund, Oregon Intermediate Term Pool, and Oregon Local Government Intermediate Fund. Asset management fees for Commingled Investment Funds are set at 0.435 basis points per month.

### **Banking Charges (ORS 293.353, 295.106)**

In accordance with ORS 293.353, Treasury may charge state agencies and Local Government Investment Pool (LGIP) participants for banking services based on the number and type of transactions processed on their behalf. Banking charges are set to provide sufficient revenue to pay fees charged by Treasury's partner banks, as well as to provide a portion of the revenue required to support Treasury's internal staffing costs related to banking activities. Charges for each type of service are detailed on a per transaction basis within the Oregon State Government Price List of Goods and Services (Price List). Treasury has full authority to update Price List charges so that revenues match expenditures. As Treasury pursues updated delivery models and expanded vendor partnerships to address evolving business needs through the Cash Management Improvement and Renewal Program (described elsewhere in this document), consideration will be given to potential changes in pricing structure and chargeback models. As of 6/30/2024, 80 state agencies and 9 public university entities have 1,065 open accounts with an aggregate balance of \$22.7 billion, and 1,079 local governments with 2,168 accounts and an aggregate balance of \$10.1 billion that are charged transaction fees. Forecast methods and assumptions recognize distinct seasonal patterns in historical data, and the projections are calculated using a triple exponential smoothing approach (i.e. the Holt-Winter methodology) that takes into consideration monthly seasonality.

The Public Funds Collateralization program is funded by quarterly charges to bank and credit union depositories that participate in the program. Under the terms of ORS 295.106, and as further outlined in OAR 170-040-0020, program charges are set to recoup the cost of the program and include a fixed fee plus a pro-rata share of the remaining quarterly costs based on the amount of public funds deposits held by each depository. As of 6/30/2024, 32 banks with \$3.5 billion in public funds deposits and 15 credit unions with \$90.8 million in public funds deposits participate in the program and were assessed the quarterly charges.

## **Debt Management Charges (ORS 286A.014)**

The Debt Management Division's revenues are linked to the fees it charges for the financial services it provides to its state and local government customers. These services include oversight of periodic state agency borrowings, tracking and reporting of local debt, state guaranties on school and community college general obligation bonds, and allocation of private activity bonds. Broad authority for charges is outlined in ORS 286A.014 and further detailed in OAR 170-061-0015. Revenue trends are dependent on disparate decisions statewide by both state agencies and local governments. In addition, the Price List provides an outline of anticipated costs for central debt management administration for all state agencies with outstanding debt.

## **529 Administrative Fees (ORS 178.335)**

Revenues for the Oregon Treasury Savings Network include statutorily authorized program administrative fees under ORS 178.335, revenue provided by Network investment managers and related interest earnings.

The current administrative fee for the Oregon College Savings Plan, Oregon's direct sold 529 plan, is 20 basis points (0.20 percent), annualized based on the plan's average daily net asset value. The rate is approved by the Oregon 529 Savings Board. Most of the 20 basis points goes directly to pay for program expenses. After all program expenses are paid, the state receives a small portion to cover its direct costs. As of 6/30/2024, the plan has \$3.2 billion in plan assets and over 141,000 accounts.

The administrative fee for the MFS 529 Savings Plan, Oregon's advisor-sold 529 plan, is 25 basis points (0.25 percent), annualized based on the plan's average daily net asset value. This rate is approved by the Oregon 529 Savings Board. Most of the 25 basis points goes directly to pay for program expenses. After all program expenses are paid, the state receives a small portion to cover its direct costs. As of 6/30/2024, the plan has \$1.9 billion in plan assets and over 84,000 accounts.

The Oregon ABLE Savings Plan receives fees from program participants based on plan assets, as well as an annual account fee. Participants in the Oregon ABLE Savings Plan and ABLE for ALL Savings Plan are charged 30 basis points (0.30 percent), annualized based on average daily net asset value and \$35 per year, per account, of which the state receives 20 basis points and \$8 per year, per account, to cover its direct costs. Oregon offers other states the opportunity to leverage the structure that has been built here in exchange for a small portion of their ABLE administrative fees. The state receives 10 basis points (0.10 percent) annualized based on average daily net asset value and \$3 per year, per account, to offset costs to Oregon ABLE participants. The program began using

# Revenues

Other Funds during the 2019-21 biennium. As revenues are not yet adequate to fully cover expenses, the Oregon 529 Savings Board has authorized a revolving intrafund loan to provide the necessary cash to the ABLE program. The General Fund loan will be repaid incrementally as revenues become sufficient to cover ongoing operating costs and loan payments. This approach is similar to the one taken by the Oregon College Savings Plan at its launch. As of 6/30/2024, the Oregon ABLE and ABLE for ALL Savings Plans have \$92 million in plan assets and over 7,600 accounts.

## **OregonSaves Administrative Fees (ORS 178.205)**

As provided in ORS 178.205(d), the Oregon Retirement Savings Program (OregonSaves) receives fees from program participants based on the program assets, as well as an annual account fee. Participants in OregonSaves are charged 15 basis points (0.15 percent), annualized based on average daily net asset value and \$18 per year, per account, of which the state receives \$4 per year, per account, to cover its direct costs. The program began using Other Funds during the 2019-21 biennium. The General Fund loan will be repaid incrementally as revenues become sufficient to cover ongoing operating costs and loan payments. As of 6/30/2024, OregonSaves has \$289 million in plan assets and over 127,000 accounts.

## **Unclaimed Property Proceeds (ORS 98.386)**

The primary revenue source for Trust Property Services is investment interest earned on unclaimed property. As most of the property is held as cash, the money is invested to provide interest to fund operations and be distributed to schools. In addition, administrative rules detail fees that are charged to estates in the Estates and Escheated Property Program.

## **Administrative Services Cost Allocation**

The Administrative Services functions at Oregon Treasury are funded by a monthly cost allocation assessment (and, in some cases, receipt of revenues directly in lieu of assessment transfers) based on budgeted amounts, and then adjusted for actuals in the fourth quarter of each fiscal year. This provides cost stability for the operating units, but still reflects the actual amounts each year. 2 CFR part 225 Appendix E Section C is the federal guidance related to the allowable allocation of shared services costs. Based on that guidance, all Administrative Services expenditures are allocated to the Service areas based on their proportional share of salaries and wages. The only exceptions are where a significant portion of time is spent by an Administrative Services team supporting a single operational program or function, and these costs are accordingly allocated directly to the benefitting operational program or function.

## State and Local Government Financial Services Executive Summary

**Primary Program Contact** - George Naughton, Deputy State Treasurer, 503-378-4000

**Treasury Vision** - Leading the way for Oregonians to achieve long term financial security.

**Program Overview** - Through its State and Local Government Financial Services programs, Treasury delivers important financial tools and services to state agencies, contracted public universities and university entities, and local governments. These tools and services assist our government customers as they serve their own clients and stakeholders, helping them to stretch tax dollars and better serve Oregonians. Treasury uses market impact and economies of scale to reduce costs and streamline operations, saving governments time and money, while safeguarding public funds.

State and Local Government Financial Services consists of two primary programs

- Cash Management Program
- Debt Management Program

### Total Funds Over Time

# State and Local Government Financial Services

## Program Funding Request

	Other Funds-L	Positions	FTE
2023-25 LAB	21,743,749	33	32.56
2025-27 LAB	23,002,906	32	32.00
Difference	1,259,157	(1)	(0.56)
<i>Percent Change</i>	5.8%	-3.0%	-1.7%

The program has a Legislatively Adopted Budget of \$23,002,906. Other Funds revenue is based on transaction fees and management charges. Long-term budget growth estimates through 2029-31 are included in the bar chart above. Those growth estimates assume standard 9.0 percent inflation for personal services and 4.1 percent for services & supplies. The base budget projections do not include future (2027-31) package requests.

## Program Unit Description

Via the staff, partnerships, and resources deployed in the State and Local Government Financial Services program unit, Treasury serves all state agencies, public universities and some related university entities, and a growing number of local governments. These services are delivered primarily through the Finance and Debt Management divisions, but include broad partnerships with Treasury’s other divisions including ongoing operational support of technology infrastructure by the Information Technology Division. The respective missions of the underlying programs focus on improving Oregon governments’ and citizens’ financial capabilities through the broad set of services each delivers, among them:

- Maintaining and reporting state agency and public university banking transaction information and account balances
- Managing and facilitating all payments to and from state agencies and their stakeholders via secure technology infrastructure
- Managing local government access to the Oregon Short Term Fund, including facilitating eligibility, onboarding, transaction activities, and balance reporting
- Safeguarding public funds by ensuring compliance with regulatory and industry requirements
- Managing the Public Funds Collateralization Program to further protect public bodies against the loss of public funds
- Managing an interfund borrowing program to address short-term, transitory cash imbalances for state agencies
- Coordinating state agency and public university bond issuances, including primary offering and on-going disclosure activities
- Coordinating the state’s credit rating process and investor relations efforts to help keep public financing costs low
- Projecting state debt capacity over time and making recommendations regarding future issuance levels to ensure prudent borrowing decisions and actions
- Providing a clearinghouse for local government bond data, bond calendars, and educational resources

# State and Local Government Financial Services

- Managing the Oregon School Bond Guaranty Program to help Oregon’s school districts save interest costs
- Coordinating low-cost financing for nonprofits
- Determining eligibility for and allocating limited amounts of tax-exempt debt that can be used to finance privately-owned facilities that provide public benefit

Staff in the program unit also provide input and expertise to state and local government decisionmakers as they consider important policy matters related to banking, cash management, bonding and borrowing, and a host of related activities. Stakeholders, partners, and peers often look to Treasury for leadership in these areas.

Services provided to states agencies and public universities via the program unit differ greatly, relating directly to each state agency’s or public university’s own client base and their unique needs to collect or disburse money and to participate in public financing. Methods of disbursing funds range from check to electronic fund transfers. Fund collection processes are similarly diverse from acceptance of cash to online acceptance of merchant cards. As state agencies and public universities expand or modernize their own programs, Treasury collaborates with them to identify and implement new or evolving payment and disbursement services. Likewise, some states agencies work frequently and closely with Treasury to manage ongoing bond programs, while others are infrequent users or indirect recipients of more centrally-managed financing activities for statewide capital project activities.

Local governments receive services both directly and indirectly from Treasury. State agencies distribute funds to local governments directly or via local government participation in the OSTF. While Treasury does not issue local government debt directly, staff in the program unit provide technical support to local governments, offer training on debt-related topics, and coordinate collection and distribution of broad bond-related data to enhance transparency for citizens, decision makers, and potential investors.

The major cost driver for activities in the program unit is personnel costs, as well as those costs related to banking and financial institution partners and those associated with ongoing costs of bond issuance and maintenance.

## **Program Performance**

Through the State and Local Government Financial Services program unit, Treasury serves roughly 75 state agencies, 10 public universities or university entities, and more than 900 local governments. During fiscal year 2024, Treasury facilitated more than 31.3 million transactions representing \$317 billion state and local government funds. During the same time period, \$1.1 billion in new state debt was centrally issued through Treasury, resulting in approximately \$7.5 billion in net state tax-supported debt outstanding. The number of customers and programs served through the program unit, as well as the volume and amount of banking transactions and debt issuance vary over time and relate directly to decisions and actions of policymakers and leaders throughout the state, as well as to broad economic and fiscal conditions nationally.

# State and Local Government Financial Services

The broadest measure of success for programs in the program unit is Treasury’s ongoing enablement of the tools and services that allow state agencies, public universities, and local governments to perform their own legal and policy-driven responsibilities. Importantly, cash management activities in this program unit are “no fail” operations for Treasury and its customers and partners, as the ability to process payments, accept deposits, and complete other essential cash management operations is key to our customers’ day-to-day operations. When Treasury updated the systems and partnerships supporting local governments’ access to the OSTF in 2017, we began tracking service up-time metrics for online and other systems. Since project completion, partner performance has exceeded all established service standards. As Treasury continues modernization of its other systems and processes, we intend to more formally begin tracking similar metrics for internally- and partner-supported activities. In the meantime, above all else in this program unit, ensuring the availability and functionality of these critical systems drives our own daily activities. While formal metrics are not yet available, any interruptions to service are limited. When they do occur, Treasury communicates timely and transparently with impacted customers.

The state’s general obligation credit rating is a broad measure of success with regard to Oregon’s overall fiscal health. While not directly responsible for all decisions that impact the credit rating, Treasury staff work closely with policymakers and decision makers throughout state government to inform general fund and Lottery debt capacity assumptions and recommend fiscal actions that help bolster the state’s various bond program ratings. Credit rating firms continue to applaud Oregon’s careful attention to debt and budget discipline. The state’s general obligation credit ratings remain at AA+/Aa1/AA+ for S&P/Moody’s/Fitch with Lottery’s bond ratings at AAA/Aa2/AAA for S&P/Moody’s/Kroll, respectively – solid ratings that continue to save the state hundreds of millions in financing and refinancing costs over time.

The success of programs in this area is also tied to expertise and competency of Treasury’s staff and that of our partners. An important benefit of Treasury activities in this area is that Treasury’s customers are not required to become subject matter experts in the increasingly complex service areas that we support ranging from security considerations for acceptance of merchant cards to public fund law expertise. Of note, Treasury is recognized as a national leader for its activities and guidance related to post-issuance continuing disclosure for state and local bond issuance.

## **Enabling Legislation**

The programs included in the State and Local Government Financial Services program derive from authority outlined in several chapters of the Oregon Revised Statutes, including significant enabling statutes outlined below and referenced in the Agency Wide Summary.

- ORS 178 Duties of State Treasurer
- ORS 283 Interagency Services

# State and Local Government Financial Services

- ORS 285B Economic Development II
- ORS 286A State Borrowing
- ORS 287A Local Government Borrowing
- ORS 289 Oregon Facilities Financing
- ORS 291 State Financial Administration
- ORS 293 Administration of Public Funds
- ORS 294 County and Municipal Financial Administration
- ORS 295 Depositories of Public Funds and Securities
- ORS 328 Local Financing of Education

## Revenue Streams

Funding streams for the State and Local Government Financial Services program unit derive primarily from the below with more information provided in the Revenue narrative for each area.

- ORS 293.353– Banking transaction charges
- ORS 293.718 – Commingled Investment fund management fees
- ORS 295.106 – Public depository charges
- ORS 286A.014 – Debt management charges

## Cash Management Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	17,574,305	23	22.76
2025-27 LAB	18,886,423	23	23.00
Difference	1,312,118	-	0.24
<i>Percent Change</i>	7.5%	0.0%	1.1%

The Legislatively Adopted Budget of \$18,886,423 million Other Funds-Limited continues funding for the Cash Management Program at the current service level for 2025-27.

### Activities, programs, and issues in the program unit base budget

The Oregon State Treasurer is responsible for receiving, paying out, and having charge of all moneys paid into the State Treasury. Through the Cash Management Program, Treasury provides banking and short-term investment services to all state agencies and most public universities, as well as a narrower set of services to local governments. The mission of the Cash Management Program is to improve Oregon governments’ and citizens’ financial capabilities through protecting public funds and delivering customer-focused cash management solutions.

The State Treasurer is designated the sole banking and cash management officer for the State. All payments to and from state agencies and their customers, clients, vendors, and business and government partners flow through Treasury, in and out of the Oregon Short Term Fund (OSTF), on a daily basis. These include, among others, tax collections and refunds, public benefit payments, insurance collections and disbursements, child support collections and payments, PERS benefit payments and related employer collections, federal funds’ disbursements and receipts, bonded debt payments and principal disbursements, state agency and most public university payrolls, vendor payments, and many other sources and uses of funds. All state accounts at partner financial institutions are owned and managed by Treasury at an aggregate level on behalf of our customers. Treasury further maintains detailed customer account balance and transaction information and communicates that information to stakeholders, partners, and customers. This centralized service model results in dollar savings to the state (and participating public universities and local governments) due to volume pricing. It also creates consistencies in statewide regulatory and security approaches. Importantly, it allows for rapid deployment of funds into the OSTF where moneys can be put safely to work earning interest.

### Maintaining and Reporting State Funds

# State and Local Government Financial Services

Most of the state's operating funds, averaging a daily balance of approximately \$22 billion, are invested by Treasury through the OSTF. Related investment activities and operations are addressed in the Investment Program section of this document. The banking lens for the underlying agency and public university accounts that make up the OSTF is addressed through the Cash Management program's core banking systems and processes. In that regard, the OSTF includes roughly 1,000 underlying accounts (across three primary account types) and representing approximately 75 state agencies and 10 public university entities. In addition, local governments hold funds, averaging a daily balance of approximately \$10 billion in the OSTF. These funds are represented as a single account within Treasury's systems, with detailed local government accounts maintained via a partnership with a third-party vendor. Treasury's core banking systems and processes represent the state's banking book-of-record and provide important information to customers and stakeholders, including legislative and executive decision makers.

## **Payment and Receipt of State Moneys**

Treasury partners with commercial financial institutions to provide services to state agencies and public universities. All state accounts at partner financial institutions are owned and managed by Treasury and held at an aggregate level on behalf of our customers. Treasury partners with 12 banks to provide depository services to state agencies and public universities, allowing for deposit of money to Treasury's account at each bank. Deposits are distinguished for purposes of Treasury's core banking accounting and reporting via unique information on agency deposit slips, rather than use of stand-alone accounts at multiple banks for multiple agencies and purposes. This branch banking approach provides broad geographic banking coverage for agencies across the state with a relatively small number of accounts and with overall cost savings for the state.

In addition to depository services, Treasury contracts with banking partners to provide a variety of physical and electronic banking services for state agencies and public universities. Where Treasury contracts do not meet a unique cash management need, state agencies and public universities may also independently partner with third-party vendors for services. As appropriate, Treasury coordinates with our customers and their vendors to ensure compliance with state and industry regulatory and security requirements. Services provided by Treasury banking partners and others include, but are not limited to the following:

- ACH and related services
- Domestic and International wire transfer services
- Cash vault services
- Lockbox services
- Check and warrant processing and related services

# State and Local Government Financial Services

Prepaid Card Services

Merchant Card Services

Other electronic payment and deposit services

With regard to these services, a single primary Treasury Management Services (TMS) vendor provides the bulk of services, but Treasury is currently expanding its relationship with a second TMS partner. Of importance, ACH and wire services are in transition from one TMS partner to another as a part of the in-progress Electronic Funds Transfer (EFT) Business Systems Renewal (BSR) project. This important multi-year project also includes significant changes to related internal technology infrastructure and processes.

## **Managing Local Government Access to the OSTF**

Oregon local governments and sovereign Tribes can deposit money and earn a short-term rate of return by accessing the Treasury-managed OSTF through the Local Government Investment Pool (LGIP). Treasury contracts with a third-party vendor to provide administrative and operational support for the LGIP, including supporting online and manual transaction activities, balance reporting, account and user maintenance, onboarding activities, and more. Staff in the Cash Management program manage vendor relationships, perform ongoing reconciliation activities, approve participation requests by determining eligibility of governments, and perform other statutory requirements.

## **Safeguarding Public Funds**

The Treasurer is the sole banking and cash management officer for the state, reviewing, establishing, and modifying procedures for the efficient handling of monies under the control of state agencies and, by contract, public universities. State agencies must employ the principles, standards, and related requirements for cash management prescribed by the Treasury through its cash management program. Policies range from third party vendor requirements to merchant card security compliance activities and more. Treasury is currently updating its cash management policies to reflect the impacts of recent and ongoing modernization projects, better reflect current business practices, and integrate ongoing industry and regulatory requirements and opportunities.

Staff in this Program area also oversee the Public Funds Collateralization Program (PFCP). Oversight activities related to the PFCP ensure deposits of state and local government money that exceed federal deposit insurance amounts are protected in the event a financial institution loss or failure. Banking institutions become “qualified depositories” by complying with important requirements of the program. Treasury coordinates onboarding and management of program custodians and qualified depositories, including ongoing compliance reporting and administration and reporting of pledged collateral. In 2019, the legislature granted both local governments and Treasury the authority to use alternative methods to protect public funds from loss when held by third-party vendors. While

# State and Local Government Financial Services

local governments are responsible for their own development and use of such alternative methods, Treasury has implemented these alternative methods for state agencies and public universities by policy.

## **Interfund Borrowing**

Treasury manages an interfund borrowing program to address short-term, transitory cash imbalances for state agencies in the course of activities included in their legislatively approved budgets. By statute, the program is not available to public universities or local governments. State agencies are required to objectively demonstrate their ability to repay before funds can be loaned. Interest rates are based on market conditions and OSTF performance.

## **Background information**

### **No Fail Operations**

The Cash Management program's activities are "no fail" operations for Treasury and its customers and partners. Treasury has long recognized that the ability to process payments, accept deposits, and complete other essential cash management operations is key to state agencies' day-to-day operations. This includes our customers' ability to support partnerships with their own vendors and stakeholders and their ability to collect moneys from and distribute moneys to their customers, clients, and aid recipients. The ability to carry out these functions will be critical during any disaster recovery or business continuity scenario, the importance of which continued to bear out in the COVID-19 working environment. Further, Treasury's customers are increasingly working to modernize their own collection and disbursement processes to meet their own customer demands, legislative mandates, shifting technology needs, and calls to do more with less from a budgetary perspective.

### **Continuous Improvement**

The Cash Management Improvement and Renewal Program (CMIRP) is a key enabling initiative that is modernizing our cash management systems, processes, and relationships with the above in mind. Treasury's CMIRP efforts were established in 2013 as a continuous renewal program aimed at the renewal, replacement, and refinement of cash management processes and technology. Since CMIRP's creation, Treasury has made progress with several modernization initiatives, including:

The Local Government Investment Pool (LGIP) Business Systems Renewal (BSR) project completed in October 2017. Through the LGIP BSR, Treasury replaced failing systems and outdated processes with a modern, vendor-supported web-based system. The project enhanced system and data security while providing enhanced services to local governments.

The Comprehensive Cash Management BSR project reevaluated Treasury's primarily single-partner banking and cash management service delivery model. The project focused on identifying approaches to mitigate risks and better supporting contingency planning

# State and Local Government Financial Services

and readiness while continuing to deliver quality services at reasonable costs. It culminated in December 2017 with a contract with an additional treasury management services partner. That new partner will also assume revised ACH and domestic wire services as they are updated through the Electronic Funds Transfer (EFT) BSR project.

The in-progress EFT BSR project will remove Treasury as a single point of failure for ACH services, reduce data security risks, and improve Treasury's ability to adapt ACH and domestic wire transfer services to meet changing customer and regulatory needs. The transition of domestic wire transfer origination services completed in January 2020, and the transition of both domestic received wire transfer and ACH services began in July 2021, with final transition and closeout activities completed in 2023.

The Core Banking BSR project will modernize the systems and processes at the center of Treasury's cash management activities. Treasury's business model as the central cash management provider for the State of Oregon necessitates a demand deposit account (DDA) system or similar tool to provide an account structure for transaction posting, balance posting, and general ledger processes. Treasury's current core banking system was procured and implemented prior to Y2K. While no specific funds are requested at this time related to this project, Treasury will request any funds that may be necessary through the appropriate budgetary process as determined by timing constraints.

## **Resiliency**

To be sufficiently resilient, Treasury must continue to adapt its services to meet changing stakeholder needs, including the following: customer, vendor, or other stakeholder business requirements; industry, technical, and regulatory changes; and customer requests for new cash management services. As Treasury has focused on critical day-to-day operations and the implementation of recent CMIRP projects, it has done so largely within existing staffing resources, with the last addition of staff in this area following the 2011 legislative budget cycle. While Treasury's approach has allowed for critical subject matter experts to inform both operational and project activities, their limited capacity has resulted in a growing queue of backlogged needs. This queue includes activities ranging from banking solutions requested by state agencies or public universities to activities mandated by legislative action, as well as from actions related to industry, security, or regulatory requirements to important strategic or policy best practices that would align Treasury, and the State, to best serve the needs of Oregonians. Treasury must improve its ability to timely address its responsibilities in these areas in order to maintain its integrity and reputation as a trusted and professional partner and to minimize the risk of being a single point of failure with regard to our customers' own needs. As Treasury continues to modernize its cash management infrastructure, as well as face the retirement and other attrition of current subject matter experts at Treasury and within our partner organizations, even more pressure will be placed on Treasury to perform in these and related ways.

## **Revenue sources and proposed revenue changes**

# State and Local Government Financial Services

The Cash Management Program has two primary revenue sources.

## **Banking Charges (ORS 293.353)**

In accordance with ORS 293.353, Treasury may charge state agencies and Local Government Investment Pool (LGIP) participants for banking services based on the number and type of transactions processed on their behalf. Banking charges are set to provide sufficient revenue to pay fees charged by Treasury's partner banks, as well as to provide a portion of the revenue required to support Treasury's internal staffing costs related to banking activities. Charges for each type of service are detailed on a per transaction basis within the Oregon State Government Price List of Goods and Services (Price List). Treasury has full authority to update Price List charges so that revenues match expenditures. As Treasury pursues updated delivery models and expanded vendor partnerships to address evolving business needs through the Cash Management Improvement and Renewal Program (described elsewhere in this document), consideration will be given to potential changes in pricing structure and chargeback models. As of 6/30/2024 75 state agencies and 10 public university entities have 946 open accounts with an aggregate balance of \$22.7 billion and 1,079 local governments with 2,168 accounts and an aggregate balance of \$10.1 billion that are charged transaction fees.

## **Commingled Investment Fund Management Fees (ORS 293.718)**

In accordance with ORS 293.718, Treasury may charge, for pool administration and portfolio management, a monthly maximum of 0.435 basis points (0.00435 percent) of the most recent market value of assets under management directly from each of the commingled investment funds. This revenue is used to fund Investment Division operations, Cash Management Program operations, and supporting programs. These rates are reviewed annually, ensuring that the costs incurred to administer commingled investments are consistent with the fees charged. Once estimated costs have been established, projected assets under management (AUM) are determined to calculate the necessary basis point charge on those assets. There are currently three commingled investment funds, with a combined \$33 billion in assets as of 6/30/2024, the Oregon Short Term Fund, Oregon Intermediate Term Pool, and Oregon Local Government Intermediate Fund.

## **Public Depository Charges (ORS 295.106)**

The Public Funds Collateralization program is funded by quarterly charges to bank and credit union depositories that participate in the program. Under the terms of ORS 295.106, and as further outlined in OAR 170-040-0020, program charges are set to recoup the cost of the program and include a fixed fee plus a pro-rata share of the remaining quarterly costs based on the amount of public funds deposits held by each depository. As of 6/30/2024, 32 banks with \$3.5 billion in public funds deposits and 15 credit unions with \$90.8 million in public funds deposits participate in the program and were assessed the quarterly charges.

## **Proposed new laws that apply to the program unit**

# State and Local Government Financial Services

It is important to note that legislative changes to state agency, public university, or local government responsibilities that include collection or disbursement of funds or other public funds topics may have impact on, or be impacted by, activities in the Cash Management Program.

## Debt Management Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	4,169,444	10	9.80
2025-27 LAB	4,116,483	9	9.00
Difference	(52,961)	(1)	(0.80)
<i>Percent Change</i>	<i>-1.3%</i>	<i>-10.0%</i>	<i>-8.2%</i>

The Legislatively Adopted Budget of \$4,116,483 million Other Funds-Limited continues funding for the Debt Management Program at the current service level for 2025-27.

### Activities, programs, and issues in the program unit base budget

The Oregon State Treasurer is responsible for central coordination and approval for issuance of all state agency and authority bonds and other obligations. Through staff and partnerships in the Debt Management program, Treasury approves issuance of all bonds for state agencies and public universities and helps local governments to make good borrowing decisions that reduce costs. Treasury provides oversight, sale coordination, and compliance and reporting services to state agencies and public universities, as well as a related set of services and tools to local governments. The mission of the Debt Management Program is to improve Oregon governments and citizens' financial capabilities through oversight and guidance for prudent public debt issuance and debt management.

### Central Coordination and Management of State Bond Issuance

Staff in the Debt Management program provide central coordination for, and issuance of, all Oregon state agency and authority bonds. Staff work with agencies, public universities, and other partners to structure and sell General Obligation bonds, Certificates of Participation, Tax Anticipation Notes, Lottery Revenue bonds, Oregon Department of Transportation Revenue Bonds, Oregon Housing Single Family Program Bonds, Oregon Vets Mortgage Revenue Bond program, Oregon Business Development Revolving Loan Program debt (Oregon Bond Bank), DEQ issuance of debt for State Matching funds for its Revolving Loan Program debt and various other agency-specific revenue debt and credit instruments. Staff in the program also oversee post-issuance compliance processes, including state debt data tracking, arbitrage rebate activities, and secondary market disclosure compliance. Through Debt Management program activities, Treasury continually recommends and takes actions aimed at reducing overall debt management costs and tightening the interest rate spread on state bonds to pricing indexes. Debt Management program staff continue to focus on streamlining services, developing and training staff, improved marketing activities, and actively participating in all state bond transactions.

# State and Local Government Financial Services

## **Credit Rating Strategy and Debt Capacity Recommendations**

Debt Management program staff help oversee the prudent management of Oregon’s debt to protect Oregon’s excellent credit ratings. Because of Oregon’s longstanding strong creditworthiness, the state can borrow money for less – translating to millions of dollars in savings for taxpayers every year. The State Debt Policy Advisory Commission (SDPAC), staffed by Treasury’s Debt Management program, tracks Oregon’s financial health and protects Oregon’s credit rating by informing state officials about the amount of debt that Oregon can prudently incur. Borrowing too much would endanger Oregon’s ability to meet its obligations and jeopardize the state’s credit rating. The SDPAC consists of five members: The State Treasurer, who serves as Chair; a Representative and Senator from the Oregon Legislature; a member of the public knowledgeable about public finance; and the director of the Oregon Department of Administrative Services. The SDPAC publishes an annual report outlining debt capacity and debt burden for State bonding programs in four major categories: General Fund-supported debt, Lottery revenue-backed debt, net tax-supported debt, and non-tax supported debt.

