Re: comment on attorney fees under ORS 656.388 (4)

Dear Board Members:

To assist in trying to make claimants' attorney fees more equitable the percentage of fees from all DCS's and CDA's should be raised to be 25 percent of all amounts. Washington State and California allow percentage fees at level of personal injury contingent fees. A 25 percent limit is much lower and justified, especially if you want claimants' attorneys to remain in practice or enter into representing claimant.

Sincerely,

James Dodge
