Introduction

Within the Oregon juvenile justice system, juvenile detention facility is a locally resourced entity that provides secure placement for youth pursuant to Oregon Revised Statutes.

There are twelve juvenile detention centers in Oregon, operated locally, and three outside of Oregon accessed by adjacent Oregon counties. The Northern Oregon Correctional Facility (NORCOR) is the only juvenile detention facility in Oregon created through a Chapter 190 Intergovernmental Agreement. The operation of each juvenile detention facility is the responsibility of the county juvenile department and the governing entity, except that the 190 intergovernmental entity is governed by a Juvenile Detention Oversight Committee representing the member counties (Gilliam, Hood River, Sherman and Wasco).

The following is a list of the juvenile detention centers in Oregon and their currently funded operating capacity. Several of the facilities have the capacity to expand and constrict based on needs and funding.

Foreword

Purpose

These guidelines pertain to the general operation of juvenile detention facilities in the State of Oregon. They are binding if identified as statutory, federally mandated, or established by administrative rule or other regulation. The guidelines are required by Oregon Revised Statute (ORS) 169.090 (2) which states that the Youth Development Council and the Oregon Department of Corrections are to develop and, when appropriate, revise the guidelines.

Each section of these guidelines includes both the mandatory statutes and regulations, and is followed with a section outlining best practices with juvenile justice. These guidelines are designed to provide juvenile detention facilities the framework to measure the operations and facilities with others in Oregon and nationally. These recommendations support and if implemented assist juvenile detention facilities in meeting and exceeding the mandatory statutes and regulations.

These guidelines do not constitute a comprehensive source of all youth rights or facility’s obligations to these rights under state and federal law, administrative regulations, and the U.S. Constitution. The “best practices” may be grounded in legal rights that are not explicitly addressed by the Oregon statutes referenced in the document.

For the purpose of these guidelines, a juvenile detention facility is a facility for the secure custody of youth accused or convicted acts which would constitute crimes if committed by adults, or for youth held pursuant to judicial orders or commitments under the provisions of Oregon law (ORS 419A.004, ORS419A.010, ORS419A.050 to ORS419A.063 and ORS420.855). “Child serving systems should commit to core principles to ensure an evidence-based and trauma informed response.” (Disability Rights Oregon Report, 2017, Recommendation #4).

In some instances, statute requires written policy. It will be stated explicitly in the guidelines below when that is the case. The intention of these guidelines, however, extends the expectation of a written policy for all of the guidelines without directing what that policy must be, except when legally mandated.

When developing written policy and procedures, a juvenile detention facility should do so in a manner that respects and values diverse life experiences and ensures that all youth are valued and heard, taking into consideration all people’s gender identity, race, ethnicity, national origin, age, sexual orientation, religious believes, family status, education, and/or disability to establish an inclusive environment, and equitable treatment of all.

Background

The guidelines were first adopted in 1982, and revised in 1984 (2nd Edition) and 2001 (3rd Edition) 2012 (4th Edition). The Youth Development Division initiated the current update to the
guidelines. They reviewed the guidelines and solicited feedback from key stakeholders (Oregon Department of Corrections, Oregon Juvenile Department Directors’ Association, Office of Governor Kate Brown, Oregon Department of Education, Oregon Youth Authority, and others) including advocacy organizations to modify and formalize the revisions. The revised guidelines were reviewed and approved by the Director of the Oregon Department of Corrections, Director of the Youth Development Division, and the Youth Development Council.

Effective Date

Format of Revised Guidelines

These guidelines incorporate Oregon Revised Statutes (ORS), and other federal and state regulations and requirements and best practices from the American Correctional Association – Juvenile Detention Facilities, National Partnership for Juvenile Services, National Detention Association, Juvenile Detention Alternatives Initiative – Conditions of Confinement Self-Assessment. ORS references are in bold and link to each respective reference. To accommodate changes in statute and administrative rules, statutory provisions are either paraphrased or referenced. Questions about specific language should be answered by referring to the most recent statute, administrative rule or regulation. These guidelines should be used with comprehensive written policies that ORS 169.760 requires for each juvenile detention facility. This format is intended to provide a uniform framework for organization of local policies.