## **Local Government Bonding Resources and Debt Reporting**

The Debt Management program oversees local Oregon government bonding activity. Through the Municipal Debt Advisory Commission (MDAC), Treasury acts as the clearinghouse for bond data, bond calendars, and the online Oregon Bond Education Center. Staff in the Debt Management program provide technical support to local governments, offer training on selected debt-related topics, and have created an online manual (the Oregon Bond Education Center) to help government officials plan and execute successful bond sales. This online tool is based on federal law, Oregon Revised Statutes (ORS), the Oregon Constitution, MDAC Administrative Rules, and current practices in the state. Information has been generalized for any issuing district with the term “municipality” to include any local government unit.

Through the MDAC debt database, managed through its Debt Management program, Treasury collects data on Oregon local government issuance and debt outstanding to enhance transparency, generate more accurate overlapping debt reports, and provide investors and citizens with pertinent information. Of note, overlapping debt reports help identify each local government’s overall debt burden, including its own debt and the responsible portion of debt of other overlapping governmental units. Staff in the Debt Management Program work with state agencies and local governments to verify outstanding debt on an annual and biennial basis, respectively.

Treasury also manages the Oregon Bond Calendar through Debt Management program staff. The Oregon Bond Calendar is a schedule of all upcoming state and local bond sales. It enables state agencies and local governments to minimize scheduling conflicts that may impact the marketability of their issues. The calendar contains information regarding postponed, proposed and sold bond issues.

## **Managing Oregon School Bond Guaranty Program**

# State and Local Government Financial Services

Oregon voters in 1998 authorized the State to guaranty qualified bonds of eligible school districts, education service districts, and community colleges. The resulting Oregon School Bond Guaranty Program allows qualified districts to have their bonds rated based on the State's current credit rating. As a result, districts can save significant interest costs over the life of bond, which saves taxpayers money while facilitating construction that creates jobs in the short run and improves our vital education infrastructure.

## **Low-cost Financing for Nonprofits**

Treasury's staff and partners make low-cost financing available through the Oregon Facilities Authority (OFA), assisting nonprofits to further their missions that help Oregonians. Created by the Legislature in 1989, OFA has issued approximately \$5.5 billion in tax exempt conduit revenue bonds supporting capital projects for eligible nonprofits in the areas of healthcare, education, housing, cultural, and social services. OFA evaluates projects proposed by nonprofits and makes recommendations to the state. Staff in the Debt Management program issue the bonds once after Treasurer's final determination to do so. The state does not guarantee repayment of OFA bonds.

## **Allocation of Private Activity Bond Cap**

Under federal law, each state can approve a limited amount of tax-exempt debt that can be used for private projects. To qualify for this lower cost financing, the financed projects need to benefit the public. The related Private Activity Bond (PAB) Committee is responsible for determining which private projects can qualify. Certain types of privately-owned facilities such as airports, boat docks, affordable housing, or other economic development projects, provide significant benefits to the communities they serve. When the construction of a private facility would provide important public benefits, the project can often be financed using tax-exempt bonds. Staff in the Debt Management program chair the PAB Committee and help allocate and track use (and sometimes reallocation) of this important resource.

## **Oversight of Multifamily and Affordable Housing Bond Issuance**

Over the past several years, there has been a growing crisis in housing availability and affordability throughout the state. In the period from fiscal year 2010 through 2014, the state averaged 2-3 multi-family conduit bond issuances per fiscal year. To address the growing affordable housing crisis throughout the state, in 2015 the Legislature created the Local Innovation and Fast Track (LIFT) Affordable Housing Program and tasked OHCS and the Oregon Stability Council with establishing program rules and administering this new grant program. Additionally, the Legislature authorized the State Treasurer to commence issuing Article XI-Q general obligation (GO) bonds to fund LIFT grants. LIFT grants provide "gap" funding to various multifamily housing projects that utilize Federal 4% Low Income Housing Tax Credits and tax-exempt bonds. Since enactment, the State has issued over \$775 million of bonds to provide grants for affordable housing through the LIFT and permanent supportive housing programs administered by OHCS. Additionally, Metro has passed initiatives that provides similar gap funding. The significant increase in gap funding sources and statewide commitment to

# State and Local Government Financial Services

affordable housing has resulted in significantly increased volume in issuance of Multifamily Conduit Revenue Bonds through OHCS. The following table shows the issuance volume since FY 2019.

Fiscal Year	Par Amount Issued (\$)	No. of Bond Issues
2019	261,517,590	23
2020	226,076,163	31
2021	451,320,893	41
2022	585,485,029	40
2023	511,027,640	39
2024	220,805,591	18

Given the State’s policy to increase the number of affordable housing units statewide, this will continue to be an area of focus the debt management program over the next few years.

### Revenue sources and proposed revenue changes

The Debt Management Division’s revenues are linked to the fees it charges for the bond issuance and maintenance services that it provides to its state agency, public university, and local government customers. These services include oversight of periodic state agency borrowings, tracking and reporting of local debt, state guaranties on school and community college general obligation bonds, review of advance refunding plans, and allocation of private activity bonds. Broad authority for charges is outlined in ORS 286A.014 and further detailed in OAR 170-061-0015. Revenue trends are dependent on disparate decisions statewide by both state agencies and local governments. In addition, the Price List provides an outline of anticipated costs for central debt management administration for all state agencies with outstanding debt.

### Proposed new laws that apply to the program unit

None.

# State and Local Government Financial Services

## State and Local Government Financial Services Essential and Policy Packages

### Essential Packages

The Current Service Level (CSL) is required by law and is an estimate of the cost to continue current legislatively-approved programs into the 2025-27 biennium. Essential Packages are the means by which these costs are estimated and budgeted in a standardized format by agencies and evaluated for compliance with these standards by the Department of Administrative Services (DAS). Treasury followed all of these requirements in building the Essential Packages for the 2025-27 biennium.

The narrative below briefly describes each Essential Package, and fiscal details for each package are included in the reports at the end of this section, broken out by fund type, category (e.g., Personal Services, Services and Supplies, etc.), and positions/FTE if necessary.

#### **010 Non-PICS Psnl Svc / Vacancy Savings**

This package contains adjustments to the base budget as directed in 2025-27 Budget Instructions. These adjustments include: standard vacancy factor calculations, non-PICS generated Personal Services inflation adjustments, mass transit taxes, and Pension Obligation Bond assessments.

#### **022 Phase-Outs**

Phase-out package adjustments are generally necessary to take one-time costs approved as part of policy option packages in 2023-25 and remove them from the 2025-27 biennium budget. Phase-outs in this SCR are necessary for one-time staff-related services and supplies expenses in the Expendable Property accounts included in 2023-25 policy option packages.

#### **031 Standard Inflation**

This package provides for standard inflation on all Services and Supplies and Capital Outlay accounts. All expenditure categories were increased by the standard inflation rates defined by DAS in the Budget Instructions, including Professional Services (6.8%), Attorney General (23.3%), Rent (24.1%), and remaining accounts (4.2%). State Government Services Charges were adjusted to match the DAS Price List as required.

### Related Packages

In addition to the Essential and Policy Packages directly impacting this program area described in prior pages, there are a number of related packages that have an indirect or aggregate impact on this program area (on cost allocation transfers and possibly revenues only), and they are described in summary below.

# State and Local Government Financial Services

Statewide and/or Analyst Packages. The 08x package series is for Emergency Board actions after April of even numbered years, and the 09x package series is for Statewide Packages generally directed by the Department of Administrative Services (DAS) during the Governors Budget process. The 09x package series is then generally eliminated and reinserted/revised as necessary in the 8xx series of packages in the Legislatively Adopted Budget.

For the 2025-27 Legislatively Adopted Budget, Treasury has an 810 package (previously 092 in GB) for the Statewide AG Adjustment that reflects a reduction in the standard Attorney General rates, and for a Statewide Adjustment to DAS Charges to reflect modifications to State Government Service Charges and DAS pricelist charges for services to this program area (previously separate in Package 093 in GB).

Administrative Services Packages. Other packages impacting this program area are related to POPs requested in the Administrative Services program area, which is supported via cost allocation transfers by operational programs in Treasury. Accordingly, while expenditure limitation and position/FTE counts are unaffected in the operational program areas, each of the Administrative Services POPs drive adjustments to Transfers for all operational programs. Revenues are only impacted when a specific program can adjust their revenues to accommodate fluctuations in budgeted expenses via an assessment rather than service fees, and revenues are adjusted as appropriate.

The Administrative Services Policy Packages with cost allocation impacts to this program area in the 2025-25 Legislatively Adopted Budget include:

108 - Administrative Services Capacity

110 - IT Capacity & Security

801 - LFO Analyst Adjustments

Information relating to these POPs can be found in the Administrative Services section of this budget document.

## Public Savings Services Executive Summary

**Primary Program Contact** - George Naughton, Deputy State Treasurer, 503-378-4000

**Treasury Vision** - Leading the way for Oregonians to achieve long term financial security.

**Program Overview** - The Oregon Treasury Savings Network offers a suite of simple, cost-effective and tax-advantaged savings programs dedicated to helping Oregonians save for education, retirement and disability related expenses. Oregon Treasury Savings Network contains the following programs:

- Oregon 529 College Savings Program
- Oregon 529 ABL Program
- OregonSaves Program

## Program Funding Request

	Other Funds-L	Positions	FTE
2023-25 LAB	12,076,672	9	9.00
2025-27 LAB	12,603,819	9	9.00
Difference	527,147	-	-
<i>Percent Change</i>	4.4%	0.0%	0.0%

The program has a Legislatively Adopted Budget of \$12,603,819. Other Funds revenue is based on administrative fees charged on assets under management. Long-term budget growth estimates through 2029-31 are included in the bar chart above. Those growth estimates assume standard 9.0 percent inflation for personal services and 4.1 percent for services & supplies. The base budget projections do not include future (2027-31) package requests.

## Program Unit Description

The Oregon Treasury Savings Network offers a suite of programs to help Oregonians save for education, retirement and disability related expenses. The Network includes the Oregon College Savings Plan, the MFS 529 Savings Plan, the Oregon ABLE Savings Plan, and the OregonSaves retirement program. These savings programs offer simple, straightforward tools that provide state and federal tax advantages, flexibility, and accessibility, empowering Oregonians to save for the future. All programs in the Network are administered by the Oregon State Treasury and are overseen by either the Oregon 529 Savings Board or the Oregon Retirement Savings Board. All programs offered by the Network are self-supporting. The programs receive their operating revenue from fees paid by the programs’ participants. Combined, the Network’s programs serve hundreds of thousands of Oregonians in every county across the state.

### College Savings

Oregon’s college savings program is a state-sponsored savings program that comes with special tax advantages and can be opened by just about anyone—parents, family, friends, even future students. The money saved in the program grows tax-free and can be used for qualified expenses at any accredited, post-secondary institution, trade school or registered apprenticeship. The program offers a variety of community outreach programs to share information statewide—Baby Grad, Kinder Grad, and Be College Ready—that are aimed at encouraging families to start saving for college early in a child’s life. This program has been serving Oregonians since January 2001 and has approximately \$5 billion in assets and more than 225,000 accounts, as of June 30, 2024.

### ABLE Savings

The Oregon ABLE Savings Plan allows people with disabilities and their families to save money without being disqualified from their state and federal benefits. Critically, money saved in an ABLE account does not count against the asset limit for benefits like SSI,

# Public Savings Services

Medicaid, SNAP and Section 8—limits that have forced people who experience a disability to stay in poverty or risk losing these supports and services that they need to survive. ABLE savings can be used for anything that helps improve the health, independence, and quality of life of the person with a disability. This program began in late 2016 and has \$92 million in assets and over 7,600 accounts, as of June 30, 2024.

## OregonSaves

OregonSaves is a new, simple way for Oregonians to save for retirement at work. Employees without access to an employer-sponsored retirement plan are auto-enrolled in OregonSaves and contribute part of their paycheck to their own personal IRAs that stay with them throughout their careers. The program also benefits employers who do not offer a qualified retirement plan by helping them compete with businesses that are able to offer retirement benefits. OregonSaves began in 2017 and has \$289 million in assets and 127,000 funded retirement accounts, as of June 30, 2024.

## **Program Performance**

Public Savings Services currently has two Key Performance Measures. The first is the percentage of beneficiaries compared to the national average. The second is a qualitative evaluation of the best practices of the two oversight boards.

## **Enabling Legislation**

The Treasury programs included in the Treasury Services program unit derive from several constitutional and statutory directives as referenced in the Agency Wide Summary.

## **Revenue Streams**

All Public Savings Services programs are structured to be self-supporting. Participants are charged fees to cover operating costs of the programs. Details on program revenue structures are contained in more detail in the Revenues section.

## Oregon 529 College Savings Program Unit Narrative

### Expenditures by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	8,314,814	7	5.80
2025-27 LAB	9,248,651	9	8.46
Difference	933,837	2	2.66
<i>Percent Change</i>	<i>11.2%</i>	<i>28.6%</i>	<i>45.9%</i>

The Legislatively Adopted Budget of \$9,248,651 million Other Funds-Limited continues funding for the Oregon 529 College Savings Program at the current service level for 2025-27.

### Activities, programs, and issues in the program unit base budget

#### Facilitate college savings

The Oregon State Treasury, through its Savings Network, is responsible for the management, oversight, and distribution of the state’s 529 college savings program. The program is overseen by a five-member, independent board, which meets at least quarterly to review investment performance, program data, citizen engagement activities, and progress towards the board’s strategic goals. The board ensures that staff, independent contracted consultants and private sector program managers adhere to state and federal laws, state administrative rules, IRS code and any other applicable state and federal rules and regulations.

The college savings program must follow Section 529 of the Internal Revenue Code and any applicable rules set out by the Municipal Securities Rulemaking Board. By adhering to Section 529 of the IRC, the state’s college savings program takes advantage of the federal tax-free growth provision, which was passed by Congress more than a decade ago. In addition, the State of Oregon offers a state tax credit on contributions each year, as well as tax-free growth.

Money saved in the college savings program can be used at any institution that participates in the federal financial aid program, which includes the vast majority of schools (public, private, 4-year, 2-year, graduate school, qualified training programs, trade schools, vocational technical training, and many others), and can be used for a variety of expenses, including tuition and fees, room and board, books, supplies, and computers and other technology needs. Oregon’s college savings program consists of two savings plans: the Oregon College Savings Plan, which is direct to consumer; and the MFS 529 Savings Plan, which is offered exclusively through registered financial advisors. While the two plans operate independently, they are governed by the same state and federal laws, rules and regulations.

# Public Savings Services

## Maintain statewide outreach and inclusivity

The Oregon 529 Savings Board has a mandate to ensure college savings opportunities are continually available and easily accessible to all Oregonians, regardless of geography, economic situation, culture, race, ethnicity, or language. To that end, staff, with the help from an Oregon-based creative firm, has created and is constantly enhancing a comprehensive outreach and engagement strategy to reach as many Oregonians as possible, as often as possible.

This strategy ranges from broad digital education and awareness campaigns to more focused campaigns aimed at parents of newborns and kindergarteners. Staff is also continuously searching for like-minded partners to build specific campaigns. For example, staff partners with nonprofit organizations, hospitals, head start programs, schools, parent groups, associations, cities, counties, state agencies, foundations and others as a way to get more of a personal connection to Oregonians and inform them about the benefits of college savings.

## Effective vendor management

The college savings program uses the private sector effectively to keep costs down, service levels high and prioritize innovation. Private sector contractors allow the program to keep FTE to a minimum, leverage a variety of skill sets, and maintain flexibility when new skills are needed quickly. The program uses professional firms to build investment portfolios and monitor investment performance. It uses firms to manage its customer service center, which helps program participants every day with a variety of needs. It uses the private sector to manage online functionality and data storage and security. Employing top-level technology firms that deploy significant resources to manage and store data gives the staff the confidence that is necessary when safeguarding participant information.

Staff uses professional creative firms right here in Oregon to ensure the board's goals on outreach and inclusivity are met. In order for the program to innovate and keep current within the industry, technology, communications, hardware, software and human resource commitments must be constantly enhanced. Private sector firms, largely because of size and scale, can do this at a significantly lower cost.

## **Background information**

Oregon's college savings program is a state-sponsored savings program that comes with special tax advantages and can be opened by just about anyone, for the benefit of just about anyone. The money saved in the program grows tax-free and can be used for qualified expenses at any accredited, post-secondary institution, trade school or registered apprenticeship. This program has been serving Oregonians since January 2001, has approximately \$5 billion in assets and more than 225,000 accounts, as of June 30, 2024.

The program offers a number of community outreach initiatives to share information statewide, including the popular Baby Grad and Kinder Grad promotions. These promotions, and many others like them, are aimed at encouraging families to start saving for college

# Public Savings Services

early in a child's life. The Baby Grad program provides a \$25 match for every account opened on behalf of an Oregon baby under the age of 12 months. Kinder Grad does the same for accounts opened for Oregon children between five and six years old. These types of initiatives and promotions help motivate Oregon families to start saving for their child's higher education expenses at an early age.

The college savings program is self-supporting. It receives all operating revenue from participant fees.

## **Proposed new laws that apply to the program unit**

None.

## Oregon 529 ABLÉ Program Unit Narrative

### Expenditures by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	1,285,725	1	1.40
2025-27 LAB	1,025,125	-	0.09
Difference	(260,600)	(1)	(1.31)
<i>Percent Change</i>	-20.3%	-100.0%	-93.6%

The Legislatively Adopted Budget of \$1,025,125 million Other Funds-Limited continues funding for the Oregon 529 ABLÉ Program at the current service level for 2025-27.

### Activities, programs, and issues in the program unit base budget

#### Facilitate disability related savings

The Oregon State Treasury, through its Savings Network, is responsible for the management, oversight, and distribution of the state’s ABLÉ savings program. ABLÉ stands for Achieving a Better Life Experience and is a relatively new program (passed Congress and signed into law in late 2014) that allows people experiencing a disability and their families to save money without putting their critical federal and state benefits at risk. Prior to the passage and implementation of ABLÉ, people receiving federal disability benefits like SSI or Medicaid, for example, were allowed to have no more than \$2,000 in assets. However, with ABLÉ, that asset amount has increased to \$100,000, which means people experiencing disabilities are no longer forced to live in poverty.

The program is overseen by the same board as the state’s college savings program detailed above. Again, the board meets at least quarterly to review investment performance, program data, citizen engagement activities, and progress towards the board’s strategic goals. The board ensures that staff, independent contracted consultants and private sector program managers adhere to state and federal laws, state administrative rules, IRS code and any other applicable state and federal rules and regulations. The ABLÉ savings program, same as the college savings program, is governed by Section 529 of the Internal Revenue Code (529A) and any applicable rules set out by the Municipal Securities Rulemaking Board. By adhering to Section 529 of the IRC, the ABLÉ savings program takes advantage of the same federal tax-free growth provision as college savings. The State of Oregon offers the same state tax credit and tax-free growth as college savings.

To be eligible for an ABLÉ account a person must have a qualifying disability that developed before the age of 26. Any disability that

# Public Savings Services

qualifies for SSI, SSDI or blindness is eligible for an ABLE account. Some conditions recognized by the Social Security Administration also qualify based on the level of severity: Down Syndrome, deafness, epilepsy, autism/Asperger Syndrome and many more.

Once eligible, there is a wide range of qualified expenses that cover most costs associated with living with a disability, including living expenses, education, housing, transportation, employment, vacation, job training, career support, assistive technology, personal support services, health, prevention, wellness, financial management, administrative services, legal fees, funeral costs, burial expenses and more. Generally, as long as the expense helps maintain or improve the health, independence, or quality of life of the person living with a disability, it can qualify as an eligible expense.

## ABLE to Work

ABLE to Work is a new feature that allows employed people with disabilities to save more than the \$16,000 annual contribution limit. With the help of its program administrator, Oregon pioneered this enhancement and was the first state to offer it to savers. Oregon's technology, usability and process for ABLE to Work continue to lead the industry and serve as a national model.

If a person with a disability is working, not saving in a retirement account and has an ABLE account, they can save an additional \$12,880 or the total of their wages, whichever is less. That amount is tied to the previous year's federal poverty level and changes annually. The ABLE savings program tracks standard contributions and ABLE to Work contributions separately, ensuring that savers have the opportunity to maximize their savings.

## Entity ALR

Entity ALR (Authorized Legal Representative) is a new process the program instituted in 2020 that allows provider organizations serving people with disabilities to manage ABLE accounts for their clients. As the population ages, more and more people with intellectual and developmental disabilities are outliving their family members and don't have anyone who can manage their ABLE account. Entity ALR makes the program more accessible to more Oregonians. As of August 2024, 52 nonprofits have registered as Entity ALRs, managing 1,338 accounts and nearly \$10.3 million.

## Maintain statewide outreach and inclusivity

As with college savings, the Oregon 529 Savings Board has a mandate to ensure ABLE savings opportunities are continually available and easily accessible to all Oregonians who qualify, regardless of geography, economic situation, culture, race, ethnicity, or language. Staff has created a comprehensive outreach and engagement strategy to reach as many Oregonians as possible, as often as possible. This strategy ranges from digital education and awareness campaigns to in-person and virtual seminars conducted by a Network staff member. Staff is also continuously searching for like-minded partners to build specific campaigns. For example, staff partners with

# Public Savings Services

nonprofit organizations, schools, parent groups, associations, cities, counties, state agencies, foundations and others as a way to get more of a personal connection to Oregonians and inform them about the benefits of the ABLE savings program.

## **Background information**

The Oregon ABLE Savings Plan allows people with disabilities and their families to save money without being disqualified from their state and federal benefits. Critically, money saved in an ABLE account does not count against the asset limit for benefits like SSI, Medicaid, SNAP and Section 8—limits that have forced people who experience a disability to stay in poverty or risk losing these supports and services. ABLE savings can be used for anything that helps improve the health, independence, and quality of life of the person with a disability.

The Oregon ABLE Savings Plan began in late 2016 and is currently serving thousands of Oregonians. There are more than 600,000 people in Oregon who experience a disability. Nearly 100,000 of them utilize SSI benefits from SSA. Because a person's disability needed to manifest itself before the age of 26 in order to qualify for ABLE, it is estimated that there are more than 250,000 Oregonians who qualify for an ABLE account. As of June 30, 2024, 7,600 accounts have been opened, totaling \$92 million saved.

The ABLE savings program is designed to be self-supporting once adequate participation rates are achieved. When the ABLE program launched in 2016, the legislature recognized that the program would require external funding to support operations until there were sufficient revenues. Program expenses were supported by the General Fund in both the 2015-17 and 2017-19 biennia and totaled \$1,950,963. The program transitioned to 100% Other Funds in 2019-21. Trends in participant and corresponding fee revenue growth remain under review to determine the potential General Fund loan payback period. However, as the program continues the transition from the initial startup period to ongoing operations, there remains insufficient historical data to generate a reasonable estimate for when the program could begin repayment of outstanding General Fund loans. Treasury will provide updates to the legislature as long-term expenditure and revenue trends become clearer.

## **Proposed new laws that apply to the program unit**

None.

## OregonSaves Program Unit Narrative

### Expenditures by fund type, positions, and full-time equivalent

	Other Funds-L	Positions	FTE
2023-25 LAB	2,476,133	1	1.80
2025-27 LAB	2,330,043	-	0.45
Difference	(146,090)	(1)	(1.35)
<i>Percent Change</i>	<i>-5.9%</i>	<i>-100.0%</i>	<i>-75.0%</i>

The Legislatively Adopted Budget of \$2,330,043 million Other Funds-Limited continues funding for the OregonSaves Program at the current service level for 2025-27.

### Activities, programs, and issues in the program unit base budget

#### Facilitate retirement savings

The Oregon State Treasury, through its Savings Network, is responsible for the management, oversight, and distribution of the state’s OregonSaves retirement program. The program is the first-in-the-nation auto IRA for private sector workers. The program is overseen by the Oregon Retirement Savings Board, a seven-member, independent board, which meets at least quarterly to review investment performance, program data, employer and employee engagement activities, and progress towards the board’s strategic goals. Private sector employers that do not offer a retirement plan to their employees are required by state mandate to facilitate the program. Employers have no liability or fiduciary duty, and there is no cost to them. Employers simply register with the state, upload their employees into the system and facilitate the transfer of the employees’ contributions.

OregonSaves is a portable, self-directed, Roth IRA, where employee participation is completely voluntary. The IRA stays with the employee, even if the employee changes jobs, quits or moves to another state. The program has a 5 percent default savings rate; however, savers can set the rate at any level up to 10 percent of gross wages. Savers can also start and stop contributions at any time. Contract workers, self-employed workers or workers that are not eligible for their employers’ retirement plan can also fully participate in OregonSaves.

OregonSaves launched in 2017 with a phased roll-out, comprised of six enrollment waves based on employer size (largest to smallest). The last wave was completed in 2023. Now, all Oregon employers with at least one W-2 employee are required to offer a retirement plan to employees or facilitate OregonSaves. As of 6/30/2024, OregonSaves has over \$289 million in plan assets and 127,000 accounts.

# Public Savings Services

## Employer engagement

Employers are a key component to OregonSaves because they are required to facilitate the program for their employees. And because employers are not sponsoring the program and have no fiduciary duty, the program has a comprehensive support system to assist employers. OregonSaves offers a fully staffed service center. The service center is staffed with trained representatives to support employers on all aspects of the program. The service representatives can help with everything from simple questions about the program to more detailed questions about the online system and employer web portal.

In addition to the service center, OregonSaves staff can provide personal, in-person (or virtual) training and support. Staff members can do everything from sitting down with the employers to initially set up the program to troubleshooting any problems or issues that an employer may have at any point in the process. In addition, at an employer's request, staff will provide educational seminars to employees about retirement savings and how to participate in OregonSaves.

## **Background information**

OregonSaves is a simple way for Oregonians to save for retirement at work. Employees without access to an employer-sponsored retirement plan are auto-enrolled in OregonSaves and contribute part of their paycheck to their personal IRAs that remain with them throughout their careers. The program also benefits employers who do not offer a qualified retirement plan by helping them compete with businesses that are able to offer retirement benefits. The program is overseen by the Oregon Retirement Savings Board.

The OregonSaves program is designed to be self-supporting once adequate participation rates are achieved. When the OregonSaves program launched in 2017, the legislature recognized that the program would require external funding to support operations until there were sufficient revenues. Program expenses were supported by the General Fund in both the 2015-17 and 2017-19 biennia and totaled \$5,144,357. The program transitioned to 100% Other Funds in 2019-21. Trends in participant and corresponding fee revenue growth remain under review to determine the potential General Fund loan payback period. However, as the program continues the transition from the initial startup period to ongoing operations, there remains insufficient historical data to generate a reasonable estimate for when the program could begin repayment of outstanding General Fund loans. Treasury will provide updates to the legislature as long-term expenditure and revenue trends become clearer.

## **Proposed new laws that apply to the program unit**

None.

# Public Savings Services

## Public Savings Services Essential and Policy Packages

### Essential Packages

The Current Service Level (CSL) is required by law and is an estimate of the cost to continue current legislatively-approved programs into the 2025-27 biennium. Essential Packages are the means by which these costs are estimated and budgeted in a standardized format by agencies and evaluated for compliance with these standards by the Department of Administrative Services (DAS). Treasury followed all of these requirements in building the Essential Packages for the 2025-27 biennium.

The narrative below briefly describes each Essential Package, and fiscal details for each package are included in the reports at the end of this section, broken out by fund type, category (e.g., Personal Services, Services and Supplies, etc.), and positions/FTE if necessary.

#### **010 Non-PICS Psnl Svc / Vacancy Savings**

This package contains adjustments to the base budget as directed in 2025-27 Budget Instructions. These adjustments include: standard vacancy factor calculations, non-PICS generated Personal Services inflation adjustments, mass transit taxes, and Pension Obligation Bond assessments.

#### **031 Standard Inflation**

This package provides for standard inflation on all Services and Supplies and Capital Outlay accounts. All expenditure categories were increased by the standard inflation rates defined by DAS in the Budget Instructions, including Professional Services (6.8%), Attorney General (23.3%), Rent (24.1%), and remaining accounts (4.2%). State Government Services Charges were adjusted to match the DAS Price List as required.

### Related Packages

In addition to the Essential and Policy Packages directly impacting this program area described in prior pages, there are a number of related packages that have an indirect or aggregate impact on this program area (on cost allocation transfers and possibly revenues only), and they are described in summary below.

Statewide and/or Analyst Packages. The 08x package series is for Emergency Board actions after April of even numbered years, and the 09x package series is for Statewide Packages generally directed by the Department of Administrative Services (DAS) during the Governors Budget process. The 09x package series is then generally eliminated and reinserted/ revised as necessary in the 8xx series of packages in in the Legislatively Adopted Budget.

# Public Savings Services

For the 2025-27 Legislatively Adopted Budget, Treasury has an 810 package (previously 092 in GB) for the Statewide AG Adjustment that reflects a reduction in the standard Attorney General rates, and for a Statewide Adjustment to DAS Charges to reflect modifications to State Government Service Charges and DAS pricelist charges for services to this program area (previously separate in Package 093 in GB).

