Introductions – Please Share

- Name
- Institution and Primary Role
- Current edTPA Status
edTPA Updates - Numbers

- Nearly 700 participating education preparation programs around the country
- Presence in over 40 states
- ~30,000 portfolios scored thus far
- Approximately 8,000 faculty members in online community
Portfolios were scored by more than 2,300 trained educators (~50% faculty / 50% P-12 educators)

Rigorous training, followed by constant monitoring for scoring reliability

Over 20% of scorers are National-Board Certified Teachers

Every portfolio scored and results returned within 3 weeks
Policy in Place
In general, these states have statewide policies in place requiring a state-approved performance assessment as part of program completion or for state licensure and/or state program accreditation/review. In these states, edTPA also has been approved as a performance assessment for these purposes.

Taking Steps Toward Implementation
A performance assessment and/or edTPA are being considered at the state level for program completion or as a licensure requirement.

State Participating in edTPA
At least one provider of teacher preparation—either traditional or alternative—is exploring or trying out edTPA.

Western Governors University is a participating member in edTPA and offers online accredited teacher preparation programs across the U.S.

Welcome to the ResultsAnalyzer. ResultsAnalyzer is a secure, password-protected, easy-to-use tool that allows authorized users to view, analyze, download, and print examinee registration, testing, and test results data. With ResultsAnalyzer you can generate, print, and export reports that you design. For example, you can create a test results report that shows pass rates for any test for a specific program year or group of years. You can then further filter your report to show pass rates for first-time test takers only. Results are displayed in tabular form, and in some cases in graphical formats such as bar and line graphs, for ease of interpretation. Please note that reports generated using ResultsAnalyzer are not substitutes for results reports generated by Pearson and provided to examinees, institutions, and state certification/licensing agencies.

Before using ResultsAnalyzer, you should carefully review the interpretive cautions and notes (See Interpretive Notes tab, above), which contain important information regarding the proper use and interpretation of the data contained herein and the analyses you may perform. By proceeding with ResultsAnalyzer you agree to maintain the confidentiality of the information contained herein and not to disclose the information to unauthorized persons. You agree to implement appropriate safeguards to protect against improper disclosure of information. You agree to maintain the confidentiality of examinee results and to use the information for the purpose for which it was intended as described in the interpretive cautions. By selecting "Yes" below I acknowledge that I have had adequate opportunity to review, to my satisfaction, the interpretive cautions and other terms and conditions that apply to my use of ResultsAnalyzer and I agree to abide by the conditions set forth.