SECTION 1: GENERAL ADMINISTRATION

1.1 Purpose and Mission
The purposes of the Oregon juvenile justice system beginning with apprehension are to protect the public, to reduce juvenile delinquency, and to provide fair and impartial procedures for the initiation, adjudication and disposition of allegations of delinquent conduct. The system is founded on principles of personal responsibility, accountability and reformation within a context of public safety and restitution to victims and to the community. As required by ORS 419C.001, the system shall provide a continuum of services that emphasize prevention of further criminal activity by the use of early and certain sanctions, reformation and rehabilitation programs and swift and decisive intervention in delinquent behavior, and the system shall be open and accountable to the people of Oregon and their elected representatives.

Juvenile detention facilities provide secure placement for public safety, ensure court appearance, and reintegration services for youth accused of acts which if committed by adults as defined in ORS 419C.145(2). Youth can also be held pursuant to judicial order or commitment, and which are established under the provisions of Oregon law. (ORS 419A.004, ORS419A.010, ORS419.050 to AORS419A.063 and ORS420.855) Children or youth charged with offenses that would not be crimes if committed by adults shall not be held in a detention facility, unless permitted by state law.

“Juvenile detention facility” means a facility as described in ORS 419A.050 – Authority to acquire, equip and maintain detention and shelter facilities and 419A.052 – Specifications of facilities.

In addition to maintaining public safety, juvenile detention facilities are used for skill development, K-12 education, rehabilitation, addressing treatment needs and facilitating the successful reintegration of youth into the community. County detention facilities should commit to core principles to ensure best practices and services. Juvenile detention facilities should integrate culturally-sensitive, gender-responsive, trauma-informed and developmentally appropriate approaches into policy, programming and practices. All detention facilities should be committed to implementing best practices that teach life skills and incentivize pro-social behavior in an effort to develop the tools needed for youth to re-enter and thrive in the community.
Authority to acquire, equip and maintain detention facilities (ORS 419A.050)
Each county has the statutory authority to acquire, equip and maintain detention facilities. The Oregon Department of Education has the statutory authority to provide the K-12 educational services. Statute clearly states the specifications of facilities, examination process of facilities, capacity limits and standards for release.

The juvenile court of each county shall designate the place or places in which youths are to be placed in detention when taken into temporary custody. If the county is adjacent to another state, the court may designate a place or places in the adjoining state where children, wards, youths or youth offenders, pursuant to an agreement between such place or places and the juvenile department of the county, may be placed in detention or shelter care when taken into custody.

“County” as referenced in these guidelines and ORS is the entity operating under the guidelines and authority granted by ORS Chapter 203.

Inspection of juvenile detention facilities and enforcement of the juvenile detention standards contained in ORS 419A.059 or otherwise established by statute, must be conducted in the same manner as provided in ORS 169.070 and 169.080.

These guidelines do not apply to law enforcement facilities in which youth may be temporarily detained pursuant to ORS 419C.080 – Custody when authorized.

If participating in the National School Lunch and/or Breakfast Program, facilities must ensure that serving areas and preparation site are inspected twice annually.

**Best Practices Peer Inspections** Every juvenile detention facility will undergo a peer review inspection biannually using the Juvenile Detention Facilities Checklist. The Checklist will be developed by the YDC in conjunction with OJDDA with input from others and will be reviewed and updated as needed. Peer reviewers will use the Checklist to score each facility.

Peer reviews will include policy review, site visit and input from local stakeholders including judicial, law enforcement, education, youth and families and service providers.

At a minimum, the review must include the following components:

1. Review of grievances submitted by youth and family members, a summary of any common concerns, and an assessment of the facility’s response or plan to address concerns;
2. Review of documentation of hours in cell and a finding regarding the number of waking hours youth spend in cell per day;
3. Review of all reports of physical force, restraint, isolation, room lock or internal search; and
4. Confidential interviews with any youth in custody who choose to participate in an interview.