Administrative Services Packages. Other packages impacting this program area are related to POPs requested in the Administrative Services program area, which is supported via cost allocation transfers by operational programs in Treasury. Accordingly, while expenditure limitation and position/FTE counts are unaffected in the operational program areas, each of the Administrative Services POPs drive adjustments to Transfers for all operational programs. Revenues are only impacted when a specific program can adjust their revenues to accommodate fluctuations in budgeted expenses via an assessment rather than service fees, and revenues are adjusted as appropriate.

The Administrative Services Policy Packages with cost allocation impacts to this program area in the 2025-25 Legislatively Adopted Budget include:

108 - Administrative Services Capacity

110 - IT Capacity & Security

801 - LFO Analyst Adjustments

Information relating to these POPs can be found in the Administrative Services section of this budget document.

## Investment Services Executive Summary

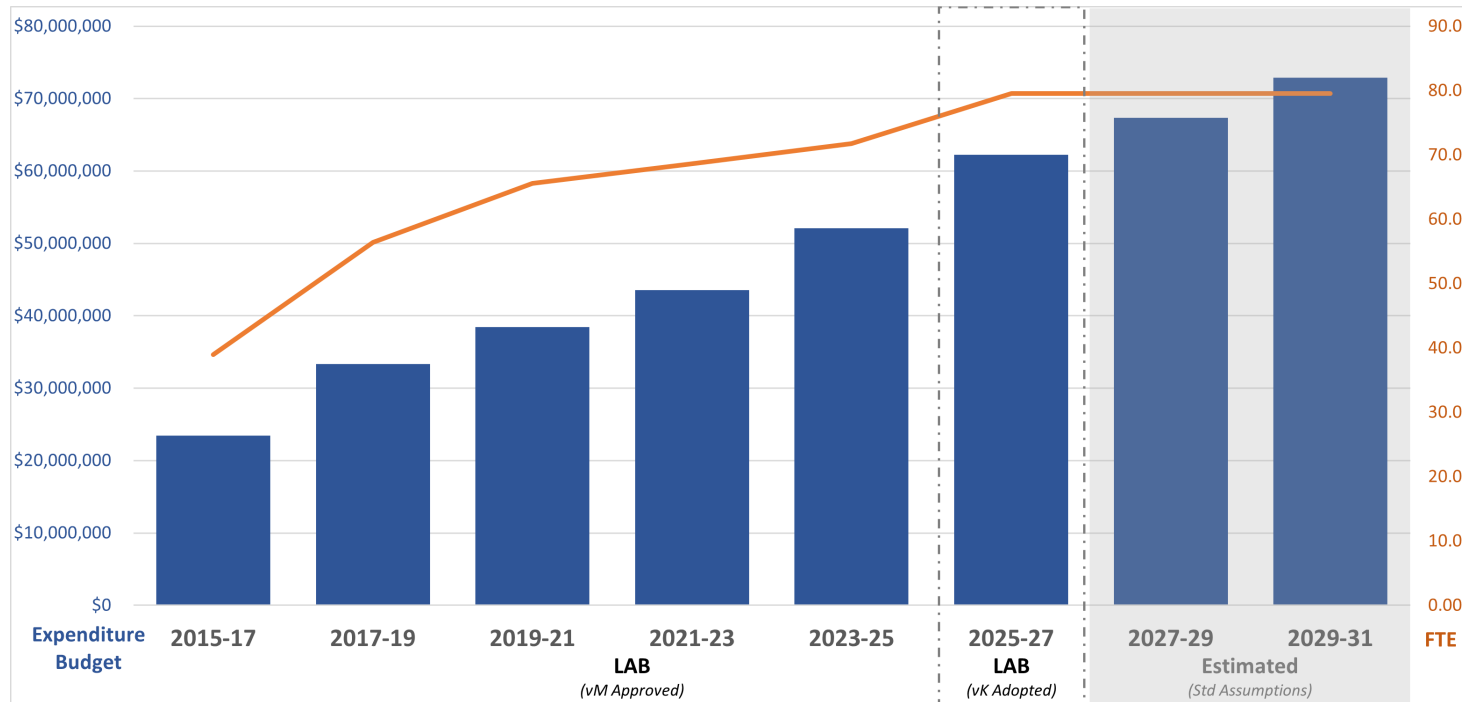

**Primary Program Contact** - George Naughton, Deputy State Treasurer, 503-378-4000

**Treasury Vision** - Leading the way for Oregonians to achieve long term financial security.

**Program Overview** - Under the guidance of the State Treasurer, Investment Services is responsible for overseeing the state’s managed assets. Investment services is responsible for providing fiduciary excellence with a focus on earning positive and sustainable risk-adjusted returns on behalf of state beneficiaries. Oregon Treasury Investment Services contains the following programs:

- Investment Management Program
- Investment Operations Program
- Investment Legal & Compliance Program

### Total Funds Over Time

# Investment Services

## Program Funding Request

	Other Funds-L	Positions	FTE
2023-25 LAB	52,072,093	72	71.76
2025-27 LAB	62,241,228	85	79.52
Difference	10,169,135	13	7.76
Percent Change	19.5%	18.1%	10.8%

The program has a Legislatively Adopted Budget of \$62,241,228. Other Funds revenue is based on administrative fees charged on assets under management. Long-term budget growth estimates through 2029-31 are included in the bar chart above. Those growth estimates assume standard 9.0 percent inflation for personal services and 4.1 percent for services & supplies. The base budget projections do not include future (2027-31) package requests.

### Program Unit Description

Under the leadership of the Treasurer and the oversight of the Oregon Investment Council (“OIC” or the “Council”), Investment Services manages the majority of Oregon’s investment assets, with the exception of those under the purview of the Oregon Savings Network.

The goal of Investment Services is fiduciary excellence with a focus on earning positive and sustainable risk-adjusted returns on Oregon’s investments while running an efficient, cost-effective organization. Investment Services is further sub-divided within OST into the Investment Management Program, Investment Operations Program, and the Investment Legal & Compliance Program.

### Investment Management

The Investment Management Program oversees diversified institutional portfolios including Oregon Public Employees Retirement Fund (OPERF), the State Accident Insurance Fund (SAIF), Common School Fund (CSF), Oregon Short-Term Fund (OSTF), and other funds on behalf of agencies and universities. As a fiduciary and investment manager of one of the nation’s largest public pension funds, the Investment Management Program constructs globally-diversified portfolios under policies set forth by the OIC. Treasury invests funds in pursuit of positive risk-adjusted returns but does not set benefits or administer the Oregon Public Employees Retirement System itself.

### External Asset Management

The majority of the assets managed by Investment Services are invested by external asset managers. Specifically, the Investment Management Program staff screen the available manager universe and select a small subset of managers for further due diligence. Staff work with the Council’s investment consultants for more detailed reviews before recommending asset managers for OIC approval.

# Investment Services

Once these managers are approved, the Investment Legal & Compliance Program staff would review terms and documents, such as those in limited partnership agreements, for private market investments, and investment management agreements, for public market investments, prior to executing contracts. Upon execution, on an ongoing basis:

Investment Manager Program staff review asset manager performance and circumstance to evaluate whether the manager still fits within the portfolio;

Investment Operations Program staff facilitate coordination between the asset manager and Treasury's service providers specific to performance measurement, security trading operations, and custody services; and

Investment Legal & Compliance Program staff monitor asset manager's compliance with agreed-upon guidelines and provide additional legal services.

## Internal Asset Management

Investment Services also manage a substantial amount of assets internally; that is, staff provides security selection & trading, portfolio construction, and middle/back-office functions for some of the investment assets. The Oregon Short Term Fund ("OSTF") has been managed internally over a long period of time. Just over ten years ago, staff "in-sourced" portions of OPERF assets for internal asset management. These funds have grown, and as of June 2024 staff internally manages over \$58 billion, in a variety of public equity and fixed income mandates.

By managing assets internally, staff has better oversight and eliminates external investment management fees for those assets. However, there is also greater operational requirement, needing sufficient resources in: the Investment Management Program to manage the assets; the Investment Operations Program to process trades and ensure data integrity between Treasury and its service providers; and the Investment Legal & Compliance Program to monitor mandate adherence to the preset guidelines.

## Investment Operations

The Investment Operations program includes middle and back-office support for the state's investment program. The Operations team is responsible for setting controls and enabling segregation of duties across the organization. The team oversees trade execution, settlement, and cash management, often in the hundreds of millions of dollars range. Without proper people, process and technology, errors and omissions can be very costly to plans, the state, and beneficiaries. The team also ensures accuracy of data so that Investment Officers can make informed investment decisions, maximizing the probability of successful outcomes.

The Operations team acts as a fiduciary on behalf of state beneficiaries. State managed assets include the Oregon Public Employee Retirement Fund, the Oregon Short Term Fund, the State Accident Insurance Fund (SAIF), the Common School Fund, the State Lottery

# Investment Services

Fund, Veterans Affairs, among other investment pools. The team works closely with Investment Officers and Portfolio Managers in overseeing investments, and in particular, internally managed assets.

## Investment Legal and Compliance

Investment Legal and Compliance consists of personnel performing two separate and distinct functions. Legal staff is responsible for performing authorized legal work for Treasury. Separately, compliance personnel monitor and evaluate compliance with applicable policies, procedures, and contractual obligations. The program supports Treasury's large scale, complex, and sophisticated investment program. The scope and breadth of Treasury's investment activities are unique within state government, requiring the hiring of specialized personnel as its investment staff. The Division allows Treasury's legal and compliance function to be staffed with personnel possessing that same specialized knowledge and experience. Growth of the compliance program is vital to ensuring that Treasury's investment management activities, both externally and internally, are appropriately monitored and controlled. The presence of in-house attorneys working on Treasury's investment-related transactions and legal matters results in significantly improved expertise and responsiveness, and a notable cost savings to Treasury.

Treasury's investment programs (collectively, the "Business Units") have experienced substantial growth in recent years, resulting in a significant increase in both the volume and complexity of legal and compliance work required to meet their business needs. The Division has grown and evolved from its early-stage iterations and must continue to grow at a commensurate pace as that of the Business Units, to ensure that Treasury's investment activities are conducted in a manner that is compliant with law, regulation, and policy, including applicable fiduciary obligations.

## **Program Performance**

OPERF net asset value has shown steady growth over time. With improved infrastructure & resources and the successful implementation thereof, OST is in a better position to enhance portfolio safeguards as well as improve the financial position and risk management of state-managed assets. Additionally, staffing and technology improvements have also led to significant fee savings, and improved net performance.

## Current Investment Environment

The investment environment remains challenging. After a four-decade period of decline, U.S. interest rates have started to trend upwards. At the same time, despite strong equity returns since the Global Financial Crisis – with a VERY sharp decline in March 2020 – the conventional wisdom is for weaker equity returns going forward. That, in combination with what was a declining rate environment, have resulted in riskier and more complex portfolios over time.

A portfolio targeting a return of 7.5% in 1989 would have predominately been invested in fixed income with a low standard deviation, i.e., volatility, of returns of approximately 3%. By 2019 a portfolio targeting the same 7.5% return would have substantially more private market investments and much less fixed income, corresponding to a standard deviation that is five times or more of what it would have been in 1989. That means assets of plan sponsors such as the employers that participate in PERS have become more volatile, with greater variance in the values of those assets and the funded ratios of their liabilities from year to year.

# Investment Services

OPERF has concurrently become more complex over the same period, as shown in the table below.

Asset Class	OPERF 2007 Target Allocation	OPERF 2021 Target Allocation
Public Equity	53.0%	30.0%
Fixed Income	27.0%	20.0%
Private Equity	12.0%	20.0%
Real Estate	8.0%	12.5%
Real Assets	0.0%	7.5%
Diversifying Strategies	0.0%	7.5%
Risk Parity	0.0%	2.5%

Besides portfolio complexity, another trait of the current investment environment is an ever-increasing competitive and complex landscape. A flood of investor money into private market managers, led by other public pension plans facing the same headwinds, makes it difficult to get sufficient allocations to top-tier investment managers. OPERF’s history of private market investments helps “open doors”, but staff remains diligent in identifying new opportunities and maintaining existing relationships. Staff manages approximately 20% of OPERF to provide investment management fee savings for the Fund globally but this adds operational burden. Risk management is keeping up with the increasing breadth of asset allocations but now scans across a broader horizon for new risks to consider, including ESG.

## Enabling Legislation

The Treasury programs included in the Treasury Services program unit derive from several constitutional and statutory directives as referenced in the Agency Wide Summary.

## Revenue Streams

The primary revenue source for all three program units in Investment Services are asset management fees authorized under ORS 293.718. Treasury’s rate model is based on three main groupings of managed funds based on fund type (single entity or pooled), and assets under management (AUM). The first group is small single entity funds with less than \$1 billion in assets. These small single entity funds do not have significant AUM to provide the necessary economy of scale to cover expenses at the statutory rate cap. The second group is pooled asset funds, such as the Oregon Short Term Fund (OSTF), Oregon Intermediate Term Pool (OITP) and the Oregon Local Government Investment Fund (OLGIF). By Oregon statute, pooled assets have a higher rate cap to account for their greater assets under management and the cost-inefficiency in managing these funds. The third grouping is large single entity funds with assets over \$1

## Investment Services

billion in AUM. These funds include the Common School Fund (CSF), State Accident Insurance Fund (SAIF) and the Public Employee Retirement System (PERS). These are individual funds with assets generally sufficient to cover expenditures at the rate cap. Treasury's rate structure is calculated based on a comparison of forecasted revenues and expenses against actual revenues and expenses. Treasury conducts an annual analysis of expenses associated with each grouping compared against revenue. This annual analysis informs the updated rates for each grouping, which is updated on a biennial basis.

For single entity accounts, asset management fees are capped at 0.350 basis points per month. For Pooled investments, asset management fees are capped at 0.500 basis points per month. Fees are charged based on the most recent market value of assets under management as reported by the investment custodian, State Street Bank. As of June 30, 2022, the most recent analysis determined that rates for all single accounts be charged at 0.250 bps except SAIF which could be charged at 0.15 basis points. Rates for all commingled investment funds were set at 0.435 bps.

Small single entity funds typically possess limited growth due to their smaller AUM and periodic withdrawals. Due to this limited growth expectation, revenue projections use the calendar year end AUM held constant for the time period under review. Cumulatively, these accounts total less than 1% of total assets under management and revenue.

Due to the significant cyclical impacts in pooled assets, a seasonality-based projection model is used to accurately project forward AUM. OSTF has significant historical experience and data sets on which the projections are based. The historical end of month AUM numbers are recorded and a projection is calculated using a set formula. The formula is based on the triple exponential smoothing (i.e. Holt-Winter) approach, that considers monthly seasonality. Pooled assets represent almost 23% of total assets under management and approximately 30% of total investment fees.

The majority of assets under management are held in large single entity accounts. PERS accounts for about 75% of all assets and possesses the most complicated asset structure. CSF and SAIF comprise an additional 5% of total AUM. To best determine revenue forecasts, the Senior Investment Officer for Portfolio Risk and Research conducts an annual analysis of the funds likely growth. Forward assumptions of fund expenses are updated to ensure outflows are considered, and then a Monte Carlo simulation is run based on the current asset allocation and Oregon Investment Council risk and return assumptions. This is used to develop an AUM forecast that balances return expectations with a sufficient allowance for a significant downturn event.

### **Proposed new laws that apply to the program unit**

None.

## Investment Management Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	37,149,130	41	40.92
2025-27 LAB	45,606,546	52	47.47
Difference	8,457,416	11	6.55
Percent Change	22.8%	26.8%	16.0%

The Legislatively Adopted Budget of \$45,606,546 million Other Funds-Limited continues funding for the Investment Management Program at the current service level for 2025-27 and includes a policy option package to address growth in the agency’s managed investments, the increasing complexity of investment strategy and the need for additional data analysis.

### Activities, programs, and issues in the program unit base budget

The Investment Management Program is principally responsible for managing various asset pools including the Oregon Public Employees Retirement Fund (OPERF), the State Accidental Insurance Fund (SAIF), the Common School Fund (CSF), the Oregon Short Term Fund (OSTF), and a number of other state managed plans (17 in total) under the oversight of the Oregon Investment Council (OIC). Investment Management Program staff are principally involved in one of the following three activities or combination thereof:

Internal Management of Assets: Portfolio construction and the selection and trading of stocks and bonds, as well as ancillary activities;

External Manager Oversight: Reviewing the universe of investment managers, selecting and recommending of managers to the Council, and ongoing monitoring of managers approved by the OIC; and

Asset Allocation and Risk Management: Includes reviewing investment opportunities, monitoring portfolio exposures to various investment risk factors such as stock market and interest rate risks, designing a portfolio allocation that would best meet beneficiary requirements.

## Capital Markets

### Fixed Income team

The eight-person investment team provides both Internal Management of State & local funds as well as External Manager Oversight of

# Investment Services

those firms that manage funds on behalf of OPERF and other State & local entities. The primary function of the Fixed Income team is to oversee portfolio management/strategy (e.g., portfolio positioning across various metrics such as interest rates, curve, asset class selection, geography, etc.), trading of internally-managed assets, research (e.g., markets, US/Global macroeconomics, asset classes, names to invest in, etc.) and oversight of the external asset managers (e.g., quarterly performance reviews, ad hoc analysis, etc.).

## **Public Equity team**

The four-person investment team provides both Internal Management of State funds as well as External Manager Oversight of those firms that manage funds on behalf of OPERF and other State entities. The primary function of the Public Equity team is to manage the structure of the portfolio, diligence and monitor the investment managers within the portfolios and to evaluate prospective managers. The team is also responsible for trading and cash management for the internally managed equity portfolios, as well as proxy voting.

## **Private Markets**

### **Private Equity team**

The five-person investment team provides External Manager Oversight for the Private Equity Portfolio within OPERF, comprised of investments in leveraged buyouts, growth equity, venture capital and special situations strategies. The portfolio is well diversified across sectors and is global in nature with exposure to portfolio companies in North America, Europe, Asia and Latin America. In addition, the Private Equity Portfolio has special mandates for co-investment and for secondary transactions (the buying or selling of limited partner interests).

The primary function of the Private Equity team is to evaluate and underwrite investment managers and funds for prospective investment as well as to monitor existing managers and existing assets. The team is also responsible for creating the overall investment strategy and portfolio construction and responding to evolving market conditions.

In addition, the Private Equity team provides investment oversight and investment recommendations for the private equity allocation within the Common School Fund (CSF) portfolio managed by Oregon State Treasury.

### **Real Estate team**

The five-person investment team provides External Manager Oversight for the Real Estate Portfolio within OPERF, comprised of investments in commercial real estate (e.g., office buildings, retail complexes, logistics and warehouses, and multifamily apartment buildings) as well as specialized real estate (e.g., student housing, storage and medical office buildings). The investment strategies include those targeting core holdings that are stabilized and fully occupied by tenants, thereby generating current income. Additional strategies include value add and opportunistic strategies that require various degrees of repositioning, refurbishment, and development.

# Investment Services

The primary function of the Real Estate team is to evaluate and underwrite investment managers and funds for prospective investment as well as to monitor existing managers and existing assets. The team is also responsible for creating the overall investment strategy and portfolio construction and responding to evolving market conditions.

In addition, the Real Estate team provides real estate investment oversight and investment recommendations for the real estate allocations for both the Common School Fund (CSF) and State Accident Insurance Fund (SAIF) investment portfolios managed by Oregon State Treasury.

## **Alternatives team**

The five-person investment team provides External Manager Oversight for the Alternatives Portfolio within OPERF, comprised of investments in real assets such as infrastructure (e.g., transportation, power, and telecommunications) and natural resources (e.g., energy, metals and mining, agriculture, and timberland). In addition, the portfolio includes a dedicated diversifying strategies mandate which targets investment strategies that are largely uncorrelated to the broader stock market.

The primary function of the Alternatives team is to evaluate and underwrite investment managers and funds for prospective investment as well as to monitor existing managers and existing assets. The team is also responsible for creating the overall investment strategy and portfolio construction and responding to evolving market conditions.

A separate individual within the Alternatives team oversees the Opportunity Portfolio, comprised of investment strategies that are either tactical, innovative, or that don't fit the mandates of OPERF's other asset classes. Examples include private credit, medical and entertainment royalties, and reinsurance investment strategies. The portfolio is unconstrained and may invest in liquid or illiquid mandates.

In addition, the Alternatives team provides investment oversight and investment recommendations for the alternative asset allocations for both the Common School Fund (CSF) and State Accident Insurance Fund (SAIF) investment portfolios managed by Oregon State Treasury.

## **Portfolio Risk & Research team**

The four-person investment risk team is the principal team focused on Asset Allocation and Risk Management for the asset pools managed by the Investment Management Program. While other teams described above consider risk management for their respective asset class, the Portfolio Risk & Research team uses various platforms, such as BlackRock Solutions Aladdin, to report to the OIC and the Chief Investment Officer on the investment risks – such as currency and economic sector exposures – of entire portfolios. This includes reviewing asset allocations, e.g., the likely impact of changing allocations to asset classes such as public equity, private equity, and fixed

# Investment Services

income. Finally, the team also evaluates the materiality of Environmental, Social, and Governance (ESG) factors, and if found meaningful, methods of incorporating those considerations into investment selection.

The primary function of the Portfolio Risk & Research team is to support the Chief Investment Officer on various “top of the house” initiatives related to investments and portfolio oversight. The team also supports the investment teams on portfolio construction and new strategy evaluations.

## Investment Operations Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	7,778,015	18	18.00
2025-27 LAB	9,022,085	20	19.05
Difference	1,244,070	2	1.05
<i>Percent Change</i>	<i>16.0%</i>	<i>11.1%</i>	<i>5.8%</i>

The Legislatively Adopted Budget of \$9,022,085 million Other Funds-Limited continues funding for the Investment Operations Program at the current service level for 2025-27 and includes a policy option package to address the need for additional data analysis.

### Activities, programs, and issues in the program unit base budget

Functional areas include Investment Accounting, Trade Operations, Performance Reporting, Reconciliation, and Data Management. Through these functions, the investment operations program is also responsible for identifying cost saving measures, efficiencies, enhancements, data oversight, and implementation of risk mitigation measures. The team supports all areas of the Investment Services program including Fixed Income, Public Equities, Risk Parity, Private Equity, Real Estate, Real Assets, and Diversifying Strategies, and works closely with the Portfolio Risk and Research Team, and at the direction of the Chief Investment Officer.

### Investment Accounting

The Investment Accounting team is responsible for Cash Management, Portfolio Administration, Financial Reporting, and Expense Oversight. The team produces financial statements for state managed investment pools in accordance with GASB 31. The cash management function is carried out daily, so that portfolio managers know how much cash is available to invest each day. Dollar amounts are material, and daily interest can earn participants a significant long term compounded rate. Thus, the opportunity cost of not investing is significant. Lastly, expense tracking protects the program by ensuring the accuracy of vendor and asset manager fees paid.

### Trade Operations

The Trade Operations Team is responsible for trade processing, reconciliation, and settlement. Without proper controls, oversight, and process, errors can be extremely costly. Trade amounts often exceed hundreds of millions of dollars daily. The team also processes Corporate Actions and performs Cash Reconciliation. All of which allow for accurate beginning and end of day valuations to inform investment decision-making.

## **Investment Reconciliation**

Reconciliation includes review of performance and asset valuations across vendors and platforms. The team reviews all monthly custodial data, consultant data, and portfolio management data for accuracy. As a result, the team consistently identifies wide-ranging discrepancies over time, which may lead to material corrections. Gone unnoticed, errors can lead to improper valuations, performance, and crediting rates, and even inaccurate funded status for the pension.

## **Data Management**

Data Management includes managing security information, characteristics, data feeds, and account processing. Data analysts play a key role in separating portfolio management responsibilities and data management to protect the organization from conflicts of interest, fraudulent activity, and trade compliance. Additionally, the data function oversees data flow across platforms, proactively reviews access and permissions, and takes corrective measures when necessary.

## **Performance and Reporting**

Performance oversight is a mission critical function of the Investment Operations Team. This includes review of fund and plan performance to ensure gains and losses are reflected accurately. The team is responsible for creating efficiencies and controls through centralization and automation of the reporting function. Also produced are a number of internal business intelligence reports for investment officers, as well as numerous website reports for public consumption, and public records requests.

## **Background information**

The Operations Program provides checks and balances for the organization and addresses key organizational and operational risks. Providing these controls protects the State's position as a market leader and the need to fulfill fiduciary responsibilities. The Program consistently produces bottom line results in addressing risk, optimizing capacity, implementing data quality control measures, and cost savings.

## **Data Quality and Controls**

Enhanced risk mitigation and data analytics capabilities have helped uncover significant reporting errors by external service providers. In some cases, these errors date back several years. The identification and rectification of reporting errors have led to material adjustments and in some cases increased OPERF investment performance and valuations. Gone undiscovered, these issues can lead to understated (or overstated) values resulting in erroneous participant crediting rates and an inaccurate measure of the pension plan's funded status.

# Investment Services

## **Segregation of Duties and Resource Optimization**

Continued utilization of technology (Blackrock's Aladdin platform) and the evolution and maturation of dedicated OST operational staff and infrastructure have enabled Investment Officers to focus on informed decision-making and produce positive results. Assets managed internally have consistently outperformed their respective benchmarks in aggregate over time. As assets have grown, the portion of internally managed assets have also grown, and the ability to support portfolio management has grown in lockstep. The result of which has been positive bottom-line results.

## Investment Legal and Compliance Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	7,144,948	13	12.84
2025-27 LAB	7,612,597	13	13.00
Difference	467,649	-	0.16
<i>Percent Change</i>	<i>6.5%</i>	<i>0.0%</i>	<i>1.2%</i>

The Legislatively Adopted Budget of \$7,612,597 million Other Funds-Limited continues funding for the Investment Legal and Compliance Program at the current service level for 2025-27.

### Activities, programs, and issues in the program unit base budget

#### **Investment Legal and Compliance Program**

The Investment Legal and Compliance Program consists of two separate and distinct functions. Legal staff performs authorized legal work for Treasury in accordance with an interagency agreement with the Department of Justice, as described in more detail below. Separately, compliance personnel monitor and evaluate compliance with applicable policies, procedures, and contractual obligations.

#### **Legal Function**

Legal staff oversee a broad range of investment-related legal issues and transactions for the Investments program. Legal staff ensures that activities comply with applicable laws and policies and supports the efforts of the Oregon Investment Council and the State Treasurer to fulfill their fiduciary duties. Legal staff provides a critical support function in meeting agency objectives. Treasury attorneys possess specialized knowledge and expertise and are well-positioned to understand complex and sophisticated investment transactions and business needs in order to support Treasury’s investment management goals. Having in-house attorneys at Treasury is consistent with the statutory fiduciary duties applicable to managing the state’s pension funds. Further, by supporting the investment goals, legal staff provide a material service to the state and its pensioners.

Treasury attorneys provide a high level of expertise and responsiveness without generating additional legal costs. Due to the high volume and complexity of Treasury’s legal matters that require specialized experts, DOJ engages independent outside counsel to assist, at Treasury’s request and in the Attorney General’s sole discretion. The presence of in-house Treasury attorneys notably reduces the costs associated with using external counsel.

# Investment Services

Treasury attorneys monitor and implement appropriate industry best practices, ensure Treasury's compliance with applicable law, regulation, and policy, including fiduciary obligations, and allow Treasury to in-source legal work that would otherwise be performed by outside counsel, reducing Treasury's legal costs. Treasury's legal staff is an essential resource to Treasury, providing a demonstrable benefit to the state.

## **Compliance Function**

Compliance staff supports the continued growth of the Investment Program, including the overall strategy to manage more assets internally within Treasury's capital markets portfolio, by providing oversight and process improvement in the areas set forth below. Treasury's recent significant growth has created an increased need for well-developed and sophisticated internal controls. The Division's compliance staff plays an essential role in ensuring that those controls are implemented, followed, and maintained.

Compliance is in the process of implementing a comprehensive roadmap and modernization plan to achieve effective oversight. The program is in a phase of modernization and process improvement and seeks to fully support the continued growth of the investment programs and the increasing volume and sophistication of its activities. Compliance staff must possess significant and sophisticated investment management knowledge and technical proficiency to address the constantly changing and increasingly complex investment management landscape.

This modernization includes the development of executive level reporting, which provides accurate views into compliance status across the Business Units. The ability to view summary compliance reports allows close monitoring of Treasury funds and reduces the risk within the asset management process. Compliance staff compiles and files numerous regulatory filings that apply to Treasury's investment activity, including filings with the New York Federal Reserve, the Securities and Exchange Commission and numerous other domestic and international regulatory agencies. To appropriately support Treasury's investment activities, regulatory compliance is critical in preserving Treasury's good standing with regulatory bodies across the globe. Additionally, Treasury has improved its technological resources, allowing compliance staff to closely monitor external investment managers in a scalable way, improving efficiency and allowing staff to increase its breadth of coverage. This monitoring function ensures that externally managed assets are managed in a manner that is consistent with applicable regulatory requirements and Treasury's contractual obligations and policies. Compliance staff utilizes the Blackrock Aladdin platform to perform active monitoring of all internally traded portfolios. The compliance team codes and monitors rules within the Blackrock Aladdin system and immediately addresses breaches of those rules. This monitoring function allows Treasury to ensure that Treasury investment staff manages its internally traded portfolios in accordance to policy mandates.

Compliance staff manages the personal trading program for Treasury. On a quarterly basis, compliance staff reviews the personal trading activity of those individuals who are required to report such activity pursuant to Oregon law and Treasury policy. Compliance staff reports the trading activity in accordance with state statutory requirements. As part of Treasury's ongoing modernization efforts, Tre-

# Investment Services

sury has implemented new systems that allow compliance staff to more effectively monitor and analyze personal trading activity, ensuring that designated staff are engaging in personal trading activity that is compliant with applicable law and policy.

Compliance staff reviews and monitors the policies of the Oregon Investment Council and the Business Units to ensure that Treasury and Treasury staff are performing in accordance to the practices mandated by Treasury's policies. Recommendations are made on controls, processes and policy improvement, and recommendations are presented to Treasury's Compliance Executive Committee.

Treasury engages many external vendors for assistance in performing the asset management function. These vendors may provide services that vary from purely informational to those that establish and impact Treasury's official investment and accounting records. Compliance staff performs critical oversight of these vendors and ensures internal controls are effective. Compliance staff also authorizes and manages access to these essential vendors and systems.

## **Background information**

### **Treasury and DOJ Agreement**

In 2015, Treasury and the Department of Justice entered into an interagency agreement governing the terms by which Treasury hires its own attorneys. As the chief law officer of the state, the Attorney General currently is exclusively responsible for providing legal services to Treasury or authorizing other legal representation for Treasury. Treasury enters dynamic, highly specialized, and complex transactions on the state's behalf. Treasury's work in this area requires prompt and seamless access to legal advice and services to maximize that benefit. The Attorney General determined that Treasury's ability to hire its own attorneys protects the interests of the state and, accordingly, Treasury attorneys take on a limited scope of work. The Attorney General has appointed a specified number of Treasury employees as Special Assistant Attorneys General ("SAAGs"). These SAAGs are qualified to practice law in Oregon and are specially qualified to perform the agreed upon scope of work pursuant to the agreement. The Attorney General retains the right to decline to appoint any attorney as a SAAG or withdraw any existing appointment. A DOJ attorney is designated as a supervising attorney of the SAAGs and the DOJ and Treasury teams regularly meet to coordinate and discuss legal matters and trends.

# Investment Services

## Investment Services Essential and Policy Packages

### Essential Packages

The Current Service Level (CSL) is required by law and is an estimate of the cost to continue current legislatively-approved programs into the 2025-27 biennium. Essential Packages are how these costs are estimated and budgeted in a standardized format by agencies and evaluated for compliance with these standards by the Department of Administrative Services (DAS). Treasury followed all these requirements in building the Essential Packages for the 2025-27 biennium.

The narrative below briefly describes each Essential Package, and fiscal details for each package are included in the reports at the end of this section, broken out by fund type, category (e.g., Personal Services, Services and Supplies, etc.), and positions/FTE if necessary.

#### **010 Non-PICS Psnl Svc / Vacancy Savings**

This package contains adjustments to the base budget as directed in 2025-27 Budget Instructions. These adjustments include standard vacancy factor calculations, non-PICS generated Personal Services inflation adjustments, mass transit taxes, and Pension Obligation Bond assessments.

#### **022 Phase-Outs**

Phase-out package adjustments are generally necessary to take one-time costs approved as part of policy option packages in 2023-25 and remove them from the 2025-27 biennium budget. Phase-outs in this SCR are necessary for one-time staff-related services and supplies expenses in the Expendable Property accounts included in 2023-25 policy option packages.

#### **031 Standard Inflation**

This package provides for standard inflation on all Services and Supplies and Capital Outlay accounts. All expenditure categories were increased by the standard inflation rates defined by DAS in the Budget Instructions, including Professional Services (6.8%), Attorney General (23.3%), Rent (24.1%), and remaining accounts (4.2%). State Government Services Charges were adjusted to match the DAS Price List as required.

### **Package 106 – Investment Services Capacity**

**[Note regarding changes to this POP in LAB from what was originally requested:** This package was adopted by the Legislature, but three (3) of the sixteen (16) requested positions (and relevant position-related services and supplies) were not included in the Budget Report recommendation and were therefore not adopted by the Legislature. Narrative relating to all of the requested positions remains unchanged in this section for reference purposes, but the positions not recommended and adopted are called out with ~~strike-~~

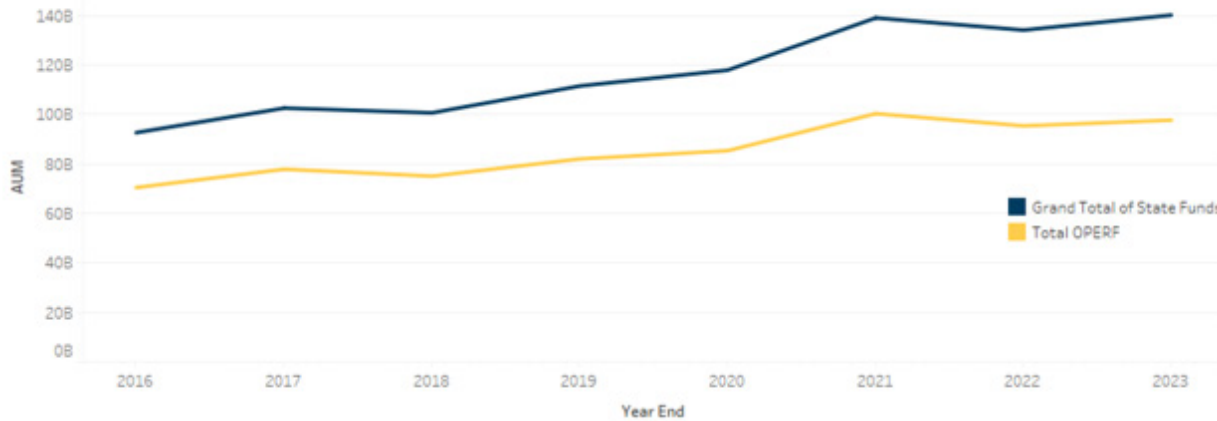

# Investment Services

through text in the Staffing Impact section for clarity.]

## Purpose

Over the past five (5) years, Treasury-managed investments have grown from \$100.6 billion to more than \$140.2 billion. As assets under management increase materially, the corresponding level of diligence required to effectively manage portfolios, risk, and ensure compliance increases respectively.

AUM Growth Since 2016

This request seeks to enhance Treasury’s investment oversight by adding targeted positions necessary to support the continued growth and complexity of Treasury-managed assets. Expanding staffing capacity will enable effective program administration, portfolio management, policy compliance, and member service needs, ultimately fulfilling fiduciary responsibilities of the office of the State Treasurer.

Additionally, increased staffing will also provide sufficient organizational capacity to further advance the implementation of a plan to enhance the measurement and management of climate-related risks and the energy transition within the investment portfolio. This includes improving Treasury’s ability to quantify, analyze, and report on these risks while tracking our progress over time.

Funding for this request would be paid for out of Other Funds, not General Fund revenue.

## How Achieved

This package establishes 16 new permanent, full-time positions across the Portfolio Risk, Data, Public Equity, Fixed Income, Diversified Strategies, and Engagement teams (nine (9) in the Investment Officer and seven (7) in the Investment Analyst classifications).

The overarching goal for this request is to acknowledge the increasing complexity of investment strategies, including the types of investment instruments utilized, and strengthen Treasury’s cross-training efforts to ensure coverage across all investment areas. Thus, allowing for primary and secondary coverage across all areas of the investment program where it doesn’t exist today. Even with the proposed staffing growth, these portfolios will continue to operate at a meaningful cost savings level compared to externally managed alternatives and deliver value-added investment performance.

Treasury also recognizes corporate engagement as an important tool to support our mission of generating strong returns. With this recognition, we are seeking to further build out our capabilities in this area. Expanding stewardship capabilities will enhance Treasury’s proactive engagement with portfolio companies to address long-term risks, capitalize on opportunities, and drive sustainable value creation.

As financial markets evolve and grow in complexity, the demand for data-driven decision-making continues to increase. Despite Treasury’s Investment Services Division growth over the past six years, we remain a lean operation, accomplishing a lot and achieving a relative strong return on investments for the number of full-time employees we have, who are managing nearly a dozen different portfolios. The requested staffing additions reflect our efforts to identify several areas where increased capacity will be necessary in the future, such as investment analysts to enhance due diligence, identify investment opportunities, and analyze companies’ transition readiness and net-zero alignment. Strengthening these competencies will further Treasury’s ability to implement its Net Zero Plan effectively.

# Investment Services

Additionally, Treasury’s investment program continues to grow in data needs. Expanding our data capabilities is essential to managing increasingly complex investment risks. Increased data collection and analysis from both our internal personnel and third-party data providers will help Treasury improve its ability to monitor portfolio emissions, conduct risk analyses, and track the portfolio’s exposure to climate-related risks over time. Even with third-party assistance and verification, we anticipate the need to expand our data team in order to meet these growing analytical demands.

## Staffing Impact

[As noted at the beginning of this POP narrative, requested positions in the table below with ~~strikethrough text~~ were not recommended and adopted by the Legislature, and detail is left here for reference purposes only.]

Treasury is requesting the establishment of sixteen (16) new permanent, full-time (PF) positions phased-in at specified times during the biennium based on anticipated implementation timing:

Action	Working Title	Classification	Type	Pos	FTE
Establish New	Investment Officer 3, Internal Management	Investment Officer 3	PF	1	0.88
Establish New	Investment Officer 3, External Management	Investment Officer 3	PF	1	0.38

<del>Establish New</del>	<del>Investment Analyst 3, Engagement</del>	<del>Investment Analyst 3</del>	<del>PF</del>	<del>4</del>	<del>0.88</del>

# Investment Services

Permanent, full-time positions and corresponding personal services expenditure limitation will automatically phase in to 24 months/1.00 FTE in the 2027-29 biennium.

## Quantifying Results

Enhanced data reconciliation and oversight have improved investment decision-making and bottom-line results. The estimated impact of issues identified by the data team over the past 10 years is approximately \$2.9 Billion. Strengthening data management staffing levels will help Treasury keep pace with the increasing scale and complexity of its portfolios.

Additionally, robust operational infrastructure continues to enable Investment Officers to focus on strategic decision-making and delivering sustainable, value-added returns. Consistently generating quality data and reliable reporting that is accurate and insightful is critical to our investment decision-making and ability to manage Oregon's large, global investment program.

Treasury plans to release updated portfolio emissions baseline data every two years, supplemented by annual progress reports on actions taken by our agency to implement or adjust the Net Zero Plan. These updates will be shared with beneficiaries, stakeholders, and legislators, including an annual public report provided to the Governor and legislative leadership.

## Revenue Source

Other Funds collected through administrative fees charged on assets under management.

## Related Packages

In addition to the Essential and Policy Packages directly impacting this program area described in prior pages, there are a number of related packages that have an indirect or aggregate impact on this program area (on cost allocation transfers and possibly revenues only), and they are described in summary below.

Statewide and/or Analyst Packages. The 08x package series is for Emergency Board actions after April of even numbered years, and the 09x package series is for Statewide Packages generally directed by the Department of Administrative Services (DAS) during the Governors Budget process. The 09x package series is then generally eliminated and reinserted/revised as necessary in the 8xx series of packages in in the Legislatively Adopted Budget.

For the 2025-27 Legislatively Adopted Budget, Treasury has an 810 package (previously 092 in GB) for the Statewide AG Adjustment that reflects a reduction in the standard Attorney General rates, and for a Statewide Adjustment to DAS Charges to reflect modifications to State Government Service Charges and DAS pricelist charges for services to this program area (previously separate in Package 093 in GB).

# Investment Services

Administrative Services Packages. Other packages impacting this program area are related to POPs requested in the Administrative Services program area, which is supported via cost allocation transfers by operational programs in Treasury. Accordingly, while expenditure limitation and position/FTE counts are unaffected in the operational program areas, each of the Administrative Services POPs drive adjustments to Transfers for all operational programs. Revenues are only impacted when a specific program can adjust their revenues to accommodate fluctuations in budgeted expenses via an assessment rather than service fees, and revenues are adjusted as appropriate.

The Administrative Services Policy Packages with cost allocation impacts to this program area in the 2025-25 Legislatively Adopted Budget include:

108 - Administrative Services Capacity

110 - IT Capacity & Security

801 - LFO Analyst Adjustments

Information relating to these POPs can be found in the Administrative Services section of this budget document.

## Trust Property Services Executive Summary

**Primary Program Contact** - George Naughton, Deputy State Treasurer, 503-378-4000

**Treasury Vision** - Leading the way for Oregonians to achieve long term financial security.

**Program Overview** - Trust Property provides two important functions in Oregon: 1) it administers the unclaimed property program for the state and protects the property rights of owners forever or until they are able to claims their funds; and 2) it serves as the estate administrator for Oregonians who die without a will or known heir. Trust Property holds more than \$900 million in the Common School Fund, which is invested for the benefit of Oregon’s public K-12 education. Oregon Treasury Trust Property Services contains the following programs:

- Unclaimed Property – Treasury
- Unclaimed Property – Common School Fund
- Estates and Escheated Property

### Total Funds Over Time

040 - Prior to 2021-23 the program was managed by the Department of State Lands. Historical costs are not included here.

<i>Percent Change</i>	<i>34.8%</i>	<i>40.3%</i>	<i>38.1%</i>	<i>35.1%</i>

The program has a Legislatively Adopted Budget of \$17,766,543, comprised of \$13,699,244 Other Funds-Limited and \$4,067,299 Other Funds-Non-Limited. Other Funds revenue is based on investment interest earned on unclaimed property and administrative fees. Long-term budget growth estimates through 2029-31 are included in the bar chart above. Those growth estimates assume standard 9.0 percent inflation for personal services and 4.1 percent for services & supplies. The base budget projections do not include future (2027-31) package requests.

## Program Unit Description

Trust Property Services is composed of two programs: Oregon Unclaimed Property Program, and Estates and Escheated Property Program. The Unclaimed Property Program has two components, one for amounts held at Treasury for operations and one for amounts held within the Common School Fund which are invested.

### Unclaimed Property Program - Treasury

The Unclaimed Property program is a national program that offers consumers a central location to search for property that may have gone unclaimed or presumed abandoned, such as dormant bank accounts, safe deposit box contents, utility deposits and refunds, insurance dividends, matured insurance policies, securities such as stocks and mutual funds, wages, credit balances, etc. Essentially, any intangible and certain tangible property that is due and payable but cannot, for various reasons, be delivered to the rightful owner is unclaimed property. Businesses and organizations, otherwise known as holders, that have unclaimed property are required to report and remit the assets to the state. Until property is claimed by owners or their heirs, it remains in the state’s custody and is held in the Common School Fund, earning interest for Oregon’s K-12 public education system.

The three distinct responsibilities of the Unclaimed Property program are: Holder Reporting and Education; Claims Management; and Holder Audits and Compliance.

The Holder Reporting and Education team works with holders to help them report and remit property to the state when they lose contact with the owner; usually after a period of one to three years. Each year, the program interacts with tens of thousands of

# Trust Property Services

businesses in Oregon, the United States and abroad. Staff provide tailored and expert advice on program requirements both during the reporting season and pro-actively throughout the year.

Oregon has seen a consistent increase in reported unclaimed property with a record of \$141 million and 40 million shares reported in FY 2024. Overall, Oregon holds more almost \$1 billion in unclaimed property that belongs to more than 3 million individuals who currently have an Oregon address or had one in the past.

As soon as the program receives and verifies unclaimed property, it makes the data available on its website for owners to claim.

The Claims Management team is responsible for returning assets to their rightful owners or their heirs. Staff proactively looks for owners and helps them file a claim. They also participate in efforts to promote greater awareness of the program through marketing efforts so they can reunite more people with their property. When claims are received, staff verifies the evidence and ensures the state returns the correct amount of property to their rightful owners. During FY 2020, the program implemented a new unclaimed property system, KAPS, which allows for fully electronic claims and auto-approvals of smaller and simpler claims. As expected, claims increased because it is easier to file a claim, and as a result, the wait time for reuniting property continues to grow. The number of approved claims also increased due to automation brought on by KAPS; however, the workload had already increased significantly in the last ten years, so the small recent gains are not yet sufficient to improve program performance.

The Holder Audit and Compliance function of the Unclaimed Property Program generally focuses on holders that are not current reporters of unclaimed property. Nationwide compliance is abysmally low, with only an estimated 6-9% of holders reporting unclaimed property. In Oregon, we have found that approximately 80% of the entities we audit are not complying with unclaimed property laws, and that even those who use the services of a certified public accountant are unaware of the reporting requirement. The program has two FTE dedicated to audit and compliance efforts of small-to-medium companies that operate in Oregon. In addition, Oregon uses the services of seven contract audit firms that specialize in unclaimed property audits of large, national and multi-national companies.

## Unclaimed Property Program – Common School Fund

Every year millions of dollars of property remain unclaimed. While program staff work diligently to return property, the cash held is invested in the Common School Fund for the benefit of Oregon's K-12 public education. Trust Property Funds make up about 40% of the total funds in the Common School Fund. The Land Board directs investment earnings distributions to school districts twice a year. For FY 2024, Treasury transferred \$64.5 million into the Common School Fund.

## Estates and Escheated Property Program

The Estates and Escheated Property Program is responsible for handling the affairs of individuals who die without a will or known

# Trust Property Services

heirs. Staff receive reports from a variety of sources (e.g. first responders, property management companies, healthcare institutions, law enforcement, etc.) and attempt to locate heirs. Until heirs are found, the unit acts as personal representative for the estate and fulfills the fiduciary responsibilities imposed by law. Duties include making funeral arrangements, providing proper notices, identifying assets and creditors, paying bills, searching for heirs, and reviewing and validating heirship claims. Millions of dollars pass through the estates program each year and large amounts are reunited with rightful heirs found by program staff. In doing so, the program protects estate assets from falling into the hands of those who have no legal claim to them. If no heirs come forward in 10 years from date of death, the value of the estates permanently escheats to the Common School Fund.

## **Program Performance**

### Funds Returned to Owners

The programs target is to return 50% of the funds reported every year. Since 1996, the program has returned 48% of all unclaimed property that was reported to the rightful owner. Most claims occur within the first five years after being reported. A portion of reported funds remain unclaimed due to property owners being unaware of the money, or the holders providing insufficient information to allow the program to locate owners. The program aims to have 39% of property reported to the state returned to owners within the first five years. For fiscal year 2018, 35.5% of property reported to the state has been returned to owners. Due to the time lag, recent legislatively approved staffing increases and process improvements, are just beginning to increase the return rate. It is expected that the changes so far will help to close the gap. As the volume of unclaimed property continues to increase each year, continued investments in resources and efficiency will be necessary to meet the target.

### Timeliness of Claim Processing

The Unclaimed Property program aims to respond to claims within 120 days of receipt, as established in ORS 98.402. However, for years now claim requests have exceeded the team's capacity to review and approve claims timely. Not only does the program see more claims being filed, it also has experienced an exponential growth in garnishment requests. Garnishments now account for 20% of claims work and because they are court-mandated, they take precedence over claims. As a result, wait times keep increasing, negatively impacting the program's statutory compliance and customer service levels. For the last few years, wait times exceeded 12 months, which is four times the statutory response rate. Legislatively approved staffing increases for 2021-23 along with program process improvements since the program transitioned to Treasury, have helped to decrease the current claims time to about 6 months.

## **Enabling Legislation**

The Treasury programs included in the Trust Property Services program unit derive from several constitutional and statutory directives as referenced in the Agency Wide Summary.

# Trust Property Services

## Revenue Streams

The primary revenue source for Trust Property Services is investment interest earned on unclaimed property. As most of the property is held as cash, the money is invested to provide interest to fund operations and be distributed to schools. In addition, administrative rules detail fees that are charged to estates in the Estates and Escheated Property Program, and statutes cover the personal representative fees OST may charge for some estates.

## Unclaimed Property – Treasury Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Other Funds-NL	Positions	FTE
2023-25 LAB	7,791,225	2,608,748	14	11.92
2025-27 LAB	10,972,596	2,793,482	23	20.90
Difference	3,181,371	184,734	9	8.98
<i>Percent Change</i>	<i>40.8%</i>	<i>7.1%</i>	<i>64.3%</i>	<i>75.3%</i>

The Legislatively Adopted Budget of \$10,972,596 million Other Funds-Limited and \$2,793,482 Other Funds-Non Limited continues funding for the Unclaimed Property Program at the current service level for 2025-27 and includes a policy option package to deal with the rapid growth in unclaimed property reported to OST and the increase in the number and complexity of fraudulent claims. Non-limited appropriation is used to cover the costs of multi-state audits performed in other states under a national agreement where funds are due to Oregon. Actual amounts incurred are based on a percentage of funds to be returned to Oregon.

### Activities, programs, and issues in the program unit base budget

The Oregon Unclaimed Property program is a national program that offers consumers a central location to search for property that may have gone unclaimed or presumed abandoned. In Oregon, the program has been in existence since the early 1940’s, and it was originally managed by the office of the Treasurer. In 1957, Oregon adopted the Abandoned Property Act and moved the program to the Oregon Department of State Lands. During the 2019 legislative session, the Oregon State Legislature moved the program back under the purview of the Oregon State Treasury, starting on July 1, 2021.

Originally, unclaimed property applied to financial institutions only. Today, the program works with every industry, including for-profit and non-profit entities, and covers a wide variety of property types. Some common property types include dormant bank accounts, safe deposit box contents, utility deposits and refunds, insurance dividends, matured insurance policies, securities such as stocks and mutual funds, wages, and credit balances. Essentially, any intangible and certain tangible property that is due and payable but cannot, for various reasons, be delivered to the rightful owner is unclaimed property. Businesses, non-profit and government organizations, otherwise known as holders, that have unclaimed property are required to report and remit these assets to the state. Until property is claimed by owners or their heirs, it remains in the state’s custody and is held in the Common School Fund, earning interest for Oregon’s K-12 public education system.

The three distinct responsibilities of the Unclaimed Property program are: Holder Reporting and Education; Claims Management; and

# Trust Property Services

Holder Audit and Compliance.

## Holder Reporting

Oregon's unclaimed property laws require businesses and organizations, called holders, to report and remit property to the state when they lose contact with the owner; usually after a period of one to three years. The program interacts with tens of thousands of businesses in Oregon, the United States and abroad. In general, the last known address of a property owner determines where the property is reported. In Oregon, the holder reporting season occurs every October; the annual filing deadline is November 1 for each year ending as of the preceding June 30.

As reports and payments arrive during reporting season, the unclaimed property team verifies that property and funds are received, and data are accurate. When everything matches, the team posts the data to the public registry on [unclaimed.oregon.gov](https://unclaimed.oregon.gov). That is where property owners search for unclaimed property and submit a claim. This same process applies to tangible property, which primarily comes from abandoned safe deposit boxes at financial institutions, law offices, and health organizations. This type of property generally arrives in the first quarter of each year, a few months after the official holder reporting season.

While the state holds all property for owners and their heirs until claimed, some property is sold, and the proceeds are available to owners to claim. That is the case for safe deposit boxes, which are held for a minimum of a year before they are sold at public auction. The reason for selling items is a practical one – the state can receive more than 1,000 safe deposit boxes in a year. After a while, finding secure space to hold the inventory becomes impractical and costly. Some securities (stock and mutual funds) are also sold to ensure the program portfolio remains manageable.

In the fiscal year 2024, Unclaimed Property received a record \$141 million and 40 million shares in reported unclaimed property from more than 30,000 holders throughout the nation and abroad. While receipts can fluctuate, the last few years saw a consistent increase of reported funds; receipts are expected to increase in the upcoming biennium. Currently, the program holds almost \$1 billion in unclaimed assets for about three million individuals and organizations with a last-known address in Oregon.

As reported property increases, so do the number of holders who file reports. There are more than 60,000 active holders that routinely interact with the unclaimed property team.

## Holder Education

The Unclaimed Property team works closely with holders to educate them on Oregon's laws and rules. The team's efforts range from providing training seminars in advance of each reporting season, sending newsletters and email updates on program changes, speaking at professional organization meetings, providing technical advice to individual holders, or interpreting program statutes to attorneys and accountants representing holders. In addition, the team follows up on complaints from claimants and uses such opportunities to

# Trust Property Services

remind holders of Oregon's unique program rules.

Oregon's approach to increasing compliance has been focused on two strategies: outreach and audit. The program actively targets unclaimed property reporters and non-reporters and attempts to bring them into compliance voluntarily. The team spends significant effort onboarding new holders and ensuring they understand program rules and processes. In addition, Oregon developed a Voluntary Compliance Program. This program is meant to give holders additional time to identify unclaimed property and set up an internal control structure that will allow them to identify unclaimed property consistently. Approved program participants benefit from access to knowledgeable staff and expert advice, and they avoid penalties and interest by working with the state on fully complying with unclaimed property laws.

## Claims Management

The Unclaimed Property program is also responsible for returning assets to their rightful owners or their heirs. The team accomplishes this goal in multiple ways. One approach involves using access to special databases to look for owners' current addresses. When the team finds a better address, staff informs property owners that the state has their assets and tells them how to file a claim. The team's owner location efforts are very successful.

During Fall 2020, the program used an innovative approach to locate property owners and reunite them with their assets. We were able to use automation to identify updated addresses for more than 10,000 property owners and verify that the funds belonged to them. We mailed them each a check without their having to ever file a claim and submit any documentation.

Another approach to locating owners is to collaborate with professional finder companies that hold a private investigator license in Oregon. The program makes available, at a small administrative cost, property lists to firms that specialize in locating individuals. There are about ten companies that frequently represent property owners through the claim process and provide an important service to both the state and claimants.

Lastly, the team helps reunite owners with their property by reviewing and approving unclaimed property claims, which can range from simple owner-to-owner claims to garnishment requests and claims filed by businesses, government entities, and heirs. More specifically, the team ensures that claims meet the criteria and evidence standards set by applicable laws and administrative rules for each claim type, determines the proper claim amount when multiple owners may have a claim, applies judgment to determine whether sufficient documentation has been provided to approve the claim, and takes steps to prevent fraudulent or erroneous claims from being approved.

In the last ten years, claims have more than doubled. Given the rise in unclaimed property assets reported to the state, claims are expected to increase. Another contributing factor to more claims being created is Oregon's new unclaimed property system. In September 2019, the program adopted a new system, KAPS, which allows people to file electronic claims. This convenience is a

# Trust Property Services

tremendous benefit to claimants, and as expected, more claims are being filed because it is easier to do so. KAPS also allows for some automatic approval of simple claims (i.e. property that is owned by one person only and that was reported with a social security number and address) up to \$2,500. This feature has mitigated some of the rapid growth in claims and helped the team process some payments in a more timely and efficient manner.

The program experienced a tremendous increase in new claims due to the Fall 2020 effort to reunite property owners with their property without a need for claim. The local and national publicity we received increased overall claims by 40% in a month, the most rapid growth in the history of the program.

The program aims to return about 50% of the value of the reported funds every year. The following chart represents the historical total property returned.

# Trust Property Services

The Unclaimed Property program aims to respond to claims within 120 days of receipt, as established in ORS 98.402. However, for years now claim requests have exceeded the team's capacity to review and approve claims timely. Not only does the program see more claims being filed, it also has experienced an exponential growth in garnishment requests. Garnishments now account for 20% of claims work and because they are court-mandated, they take precedence over claims. That means that wait times keep increasing, negatively impacting the program's statutory compliance and customer service levels.

## Claims Education and Outreach

In addition to looking for owners and managing claims, the team promotes the program to possible users through paid and free outreach opportunities. Staff attend events throughout Oregon and invite people to search the state's unclaimed property database. When people find their names on the registry, staff walk them through the process of filing a claim and explain the documentation needed to support it. The team would like to increase its outreach activities. However, the more activities they conduct, the greater the number of claims filed, and the longer people wait for their money. The program's ability to balance its responsibility for promoting unclaimed property and provide timely customer service to program participants has become a challenge in recent years. Due to insufficient resources, staff have been torn between assisting existing users and creating new ones.

## Holder Audits and Compliance

Unclaimed Property has two FTE dedicated to conducting audits of smaller-to-medium size holders operating in Oregon. The goal of this work is to increase unclaimed property compliance and reporting through audits and education. The program has traditionally focused on organizations that do not report unclaimed property and has done an excellent job identifying candidates for audit. Nearly 80% of audited entities should have been reporting unclaimed property. For every audit that is completed, the unclaimed property auditors research and communicate with three to four other companies about the program, which increases overall program awareness. In addition, auditors support overall compliance efforts by participating in annual educational seminars and workshops, as well as educating organizations prior to examining their records. In general, one unclaimed property auditor performs dozens of audits a year and brings in significant unclaimed property funds.

The program boosts its compliance efforts by using contracted audit firms that specialize in auditing large national and international companies. Every year, Oregon works with five to seven contractors to complete hundreds of audits, which results in millions of dollars and securities returned to the state. Oregon pays contractors a percentage of the value of unclaimed property returned to the state, between 9% and 15%, depending on the property type.

## Background information

Even though the unclaimed property program has been in existence for more than 60 years, there is little awareness of it in the business community and with the public. This is not a unique Oregon problem; awareness is low nationwide – so low, that holder compliance

# Trust Property Services

with unclaimed property laws is estimated at 6% nationwide. While we do not know precisely how close Oregon is to that compliance rate, we know that four out of five businesses we audit have unclaimed property that is due, and that even those that employ a certified public accountant are surprised to find they are not compliant. We also know that the most frequently quoted answer to non-compliance is the lack of awareness about the program. Similarly, on the claims side, the program faces renewed awareness challenges because with every reporting year, it receives new unclaimed property. New property almost always means new owners, as we rarely have repeat customers. In essence, if the holder team can build on previous years of work, the claims team starts fresh every year, needing to educate a new set of property owners about unclaimed property and how to file a claim.