Yearly peer reviews will be submitted to the YDC – Juvenile Justice Committee who will review and compile data for a report to be published on detention trends.

SECTION 2: INTAKE, ADMISSION AND RELEASE

Intake and Admission decisions will be based on, but not limited to, the least restrictive means needed to ensure community safety, protection of the victim/community, youth’s likelihood to appear for court, and youth’s behavior.

2.1 Intake Decisions
Each county shall designate an organizational unit that is available 24-hours-a-day with responsibility for the intake decision process that is delegated the specific power to make decisions regarding intake. When making decisions the following principles will be used in making determinations.

Objectivity. Detention decisions should be based on racially bias free, neutral, and objective factors such as outlined in ORS 419C.145. Objective criteria anchor detention decisions in ascertainable facts such as the nature and severity of the offense, the number of prior referrals, or the minor’s history of flight from custody.

Uniformity. Local criteria should be uniform in the sense that they are applied equally to all juveniles referred for a detention decision. To achieve the desired level of uniformity, the criteria must be in a written (or electronic) format and must be incorporated into a screening process that is standardized for all referrals.

Risk based. The criteria should be risk-based, meaning that they should measure specific detention-related risks posed by the juvenile. These risks are: the risk of reoffending before adjudication and the risk of failing to appear at a court hearing.

ORS 169.076 Juvenile detention facilities shall have a comprehensive written policy with respect to legal confinement authority, denial of admission, admission and release medical procedures.
ORS 419A.010(2) The director shall be the administrator of the juvenile department or departments for the county or counties, including any juvenile detention facilities maintained by the county or by the counties jointly, and the supervisor of the staff of the juvenile department or departments and detention facilities, subject to the direction of the appointing authority.

ORS 419C.133, ORS 419C.156, ORS 419C.453 Notwithstanding subsection (2) of this section, if the county has entered into a written agreement with any other unit or units of local government to coordinate juvenile detention facilities for the detention of children, wards, youths or youth offenders pursuant to a judicial commitment or order, a juvenile director oversight committee may assume the duties and powers described in subsection (2).

Juvenile detention facilities shall have written policy, procedure, and practice in compliance with Oregon statutory criteria for admission.

ORS 419C.133 Detention of youth under 12 years of age requires judicial review.

ORS 419C.145 Pre-adjudication detention grounds. A youth may be held or placed in detention before adjudication on the merits if one or more of the following circumstances exists:

(a) The youth is a fugitive from another jurisdiction;

(b) The youth is alleged to be within the jurisdiction of the court under ORS 419C.005, by having committed or attempted to commit an offense which, if committed by an adult, would be chargeable as:

   (A) A crime involving infliction of physical injury to another person;

   (B) A misdemeanor under ORS 166.023; or

   (C) Any felony crime;

(c) The youth has willfully failed to appear at one or more juvenile court proceedings by having disobeyed a proper summons, citation or subpoena;

(d) The youth is currently on probation imposed as a consequence of the youth previously having been found to be within the jurisdiction of the court under ORS 419C.005, and there is probable cause to believe the youth has violated one or more of the conditions of that probation;
(e) The youth is subject to conditions of release pending or following adjudication of a petition alleging that the youth is within the jurisdiction of the court pursuant to ORS 419C.005 and there is probable cause to believe the youth has violated a condition of release;

(f) The youth is alleged to be in possession of a firearm in violation of ORS 166.250; or

(g) The youth is required to be held or placed in detention for the reasonable protection of the victim.

The court may not release a youth when:

(A) There is probable cause to believe the youth committed an offense that, if committed by an adult, would constitute a violent felony; and

(B) There is clear and convincing evidence that the youth poses a danger of serious physical injury to or sexual victimization of the victim or members of the public while the youth is on release.