While Oregon's challenges are similar to those of other states, there are some key differences between us and the rest of the nation. States with similar unclaimed property levels have more robust staffing levels and resources dedicated to increasing unclaimed property awareness. Oregon's staffing levels have not kept up with the increased workload. The program lost staff over time and was unable to add them back. Since its transition to Treasury, unclaimed property has been in rebuilding mode, adding staff and working to improve process efficiency.

Similarly sized states have robust efforts dedicated to promoting unclaimed property. Some have dedicated staff; others employ contractors. The range of activities cover traditional paid media, earned media and strategic community and government partnerships. Oregon's staff have been so overwhelmed by the recent growth in claims and garnishments, that it has barely been able to meet minimum levels of promoting the program. Furthermore, with every gain in public awareness, claims increase, causing longer wait times. The program constantly struggles to balance the needs of existing claimants with those of individuals who do not know their property is has been remitted to the state. Given current staffing levels, the program cannot serve both populations well. As discussed earlier, wait times are still twice statutory levels and the percentage of funds returned to owners is decreasing.

## **Revenue sources and proposed revenue changes**

As described in the program executive summary, the primary revenue source is investment interest from unclaimed properties. No changes in revenue are sought.

## **Proposed new laws that apply to the program unit**

Treasury is working with legislative counsel to propose several legislative changes to improve efficiency and protect property rights, facilitate holder compliance while decreasing the compliance costs, and protect sensitive data in its possession. While these changes will not have a significant effect on revenue, after the initial implementation period, the department should experience some small efficiencies in managing stakeholders and interpreting statutes. The changes are as follows:

- “Securities as unclaimed property” or “unclaimed securities”: The goal of this effort is to revise ORS 98.322 to clarify escheatment

# Trust Property Services

criteria to ensure that all unclaimed securities are returned to the state, rather than only special categories of securities that pay distributions. The change would also strengthen the state's due diligence requirements to increase the likelihood that holders locate owners before reporting securities to the state.

- “Unclaimed wages”: The goal of this change is to revise ORS 98.334 and ORS 98.336 to align dormancy period for unclaimed wages with those of neighboring states and the Revised Uniform Unclaimed Property Act (RUUPA) of 2016. That would reduce the cost of compliance and increase compliance accuracy for the tens of thousands of businesses and organizations affected by this law.
- “Accrued income on unclaimed property”: The goal of this proposed change is to bring ORS 98.372 in line with national standards and RUUPA, and recognize dividends, capital gains, and interest earned on securities to the owner of the underlying investment, rather than the state. The state will still accrue the interest on unclaimed property assets held in the Common School Fund or invested by OST.
- “Unclaimed property claims and audit data exemption from public disclosure”: The goal of this change is to revise ORS 192.355 to create an environment that allows the state to bring holders of unclaimed property in compliance with the state's unclaimed property laws, and to allow claimants the ability to claim funds and have control on how their personal data would be used outside the claims approval process.

## Unclaimed Property – Common School Fund Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Other Funds-NL	Positions	FTE
2023-25 LAB	-	241,251	-	-
2025-27 LAB	-	1,197,467	-	-
Difference	-	956,216	-	-

The Legislatively Adopted Budget of \$1,197,467 Other Funds-Non Limited continues funding for the Unclaimed Property - Common School Fund Program at the current service level for 2025-27. This program includes only Investments in the Common School Fund related to Unclaimed Property received by Treasury since 2021. The purpose is to clearly identify unclaimed property monies that Treasury holds inside the Common School Fund and clearly track on a go-forward basis the Treasury amount of unclaimed property held in the Common School Fund. Non-limited appropriation is used to cover investment expenses incurred by the Common School Fund.

### Activities, programs, and issues in the program unit base budget

#### Invested Unclaimed Property Funds

ORS 98.389 requires the State Treasurer to transfer to the Common School fund any monies not needed for the next fiscal year by July 1. The program transitioned from the Department of State Lands to Oregon Treasury on July 1, 2021. All invested assets remained with the Department of State Lands. Treasury received initial operating cash to manage the program. Going forward, as assets are not needed to pay current claims, amounts will be transferred into the Common School Fund to be invested. Assets in the 2021-23 biennium will be limited but will quickly grow in future biennia. For FY 2024, Treasury transferred \$64.5 million into the Common School Fund.

#### Revenue sources and proposed revenue changes

Assets held in this fund are the primary revenue for the program.

#### Proposed new laws that apply to the program unit

None.

# Trust Property Services

## Estates and Escheated Property Program Unit Narrative

### Expenditure by fund type, positions, and full-time equivalents

	Other Funds-L	Other Funds-NL	Positions	FTE
2023-25 LAB	2,372,042	50,001	5	5.84
2025-27 LAB	2,726,648	76,350	6	7.25
Difference	354,606	26,349	1	1.41
<i>Percent Change</i>	<i>14.9%</i>	<i>52.7%</i>	<i>20.0%</i>	<i>24.1%</i>

The Legislatively Adopted Budget of \$2,726,648 million Other Funds-Limited and \$76,350 Other Funds-Non Limited continues funding for the Estates and Escheated Property Program at the current service level for 2025-27. The Non-Limited appropriation is used to cover legal costs incurred by Treasury on behalf of estates that cannot repay the funds until authorized by the court overseeing the matter.

### Activities, programs, and issues in the program unit base budget

Article VIII, section 2 of the Oregon Constitution deems any property the state may accrue by escheat as part of the Common School Fund. The Estates and Escheated Property Program operates under this provision and contributes millions to the Common School Fund from estates of Oregonians who die without a will and known heirs.

### Unclaimed Estates

The Oregon State Treasurer is tasked with managing the estates of residents who die without a will and without known heirs. The program’s goal is to find heirs for these estates as soon as possible. Until it does, the department acts as personal representative for the estate and fulfills the fiduciary responsibilities imposed by law. More specifically, the process entails identifying assets and outstanding debts; filing probate actions with the appropriate court; performing a preliminary search for heirs; giving public notices; selling estate assets, including real property; coordinating funeral and burial arrangements; reviewing and validating heirship claims; filing estate taxes and making final distributions to heirs and the Common School Fund.

To fulfill these estate administration duties, staff must work closely with local medical examiners, attorneys, sheriff departments, the Oregon Department of Veterans’ Affairs, Department of Human Services Estate Administration Unit, the Department of Revenue, the Oregon Department of Justice and countless financial institutions, utility companies, debt collectors, and attorneys representing potential heirs.

Estates range from those of decedents who are destitute to those with multi-million-dollar assets. The program’s work starts with

# Trust Property Services

reports staff receive from a variety of sources, such as first responders, funeral homes, landlords, law enforcement and concerned neighbors. Staff perform research to identify next of kin and determine whether the estate falls under the department’s jurisdiction. Program staff educate landlords, funeral homes, medical examiners, attorneys, judges, and others concerning the department’s role in intestate estate cases. In addition, the team seeks opportunities to perform outreach in new communities and speak at professional organization meetings about the program.

## Estate Administration

Depending on the complexity of each case, administering an estate can take a few months or a few years. If no heirs come forward in ten years from date of death or eight years from the time of judgment, the value of the estates permanently escheats to the Common School Fund. Millions of dollars pass through the estates program each year, most of which is reunited with rightful heirs. Without the efforts of this program, the assets of many estates would fall into the hands of those who have no legal right to claim them. The main driver of program operations is the number of intestate deaths reported to the agency. In the last few years, the program has seen an incredible

# Trust Property Services

growth in cases. For example, in 2010, there were 121 cases the team investigated. In 2022, staff handled more than 1,200 cases.

## **Heir Location and Validation**

Not every case results in full administration. However, every case requires a set amount of effort to search for heirs or a will and determine whether the estate is solvent. In about 70% of cases, the program identifies heirs and works to reunite them with their property. Even when staff identify heirs, it takes a long time for those heirs to assume responsibility for the estate; until they do, the department continues to fulfill the duties of a personal representative.

## **Escheated Property**

When staff are in the estate administration phase, they secure estate assets and pay creditors. These transactions are tracked by the individual estate, and the funds reside in a fiduciary fund outside the Common School Fund. When the program fulfills all its estate administration, and either a court of law or the program administrator deem the estate closed, the funds move to a holding account. Estate funds can be claimed by heirs for ten years from an Oregonian's date of death or eight years from when the estate closes, whichever is longer. If nobody claims the estate, at the end of the holding period, program staff permanently escheat the money to the Common School Fund. Any heirs who come forward after this process has been completed have forfeited their rights to their inheritance and are unable to claim it.

Escheat revenue comes from two sources: the estates administered by program staff and personal representatives for other Oregon estates. These representatives can be family members, other trusted individuals or attorneys named in wills and estates planning documents. They perform similar work to that of department staff; the difference is that they follow the direction left by a decedent in a will or estate plan. When they are unable to find an heir who is entitled to an estate or a portion of it, or when heirs refuse to take possession of their inheritance, personal representatives are required to send those funds to the state. The Estate and Escheated Property Program deposits the funds and sets them aside for ten years from date of death or eight years from the time of judgment to be claimed by heirs. After that expiration date, the funds become a permanent part of the Common School Fund.

## **Background information**

The Estates team continues to open more cases, locate more heirs and fully administer more estates every year. Between 2014 and 2019, the program case load more than quadrupled from 274 to 1,150, while program staff remained constant at 2.5 FTE. Since then, the program was able to add 1 FTE dedicated to paralegal duties and 2 FTE for fieldwork. In fiscal year 2024, the program processed more than 1,700 cases. They work as a team to ensure assets are protected and to increase their personal safety while in the field. Given the large geographic region they need to cover and the number of reported cases, the team is rarely able to respond timely to estates that need a site visit. In some cases, it takes weeks to respond to estates the need a site visit. Delayed responses put properties at risks of theft and degradation, strain relationships with neighbors and municipalities, and incur additional costs. Delays can also

# Trust Property Services

erode the value of the estate, which exposes the agency to potential litigation from heirs who believe we have not fulfilled our fiduciary responsibilities.

## **Revenue sources and proposed revenue changes**

The Estates Program has a cost recovery methodology that captures the direct and indirect costs for administering solvent estates, as allowed by Oregon Administrative Rules. For program staff, Treasury developed hourly rates to ensure the Common School Fund does not unnecessarily subsidize the program; and heirs do not have an incentive to wait for the state to administer estates it should not. In addition, the program began charging a percentage of assets for the estate administrator's time, as allowed by statutes.

## **Proposed new laws that apply to the program unit**

None.

# Trust Property Services

## Trust Property Services Essential and Policy Packages

### Essential Packages

The Current Service Level (CSL) is required by law and is an estimate of the cost to continue current legislatively-approved programs into the 2025-27 biennium. Essential Packages are the means by which these costs are estimated and budgeted in a standardized format by agencies and evaluated for compliance with these standards by the Department of Administrative Services (DAS). Treasury followed all of these requirements in building the Essential Packages for the 2025-27 biennium.

The narrative below briefly describes each Essential Package, and fiscal details for each package are included in the reports at the end of this section, broken out by fund type, category (e.g., Personal Services, Services and Supplies, etc.), and positions/FTE if necessary.

#### **010 Non-PICS Psnl Svc / Vacancy Savings**

This package contains adjustments to the base budget as directed in 2025-27 Budget Instructions. These adjustments include: standard vacancy factor calculations, non-PICS generated Personal Services inflation adjustments, mass transit taxes, and Pension Obligation Bond assessments.

#### **022 Phase-Outs**

Phase-out package adjustments are generally necessary to take one-time costs approved as part of policy option packages in 2023-25 and remove them from the 2025-27 biennium budget. Phase-outs in this SCR are necessary for one-time staff-related services and supplies expenses in the Expendable Property accounts included in 2023-25 policy option packages.

#### **031 Standard Inflation**

This package provides for standard inflation on all Services and Supplies and Capital Outlay accounts. All expenditure categories were increased by the standard inflation rates defined by DAS in the Budget Instructions, including Professional Services (6.8%), Attorney General (23.3%), Rent (24.1%), and remaining accounts (4.2%). State Government Services Charges were adjusted to match the DAS Price List as required.

### **Package 107 – Trust Property Capacity**

**[Note regarding changes to this POP in LAB from what was originally requested:** This package was adopted by the Legislature, but three (3) of the eleven (11) requested positions (and relevant position-related services and supplies) were not included in the

# Trust Property Services

Budget Report recommendation and were therefore not adopted by the Legislature. Narrative relating to all of the requested positions remains unchanged in this section for reference purposes, but the positions not recommended and adopted are called out with ~~strike-through text~~ in the Staffing Impact section for clarity.]

## Purpose

Oregon State Treasury's Trust Property Division has, by nearly every metric, experienced tremendous growth since moving to Treasury from the Department of State Lands (DSL) in 2021. Upon transferring to Treasury, the amount of unclaimed property reported to the state had seen steady growth year-over-year, however in the past three years that amount has increased by 100%. This growth, coupled with new legislative mandates and increased operational complexity, such as securities management, virtual assets, and increasingly sophisticated fraud, brings challenges to meeting statutory timelines and managing workloads.

During that time period, the staffing levels for the Unclaimed Property Program supporting this work have seen only minimal increases. The program has explored and implemented other ways to deliver services within existing resources, including automating tasks, process refinements to increase efficiencies, utilizing contractors, and bringing in temporary staff and staff rotations.

These efforts provided short-term relief and allowed the Unclaimed Property Program to temporarily make gains on addressing some issues, but despite these efforts, the sheer increases in volume and complexity have left the program operating at capacity and facing material challenges in meeting statutory requirements, performance standards, and customer service expectations.

This substantial, demonstrable increase in both workload volume and complexity that has exceeded the program's efforts to accommodate within existing resources warrant the proportionate increase in staffing proposed in this package, establishing 10 new permanent, full-time positions in the Trust Property Division's Unclaimed Property Program (1 manager and 9 positions supporting holder reporting, claims, and audit), and 1 new permanent, full-time position in the Estates Administration Program (1 manager). These positions address both issues relating to substantial growth in volume and include specialization in the job classifications and duties necessary to meet the corresponding increases in complexity and emerging risk.

This request addresses growth and complexity to date over the last five years, but it does not include capacity for forecasted growth and additional increases in complexity beyond the 2025-27 biennium. Treasury is taking a deliberative, incremental approach to allow for adjustments as we gain greater clarity regarding patterns in growth and complex changes in the unclaimed property environment.

Funding for this request would be paid for out of Other Funds, not General Fund revenue.

## How Achieved

The increased staffing component proposed in this package provides proportionate growth combined with specialization offered by

# Trust Property Services

some of the new positions. This will enable the Unclaimed Property Program, detailed in sections below by team, to address the corresponding material challenges in meeting statutory requirements, performance standards, and customer service expectations in the 2025-27 biennium, and to build a foundation for future biennia.

Holder Reporting Team – In the last few years, Trust Property has received record amounts of unclaimed property. This growth has been so significant that our receipts have more than doubled since taking over the program from DSL in 2021.

In addition to the volume of unclaimed property, Oregon has more than \$1 million in unclaimed property reports that arrive without the corresponding funds and 500 reports that need additional research before we can make them available for claims. Every year, that number grows. In the last three years, problem reports doubled, making up about 3% of all the reports Treasury received, yet taking 20% of our resources to process.

Over the five years since the transfer from DSL, other than a reclassification made in the June 2022 E-Board, the staffing of the Holder Reporting unit has remained largely unchanged at three (3) positions. To address the doubling of its workload, the Treasury proposes, in this package, a correspondingly doubling of the staff of the Holder Reporting team by three (3) additional positions.

Claims Team – Oregon holds more than \$1 billion in unclaimed property, and every year the state receives more unclaimed assets. In the last five years, annual receipts have doubled; Treasury received \$140 million in 2023, and \$210 million in 2024. As the state receives more unclaimed property, the program sees increases in unclaimed property claims. Further compounding this existing growth is the program’s responsibility to advertise that it holds unclaimed funds and look for owners (ORS 98.356). When the program fulfills its outreach duties, claims volume increases quickly, pushing demand beyond current staffing levels. In 2023 alone, the program nearly doubled the claims it processed, and funds returned, yet the program still had over 6,000 claims awaiting processing.

Over that same five-year period, following initial adjustments and an addition made during the transfer from DSL, the Claims team staffing has remained largely unchanged at six (6) positions. To address the doubling its workload, Treasury proposes, in this package, to add six (6) positions to the Claims team doubling its current capacity.

Other Teams - The two remaining teams in Trust Property have received additional resources in the five-year timeframe since the transfer from DSL, but in light of the substantial growth in workload division-wide and in the staffing complement necessary to address that growth, this package adds two (2) management positions to ensure the division’s operational effectiveness.

## Staffing Impact

[As noted at the beginning of this POP narrative, requested positions in the table below with ~~strikethrough text~~ were not recommended and adopted by the Legislature, and detail is left here for reference purposes only.]

# Trust Property Services

Treasury is requesting the establishment of eleven (11) new permanent, full-time (PF) positions phased-in early in the biennium (with one exception, where a new volume-driven Claims Examiner position is phased-in late in the biennium to allow for potential fluctuations in forecasted growth during the 2025-27 biennium):

Action	Working Title	Classification	Type	Pos	FTE	Phase-In
Establish New	Unclaimed Property Claims Manager	Business Operations Manager 2	PF	1	0.92	9/1/2025
Establish New	Estates Administration Manager	Business Operations Manager 2	PF	1	0.92	9/1/2025
Establish New	Senior Claims Examiner	Program Analyst 2	PF	1	0.92	9/1/2025
Establish New	Reporting & Compliance Analyst	Program Analyst 2	PF	1	0.92	9/1/2025
Establish New	Unclaimed Property Auditor	Internal Auditor 2	PF	1	0.79	12/1/2025
Establish New	Unclaimed Property Fraud Investigator	Claims Representative 2	PF	1	0.92	9/1/2025
Establish New	Virtual Assets Reconciliation Analyst	Program Analyst 2	PF	1	0.92	9/1/2025
Establish New	Securities Reconciliation Analyst	Program Analyst 2	PF	1	0.92	9/1/2025
<del>Establish New</del>	<del>Claims Examiner</del>	<del>Public Service Representative 4</del>	<del>PF</del>	<del>1</del>	<del>0.92</del>	<del>9/1/2025</del>
<del>Establish New</del>	<del>Claims Examiner</del>	<del>Public Service Representative 4</del>	<del>PF</del>	<del>1</del>	<del>0.92</del>	<del>9/1/2025</del>
<del>Establish New</del>	<del>Claims Examiner</del>	<del>Public Service Representative 4</del>	<del>PF</del>	<del>1</del>	<del>0.25</del>	<del>1/1/2027</del>

Permanent, full-time positions and corresponding personal services expenditure limitation will automatically phase in to 24 months/1.00 FTE in the 2027-29 biennium.

## Quantifying Results

Quantifying the results of the package will primarily be tied to consistently meeting the statutory 120-day requirement for claims approval by reducing and then eliminating the currently growing backlog. Based on current forecasts the timelines will likely start to increase again later in FY 2027 even with approval of the current staffing additions, but the additions will allow us time to more accurately assess the workload impacts from the recent increases in reported amounts in preparation for future requests.

# Trust Property Services

## Package 811 – Budget Reconciliation Adjustments

As part of the end-of-session omnibus budget bill HB 5006 (2025), the legislature approved an increase in Other Funds limitation and two permanent full-time positions (1.76 FTE) for the Trust Property program to implement the provisions of HB 2089 (2025), which requires the agency to track unclaimed property related to foreclosure surplus proceeds. This is a new type of property for the State Treasury to track under this program and will require two additional Program Analyst 2 positions that will focus on receiving, tracking, and disbursing of the related proceeds.

## Related Packages

In addition to the Essential and Policy Packages directly impacting this program area described in prior pages, there are a number of related packages that have an indirect or aggregate impact on this program area (on cost allocation transfers and possibly revenues only), and they are described in summary below.

Statewide and/or Analyst Packages. The 08x package series is for Emergency Board actions after April of even numbered years, and the 09x package series is for Statewide Packages generally directed by the Department of Administrative Services (DAS) during the Governors Budget process. The 09x package series is then generally eliminated and reinserted/ revised as necessary in the 8xx series of packages in in the Legislatively Adopted Budget.

# Trust Property Services

For the 2025-27 Legislatively Adopted Budget, Treasury has an 810 package (previously 092 in GB) for the Statewide AG Adjustment that reflects a reduction in the standard Attorney General rates, and for a Statewide Adjustment to DAS Charges to reflect modifications to State Government Service Charges and DAS pricelist charges for services to this program area (previously separate in Package 093 in GB).

Administrative Services Packages. Other packages impacting this program area are related to POPs requested in the Administrative Services program area, which is supported via cost allocation transfers by operational programs in Treasury. Accordingly, while expenditure limitation and position/FTE counts are unaffected in the operational program areas, each of the Administrative Services POPs drive adjustments to Transfers for all operational programs. Revenues are only impacted when a specific program can adjust their revenues to accommodate fluctuations in budgeted expenses via an assessment rather than service fees, and revenues are adjusted as appropriate.

The Administrative Services Policy Packages with cost allocation impacts to this program area in the 2025-25 Legislatively Adopted Budget include:

108 - Administrative Services Capacity

110 - IT Capacity & Security

801 - LFO Analyst Adjustments

Information relating to these POPs can be found in the Administrative Services section of this budget document.

## Administrative Services Executive Summary

**Primary Program Contact** - George Naughton, Deputy State Treasurer, 503-378-4000

**Treasury Vision** - Leading the way for Oregonians to achieve long term financial security.

**Program Overview** - Administrative Services supports Treasury by providing overall support and leadership for Treasury. Oregon Treasury Administrative Services contains the following programs:

- Shared Services Program
- Information Technology Program
- State Treasurer Staff

### Total Funds Over Time

2025-27 Legislatively Adopted Budget

Administrative Services | Administrative Services Executive Summary

# Administrative Services

## Program Funding Request

	Other Funds-L	Positions	FTE
2023-25 LAB	39,508,271	88	79.71
2025-27 LAB	47,058,142	90	87.35
Difference	7,549,871	2	7.64
<i>Percent Change</i>	<i>19.1%</i>	<i>2.3%</i>	<i>9.6%</i>

The program has a Legislatively Adopted Budget of \$47,058,142. Other Funds revenue is based on approved cost allocation plans. Long-term budget growth estimates through 2029-31 are included in the bar chart above. Those growth estimates assume standard 9.0 percent inflation for personal services and 4.1 percent for services & supplies. The base budget projections do not include future (2027-31) package requests.

## Program Unit Description

The Administrative Services Program has three main units: Shared Services, Information Technology Services, and State Treasurer Staff.

Shared Services includes Treasury-wide business and support services. This section includes the Deputy State Treasurer, who provides operational leadership to Treasury. Activities in this section include budget, accounting, human resources, procurement, data and records management, facilities operations, risk management, and project management.

The Information Technology Program’s primary purpose is to deliver resilient, robust, and customer-centric services for Treasury through secure and stable systems and network connectivity. The IT team provides systems integration, infrastructure, service desk, application development, and cybersecurity expertise across the agency to help business units successfully achieve their mission, vision, and goals. IT leadership’s primary drivers are organizational maturity and creating efficiencies through capacity, asset, and resource management; governance; and performance management. They also focus on cultivating an enterprise culture where solutions are strategically designed, prioritized, planned, resourced, and executed for cost-effectiveness, while maintaining high quality.

The team is comprised of four functional teams: Technical Services Delivery, Infrastructure Services, Information Security Services, and Application Development Services. Each has a manager overseeing technology projects, personnel, workload, and daily operations.

The State Treasurer Staff includes the State Treasurer, the Chief of Staff, and the necessary program staff to support the State Treasurer.

# Administrative Services

## **Program Performance**

There are no current Key Performance Measures specific to Administrative Services.

## **Enabling Legislation**

The programs included in Administrative Services derive from several constitutional and statutory directives as referenced in the Agency Wide Summary.

## **Revenue Streams**

The Administrative Services functions at Oregon Treasury are funded by a monthly cost allocation assessment (and receipt of revenues directly in lieu of assessment transfers in some cases) based on budgeted amounts, and then adjusted for actuals in the fourth quarter of each fiscal year. This provides cost stability for the operating units, but still reflects the actual amounts each year. 2 CFR part 225 Appendix E Section C is the federal guidance related to the allowable allocation of shared services costs. Based on that guidance, all Administrative Services expenditures are allocated to the Service areas based on their proportional share of salaries and wages. The only exceptions are where a significant portion of time is spent by an Administrative Services team supporting a single operational program or function, and these costs are accordingly allocated directly to the benefitting operational program or function.

## Shared Services Program Unit Narrative

### Expenditures by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	19,187,500	43	37.45
2025-27 LAB	22,622,257	44	42.09
Difference	3,434,757	1	4.64
<i>Percent Change</i>	<i>17.9%</i>	<i>2.3%</i>	<i>12.4%</i>

The Legislatively Adopted Budget of \$22,622,257 million Other Funds-Limited continues funding for the Shared Services Program at the current service level for 2025-27 and includes a policy option package to help the program area address increases in workload and complexity.

### Activities, programs, and issues in the program unit base budget

#### Human Resources

Human Resources delivers efficient and effective human resource services throughout all levels of the agency with integrity, responsiveness, sensitivity, and collaboration. Human Resources’ customer base is both internal and external. Internal customers include employees seeking advice and assistance in all areas of human resource management: classification and compensation, discipline and grievance resolution, performance management, policy development and interpretation, recruitment and selection, training, and employee records. External customers include members of the general public, such as job-seekers, and representatives from other state agencies requesting or providing information.

#### Internal Audit

Internal Audit Services provides value-added, professional internal audit and consulting services to Treasury management for the benefit of the agency and our stakeholders. Treasury’s audit and consulting services are designed to evaluate and improve the effectiveness of Treasury’s risk management processes, identify internal control and compliance concerns, and provide Treasury management with information that is useful in the governance of the agency.

Internal Audits has the authority to conduct audit and consulting engagements over all parts of Treasury and shall have full and complete access to any of the organization’s records, physical properties, and personnel relevant to the performance of an engagement. Internal Audit is also granted the authority to request information of and meet with third parties providing services to Treasury. Internal

# Administrative Services

auditors have access to Treasury Board and Council members as needed to complete assigned engagements and report on the results of those engagements, if required.

## Budget & Accounting

Prior to the 2021-23 biennium Treasury utilized the statewide services agreement with DAS to support accounting functions. The Treasury accounting team provides daily transaction support to all business units, prepares necessary reports for statewide financial reporting, federal reporting, and maintains a system of internal controls to ensure the accuracy of accounting data. The team continues to put significant efforts into streamlining and automating processes to the greatest extent possible.

Treasury budget staff oversee monthly reporting to Treasury managers, preparing permanent financing plans, preparing legislative reports and impact statements, and creating revenue and expenditure projections. Significant time is spent with Treasury managers to fully understand their current and planned expenditures to help provide executive leadership with accurate budget forecasts to allow for effective oversight. Staff also manage a variety of processes and systems entry as part of the statewide budget development process.

## Procurement

Treasury's procurement services are structured to make purchases efficient so each program division can focus on its core functions. Purchases of \$10,000 or less are generally conducted within each division; Treasury's Investment and Legal and Compliance divisions perform investment-manager contracting activities. All other public procurement and contracting services are provided through centralized support services. The central procurement team provides customer-focused, solution-oriented services to ensure legal and policy requirements are met, the most cost-effective, appropriate business solutions are purchased, and that goods and services meet Treasury's high standards. The procurement team provides training on procurement and contract administration procedures and requirements, monitors performance to ensure compliance with legal and policy requirements and to continually improve processes. The team also works with the Oregon Department of Justice to ensure procurements and contracts are legally sufficient.

Over the past three years, the team has implemented a contract management solution to standardize processes, automate workflows, and improve service delivery through efficient processes. Contract management helps Treasury better manage contracts, understand roles and responsibilities, ensure proper internal controls are in place, and oversee proper invoice and payment approval and timely response to vendor performance issues.

## Facilities

Facilities provides direct support for the development, management, and administration of the built environment Treasury occupies. Facilities ensures indoor environmental quality (noise, lighting, temperature, air) is optimal and FFE is in working condition, and main-

# Administrative Services

tains vendor relationships and oversight, space planning, and safety. The Facilities program is designed to engage with staff and vendors on a daily basis to create a productive work environment through monitoring, work order systems, timely communications, and accepted standards. The major cost drivers are a combination of third-party relationships to complete repairs, and second-party relationships with space planners and designers. Treasury has the potential to reduce these costs by creating opportunities to work directly with vendors to control variable costs of leased space, and expanding opportunities to bring space planning and design in-house.

## Project Management

The Project Management Office provides project management and business analysis services to Treasury. These services are designed to help Treasury achieve objectives through organization and facilitation of initiatives and projects from initial concept and planning through execution and transition to operations. Project managers and business analysts work with Treasury staff and leadership individually and on project teams, coordinate external contractors and vendors in partnership with Procurement and contract administrators, and engage with other state agency personnel to complete project objectives.

The Project Management Office follows the standards put out by the Project Management Institute and International Institute of Business Analysis. Standardized templates and reports are utilized by all projects to ensure consistency in communication to Treasury leadership and project stakeholders.

## Continuity of Operations

The Governor's Office is tasked with overseeing the Continuity of Government. This is coordinated between the State Resilience Officer and the Office of Emergency Management and outlined in ORS 401 and Executive Order 16-07. Agencies are tasked with overseeing their own Continuity of Operations plans. Over the last four years, Treasury has increased coordination with statewide planning efforts. This includes voluntarily complying with DAS policy 107-001-010 for Statewide Continuity of Operations planning, appointing a COOP sponsor, utilizing statewide satellite phone agreements for key staff, moving continuity of operations plans to statewide software, and participating in statewide COOP committees. Where practices and equipment can be standardized across state agencies, Treasury has attempted to do so. However, COOP management remains at an agency level, and where solutions are not available statewide, Treasury must identify and implement the necessary options appropriate for our plan.

Continuity of Operations is an agency-wide initiative to ensure that vital financial operations will continue in the event of major disruptions. A maintained continuity of operations plan includes orders of succession, facilities, records, and systems that Treasury uses to complete essential functions. Updates and routine review of the work is done year-round, including tabletop exercises to test the plan and build resiliency among Treasury leadership.

# Administrative Services

## **Revenue sources and proposed revenue changes**

Consistent with the practice in the overall Administrative Services Program, funding is based on approved cost allocation plans. No changes in funding are proposed.

## **Proposed new laws that apply to the program unit**

None.

# Administrative Services

## Information Technology Program Unit Narrative

### Expenditures by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	16,945,545	37	34.26
2025-27 LAB	20,457,167	37	36.34
Difference	3,511,622	-	2.08
<i>Percent Change</i>	<i>20.7%</i>	<i>0.0%</i>	<i>6.1%</i>

The Legislatively Adopted Budget of \$20,457,167 million Other Funds-Limited continues funding for the Information Technology Program at the current service level for 2025-27 and includes a policy option package to address critical needs in network security, IT business systems, data management, cybersecurity tools, and disaster recovery.

### Activities, programs, and issues in the program unit base budget

#### Technical Services Delivery

The Technical Services Delivery (TSD) team serves as the primary interface between the customer and the IT team. The team’s overall suite of services includes: event, incident, and problem management; request and access management; and asset management. More specifically, the team is responsible for customer relationship management in the handling of Information Technology service inquiries and problems in the areas of email, active directory, computer operating systems, software and hardware acquisitions, desktop applications for all types of computer systems, and patching. TSD has adopted ITIL (Information Technology Infrastructure Library) standards as the framework for delivering and measuring services and support.

#### Infrastructure Services

The Infrastructure Services team provides network and systems architecture and support. This team is responsible for keeping all back-end systems and services functional and secure. The Infrastructure team is responsible for designing, building, and maintaining all the computer and networking systems that OST’s software and applications run on. Their role encompasses managing the data centers (on premises and Disaster Recovery site), managing the firewalls and Intrusion Detection Systems, troubleshooting connectivity issues, designing and implementing new hardware solutions, improving firmware, maintaining servers and routers, refreshing technology, and performing continuous health checks on the network and systems.

# Administrative Services

## Information Security Services

The Information Security Services team, or Infosec team, is responsible for the day-to-day operation of the Information Security Program. In addition to the dedicated InfoSec staff, the entire IT Division is dedicated to the full realization of its security strategy and provides additional security-related resources when/as needed. Treasury's information security management functions are divided into four major areas: Security Engineering, Security Operations, Incident Response, and Program Management. These four security functions cover the depth and breadth of maintaining a robust security program, using the NIST Cybersecurity Framework and CIS Controls as the frameworks of their program.

## Application Development Services

The Application Development Services (ADS) team provides the analysis, design, development, construction, configuration, implementation, and integration of software applications that support OST's business processes. The team also oversees the maintenance and support of existing on premises and cloud-based applications. The ADS team, and its leadership, ensures alignment with division and agency leadership for appropriate business processes in meeting specific application requirements; it also ensures the quality of processes, applications, and technical support for OST customers. The team builds compliance into system life-cycle methodologies and standards and maintains awareness of applicable new technologies and their potential applications. The ADS team also provides data architecture design and data administration for the agency.

## **Revenue sources and proposed revenue changes**

Consistent with the practice in the overall Administrative Services Program, funding is based on approved cost allocation plans. No changes in funding are proposed.

## **Proposed new laws that apply to the program unit**

None.

# Administrative Services

## State Treasurer Staff Program Unit Narrative

### Expenditures by fund type, positions, and full-time equivalents

	Other Funds-L	Positions	FTE
2023-25 LAB	3,375,226	8	8.00
2025-27 LAB	3,978,718	9	8.92
Difference	603,492	1	0.92
<i>Percent Change</i>	<i>17.9%</i>	<i>12.5%</i>	<i>11.5%</i>

The Legislatively Adopted Budget of \$3,978,718 million Other Funds-Limited continues funding for the State Treasurer Staff at the current service level for 2025-27 and includes a package for a General Counsel (GC) position to support OST’s business and coordinate legal services provided to OST by the Department of Justice. Additionally, the GC will advise the Treasurer in her role as a constitutional officer.

### Activities, programs, and issues in the program unit base budget

The State Treasurer Staff includes both the State Treasurer and the staff necessary to effectively fulfill the office’s constitutional and statutory duties. The Chief of Staff works closely with the Deputy State Treasurer to manage the daily operations of the Oregon Treasury.

### Policy Support

The State Treasurer sits on a number of statewide boards, including the State Land Board, State Board of Education, Oregon Investment Council, State Debt Policy Advisory Commission, 529 Savings Board, and Oregon Retirement Savings Board. The Treasurer’s designees sit on a variety of other boards, commissions, and statewide work groups. The State Treasurer is also involved in national efforts including the National Association of State Treasurers where he is currently the Chair of the Legislative Committee. The State Treasurer is also active in the Council of Institutional Investors, Principles for Responsible Investment, and the Sustainability Accounting Standards Board, where he works to promote efforts that will improve fiduciary excellence. Staff provide varying levels of support to the boards and assist in preparing the Treasurer to effectively participate in the groups.

As a statewide elected official, the Treasurer has a responsibility to advocate for policy positions they were elected to pursue. Staff work with the Treasurer, stakeholders, and staff to research, evaluate and refine policy proposals. Periodically boards that the Treasurer is a member of have policy actions that are proposed that require assistance from staff.

# Administrative Services

## Legislative Liaison

Staff frequently interact with the Governor's office, legislative leadership, individual legislators and various staff from those offices to support statewide governmental activities. Staff lead Treasury-wide efforts to review bills, provide feedback to legislative staff regarding impacts, and guide legislative strategy. Research is conducted and background briefings prepared on key proposed legislation.

## Oversee Agency Communications

State Treasurer Staff oversee a variety of communications related efforts to ensure consistency and effective messaging. They prepare speeches for the State Treasurer, prepare and review legislative testimony, and review materials for various Treasury publications.

## Constituent Services

The State Treasurer conducts a variety of outreach across the state to ensure they are effectively representing Oregonians. Staff assist in these efforts by coordinating outreach events, responding to inquiries from constituents, and engaging with stakeholders and stakeholder groups.

## Stakeholder Engagement

Effectively managing the operations of the State Treasurer requires coordinating with federal, state, local and tribal government officials and staff.

## **Revenue sources and proposed revenue changes**

Consistent with the practice in the overall Administrative Services Program, funding is based on approved cost allocation plans. No changes in funding are proposed.

## **Proposed new laws that apply to the program unit**

The State Treasurer has submitted a number of legislative concepts that staff have been working on in support of various Treasury programs. Staff will provide support for the legislative process, but none of the concepts will directly change the work on the program unit.

# Administrative Services

## Administrative Services Essential and Policy Packages

### Essential Packages

The Current Service Level (CSL) is required by law and is an estimate of the cost to continue current legislatively-approved programs into the 2025-27 biennium. Essential Packages are the means by which these costs are estimated and budgeted in a standardized format by agencies and evaluated for compliance with these standards by the Department of Administrative Services (DAS). Treasury followed all of these requirements in building the Essential Packages for the 2025-27 biennium.

The narrative below briefly describes each Essential Package, and fiscal details for each package are included in the reports at the end of this section, broken out by fund type, category (e.g., Personal Services, Services and Supplies, etc.), and positions/FTE if necessary.

#### **010 Non-PICS Psnl Svc / Vacancy Savings**

This package contains adjustments to the base budget as directed in 2025-27 Budget Instructions. These adjustments include: standard vacancy factor calculations, non-PICS generated Personal Services inflation adjustments, mass transit taxes, and Pension Obligation Bond assessments.

#### **022 Phase-Outs**

Phase-out package adjustments are generally necessary to take one-time costs approved as part of policy option packages in 2023-25 and remove them from the 2025-27 biennium budget. Phase-outs in this SCR are necessary for one-time staff-related services and supplies expenses in the Expendable Property accounts included in 2023-25 policy option packages.

#### **031 Standard Inflation**

This package provides for standard inflation on all Services and Supplies and Capital Outlay accounts. All expenditure categories were increased by the standard inflation rates defined by DAS in the Budget Instructions, including Professional Services (6.8%), Attorney General (23.3%), Rent (24.1%), and remaining accounts (4.2%). State Government Services Charges were adjusted to match the DAS Price List as required.

### **Package 108 – Administrative Services Capacity**

**[Note regarding changes to this POP in LAB from what was originally requested:** This package was adopted by the Legislature, but six (6) of the eight (8) requested positions (and relevant position-related services and supplies) were not included in the Budget Report recommendation and were therefore not adopted by the Legislature. Narrative relating to all of the requested positions remains unchanged in this section for reference purposes, but the positions not recommended and adopted are called out with ~~strike-~~

# Administrative Services

through text in the Staffing Impact section for clarity.]

## Purpose

Oregon State Treasury's Administrative Services Division faces increasing challenges due to sustained growth in workload and complexity. The division is responsible for overseeing a range of centralized business functions, including accounting, budget, procurement, facilities, and human resources, supporting all Treasury staff and programs. This proposal aims to address critical staffing shortages caused by a 75% increase in transaction volumes, which has extended service delivery times by 30%. To meet these demands, Treasury requests the addition of eight (8) new permanent, full-time positions, and increasing two (2) permanent, part-time positions to full-time in the 2025-27 biennium.

While Treasury programs have expanded in recent years, staffing levels in the Administrative Services Division have not kept pace, increasing turnaround times and put the division's ability to maintain high service standards and compliance at risk. Despite considerable efforts to manage growth through automation and process optimization, the division is unable to maintain sufficient service levels to meet demand. Aligning the division's staffing levels with Treasury's strategic and programmatic goals, will enhance capacity to manage increased demands, ensure long-term financial security, and support operational resilience.

## How Achieved

Treasury's sustained growth in both size and complexity has increased the activities managed by the Administrative Services Division. As Treasury has grown, the Administrative Services Division has not kept pace with the broader organization's needs, leading to increased error rates and longer task completion times, particularly in accounting and procurement.

This package proposal is in response to three main drivers: overall organizational growth, increasing IT complexity, and Trust Property transaction volume growth. These drivers and corresponding staffing solutions necessary to address these drivers are detailed in the following sections.

Over the past eight years, Treasury's staffing and operations have expanded significantly, with substantial growth across most business units. Administrative Services, however, did not see staffing increases until the 2021-23 biennium, when the Trust Property program transitioned to Treasury, requiring additional personnel. Incremental process improvements – such as adjusting internal processes to capture employer IDs for Trust Property – have helped to improve efficiency and workflow, but they have not been able to keep pace with increasing workload demands.

To manage increased workload volumes and complexity, the division has strategically invested in technology and software solutions such as Contract Insights for procurement, DocuSign to streamline expenditure approvals, electronic check depositing, online ACH pay-

# Administrative Services

ments for Unclaimed Property holders, and Tableau for reporting. While these improvements have enhanced operational efficiency and scalability, they also require specialized oversight to manage the information and process flows between systems. A dedicated business analyst is needed to better understand process flows and identify opportunities for further efficiency improvements. The Trust Property Division’s staffing levels have not increased since the program’s transition to Treasury in FY 2021 and are based on the program’s performance levels while administered at the Oregon Department of State Lands prior to the transition. As displayed in the chart below, the number of claims paid increased over 60% between FY 2021 and FY 2024, while holder reports increased almost 15%. Current budget projections expect that claims will continue to increase at about 10-15% per year, necessitating additional staffing to maintain service levels.

To address broader components related to this package, the proposed implementation strategy is focused on adding the requested staff through a staggered approach, allowing managers to manage recruitment processes and onboard staff efficiently.

## Staffing Impact

[As noted at the beginning of this POP narrative, requested positions in the table below with ~~strikethrough text~~ were not recommended and adopted by the Legislature, and detail is left here for reference purposes only.]

Treasury is requesting the establishment of eight (8) new permanent, full-time (PF) position phased-in during the biennium on dates as specified, and increases to two (2) existing positions from part-time to full time:

Action	Classification	Type	Pos	FTE	Phase-In
<i>IncrMo From</i>	<i>Procurement &amp; Contract Specialist 2</i>	<i>PF</i>	<i>-1</i>	<i>-0.65</i>	<i>7/1/2025</i>
<i>IncrMo To</i>	<i>Procurement &amp; Contract Specialist 2</i>	<i>PF</i>	<i>1</i>	<i>1.00</i>	<i>7/1/2025</i>
Establish New	Accountant 3	PF	1	0.92	9/1/2025
<i>IncrMo From</i>	<i>Accounting Technician</i>	<i>PF</i>	<i>-1</i>	<i>-0.50</i>	<i>7/1/2025</i>
<i>IncrMo To</i>	<i>Accounting Technician</i>	<i>PF</i>	<i>1</i>	<i>1.00</i>	<i>7/1/2025</i>
Establish New	Accounting Technician	PF	1	0.92	9/1/2025
<del>Establish New</del>	<del>Procurement &amp; Contract Specialist 1</del>	<del>PF</del>	<del>1</del>	<del>0.88</del>	<del>10/1/2025</del>
<del>Establish New</del>	<del>Accountant 1</del>	<del>PF</del>	<del>1</del>	<del>0.88</del>	<del>10/1/2025</del>
<del>Establish New</del>	<del>Accounting Technician</del>	<del>PF</del>	<del>1</del>	<del>0.42</del>	<del>9/1/2026</del>
<del>Establish New</del>	<del>Operations &amp; Policy Analyst 3</del>	<del>PF</del>	<del>1</del>	<del>0.83</del>	<del>11/1/2025</del>

# Administrative Services

Establish New	Accountant 2	PF	1	0.75	1/1/2026
Establish New	<del>Human Resource Analyst 3</del>	PF	1	0.92	9/1/2025

Permanent, full-time positions and corresponding personal services expenditure limitation will automatically phase in to 24 months/1.00 FTE in the 2027-29 biennium.

## Quantifying Results

The Administrative Services section plays a critical role in ensuring the smooth operation of Treasury’s functions. However, persistent understaffing has resulted in delays in service delivery and decreased efficiency in meeting statutory and operational requirements. Additional staffing will allow the team to consistently maintain essential administrative services, ensuring Treasury’s ability to support financial operations, compliance, and reporting needs without disruption.

## Revenue Source

All components of the proposed package will draw on existing Administrative Services Division revenue sources, with no changes to those sources necessary to accommodate proposed increases in expenditure limitation. Consistent with the practice in the overall Administrative Services Program, Administrative Services Division funding is based on approved cost allocation plans.

## Package 110 – IT Capacity & Security

**[Note regarding changes to this POP in LAB from what was originally requested:** This package was adopted by the Legislature, but one (1) of the three (3) requested positions (and relevant position-related services and supplies) was not included in the Budget Report recommendation and was therefore not adopted by the Legislature. Narrative relating to all of the requested positions remains unchanged in this section for reference purposes, but the position not recommended and adopted is called out with ~~strikethrough~~ text in the Staffing Impact section for clarity.]

## Purpose

Oregon State Treasury’s Information Technology Division proposes a comprehensive initiative to address critical needs in network security, IT business systems, data management, cybersecurity tools, and disaster recovery. The increasing sophistication of cyber threats and the complexity of IT projects necessitate improved network security and communication within Treasury, and the need for a comprehensive data governance framework and advanced security tools is driven by the expansion towards cloud infrastructure and the limitations of traditional backup systems in addressing modern threats.

To bolster cybersecurity defenses, Treasury seeks funding for essential security tools related to risk analysis and access management.

# Administrative Services

These enhancements will improve vulnerability detection, streamline compliance, and secure user access. Furthermore, Treasury requests expenditure limitation to enhance its Business Continuity Planning (BCP) and Disaster Recovery (DR) strategies by leveraging Microsoft Azure solutions for scalable, cost-effective, and robust disaster recovery infrastructure.

This initiative is vital for improving operational continuity, data security, and compliance with regulatory standards. The proposed roles and tools will collectively address current insufficiencies, enhance decision-making, and maintain the trust of Treasury divisions supported by the IT division. By investing in specialized positions and advanced tools, the Information Technology Division can better manage risks, optimize IT investments, and drive digital transformation. This proactive approach is critical to protecting data, maintaining operational integrity, and ensuring long-term success for the Oregon State Treasury.

## How Achieved

The Information Technology Division has received additional staffing in recent biennia from the legislature for a variety of purposes, but rapid changes in the IT environment is exposing gaps in existing staffing areas, and the proposed comprehensive initiative in this package includes the need to establish three (3) new permanent, full-time positions to address these gaps, including: a dedicated Network Security Analyst to strengthen our defense mechanisms and proactively manage cyber threats, ensuring compliance and safeguarding critical infrastructure; an IT Business Systems Analyst to bridge the gap between business units and the IT division, enhancing communication, streamlining processes, and reducing project delays; and a Chief Data Officer to address the lack of an enterprise data governance framework, ensuring data integration, quality, and driving innovative data strategies.

The addition of staffing and services and supplies resources requested in this package will address integrated but very specific problems and needs and are addressed component-by-component in the following sections.

New Position – Network Security Analyst. One of Treasury’s key responsibilities is to safeguard and manage the state’s financial resources, relying heavily on a secure network infrastructure. Over the past two years, the complexity and volume of cybersecurity threats have increased due to rapid digital transformation and cloud adoption, presenting challenges for the existing team. The current Security Operations team, with only two analysts, faces resource overload, and the need for continuous 24x7 monitoring has grown. To address these issues, a specialized permanent, full-time Network Security Analyst (Information Systems Specialist 8) is proposed to enhance threat detection, manage new vulnerabilities, and ensure compliance with tightening regulations, ultimately safeguarding the financial assets and operations of the Oregon State Treasury.

New Position - IT Business Systems Analyst. The Information Technology Division faces challenges in aligning IT systems with business objectives, leading to inefficiencies and project delays. A key reason for this misalignment is the absence of a dedicated, permanent, full-time IT Business Systems Analyst (Information Systems Specialist 7) to bridge the gap between technical teams and business units. Addressing this issue through a dedicated role would improve project execution, operational efficiency, and ensure IT projects meet the

# Administrative Services

expectations of Treasury divisions and leadership.

New Position – Chief Data Officer. The Oregon State Treasury operates in a highly regulated and data-intensive environment, emphasizing the need for effective data utilization and governance to meet business objectives such as regulatory compliance, data-driven decision-making, and leveraging advanced analytics and AI. The absence of a centralized authority for data management leads to inconsistent policies, fragmented data, and increased compliance risks, necessitating the addition of a permanent, full-time Chief Data Officer [CDO] (Information Technology Manager 2). By hiring a CDO, Treasury can align with state-level data strategies, ensure data quality and integration, and address the complexities of the financial sector, thereby driving innovation and improving decision-making.

InfoSec Tools Enhancement. As Oregon State Treasury expands its cloud infrastructure, advanced security measures are essential to address the increasing complexity of applications, regulatory requirements, and user and privileged access management. The deployment of five essential security tools is necessary: an Application Security Scanning Tool for automating vulnerability detection, a Data Encryption Tool to protect sensitive data, a Governance, Risk, and Compliance (GRC) Tool to centralize compliance activities, an Identity and Access Management (IAM) Tool for managing user identities and access rights, and a Privileged Access Management (PAM) Tool to oversee privileged accounts. These tools will enhance data security, ensure compliance, and protect against unauthorized access. Implementing these solutions will help safeguard critical assets, improve operational efficiency, and maintain the resilience of Oregon State Treasury's operations.

BCP/DR Resiliency Enhancement. While Oregon State Treasury's current disaster recovery (DR) and business continuity plan was responsive to Treasury demands a decade ago, it is now outdated and requires significant improvements to keep pace with industry advancements. The existing DR site has half the storage, memory, and processing power of the production data center and limited access for Treasury employees, which strains capacity and necessitates increased budget for hardware and support. Treasury has experienced substantial growth, increasing exposure to risks such as natural disasters and cyber-attacks. Enhancing business continuity planning and disaster recovery strategies involves extending backup and recovery capabilities to Microsoft Azure VMWare Solution and leveraging Azure Backup and Azure Site Recovery. This approach ensures data integrity, security, and rapid recovery, addressing modern threats and safeguarding operations. Investing in Azure's integrated disaster recovery solution will protect data, maintain operational integrity, and serve stakeholders effectively.

The implementation strategy for the InfoSec Tools Enhancement and BCP/DR Resiliency Enhancement components will commence with planning and requirements gathering, followed by procurement, vendor selection, and detailed implementation over the first year in the 2025-27 biennium. The tools will be integrated into our existing IT infrastructure, necessitating updates to software and potentially minimal hardware adjustments.

## Staffing Impact

# Administrative Services

[As noted at the beginning of this POP narrative, requested positions in the table below with ~~strikethrough text~~ were not recommended and adopted by the Legislature, and detail is left here for reference purposes only.]

Treasury is requesting the establishment of three (3) new permanent, full-time (PF) position phased-in early in the biennium:

Action	Working Title	Classification	Type	Pos	FTE	Phase-In
Establish New	Chief Data Officer	Information Technology Manager 2	PF	1	0.92	9/1/2025
Establish New	Network Security Analyst	Information Systems Specialist 8	PF	1	0.92	9/1/2025
<del>Establish New</del>	<del>IT Business Systems Analyst</del>	<del>Information Systems Specialist 7</del>	<del>PF</del>	<del>1</del>	<del>0.92</del>	<del>9/1/2025</del>

Permanent, full-time positions and corresponding personal services expenditure limitation will automatically phase in to 24 months/1.00 FTE in the 2027-29 biennium.

## Quantifying Results

Treasury’s Information Technology Services must continually adapt to increasing cybersecurity threats and growing operational demands. Without adequate resources, maintaining secure, reliable, and compliant IT systems becomes increasingly challenging. This request ensures the team has the necessary resources to consistently maintain secure, high-performance IT services, safeguarding Treasury’s critical systems and data while supporting uninterrupted business operations.

## Revenue Source

Consistent with the practice in the overall Administrative Services Program, funding is based on approved cost allocation plans. No changes in funding are proposed.

## Package 801 – LFO Analyst Adjustments

This package increases Other Funds expenditure limitation and establishes one permanent, full-time position (0.92 FTE) for a General Counsel (GC) to support OST’s business and coordinate legal services provided to OST by the Department of Justice. Additionally, the GC will advise the Treasurer in her role as a constitutional officer.

## Related Packages

In addition to the Essential and Policy Packages directly impacting this program area described in prior pages, there are a number of related packages that have an indirect or aggregate impact on this program area (on cost allocation transfers and possibly revenues only), and they are described in summary below.

# Administrative Services

Statewide and/or Analyst Packages. The 08x package series is for Emergency Board actions after April of even numbered years, and the 09x package series is for Statewide Packages generally directed by the Department of Administrative Services (DAS) during the Governor's Budget process. The 09x package series is then generally eliminated and reinserted/revised as necessary in the 8xx series of packages in the Legislatively Adopted Budget.

For the 2025-27 Legislatively Adopted Budget, Treasury has an 810 package (previously 092 in GB) for the Statewide AG Adjustment that reflects a reduction in the standard Attorney General rates, and for a Statewide Adjustment to DAS Charges to reflect modifications to State Government Service Charges and DAS pricelist charges for services to this program area (previously separate in Package 093 in GB).

As noted in all of the operational program section narratives, packages for the Administrative Services program area are supported via cost allocation transfers by operational programs in Treasury, and accordingly each of the Administrative Services POPs described above drive adjustments to Transfers for all operational programs. Revenues are only impacted when a specific program can adjust their revenues to accommodate fluctuations in budgeted expenses via an assessment rather than service fees, and revenues are adjusted as appropriate.

## State Treasurer

Annual Performance Progress Report

Reporting Year 2024

Published: 12/20/2024 9:04:44 AM

# Special Reports

KPM #	Approved Key Performance Measures (KPMs)
1	Oregon Public Employees Retirement Fund Net Performance - Historical 20-year Net Performance compared to target returns.
2A	Oregon Short-Term Fund Expenses - Biennial asset management fee charged against Oregon Short-Term Fund assets for Treasury operations compared to peer group.
2B	Oregon Short-Term Fund Performance - Annual performance of the Oregon Short-Term Fund compared to benchmark rates.
3	Local Government Participation in the Oregon Short-Term Fund - Annual change in the participation of local governments in the Oregon Short-Term Fund.
4	Tax-exempt general obligation bond interest rates. - Average interest rate on tax-exempt general obligation bonds issued as compared to targets.
5	Percentage of eligible Oregonians with a College Savings Account - The total number of 529 college savings accounts as a percentage of the total eligible population in Oregon compared to the national average.
6A	Unclaimed Property Disbursements - Percentage of total unclaimed property returned to owners and/or heirs compared to total amount received.
6B	Unclaimed Property Claim Response Time - Average number of days to respond to Unclaimed Property claims as compared to statutory maximum.
7	Adherence to Board Best Practices - Percent of total best practices met by the Oregon 529 Savings Board and Oregon Retirement Savings Board.
8	Customer Service - Percent of customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.

Performance Summary	Green	Yellow	Red
	= Target to -5%	= Target -5% to -15%	= Target > -15%
<b>Summary Stats:</b>	77.78%	11.11%	11.11%

KPM #1	Oregon Public Employees Retirement Fund Net Performance - Historical 20-year Net Performance compared to target returns.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Oregon Public Employees Retirement Fund Net Performance</b>					
Actual		6.98%	8.33%	8.69%	7.90%
Target		7.76%	7.76%	7.76%	7.66%

**How Are We Doing**

**2024 APPR Treasury-Wide Note:** *Nine of Treasury’s ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.*

The Public Employee Retirement Fund represents the majority of assets managed by the Oregon State Treasury and is the largest revenue source. Assets are to be managed to meet the long-term policy rate of return. Legislative budget investments in program operations should be to improve long-term target returns.

Historical returns are reported by the investment custodian monthly. This information is provided by Treasury staff to the Oregon Investment Council (OIC). The reported 20-year historical performance for the OPERF Regular Account from the previous calendar year end is entered for each APPR update. The target is based on the PERS assumed rate of return with a 20-year annualized rate. The numbers are based on the rate in affect for the last 18 years and the current rate set for the next two years.

To the extent possible, in consideration of market conditions, the goal of this KPM is to exceed the actuarial discount rate approved by the PERS Board, while applying the investment standards established in ORS 293.721 and 293.726. Net of fees, OPERF’s 20-year average annual investment performance of 7.90% outperformed the actuarial discount rate, currently set at 6.9%, and also exceeded its policy benchmark for the twenty-year period ending 12/31/23 (7.90% vs.7.78%).

**Factors Affecting Results**

Numerous macroeconomic and geopolitical events have impacted financial markets throughout the historical 20-year period. The fallout of the ‘Dotcom Bubble’ and the Global Financial Crisis

# Special Reports

bookended the first decade of the 21st century, which resulted in a muted equity market performance during that period. That was followed by a decade of very strong equity markets, particularly in the U.S. and more specifically in the U.S. Information Technology sector, despite the second decade ending in a global pandemic. Developed market interest rates fell for most of the 20-year period, as proxied by the U.S. 10-Year interest rate which was at 5.11% the end of last century and at 0.91% the end of 2020. This was followed by heightened concerns about global inflation, reflected by sharp increases in prices of goods & services after the lifting of Covid-related shutdowns and the Russian invasion of Ukraine. By the end of 2022, the Federal Reserve raised the target range for the Federal Fund Rate above 4%, after spending most of the previous decade below 1%. Concurrently, the U.S. 10-Year interest rate rose through 2022 and ended at 3.88% by the end of the year. While the equity markets continued their strong performance in 2021, inflation concerns led to market selloffs in 2022, particularly in the U.S. Information Technology sector that previously led the strong market performance.

As illustrated in the preceding paragraph, the dominant factor influencing OPERF investment performance is prevailing economic and financial conditions as largely determined by monetary, fiscal and regulatory policies on both national and international levels. Social, political, and foreign policy matters also impact investment performance in the form of overall investment sentiment. In addition, the complex structure of institutional-quality investment portfolios, particularly with large allocations to illiquid private market investment strategies, remains a primary theme, both in terms of forward-looking, return-seeking opportunities and in terms of heightened risk management considerations and perennial resource and personnel constraints.

Consistent with its fiduciary duty, the OIC has directed OST investment staff to diversify OPERF among multiple asset classes, geographies, and strategies, including a substantial and peer-leading commitment to private market and other alternative investments. Deliberate and broad diversification is designed to maximize risk-adjusted, long-term investment returns, and OPERF's historically strong performance record, which has significantly reduced contribution obligations for Oregon taxpayers and businesses, is a testament to the success of this approach.