In addition to the pre-adjudicative detention criteria, Oregon law permits detention under specific circumstances:

- Temporary hold to develop release plan (ORS 419C.136).
- Detention of runaway from another state (ORS 419C.156).
- Possession of a firearm or destructive device (ORS 419C.103).
- Interstate Compact for Juveniles (ICJ) case that has been determined by the Oregon ICJ Office to qualify as an ICJ matter (ORS 417.030).

**ORS 419C.136, ORS 419C.156, ORS 419C.103** Juvenile detention facilities shall have written policy in keeping with Oregon statute providing for detention of a person charged with a crime under ORS 137.707. If under 16 years of age, the person may not be detained in a jail or other place where adults are detained. If 16 or 17 years of age, the person shall be detained in custody of a detention facility, unless the county juvenile department director and the sheriff agree to detain the person in a jail or other place where adults are detained, and the person is subject to release on the same terms and conditions as for adults.

**ORS 137.705** Juvenile detention facilities shall have written policy and procedures in keeping with Oregon statute providing for the detention of persons 18 years of age or older under ORS 419C.125.

**ORS 419C.125** Juvenile detention facilities shall have written policy and procedures in keeping with Oregon statute providing for the detention of persons under the age of 18 based on an
order from a court where youth have been waived to criminal or municipal court, as referenced in ORS 419C.130(2).

ORS 419C.130(2) Juvenile detention facilities shall have written policy, procedure, and practice in keeping with Oregon statute permitting admission to detention for a period not to exceed eight days for:

- A youth offender (in addition to time already spent in the facility);
- A youth 12 years of age or older, alleged to be within the jurisdiction of the juvenile court by reason of having committed an act which would be a crime if committed by an adult, who escapes from a juvenile detention facility (ORS 419C.159);
- A youth offender 12 years of age or older, when the youth offender has been found to be within the jurisdiction of the juvenile court by reason of having escaped from a detention facility (ORS 419C.456).

ORS 419C.456 Juvenile detention facilities shall have policy and practice in keeping with the statutory requirement that an unconscious person may not be admitted. No person who is unconscious shall be admitted to a juvenile detention facility, but shall instead be taken immediately to the nearest appropriate medical facility for medical diagnosis, care and treatment.

ORS 169.105 Juvenile detention facilities shall ensure notification of parents or guardians and victims in accord with Oregon law: As soon as practicable after the youth is taken into custody under ORS 419C.080 and 419C.088, the person taking the youth into custody shall notify the youth’s parent, guardian or other person responsible for the youth. The notice shall inform the parent, guardian or other person of the action taken and the time and place of the hearing. If the victim requests, the district attorney or juvenile department shall notify the victim of the time and place of the hearing.

Best Practices

1. The facility’s intake procedures include a process for determining if a youth is limited English proficient (LEP) or are deaf or hard of hearing.
2. The facility has appropriate and reliable interpretation services available to conduct intake in a timely manner for limited English proficient youth and youth who are deaf or hard of hearing. The facility does not charge for interpretation services.
3. Staff provide intake information in a manner the youth can understand paying particular attention to language and literacy needs of youth. Staff provide this information in the primary language used by the youth.
4. During intake, youth should be asked to self-report gender identity and their chosen name or name they use in daily life. Youth who are transgender should be referred to using their chosen pronoun during intake and throughout their stay, and their gender should be recorded in alignment with their self-attested gender. Any youth who reports a chosen name should be referred to by that name during intake and throughout their stay, even if the youth’s name has not been legally changed. If staff use a youth’s chosen name in communication outside of the facility, they only do so at the youth’s request. See Appendix [X] Section [Y] for detailed best practices regarding intake procedures for transgender and gender non-conforming youth.

5. During the intake process, youth receive information explaining, in an age appropriate fashion, the facility’s policy prohibiting sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.