KPM #2A Oregon Short-Term Fund Expenses - Biennial asset management fee charged against Oregon Short-Term Fund assets for Treasury operations compared to peer group.

Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = negative result

Report Year	2020	2021	2022	2023	2024
<b>Oregon Short-Term Fund Expenses</b>					
Actual		0.052%	0.052%	0.052%	0.052%
Target		0.160%	0.160%	0.160%	0.130%

#### How Are We Doing

**2024 APPR Treasury-Wide Note: Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.**

The Oregon Short Term Fund (OSTF) is managed by the Oregon State Treasury to keep taxpayer dollars safe and to help governments of all sizes to stretch public funds. The OSTF enables governments to earn a rate of return (interest) on money between the time when revenue is received and when the money is needed to pay bills. A portion of the earnings is required to pay for fund operations at Treasury and is reflected in the net returns earned by the fund. Statute has a fee cap of 0.5 bps per month for this reporting period. This KPM compares the fee collected on OSTF to the Lipper Money Market Peer Group Management Fee.

Asset management fees are generally set biennially based on the legislatively approved budget; current fees are set at 0.435 bps per month for this reporting period. The peer group comparison is based on the Lipper Money Market Peer Group Management Fee for March 31 at the time of the legislative session. This reflects the median management fee of the peer group over the last twelve months. As the target rates are not reset each year from what was approved by the Legislature during session (reflected in the Target row in the table above), there will be a natural time disconnect between the actuals and target rates. Standard reporting to the OIC and legislature uses consistent time periods, so any non-KPM reporting would show the current actual expenses compared to the peer group median rate for the same time period.

The goal of KPM #2A is to provide investment and banking services that are cost-efficient compared to external sources. The Oregon Short Term Fund consistently provides low-cost investment and cash management services to state agencies and local governments. As of June 30, 2024, OSTF had an annual management fee of 0.052% compared to the current Lipper Money Market Peer Group

# Special Reports

Median of 0.130% (and compared to the 0.130% Target established in the 2023 legislative session). Although the Lipper median is lower than the previous period, the OST management fee is still significantly lower by 0.078%.

## **Factors Affecting Results**

The Oregon Short Term Fund is operated not-for-profit and as such provides services at a lower cost than external, for-profit commercial enterprises. As the fee for OSTF is set by statute and the Lipper Money Market Peer Group Median remains relatively stable from year to year, we expect the fee differential to remain stable.

KPM #2B Oregon Short-Term Fund Performance - Annual performance of the Oregon Short-Term Fund compared to benchmark rates.  
Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Oregon Short-Term Fund Performance</b>					
Actual		0.48%	-0.76%	3.64%	5.88%
Target		0.12%	0.12%	0.12%	2.50%

#### How Are We Doing

**2024 APPR Treasury-Wide Note:** *Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.*

Investment division staff work to manage the investments of the fund to preserve the principal in the fund, provide liquidity to participants and return yields above what would typically be obtained if the state and local governments were purchasing money market investments.

The goal of KPM #2B is to provide investment returns and banking services that are cost-efficient compared to external sources. The Oregon Investment Council (OIC) determines the OSTF benchmark. Meeting or beating that benchmark, net of fees, is one of the fund's objectives, along with principal preservation and providing liquidity. For fiscal year 2024, OSTF's investment performance exceeded its 91-Day Treasury Bills benchmark (5.88% vs. 5.40%).

#### Factors Affecting Results

Fund investments with original maturities greater than three months are marked-to-market monthly; therefore, interest rate and credit risks affect OSTF investment performance. The Federal Reserve has continued the tightening campaign in an effort to contain inflation by raising the Federal Funds rate four times in 2023 to a current target of 5.50%, increasing by 25 basis points at four of the five Federal Open Market Committee meetings with no action at their June 2023 meeting. This brings the Fed's total number of increases to eleven since March 2022, raising the Federal Funds rate by a total of 525 basis points. This has been beneficial to the OSTF as the rate paid to participants has continued to follow the upward trajectory of short-term interest rates such as Federal Funds, 3-Month Treasury Bills and 2-Year Treasury Notes.

KPM #3	Local Government Participation in the Oregon Short-Term Fund - Annual change in the participation of local governments in the Oregon Short-Term Fund.
	Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024

Target		0%	0%	0%	0%

### How Are We Doing

**2024 APPR Treasury-Wide Note: Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.**

Treasury helps governments across the state, including schools and cities and counties, to stretch taxpayer dollars. Between the time that revenue is received and when the money is needed to pay expenses, governments can deposit money and earn a rate of return by accessing the Treasury-managed Oregon Short Term Fund (OSTF) through the Local Government Investment Pool. Any municipality, political subdivision, or public corporation of this state that by law is made the custodian of, or has control of, any public funds may participate in the pool. Sovereign Tribes are also eligible to participate.

The purpose of KPM 3 is to monitor changes in the number of governments that choose to participate in the pool since local and tribal governments can choose among various statutorily authorized investment options. Because the pool has been operating for several decades, and because the pool is used to distribute various taxes and revenues, most eligible governments participate. Accordingly, Treasury's target is to see no more than minimal change in the number of governments participating. The KPM is calculated as a year-over-year percentage change in the total number of governments participating in the pool.

In 2024, we achieved our target of no more than minimal change with a 2.37% increase in the total number of governments participating in the pool.

### Factors Affecting Results

OREGON  
STATE  
TREASURY

# Special Reports

Several factors impact governments' investment decisions, including budget size, cash flow needs, moneys available for investment, financial goals and priorities, and risk tolerance. Participation in the pool also can be impacted by governments' satisfaction with Treasury services. Treasury's strategy is to offer an attractive short-term investment option with a strong emphasis on customer service and a competitive rate of return.

KPM #4	Tax-exempt general obligation bond interest rates. - Average interest rate on tax-exempt general obligation bonds issued as compared to targets.
	Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = negative result

Report Year	2020	2021	2022	2023	2024
<b>Oregon Debt Activity</b>					
Actual		2.10%	3.35%	3.87%	4.01%
Target		4.50%	4.50%	4.50%	5.50%

#### How Are We Doing

**2024 APPR Treasury-Wide Note:** Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.

Tax-exempt general obligation bonds issued during the fiscal year July 1, 2023 to June 30, 2024 had an approximate all-in interest cost under 4.01%.

Debt Management remains proud of the 4.01% KPM, as strategies were employed in each financing to actively minimize the long-term interest cost to the State. Some of these strategies include moving bonds up and down the yield curve, where rates were lower and investor demand was high. These strategies resulted in tangible economic savings for the State that is represented in a lower interest cost and lower debt service as well as preservation of debt capacity for future issuance.

#### Factors Affecting Results

Interest rates are determined by a combination of macroeconomic factors, volatility in the financial markets, interest rate policy by the Federal Reserve, fiscal actions by and policies of the Federal Government, exogenous factors (Geo-political risks, pandemics, natural disasters), the State's underlying credit metrics and ratings and the structure of the State's Bonds.

Oregon has historically structured its bonds using conservative financing tools such as fixed rate bonds. Further, the State's financial practices have resulted in high credit ratings. In 2021, the State benefitted from record low interest rates and significant easing by the Federal Reserve which caused both tax-exempt and taxable rates to hover near historical lows. The Federal Reserve continued an aggressive tight money policy, in its effort to curb inflation by raising the Fed Funds rate by a combined 525 basis points from January 2022 through June 30, 2024, after no rate action since the 0%

# Special Reports

target set in March 2020.

It should be noted that the KPM of 4.01% represents bonds that were issued during the fiscal year July 1, 2023 to June 30, 2024 at a time of market volatility and when the Federal Reserve continued to maintain a high interest rate environment.

## **Methodology Used**

Treasury's KPM #4 for the Debt Management Division (DMD) is a duration weighted average of the all-in interest cost (yield to maturity of the bonds issued factoring in 1) premium received on issuance of higher coupon bonds, the cost of issuing the debt, and the fees paid to underwriters) for all tax-exempt general obligation bonds issued by State agencies for the State capital programs and subject to the Bond Bill in effect. For FY 2024, the State issued approximately \$609 million in tax-exempt general obligation bonds for State agencies for a consolidated all-in interest cost 4.01% and an aggregate average life of 9.57% years.

KPM #5	Percentage of eligible Oregonians with a College Savings Account - The total number of 529 college savings accounts as a percentage of the total eligible population in Oregon compared to the national average.
	Data Collection Period: Jan 01 - Dec 31

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>529 College Savings Account Penetration Rate</b>					
Actual		5%	12.10%	12.50%	12.50%
Target		4.10%	4.10%	4.10%	10%

### How Are We Doing

**2024 APPR Treasury-Wide Note: Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.**

The 529 College Savings Program was established to assist Oregonians in their efforts to receive post-secondary education. The public policy goal of increasing attendance is met most significantly not by account value, but by having an account. Students with an account are 300% more likely to attend college than those without. The KPM measures how well the program is doing in its efforts to help eligible Oregonians have an account compared to national averages.

The College Savings Program consultant prepares a quarterly report for the 529 board that includes the reference data showing the total number of accounts divided by the total eligible population compared to the national average. This is reported to the board as the 'Account Penetration Rate.' Since the APPR report is due in October of each year, the prior calendar year end results are reported. As there is a national average reported to the board, it was determined that this provides the most effective benchmark. However, the data is reported after the period, so the most recent calendar year national average would be used as the target for the next two periods. Historically Oregon has outperformed the national average. Although there was an increase in the account penetration rate between the first and second years of reporting, it is not as drastic as it seems. The first year the account penetration rate was presented for the direct-sold Oregon College Savings Plan only. The second year, advisor-sold MFS 529 Savings Plan was also included to ensure a full picture of the college savings program participation was captured. As of 12/31/2023, we're seeing the penetration rate holding steady at 12.5%. As these programs have matured, we have participants spending down balances as their beneficiaries attend post-secondary education, which is the design of the plan which will naturally keep the penetration rate from dramatic growth given the role of the plan and age the funds are spent down.

# Special Reports

## Factors Affecting Results

The economy, financial markets, and Oregonians' confidence in their financial security can affect overall results.

KPM #6A Unclaimed Property Disbursements - Percentage of total unclaimed property returned to owners and/or heirs compared to total amount received.

Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Unclaimed Property Disbursements</b>					
Actual		35%	34%	29%	39%
Target		50%	50%	50%	50%

#### How Are We Doing

**2024 APPR Treasury-Wide Note:** Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.

The purpose of KPM #6A is to measure the cumulative rate of return for unclaimed property funds received by Treasury during the current time period, defined in audited financial statements as the "rolling 5-year period for property reported between July 1 of the fiscal year not less than 5 years prior and June 30 of the current fiscal year." For the 2024 APPR reporting period, that translates to funds received in FY2020 and claims paid during the rolling 5-year period between FY2020 and FY2024.

This measure is an indicator of the program's success in returning unclaimed property funds received over an extended period of time to the rightful owners, and how that is changing over time based on improved processes, staffing, etc. – with an expectation for some natural volatility that is outside the control of the program.

For the current reporting period, the program received almost \$80 million in unclaimed property and has so far returned about \$23 million of those funds, or 39%. This shows an improvement over the last three reporting periods, and over time, we expect the overall rate of return to reach the target of 50%.

#### Factors Affecting Results

As the claim period is based on the last five years, there are multiple reporting periods active at a time and impact each other. Our rate is below our target for the following reasons:

**Record receipts.** The \$138.6 million we took in FY2024 represented a significant jump of 26% from FY2023. We returned about the same amount as in previous years, but the substantive increase in

# Special Reports

unclaimed property received exceeded our claims approval capacity. We are on track for similar increases in dollars reported in the future.

**Low staffing.** The program had been understaffed for years at DSL with staffing not keeping up with the increase in unclaimed property growth. OST was able to add 1 FTE dedicated to claims approval in the fall of 2021. Once the person was trained and able to operate at full capacity, our overall claims output increased. For example, the overall funds returned to owners grew from in \$35.5 million in FY2022 to \$58.7 million in FY2024. This significant jump cannot solely be attributed to the addition of one staff member. OST outsourced its call services to a private contractor, which allowed each staff member to dedicate about 35% of their time to claims approval. Furthermore, OST performed a large data match that allowed it to return about \$11 million to owners without the need for manually approving claims.

**Staffing changes.** A few staffing changes at the program level resulted in new claims examiners joining the team. The program has a lengthy training process that can last up to six months. During this period, new staff focus on claims of smaller value and gradually approve larger claims as they become more experienced. This was the case in FY2021 and FY2022, as the team on-boarded new people. That increased focus on lower-level work during the on-boarding process brought down the return rate due to the claims the person was qualified to process.

KPM #6B	Unclaimed Property Claim Response Time - Average number of days to respond to Unclaimed Property claims as compared to statutory maximum.
	Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = negative result

Report Year	2020	2021	2022	2023	2024
<b>Unclaimed Property Claims</b>					
Actual		360	316	192	128
Target		120	120	120	120

#### How Are We Doing

**2024 APPR Treasury-Wide Note:** Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.

The Unclaimed Property program aims to respond to claims within 120 days of receipt, as established in ORS 98.402. During FY2023, the average response timeline was around 192 days, which is a 4-month decrease from the 316 days in FY2022. Our program experienced another decrease of 2-months down to 128 days during FY2024. The program is on an upward trend for this KPM. In July 2022, our approval timeline was 335 days, and we ended FY2024 at 128 days.

The last time the program operated below the 120-day response target was in 2017.

#### Factors Affecting Results

There are two reasons for our progress:

**Contracting phone services.** On May 1st, 2022, with the support of staff and the union, OST outsourced unclaimed property call services. Claims examiners spent about 35% of their time answering customer calls, most of which were general in nature and did not advance claims approval. Since May 2022, the team gained 20-30 days in claims approval for every month of calls being outsourced. Almost all the decrease during FY2023 and FY2024 can be attributed to claims examiners being off the phone and focusing exclusively on claims approval. We don't expect additional gains from contracting phone services, but not continuing our contract would quickly negate the progress we've made since 2022.

# Special Reports

**Increased staffing levels.** Prior to its transfer to OST, the program had been operating with the same number of staff for about 10 years, despite claims more than doubling during that time. In June 2021 the program received an additional full time equivalent claims examiner. OST filled the position in fall 2021 and once the person was trained, the program was able to see improvement. Some of the progress made in FY2023 is due to having one more fully trained person able to approve claims.

We haven't reached our target response rate yet due to the following reasons:

**Record receipts.** The program has been receiving more unclaimed property every year leading to a corresponding increase in claims filed. From 2006 through 2022, receipts averaged a 10% yearly increase. Since the transition, annual increases have been between 20% and 40%, a significant increase from prior periods. Claims and receipts are directly correlated; thus, the more unclaimed property we receive, the more claims are filed by property owners seeking to recover their assets.

**Increased publicity.** Local and national news took a higher interest in unclaimed property during FY2024. There were several TV and newspaper stories promoting unclaimed property, which resulted in more claims being filed during FY2024.

KPM #7 Adherence to Board Best Practices - Percent of total best practices met by the Oregon 529 Savings Board and Oregon Retirement Savings Board.

Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = positive result

Report Year	2020	2021	2022	2023	2024
<b>Adherence to Board Best Practices</b>					
Actual		89%	89%	100%	100%
Target		100%	100%	100%	100%

#### How Are We Doing

**2024 APPR Treasury-Wide Note:** Nine of Treasury's ten KPMs were newly established in the 2021-23 biennium, and accordingly there are no historical actuals or targets for the KPM in the 2020 column.

As part of a statewide effort, a set of nine board best practices was developed for the Oregon Treasury Savings Network boards -the Oregon 529 Savings Board and the Oregon Retirement Savings Board. Each board undertakes a self-evaluation annually, rating each practice on a scale from 1-5.

A score of:

- 1 means we did not meet that best practice
- 2 means we partially met that best practice
- 3 means we mostly met that best practice
- 4 means we met that best practice
- 5 means we exceeded that best practice

For each item, if the board member average was either 4 (meets best practice) or 5 (exceeds best practice), it would be reported as adhering to the practice. The self-evaluations were created in Microsoft Forms and distributed to each board.

The results for 2024 broken down by Board and Best Practice were as follows:

#	Best Practice	ORSB	529	Average	Meets
1	The Board is updated on a regular basis	4.7	4.7	4.7	Yes
2	The Board's mission and high-level goals are current and applicable	5.0	4.7	4.9	Yes
3	The Board reviews the Quarterly Data Performance Report	5.0	4.7	4.9	Yes
4	The Board is informed of rule and policy-making activities	4.5	4.0	4.3	Yes
5	The Board is presented the plans' annual audit	4.8	4.7	4.8	Yes
6	The Board reviews key investment information	5.0	5.0	5.0	Yes
7	The Board members attend appropriate training sessions	4.8	4.3	4.6	Yes
8	The Board reviews best practices	4.5	4.7	4.6	Yes
9	Board meeting materials are available one week prior to the meeting	4.7	4.3	4.5	Yes
	<b>Average of All Best Practices Responses</b>	<b>4.8</b>	<b>4.6</b>	<b>4.7</b>	
<b>9 of 9 Best Practices Met for 2024 Reporting Period =</b>					<b>100%</b>

The target for this KPM was set at 100% as a best practices goal, and under the circumstances described in the next section, the results with 100% of Best Practices met for this KPM were positive. Program staff will utilize the individual trends of the Best Practices results to refine efforts in the upcoming reporting period to further improve the underlying averages of Best Practices met.

#### Factors Affecting Results

The most notable change in 2024 was the welcoming of new Oregon 529 Savings Board members in 2024. Given the new Board members and timing of the survey, we added an additional field of N/A to the Oregon 529 Board Survey this year to allow for an N/A to be selected when Board members don't feel they have enough experience to score the best practice. Scores of N/A were not used in the final KPM averages reported.

For both the Oregon 529 Savings Board and Oregon Retirement Savings Board a majority of the members responded to the survey. To date, the survey is given to the Board members in November, which presents a challenge in ensuring full Board participation. Going forward, this survey will now be given following the August Board Meetings, to provide a longer duration for completion.

# Special Reports

KPM #8 Customer Service - Percent of customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.

**How Are We Doing**

# Special Reports

The goal of KPM 11 is to maintain a high level of customer satisfaction. Targets have been established at the 100% level in all categories. While this may not be possible, the target offers stretch goals for the agency.

Surveys associated with this KPM are only conducted in odd-numbered years, and accordingly Treasury is not scheduled to report on this KPM for the 2024 APPR, and the next regularly scheduled report will be provided in the 2025 APPR.

#### **Factors Affecting Results**

OST utilizes these surveys in the strategic planning process and reinforces with employees the need to provide excellent customer service.

## AUDITS RESPONSE REPORT

The Oregon Secretary of State performs multiple audit engagements each year at the Oregon State Treasury. For the 2021-23 biennium, Treasury received eight audits. During the 2023-25 biennium four audits were completed with four additional currently underway.

### Audits Issued During The 2021-23 Biennium

#### Report No 2021-12: Cybersecurity Controls Audit

**Scope of the Audit:** This audit assessed security controls and the information technology (IT) security management at OST.

**Findings:** No significant findings or material weaknesses were noted on OST operations.

The SOS report noted that OST has a robust security management program that establishes a framework for assessing risk, developing, and implementing effective security procedures, and monitoring the effectiveness of those procedures, and that the agency's focus, investment, and progress towards maintaining a secure IT environment is commendable and noteworthy. The report further noted ten recommendations for improvement on cybersecurity controls. One has been fully resolved and work is ongoing for the remaining recommendations.

#### Report No. 2021-26: Oregon Local Government Intermediate Fund (OLGIF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2021

**Scope of the Audit:** Audit of the financial statements of the OLGIF for the year ended June 30, 2021.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

#### Report No. 2021-27: Oregon Short Term Fund (OSTF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2021

**Scope of the Audit:** Audit of the financial statements of the OSTF for the year ended June 30, 2021.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

#### Report No. 2021-29 : Oregon Intermediate Term Pool (OITP) An Investment Pool of the State of Oregon For the Year Ended June 30, 2021

**Scope of the Audit:** Audit of the financial statements of the OITP for the year ended June 30, 2021.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

#### Report No. 2022-25: Oregon Local Government Intermediate Fund (OLGIF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2022

**Scope of the Audit:** Audit of the financial statements of the OLGIF for the year ended June 30, 2022.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

# Special Reports

**Agency Actions:** No actions required.

**Report No. 2022-26:** Oregon Short Term Fund (OSTF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2022

**Scope of the Audit:** Audit of the financial statements of the OSTF for the year ended June 30, 2022.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

**Report No. 2022-28** Oregon Intermediate Term Pool (OITP) An Investment Pool of the State of Oregon For the Year Ended June 30, 2022

**Scope of the Audit:** Audit of the financial statements of the OITP for the year ended June 30, 2022.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

**Report No. 2022-30** Common School Fund (CSF) Annual Financial Report For the Fiscal Year Ended June 30, 2022

**Scope of the Audit:** Audit of the financial statements of the CSF for the year ended June 30, 2022.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

## Audits Issued During The 2023-25 Biennium

**Report No. 2023-28:** Oregon Local Government Intermediate Fund (OLGIF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2023

**Scope of the Audit:** Audit of the financial statements of the OLGIF for the year ended June 30, 2023.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

**Report No. 2023-27:** Oregon Short Term Fund (OSTF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2023

**Scope of the Audit:** Audit of the financial statements of the OSTF for the year ended June 30, 2023.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

**Report No. 2023-30:** Oregon Intermediate Term Pool (OITP) An Investment Pool of the State of Oregon For the Year Ended June 30, 2023

**Scope of the Audit:** Audit of the financial statements of the OITP for the year ended June 30, 2023.

**Findings:** No significant deficiencies or material weaknesses were noted on OST operations. There were no other findings in the audit report.

**Agency Actions:** No actions required.

# Special Reports

**Report No. 2023-33: Common School Fund (CSF) Annual Financial Report For the Fiscal Year Ended June 30, 2023**

**Scope of the Audit:** Audit of the financial statements of the CSF for the year ended June 30, 2023.

**Findings:** Auditors identified a material weakness in internal controls related to the preparation of the unclaimed property valuation. All amounts were correctly reported in the issued financial statements.

**Agency Actions:** Staff revised the process that led to the understatement to add the necessary review steps. Additional work related to the reconciliation between SFMA and KAPs would require an increase in staffing.

**Report No. : Oregon Local Government Intermediate Fund (OLGIF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2024**

**Scope of the Audit:** Audit of the financial statements of the OLGIF for the year ended June 30, 2024.

**Findings:** Audit is in process

**Agency Actions:** To be advised when the audit is complete.

**Report No. : Oregon Short Term Fund (OSTF) An Investment Pool of the State of Oregon For the Year Ended June 30, 2024**

**Scope of the Audit:** Audit of the financial statements of the OSTF for the year ended June 30, 2024.

**Findings:** Audit is in process

**Agency Actions:** To be advised when the audit is complete.

**Report No. : Oregon Intermediate Term Pool (OITP) An Investment Pool of the State of Oregon For the Year Ended June 30, 2024**

**Scope of the Audit:** Audit of the financial statements of the OITP for the year ended June 30, 2024.

**Findings:** Audit is in process

**Agency Actions:** To be advised when the audit is complete.

**Report No. : Common School Fund (CSF) Annual Financial Report For the Fiscal Year Ended June 30, 2024**

**Scope of the Audit:** Audit of the financial statements of the CSF for the year ended June 30, 2024.

**Findings:** Audit is in process

**Agency Actions:** To be advised when the audit is complete.

## PROPOSED SUPERVISORY SPAN OF CONTROL REPORT

In accordance with the requirements of ORS 291.227, Oregon State Treasury presents this report to the Joint Ways and Means Committee regarding the agency's Proposed Maximum Supervisory Ratio for the 2023-2025 biennium.

### Supervisory Ratio for the last quarter of 2023-2025 biennium

The agency supervisory ratio as of July 1, 2022, was 1:4. The agency supervisory ratio as of July 1, 2024, was 1:4

**The Agency actual supervisory ratio is calculated using the following calculation;**

$$= \frac{\text{Total supervisors} + \text{Employee in a supervisory role} - (\text{1 Agency head})}{\text{Total non-supervisors} + \text{Employee in a non-supervisory role} + \text{Vacancies that if filled would perform a non-supervisory role}}$$

$$\text{Total non-supervisors} = \text{Employee in a non-supervisory role} + \text{Vacancies that if filled would perform a non-supervisory role}$$

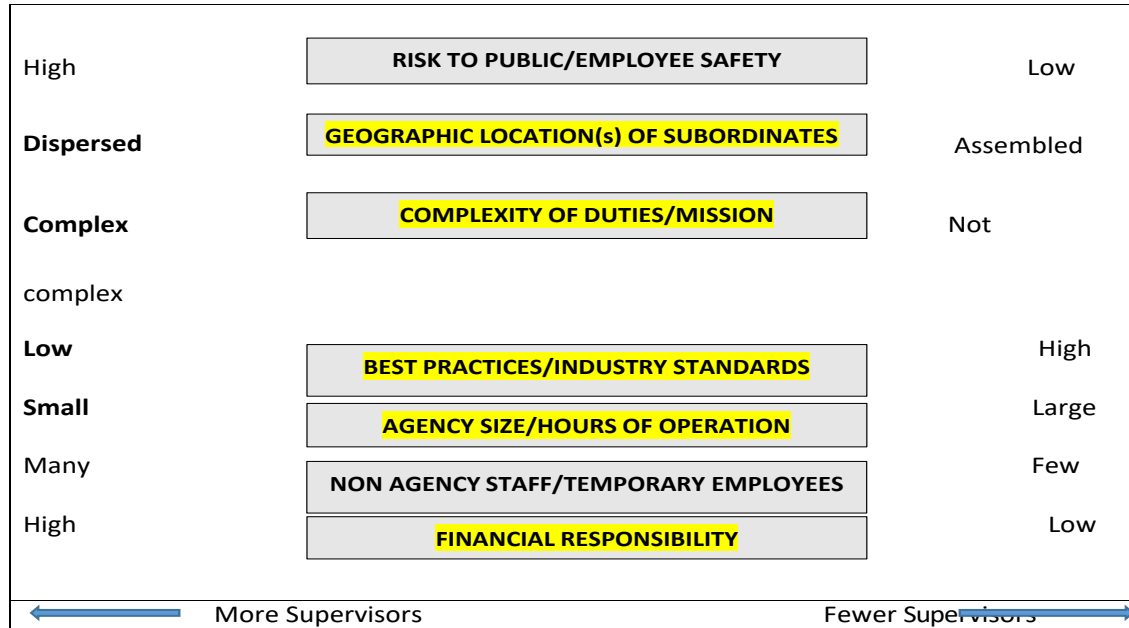

The agency has a current actual supervisory ratio of-

$$1: \underline{4} = \frac{160}{38}$$

(Actual span of control) (Total non - Supervisors) (Total Supervisors)

When determining an agency maximum supervisory ratio all agencies shall begin of a baseline supervisory ratio of 1:6 and based upon some or all of the following factors may adjust the ratio up or down to fit the needs of the agency.

### Ratio Adjustment Factors

Is safety of the public or of State employees a factor to be considered in determining the agency maximum supervisory ratio? **No**

Is geographical location of the agency's employees a factor to be considered in determining the agency maximum supervisory ratio? **No**

Is the complexity of the agency's duties a factor to be considered in determining the agency maximum supervisory ratio? **Yes**

**Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11**

Treasury is responsible for several programs that manage billions of dollars of assets or transactions that require specialized expertise, intense collaboration, and close managerial involvement. Additionally, given Treasurer's significant IT requirements, including maintenance, program development, and security, ratios below 1 to 11 are both unavoidable and necessary as explained below.

OST's investment division manages more than \$140 billion. Those management responsibilities are spread across multiple asset classes, all of which require sector specific expertise. Additionally, the back-office functions – including compliance, accounting, technological, and legal – that support the successful asset class strategies require best practices that do not allow for a 1 to 11 ratio.

Nearly all of the state's banking transactions are handled by the Treasury's finance division. To efficiently meet its responsibilities, this division is separated in multiple teams, leveraging specialties and experience to deliver service to state government.

The Debt Management team at OST is similar in respect to the expertise required to serve the state's vast array of bonding activity and debt management. The team is small but requires multiple levels of oversight and coordination, not only within OST but throughout state government, which mandates a smaller ratio than 1 to 11.

The Oregon Savings Network similarly manages three programs with more than \$4 billion of combined assets. Those programs include public outreach, asset management, and information technology requirements that are not supportable or efficient at a 1 to 11 ratio.

OST's Information Technology resources shoulder responsibilities that are more similar to a major financial institution versus a state agency. IT Security, application development, and support functions are efficiently handled via disbursing the work into specialized teams rather than generalists – again, requiring different ratios than 1 to 11.

Are there industry best practices and standards that should be a factor when determining the agency maximum supervisory ratio? **Yes**

Is size and hours of operation of the agency a factor to be considered in determining the agency maximum supervisory ratio? **Yes**

**Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11**

Based on the work performed in our Investment Division, we have staff schedules aligned with the stock market. The Finance department banking staff schedules align with banking holiday schedules.