6. When a youth is identified as living out of state, the Oregon Interstate Compact for Juveniles (ICJ) office should be contacted to determine whether ICJ applies to the youth’s situation. The Oregon ICJ staff can determine whether the youth has any outstanding warrants, pending cases is on supervision in another state, and who is the youth's legal guardian(s). Only the Oregon ICJ office can determine whether a youth’s situation qualifies as an ICJ matter.

7. As much as possible, youth’s gender should be recorded as identified by the individual. The Juvenile Justice Information system should have an alert feature stating the chosen name.

2.2 Admissions

Processes at time of admission will be to support age, gender and culturally appropriate social and psychological development of youth.

It is essential that youths and their families, at the time of intake, understand what is happening at all stages of the process, including the purposes, procedures and possible results. This ensures the youths and their families have the opportunity to ascertain what their procedural rights are and sufficient time to make appropriate decisions regarding their rights within the intake process. Information is provided in the youth and family’s own language if they do not understand English.

Best Practices

1. Admission criteria limit detention eligibility to youth likely to commit serious offenses pending resolution of their cases, youth likely to fail to appear in court and youth held pursuant to a specific court order for detention.

2. A risk assessment is done to inform the least restrictive placement for each youth.
3. The facility does not detain status offenders unless the youth violated a valid court order and received the due process protections and consideration of less restrictive observation. Out of state runaways are excluded from this prohibition.

4. Staff will again review with youth their rights to make sure they have a clear understanding.

5. The facility conducts a mental health, disability and medical screening and uses that information to inform admission, placement, referrals, and services provided.

6. The facility considers youth individual safety needs related to gender identity, age, physical, sexual orientation and youth’s preference and concerns in determining appropriate housing.

2.3 Notice of detention hearing

Detention facilities will ensure communication with the Probation Officer/Juvenile Counselor to coordinate the detention hearing within 36 hours of placement in a detention facility as outlined in the Oregon Revised Statute time limitations in ORS 419C. 139 Speedy Hearing on Detention Cases. As above, out of state runaways are covered by Interstate Compact on Juveniles (ICJ), and these youth will have a different hearing process (cf. ORS 317.030).

Facilities will also provide notice as outlined in 419C.142 Notice of Detention Hearing.

ORS 419C.139 No youth shall be held in detention or shelter care more than 36 hours, excluding Saturdays, Sundays and judicial holidays, except on order of the court made pursuant to a hearing under ORS 419C.109 (Initial disposition of youth taken into custody) (3), 419C.145 (Preadjudication detention), 419C.150 (Time limitations on detention), 419C.153 (Detention review or release hearing), 419C.156 (Detention of runaway from another state) and 419C.159 (Escape). [1993 c.33 §171; 1995 c.422 §73f; 1999 c.577 §7]

ORS 419C.142 Whenever a hearing concerning the detention of a youth under this chapter is held, notice of the hearing shall be given to:

(a) The youth;

(b) If any can be found, to a parent or guardian of the youth or to any other person responsible for the youth; and

(c) If the victim requests notice, the victim.

(2) The notice shall state the time, place and purpose of the hearing. If a parent, guardian or other person cannot be found and personally notified prior to the hearing, a written notice of
the hearing shall be left at the residence, if known, of a parent, guardian or other person. [1993 c.33 §172; 2007 c.609 §14]

2.4 Personal Property
ORS 169.076(2)(f)(h) Juvenile detention facilities shall have a comprehensive written policy on personal property accountability which complies with ORS 133.455 and on the release process to include authority, identification and return of personal property.

Best Practices
1. Facility staff will provide an inventory sheet of all personal items a youth enters detention with. Facilities will have a written policy regarding contraband encountered during the intake process and how it will be disposed of.
2. The Facility will provide a secure storage area for youth’s personal belongings.
3. The Facility will provide separate storage for each youth’s personal items.
4. All personal non-contraband items will be returned to a youth upon release.
5. Youth will sign the property sheet indicating they received all their personal items upon their release.

2.5 Orientation
Youth receive written orientation materials and/or translations in their primary language if they do not understand English. When a literacy problem exists, a staff member or other person proficient in the youth’s language will assist the youth in understanding the material. Completion of orientation is documented by a statement signed and dated by the youth.

Youth are assessed for victimization of sexual exploitation/trafficking.

Best Practices
1. At the time of admission or shortly thereafter, youth receive both written and verbal or video orientation to the institutional rights, rules and procedures including;
   a. Identification of key staff and roles.
   b. Rules on contraband and facility search policies.
   c. The facility’s system of positive behavior interventions and supports, including a review of behavior expectations, incentives that youth will receive for complying with facility rules and consequences that may result when youth violate the rules of the facility.
   d. The existence of the grievance procedure, the steps that must be taken to use it, the youth’s right to be free of retaliation for reporting a grievance and the name of the person or position designated to resolve grievances.
   e. Access to routine and emergency health and mental health care.
f. Housing assignments

g. Opportunities for personal hygiene, such as showers.

h. Rules on visiting, correspondence and telephone use.

i. Access to education, religious services, programs and recreation.

j. Policies on use of physical force, restraints and room lock.

k. Emergency procedures.

l. The right to be free from physical, verbal, or sexual abuse and harassment by other youth and staff.

m. How to report problems at the facility such as abuse, feeling unsafe and theft.

n. Nondiscrimination policies and what they mean for youth and staff behavior at the facility.

o. The availability of services and programs in a language other than English.

p. The process for requesting different housing, education, programming and work assignments.

q. Demonstration of appropriate pat-down and clothing searches.

2. Staff make alternative arrangements to provide orientation to youth who are deaf, hard of hearing, blind or who have low vision.

3. The facility makes key information about safety and youth rights available and visible to youth through posters, handbooks or other written formats. Staff make materials available for limited English proficient youth in all appropriate languages. Staff allow youth to retain copies of youth handbooks and other orientation materials in their rooms.

4. The facility will have a language plan to address how to allocate resources necessary to address the language needs of limited English proficient youth and parents or caregivers.

5. In addition to information given at intake staff will provide and document comprehensive age-appropriate information to youth either in person or through video regarding their rights to be free from sexual abuse and sexual harassment, the right to be free from retaliation for reporting such incidents and agency policies and procedures for responding to such incidents. Information provided to youth will be in a format which is easily understood including limited English proficient, deaf, visually impaired or otherwise disabled as well as youth with limited reading skills.

2.6 Detention Review Hearing

ORS 419C.153 Any youth ordered detained under ORS 419C.145, 419C.150 and 419C.156 shall have a review hearing at least every 10 days, excluding Saturdays, Sundays and judicial
holidays. At the review hearing the court shall determine whether sufficient cause exists to require continued detention of the youth.

2.7 Time Limitations

ORS 419C.139 Juvenile detention facilities shall have written policy in keeping with Oregon statutory requirements for speedy hearing on detention cases. No youth shall be held in detention or shelter care more than 36 hours, excluding Saturdays, Sundays and judicial holidays, except on order of the court made pursuant to a hearing.

If good cause for continued detention is shown, the period of detention may be extended for no more than an additional 28 days unless the adjudication is continued with the express consent of the youth.

2.8 Extended Detention

ORS 419C.453

1. Pursuant to a hearing, the juvenile court may order a youth offender placed in a detention facility for a specific period of time not to exceed eight days, in addition to time already spent in the facility, unless a program plan that is in conformance with standards established by the Youth Development Council has been filed with and approved by the council, in which case the youth offender may be held in detention for a maximum of 30 days in addition to time already spent in the facility, when:
   a. The youth offender has been found to be within the jurisdiction of the juvenile court by reason of having committed an act that would be a crime if committed by an adult; or
   b. The youth offender has been placed on formal probation for an act that would be a crime if committed by an adult, and has been found to have violated a condition of that probation.