Are there unique personnel needs of the agency, including the agency's use of volunteers or seasonal or temporary employees, or exercise of supervisory

**Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11**

Treasury's primary metric for determining appropriate staffing levels is cost effective delivery of services to maximize returns or minimize cost to beneficiaries, state agencies, program participants, or other partners. Management expertise is a key factor toward achieving that objective.

authority by agency supervisory employees over personnel who are not agency employees a factor to be considered in determining the agency maximum supervisory ratio? **No**

Is the financial scope and responsibility of the agency a factor to be considered in determining the agency maximum supervisory ratio? **Yes**

**Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11**

The Investment Program manages over a \$140 billion portfolio made up of the Oregon Public Employees Retirement Fund (OPERF), the State Accident Insurance Fund, the Oregon Short Term Fund, the Oregon Local Government Intermediate Fund, the Common School Fund, and several state agency fixed income funds. This portfolio is designed to generate investment returns which help fund many important State objectives including retirement security for public sector employees, academic support for Oregon schoolchildren, and compensation claims for injured state workers.

The Oregon Savings Network includes 529 College Savings Plans, which are fully self-supporting through revenue received from the program's administrative fees, with more than \$4.2 billion in assets for nearly 223,984 beneficiaries. It also includes the Oregon ABLE Savings Plan, which provides tax-advantaged savings accounts for individuals and their families to save for qualified disability expenses without losing their federal and state benefits; the plan has more than \$53 million in assets and 5,487 total accounts. The OregonSaves retirement program has \$146 million in plan assets and 115, 046 participants.

Treasury acts as the bank for all state agencies and participating public universities providing depository, check redemption, and electronic payment services (including foreign and domestic wire, ACH, and a variety of other services). In 2021, the division processed more than \$361 billion of financial transactions. Additionally, Treasury works with agencies, vendors, and appropriate legal representatives to protect public funds by helping to ensure compliance with regulatory and industry requirements, as well as Oregon public funds laws.

Treasury's Debt Management Program coordinates the sale and issuance of all state revenue and general obligation bonds, certificates of participation, and other financing agreements, including coordination of the sale of Tax Anticipation Notes. The Debt Management Program also issues bonds for Oregon Business Development Commission projects, Oregon Facilities Authority projects, and revenue bonds for state universities.

**Based upon the described factors above the agency proposes a Maximum Supervisory Ratio of 1:6**

## Affirmative Action Report

Workday HCM Employee Demographics Reports as of June 30<sup>th</sup>, 2024, was the data source used for this narrative.

### **Workforce Representation - Women**

Women currently represent 53% of the agency workforce, a 7.7% increase from last reporting period. Between June 2022 and June 2024 female hires represent 64% of total hires and 54.3% of the promotional opportunities.

### **Workforce Representation – People of Color (POC)**

People of Color (POC) currently represent 27.8% of the Agency workforce, a 9.8% increase from last reporting period. Between June 2022 and June 2024 people of color hires represent 36% of total hires and 42.8% of the promotional opportunities.

### **Workforce Representation – Persons with Disabilities (PWD)**

Persons with Disabilities (PWD) represents 2.8% of the Agency workforce.

### **Summary**

We are committed to cultivating a workplace that is diverse, inclusive, and respectful. We value and support the collective differences in who we are and celebrate the fact that everyone comes to the table as their own unique individual. We believe this commitment empowers our success and makes Oregon State Treasury an excellent place to work. As Treasury employees, our commitment to diversity, equity, and inclusion makes this a safe environment for us to ask questions, learn, and grow, and helps us to better serve Oregonians.

While recognizing that we have made incredible strides in our affirmative action goals, the Agency's goals are set to gradually increase and maintain the representation of women, people of color, and persons with disabilities in the Treasury's workforce. We will strive to maintain our gains and gradually increase in each job category, with consistent realistic and steady improvement.

Attrition offers the Agency the opportunity to evaluate the makeup of our workforce and to focus recruitment efforts on promoting and/or hiring women, people of color, and persons with disabilities into all job categories.

The Agency will continue its efforts to attract job applicants and retain employees that are representative of the diversity of the local workforce and will diligently work toward achieving AA/EEO objectives. We will maintain the requirement that 100% of all open competitive vacancies be advertised on Diversityjobs.com website.

## Mission and Objectives

Oregon State Treasury is led by State Treasurer Tobias Read, the state's financial leader, custodian of public funds, and chief investment officer. Treasury prioritizes investing for the long term, doing business the right way, and empowering Oregonians to invest in themselves. Treasury provides ways to help Oregonians to save for retirement through the OregonSaves program, for college and career training costs through the Oregon college savings plans, and our Oregon ABLE savings plan helps with the cost of caring for people with disabilities. Treasury operates the state's investing, banking, and debt programs. Treasury invests for the long-term and sells Oregon bonds help to finance community projects like schools, roads, and armories. The Local Government Investment Pool is available to all Oregon and Tribal governments, and it helps to stretch budgets with a strong rate-of-return on public fund deposits. The Treasurer's office protects public assets and safeguards public funds so that governments can deposit funds safely in banks and credit unions. Treasury helps secure low-cost loans and bonds for nonprofit projects like hospitals and makes money available to Oregon lenders, who can put that money to work in their communities. Treasury engages as a thoughtful shareholder to improve sustainable business practices. Oregon small businesses also benefit from OregonSaves, which allows them to facilitate a retirement savings option with no fees or legal or fiduciary risk.

**Vision:** Leading the way for Oregonians to achieve long-term financial security.

**Mission:** Improving Oregon governments' and citizens' financial capabilities.

**Values & Principles:** Integrity, Professionalism, Trust, Innovation, Diversity, Accessibility

**Organizational Structure:** Treasury operates five program units: Finance Program, Debt Management Program, Investment Program, and Oregon Savings Network Program. These programs are supported by the Executive Program.

- **Finance Program:** provides banking and cash management services to state agencies and facilitates access to the Oregon Short-Term Fund, which includes both state agency and local government funds. Additionally, Treasury oversees the Public Fund Collateralization Program which ensures that deposits of state and local government money that exceed the deposit insurance amounts are protected in the event a financial institution closes or in the event of a more catastrophic impact to the financial sector.
- **Debt Management Program:** provides central coordination for, and issuance of, all Oregon state agency and authority bonds. In addition, this program provides oversight of local Oregon government bonding activity.
- **Investment Program:** comprises financial and real asset investment portfolios in the Oregon Public Employees Retirement Fund (OPERF), State Accident Insurance Fund,
- Common School Fund and other state and agency funds which are managed by Treasury investment officers, subject to OIC oversight.
- **Oregon Savings Network:** oversees investment programs offered to the public and administered by Treasury via public-private partnerships,

# Special Reports

and is composed of the Oregon College Savings Plan, Oregon ABLE Savings Plan, and OregonSaves.

- **Executive Services Program:** supports the programs listed above and is composed of the State Treasurer’s Policy Staff, Shared Services, and Information Technology. The State Treasurer’s Policy Staff liaise and support both the legislative stakeholders and the business units of Treasury as they pursue Treasury’s vision of leading the way for Oregonians to achieve long-term financial security. Our Shared Services section focuses on the central services of Treasury, ensuring the business units of Treasury have the people, facilities, tools, and records to support their goals. Our Information Technology Services section supports Treasury by providing a secure and stable network as well as application support for both in house and external systems.

## Diversity, Equity, and Inclusion Program:

Our Diversity, Equity, and Inclusion (DEI) Business Partner promotes an environment of cultural humility and facilitates a workplace culture that values learning and a diverse work environment where all staff experience an inclusive and equitable setting. OST has a 2023-2026 DEI Strategic Plan to assist us in our goals. This includes training leadership and our staff about DEI best practices and incorporating an equity lens in our everyday work. This strategic plan also assists us in incorporating more ways to ensure that our hiring practices are inclusive and equitable to attract diverse talent.

## Affirmative Action Policies

### Agency Affirmative Action Statement

Oregon State Treasury is committed to creating and maintaining a workforce that represents the diversity within the Oregon community, as well as, ensuring fair and equal employment opportunities for all persons, without regard to race, color, religion, sex, national origin, age, disability, marital status, veteran status, sexual orientation, genetic information, or any other protected characteristic under applicable law within all phases of employment. All employees of Oregon State Treasury are expected to create and maintain a respectful, discrimination-free work environment. Oregon State Treasury does not tolerate discrimination, harassment, retaliation, or intimidation, by anyone and in any form.

### Agency Diversity and Inclusion Statement

We are committed to cultivating a workplace that is diverse, inclusive, and respectful. We value and support the collective differences in who we are and celebrate the fact that everyone comes to the table as their own unique individual. We believe this commitment empowers our success and makes Oregon State Treasury an excellent place to work. As Treasury employees, our commitment to diversity, equity, and inclusion makes this a safe environment for us to ask questions, learn, and grow, and helps us to better serve Oregonians.

## Complaint Options

Anyone who is subject to or aware of what they believe to be discrimination, workplace harassment, workplace intimidation, sexual harassment, sexual assault, or related employment or settlement agreements containing prohibited provisions should report that behavior to the designated individual or alternate. Those individuals making a report of what they believe to be discrimination, workplace harassment, workplace intimidation, sexual harassment or sexual assault may also report that behavior to their immediate supervisor, another manager, or the human resources division. A report of discrimination, workplace harassment, sexual harassment, workplace intimidation, or sexual assault is considered a complaint. Any supervisor or manager, or the human resources division receiving a complaint should promptly notify the agency's designated individual or alternate. Upon receipt of a report of prohibited discrimination, workplace harassment, sexual harassment, workplace intimidation, or sexual assault, the designated individual or alternate shall provide a copy of this policy to the employee. The designated individual and alternate shall maintain appropriate records of all complaints. A complaint may be made orally or in writing. An oral or written complaint should contain the following: the name of the complainant and the name of the person that was subjected to the discrimination, workplace harassment, sexual harassment, workplace intimidation, or sexual assault if they are not the same person; the names of all parties involved, including witnesses; a specific and detailed description of the conduct or action the employee believes constitutes discrimination, workplace harassment, sexual harassment, workplace intimidation or sexual assault; the date or time period in which the alleged conduct occurred; a description of the desired remedy; a report should be made to the designated individual within five (5) years of the occurrence; however, failure to report within five years does not remove the agency's responsibility for coordinating and conducting an investigation.

# Special Reports

## Roles for Implementation of Affirmative Action Plan

### **Responsibilities and Accountabilities**

Treasury is committed to the attainment of affirmative action goals and objectives, as well as an equal employment opportunity. Treasury seeks to offer employment opportunities and a work environment that attracts and retains a diverse workforce. For us to reach our affirmative action goals and objectives we need the commitment from all employees, at all levels within our organization.

Accountability mechanisms of affirmative action include expectations set forth within Treasury position descriptions and evaluation through the quarterly performance check-in process.

### **Deputy State Treasurer**

The Deputy State Treasurer has responsibility for communicating to all Treasury employees the importance of a diverse and discrimination and harassment-free workplace; monitoring progress towards affirmative action goals and objectives; and ensuring compliance with applicable laws, rules, and regulations.

### **Division Directors & Management**

Division directors and management have responsibility for maintaining a respectful workplace environment; encouraging promotional opportunities for women, people of color, and people with disabilities; ensuring that direct reports understand they are being evaluated on their activities and performance relative to the plan; notifying Human Resources with any problems with meeting plan goals and objectives; and ensuring direct reports participate in training related to affirmative action goals and objectives.

### **Human Resources**

Human Resources has the responsibility for compiling, reviewing, revising, and disseminating the Affirmative Action Plan to all employees; developing policies and procedures related to affirmative action goals and objectives, as well as equal employment opportunity; monitoring the progress of the plan; training management and new employees in regards to the plan and equal employment opportunity; investigating complaints and taking corrective action as necessary, and reporting the status of the plan to the Deputy Treasurer.

## Affirmative Action Plan Progress Report 2023-2025

### Executive Summary

DEI at Oregon State Treasury has remained a top priority. Comparing 2024 to 2017, we have had a 164% aggregate increase in female employees, and a 530% aggregate increase in employees of color. In addition to hiring, we have focused on creating an inclusive and welcoming environment with our DEI approach, ensuring strong retention rates and low turn-over of 9.95%. 10%\* turnover is the gold standard and 18%\* in the average turnover rate for government.

In 2021, we implemented our first DEI Employee Survey, seeking input from our employees on how they viewed DEI at OST. Results from that survey influenced our 2023-2026 DEI Strategic Plan. Our DEI Strategic Plan has three focus areas: 1) Building a DEI Foundation, 2) Developing and Promoting an Inclusive Workplace, 3) Creating Equitable Career Development Opportunities. This executive summary will outline our most recent DEI Employee Survey and initiatives we have implemented from our 2023-2026 DEI Strategic Plan.

#### **DEI Employee Survey**

Our DEI Employee Survey shows a strong sense of belonging within our organization. In 2023, our survey revealed that 76% of employees who participated in the survey felt a sense of belonging in their division. In 2024, half of our divisions and work units had a 90% of higher employee perception of sense of belonging (85% overall). The survey also asks employees to share three words to describe their divisions culture at OST – the top three words in 2024 were “friendly”, “inclusive”, and “collaborative”.

We believe in a top-down approach to DEI, meaning that we have high expectations for our leaders and managers to demonstrate a welcoming and inclusive environment. Our 2024 survey revealed that 88% of employees believe the director of their division demonstrates a commitment to DEI, and 90% agree that their supervisor demonstrates this as well (a 10% increase from 2023).

*“My director and immediate team members are very inclusive, making me feel welcome and important.” – Survey respondent*

*“...my director values different staff perspectives and encourages everyone to participate.” – Survey respondent*

\*Zendesk.com June 4, 2024 (Source: Bureau of Labor Statistics)

*“...My supervisor and division director set a good example of how they want everyone to treat each other. I believe they would take it seriously if I ever needed to report an issue to them.” – Survey respondent*

*“They [my division director and supervisor] encourage everyone to be welcoming and respectful.” – Survey respondent*

#### **Commitment to Inclusion**

We are committed to cultivating a workplace that is diverse, equitable, inclusive, and respectful. Our Commitment to Inclusion is a one-page document that reflects the expectation of respect and inclusion at OST. It serves as a guide on how to practice inclusion and belonging – we post this in our Salem and Tigard office and it’s available on our DEI SharePoint page. All new employees are sent this document on their first day of work, and it is used as a conversation guide when engaging in DEI meetings, training, and discussions. It encourages all employees to 1) demonstrate respect, 2) practice inclusive language, 3) encourage collaboration, 4) be intention, 5) embrace learning and growth, 6) address conflict constructively.

## ***Accessible & Inclusive Meetings***

We have provided all divisions with an accessibility PowerPoint Template. This PowerPoint serves as a template and guide to facilitate accessible and inclusive meetings. This document ensures that all communications via Microsoft Office (such as PowerPoint and Microsoft Teams) are accessible for all employees, while providing additional tips to increase inclusion and belonging within divisions. The template includes notifications on how employees can turn on live closed captions within Microsoft Teams, followed by our Commitment to Inclusion. In addition, there are tips and tricks on how to enhance accessibility, such as spotlighting the facilitator of the meeting, utilizing colors that are more accessible for employees who are colorblind, and utilizing the accessibility checker feature in PowerPoint and Outlook.

## ***DEI Advisory Team***

In January of 2023, our first DEI Advisory Team was formed. Our DEI Advisory Team was created to assist with the implementation of DEI strategies, to allow employees to provide constructive feedback on DEI strategies and initiatives, and to increase accountability and transparency regarding DEI. Responsibilities for this group include:

1. Provide constructive feedback about current DEI strategies and initiatives.
2. Review documents, policies, procedures, and other DEI guides created by our DEI Business Partner.
3. Provide insight and ideas to further DEI efforts at OST.
4. Discuss division strengths and identify barriers.
5. Engage with Employee Resource Groups (ERGs) as needed.
6. Practice and promote DEI work in their respective divisions.

Our first cohort of DEI Advisory Team members included employees across divisions, tenure, and from different levels of experience (Directors to new employees). DEI Advisory Team members serve for two years, and we are currently recruiting for our second cohort. Our DEI Advisory Team assisted with the creation and implementation of our Inclusive Language Guide, Employee Resource Groups, bi-monthly cultural events, and provided valuable insight and employee voice.

## ***DEI and Human Resources Internal SharePoint Pages***

We have a DEI and Human Resources SharePoint page for our employees. This page highlights DEI resources for employees, including DEI education and culturally specific support resources, a DEI event calendar for employees to stay up to date on DEI opportunities to participate in, and is updated monthly to ensure ongoing and up to date resources and education.

## ***Monthly DEI Discussions***

In May of 2023, our DEI Business Partner began facilitating optional monthly DEI discussions. We have had a growing number of employees participate each month, where employees have had discussions regarding equity in the workplace, psychological safety, creating a sense of belonging, neurodiversity inclusion, and the concept of calling in vs. calling out, (for a full list, see Accomplishments in Goal 2). To date, 40+ staff is the largest audience to voluntarily attend these discussions.

These monthly sessions are one-hour training sessions, taking place on Microsoft Teams. Sessions serve as a space for employees to learn and engage in thoughtful conversation with one another.

## ***DEI Embedded in Interview Questions***

Our HR team reviewed and assessed our current hiring practices in the spring of 2023. Our DEI Business Partner reviewed recruitment from start to finish, sitting in on interview panels and assessed for equity. We require that every interview contain at least one question related to DEI in the workplace, all interview panel members participate in unconscious bias training, and are mindful of ensuring diverse voices in our interview panels.

## ***Employee Resource Groups***

At the beginning of 2023, our first Employee Resource Group (ERG) was implemented. We began our Gender Equity ERG, which focuses on employees from underrepresented genders, (such as women, trans employees, non-binary employees, and other underrepresented genders).

The purpose of the Gender Equity ERG is to connect employees, foster allyship, and provides opportunities to learn from leaders about navigating gender dynamics in the workplace.

Every other month, we invite a leader from the state of Oregon (either Oregon State Treasury or another government agency), and we ask OST employees to submit questions related to their career and how they have navigated their path to leadership.

## ***Cultural Events for Employees***

In 2024, we began inviting employees to participate in virtual cultural events, with the goal of enhancing allyship and fostering inclusion and belonging. Our first cultural event was in February to celebrate Black History Month. We invited employees to join our DEI Business Partner each week, where employees watched a video celebrating an aspect of Black culture, followed by a facilitated discussion. Due to the success and interest of this event, we began hosting bi-monthly cultural events. Our cultural events have celebrated: Black History Month, Juneteenth, LGBTQ+ Pride Month, and National Hispanic Heritage Month. We also include celebrations of diversity months in our monthly Treasury Digest.

## ***Fellowships, Internships & Scholarships***

*Straub Fellowship* – OST’s Straub Fellowship is designed to offer early career professionals with opportunities to learn about and help guide the “business of government.” The program is open to diverse students who have an interest in public finance, investments, and other fiscal functions. The fellowship is a paid 10-week program for current junior and senior college students (\$10,500 stipend) and an 8-month residency (Postgraduate or newly awarded college graduates) \$25,000 stipend). Since 2017, we have had seven fellows – 29% of fellows have been women of color.

*Girls Who Invest Internships*– *Girls Who Invest (GWI)* is dedicated to increasing the number of women in portfolio management and executive leadership in the investment management industry. We offer the Summer Intensive Program (SIP), which is an 11-week experience open to college sophomores, where they receive a paid investment internship. Since 2020, we have had eight GWI interns – 63% of interns have been women of color.

## ***Oregon College Savings Plan – Diversity in Leadership Scholarship***

The Diversity in Leadership Scholarship is administered through the Oregon Community Foundation and is funded by the Oregon College Savings Plan. The Diversity in Leadership Scholarship was created to support underrepresented and diverse Oregon high school graduates pursuing higher education in Oregon. The scholarship provides financial support to talented students, enabling them to pursue their academic goals and contribute to Oregon’s vibrant economy. By investing in diverse leadership, the Oregon College Savings Plan aims to build a stronger and more equitable future for all Oregonians.

## Special Reports

There are two new recipients each year, with awardees receiving \$10,000 for their freshman year and \$5,000 for each of the next three years of full-time enrollment, or until completion of degree (whichever comes first). Students can use their scholarships to attend a range of Oregon institutions, including apprenticeships, trade schools, community colleges, colleges, or universities.

The Oregon College Savings Plan has disbursed more than \$121,000 in scholarship funds to eight students since 2021.

## Affirmative Action Plan: Goal Progress Report 2023-2025

**Goal 1:** Maintain and increase diversity representation from the previous biennium.

**Strategies:** Work collaboratively with management to ensure job applicants are representative of the diversity of the local workforce. Continue to evaluate and hold management accountable for maintaining a work environment free of discrimination. Continue to post all our position on job boards that capture a diverse applicant pool. Develop new relationships with organizations that assist to recruit diverse applicants. Implement Employee Resource Groups (ERGs).

**Accomplishments:** We continue to post all jobs to diversityjobs.com. This site will then post on other websites that do outreach for the following communities: women, veterans, LGBTQIA+, AAPI, BIPOC (Black, Indigenous, and people of color), Hispanic/Latinx, individuals with disabilities, and older workers. We have also partnered with Partners in Diversity, to post on their online job board as well. Additionally, we have created DEI focused interview question bank and require a minimum of one question at each round focused on DEI. The DEI Business Partner has reviewed all recruitment materials to ensure they are in support of DEI best practices. The DEI Business Partner also observed interviews in progress to view the process from the DEI lens.

OST also has partnerships with HBCUs (Historically Black Colleges and Universities), and other recruitment organizations that focus on recruiting employees who are historically underrepresented. We will be expanding partnerships and adding new ones, to ensure inclusion in our recruitment process. In addition, we have a four-year partnership with Girls Who Invest and have other DEI internships under consideration.

We have implemented a Gender Equity Employee Resource Group (ERG) focused on providing support, soft-skill building, and networking opportunities for historically underrepresented genders in the workplace.

**Goal 2:** Continue to foster a workplace atmosphere that welcomes and promotes diversity and actively practice inclusion within divisions to attract new employees and retain current levels of diverse employees.

**Strategies:** Work with the Diversity, Equity, and Inclusion Business Partner to identify, develop and deliver training to all employees that promote racial equity, recognizing unconscious bias, workplace inclusion, etc. Create a DEI Advisory Team to assist in providing recommendations to create a more inclusive workplace. Implement Employee Resource Groups for employees to establish support networks.

**Accomplishments:** We partnered with an external trainer in September 2023. This trainer provided our organization with a three-hour training focused on belonging, addressing microaggressions, and advancing racial justice in organizations. The training also aimed to “build long-term supportive structures to help individuals with the personal work needed to bring personal, cultural, and systemic changes. All in an effort to bring a sense of wellness and belonging to all regardless of race, background, or identity.” The training included the following topics:

- Getting comfortable with the uncomfortable
- How to override implicit bias
- How to interrupt microaggressions
- Creating a culture of belonging
- Dismantling systems and practices of oppression

## Special Reports

In addition, we have provided the following mandatory training for all employees:

- What is DEI?
- Invisible Disabilities
- Workplace Diversity, Sensitivity, and Inclusion
- 21 Day Plan for Disarming Microaggression
- Neurodiversity Inclusion
- Cultural Humility

Employees also have the option to attend monthly DEI Discussions on Microsoft Teams, where our DEI Business Partner has facilitated discussions on the following topics:

- Psychological Safety
- Sense of Belonging
- Interrupting Gender Bias
- LGBTQIA2S+ Inclusion
- Intersectionality
- Generational Stereotypes
- Disability Inclusion
- Ageism
- Allyship & Bystander Intervention
- Calling in vs. Calling Out
- Neurodiversity at Work
- Understanding Privilege
- Practicing Equity at Work

Leadership has attended the mandatory DEI training listed above, as well as:

- Just Cause – An Interactive Case Study on Racism & Sexism in the Workplace
- Equity 201
- Managing People in Leadership

A DEI Advisory Team was implemented in January of 2023, meeting monthly to provide critical insight into DEI initiatives – the DEI Advisory Team has employees across divisions, including directors.

Our DEI employee survey demonstrates our inclusive culture – in 2024, 85% of our employees reported that they felt a sense of belonging in their division, 91% agreed that they feel respected, valued, and supported by their peers, and 89% feel respected, valued, and supported by leadership in their division. In addition, the top three words that employees used to describe the culture in their division were “friendly”, “inclusive”, and “collaborative”.

During this reporting period, we have hired 40 total employees. Of those employees hired, 50% were people of color and 65% of our hires were women.

**Goal 3:** Increase representation of employees with disabilities.

**Strategies:** Develop a recruitment strategy to ensure that we are posting on job boards that reach people of color, women, LGBTQIA+, and people with disabilities. Train staff on disability inclusion, assisting staff with the understanding of visible and invisible disabilities and to remove stigma associated with disabilities.

**Accomplishments:** We partner with Partners in Diversity to ensure that our recruitments are on their job board. We have trained employees on invisible disabilities in the workplace, and how to actively practice disability inclusion.

As of 2024, 24% of our employees self-reported that they live with a disability on our most recent DEI employee survey, an increase of 6% from the previous year. In 2021, 8% of employees self-reported. In 2023 that number increased to 18% and this year it increased to 24%. We are confident that our training on disability inclusion has decreased stigma of disabilities in the workplace.

## Leadership Evaluation

Our leadership team is actively engaged in DEI work. Currently, we have two directors on our DEI Advisory Team, which meets monthly to discuss strategies to enhance DEI in the workplace. We also have leadership as active members of our Gender Equity Employee Resource Group (ERG). As part of our DEI efforts, leadership engages in management-specific training as well as agency wide training. Most recently, we engaged in a two-day training from a retired Penn State professor that focused on effective leadership, which includes actively practicing DEI. This training focused on helping our management team:

- Understand the interpersonal components of leadership, including the connection between communication and influence.
- Explain the barriers that exist when two or more individuals send and receive messages.
- Identify and manage a critical moment.

## Demographic Analysis: June 30<sup>th</sup>, 2024

### EEO Job Categories by Generation

Generation	Total	
	Percent	Number
Baby Boomers (1947 - 1964)	8.1%	16

## 2017-2024 Diversity, Equity, Inclusion & Belonging

### # of Women: 2017-2024

164% aggregate  
increase in female  
employees  
from 2017-2024

#### Percentage of Women in Each Role:

	2017	2024
Officials/Admin:	25.93%	43.59%
Professionals:	48.08%	51.45%
Admin Support:	100%	77.78%
Paraprofessionals:	100%	100%

### # of Employees of Color: 2017 - 2024

530% aggregate  
increase in employees  
of color  
from 2017-2024

#### Percentage of Employees of Color in Each Role:

	2017	2024
Officials/Admin:	14.81%	28.21%
Professionals:	9.62%	33.33%
Admin Support:	11.11%	22.22%
Paraprofessionals:	0%	0%

### Employees with Disabilities: 2017 - 2024

#### DEIB Survey - Voluntary Demographics

##### Employees with Disabilities:

##### LGBTQIA2S+ Employees:

In Workday, 4% of our employees identify as living with a disability. However, our DEIB survey reveals that number is closer to 24%. Training focused on disability and LGBTQIA2S+ inclusion has contributed to a **growing number of employees self-identifying** as living with disabilities and/or as LGBTQIA2S+.

# Special Reports

## Affirmative Action Goals & Strategies: 2025-2027

**Goal 1:** While recognizing that we have made incredible strides in our affirmative action goals, (currently 28% employees of color and 24% of employees identify as living with a disability according to recent survey data), our focus will be retaining current diversity representation with consistent realistic and steady improvement.

**Strategies:** Work collaboratively with management to ensure job applicants are representative of the diversity of the local workforce. Continue to evaluate and hold management accountable for maintaining a work environment free of discrimination. Continue to post all our positions on job boards that capture a diverse applicant pool. Continue to foster relationships with organizations that assist to recruit diverse applicants. Continue to provide on-going training for all staff to ensure we maintain an open and inclusive environment.

**Timelines:** On-going

**Goal 2:** Collaborate with division leadership with work groups that have been identified as having low representation of employees of color, Veterans, and employees with disabilities at the beginning and during the recruitment process to promote and support increasing representation.

**Strategies:** Human Resources will be working closely with the leadership and management teams to clearly communicate the increased focus on hiring a diverse candidate as well as taking additional time to identify strategies to cast a wider candidate pool net and explore creative and untapped avenues to do everything within our control to ensure that these recruitments have a diverse applicant pool.

In addition, strategies will include: Customize recruiting strategies for specific divisions that have been identified as having low representation. Work collaboratively with hiring managers on recruiting strategies and continue to eliminate unconscious bias in the hiring process. Increase focus on our diversity outreach, networking, and advertising to ensure a more diverse applicant pool.

**Timelines:** On-going

**Goal 3:** Provide additional DEI training for our leadership and management teams.

**Strategies:** Identify external trainers to provide DEI training for our leadership and management teams. Since our teams have a solid foundation of DEI knowledge, we will identify and work collaboratively to find topics that build off previous training.

**Timelines:** On-going.

## Succession Plan

As of September 2024, only 5% (11) employees are eligible to retire. 6% (12) employees are eligible to retire within 5 years. Though our agency does not have a formal succession plan, due to the size of our agency, we do have strategies in place and on-going conversations with the managers impacted.

## Contracting with Minority-Owned Businesses

Treasury is committed to providing opportunities for minority and women owned business to compete for business activity with Treasury. Our

## Special Reports

procurement team follows the Oregon Revised Statutes, Oregon Attorney General’s Public Contracting Code and Model Public Contract Rules for guidance in developing and adopting policies that demonstrate an Affirmative Action Plan for contracting with minority businesses.

All RFPs are posted to the Oregon Procurement Information Network (ORPIN), this ensures that our requests are sent to COBID Firms that are registered in ORPIN. When OST is requested to conduct Intermediate procurements, OST looks at ORPIN to research vendors that are COBID certified, and then sends the documents directly to those vendors.