2. Pursuant to a hearing, the juvenile court may order a youth offender who is at least 18 years of age placed in a jail or other place where adults are detained. The placement must be for a specific period of time and may not exceed eight days in addition to time already spent in a juvenile detention facility or jail. The court may order placement under this subsection when:
a. The youth offender has been found to be within the jurisdiction of the juvenile court by reason of having committed an act that would be a crime if committed by an adult; or
b. The youth offender has been placed on formal probation for an act that would be a crime if committed by an adult, and has been found to have violated a condition of that probation.

3. In order to detain a youth offender under subsection (2) of this section, the court shall make case-specific findings that placement in a jail or other place where adults are detained meets the specific needs of the youth offender.

4. As used in this section, “adult” does not include a person who is 18 years of age or older and is alleged to be, or has been found to be, within the jurisdiction of the juvenile court under ORS 419C.005.

2.9 Interstate Compact for Juveniles

ORS 417.030 Juvenile detention facilities shall have written policy on cooperation with the interstate compact administrator in holding and/or returning juveniles charged with youth offenses from another state or is a runaway from another state in accord with the Interstate Compact on Juveniles.

2.10 Release

ORS 169.076(2)(d)(h) Juvenile detention facilities shall have a comprehensive written policy with respect to:

- Admission and release medical procedures
- Release process to include authority, identification and return of personal property

ORS 169.760(1) Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility with respect to: admission and release of juveniles to and from the facility and proper notification of the juvenile’s parent, guardian or other person responsible for the juvenile.

Best Practices

1. The facility develops and implements written policies, procedures and actual practices to ensure that when the institutional population approaches or reaches its rated capacity, appropriate youth are released or stepped down to a non-secure settings.

2. The agency responsible for operating the detention facility collects data using the Juvenile Justice Information System (JJIS), reviews and ensures the accuracy of the data and reports the following data, disaggregated by race: ethnicity, gender identity and
status as limited English proficient, number of youth brought to detention by agency, reasons for admission, admissions to detention, releases from detention, average daily population and average length of stay.

3. Staff provide youth with heightened supervision until they have collected the information necessary to fully classify youth taking into consideration the following information with the goal of keeping youth safe; age, gender identity, history of violent behavior, level of emotional and cognitive development, current charges and offense history, physical size and stature, status as limited English proficient and the availability of bilingual staff and other interpretation services, presence of intellectual or developmental disabilities, physical disabilities, presence of mental health needs or history of trauma, youth’s perception of his or her vulnerability, suicide risk, prior sexual victimization or abusiveness, any gender non-conforming appearance or manner or identification as lesbian, gay, bisexual, transgender or intersex and other information that may indicate the need for heightened supervision or additional safety precautions.

4. Staff do not base housing or programming decisions on race or ethnicity.

5. Staff should review whether or not a community resource supports LGBTQ +youth needs before a referral is made to that specific community resource for LGBTQ +youth.

SECTION 3: SECURITY AND CONTROL

Facilities use a combination of supervision, inspection, accountability and clearly defined policies and procedures to promote safe and orderly operations.

3.1 Safety and Security

**ORS 169.076(3)** Juvenile detention facilities shall formulate and publish plans to meet emergencies involving escape, riots, assaults, fires, rebellions and other types of emergencies.

**ORS 169.076(11), ORS 169.077(7), ORS 419A.052(1)** Juvenile detention facilities shall have written policy, procedure and practice in keeping with applicable federal, state and local safety codes, including fire safety inspections and fire drill requirements. **ORS 169.076(6)** Juvenile detention facilities shall have written policy, procedure, and practice that prohibit firearms from the security area of the facility except in times of emergency as determined by the administrator of the facility.
3.2 Searches
General Statement; modified from the National Partnership for Juvenile Services (NPJS) Position Statement

Best Practices
Personal searches are one way juvenile justice facilities ensure the safety and security of both staff and juveniles. Personal searches are used as a means to stop the flow of contraband into a facility and to help prevent self-harm and suicide. Personal searches include all searches where physical contact or visual examination of a person occurs. The guidelines are applying the definition of a strip search (comprehensive search) as established in the standards for the Prison Rape Elimination Act as a search that requires a person to remove or arrange some or all clothing so as to permit a visual inspection of the person’s breasts, buttocks or genitalia. When examining the issue of searches, juvenile justice facilities face unique challenges and are often tasked with finding a delicate balance between preserving the dignity and personal privacy rights of the child, while ensuring the safety of the facility and staff. Juvenile detention facilities shall have written policies, procedures and actual practices governing searches of youth, the facility and visitors in accordance with applicable law.

All searches conducted on justice involved juveniles should be conducted:

- Respecting the youth’s gender identity in a professional manner and in alignment with federal and state laws,
- In the least intrusive manner possible, and
- Consistent with security needs.

In the event a more intrusive (strip) search should be performed:

- With individualized approvals from management based on objective information,
- with one juvenile at a time,
- In a private location,
- Away from any camera that might allow unauthorized staff to view the search, and
- With documentation covering each of the bulleted areas above along with outcomes.

All staff should receive training on how and in which manner to perform searches. In addition, staff in juvenile facilities must be educated about how personal searches of juveniles might affect them. Further, they should be trained in how to and expected to limit any negative or potentially traumatic experiences occurring from searches whenever possible. Written policy and procedures should be made available to staff detailing exactly when, how, by whom and under what circumstances searches will be conducted. Prior to a search, juveniles should be
informed of their rights and the conditions under which searches will be conducted. Searches should be conducted in a manner which minimizes potential negative impacts (including: humiliation, embarrassment, unwarranted physical exposure, etc.). No juvenile facility should allow cross-gender searches unless in an exigent circumstance. Additional training should be provided to prepare staff for any search that may fall under the Prison Rape Elimination Act (PREA).

Intake searches include pat-downs, metal detector or clothing searches. If the facility permits strip searches (comprehensive searches) upon intake or visual body cavity searches, staff conduct them in accordance with applicable law. All youth will be treated in a professional and respectful manner.

1. When staff search youth who are returning from court, school, another facility, visits on the premises, or who have been otherwise continuously supervised, they do so by a pat-down, metal detector or clothing search. Staff conduct comprehensive or visual body cavity searches in such circumstances only upon reasonable suspicion that a youth is in possession of a weapon or contraband and in accordance with applicable law.
2. Staff conducting pat-down searches and clothing searches are of the same gender identity as the individual being searched.
3. During the intake process staff will ask youth who have identified themselves as transgender or gender non-conforming to request the preferred gender of the staff person who conducts searches. The facility should have a process in place to document, review and approve/deny these requests. See Appendix X Section Y for detailed best practices.
4. Only qualified medical professionals conduct physical body cavity searches. Staff notify parents or guardians if a youth is subjected to a physical body cavity search and the medical professional will be of the same gender identity as the youth.
5. Staff conducting comprehensive searches, visual body cavity searches or collecting urine samples are of the same gender identity as the youth being searched.
6. Staff document and provide written justification for all cross-gender searches.
7. Staff conduct facility and individual room searches when needed with the least amount of disruption and with respect for youth’s personal property.
8. Staff search visitors by pat-down or metal detector to ensure the safety, security and sound operation of the facility.
9. Staff do not conduct searches of youth, youth rooms or visitors as harassment or for the purpose of punishment or discipline.
10. When conducting a personal search of a transgender, gender non-conforming and gender non-binary youth, the staff or health care professional will be assigned based on
the youth’s gender identify and safety preference. If that is not possible, a health care professional of a different gender may conduct a strip search, pat down or visual (but not physical) body cavity search.

11. Transgender and gender non-conforming youth will have access to gender affirming supports, including but not limited to clothing and hygiene items otherwise permitted in the facility, respectful use of gender-affirming pronouns, providing access to gender-neutral restrooms or restrooms based on gender identity, and providing access to identification cards and name tags consistent with gender identity, if applicable.

3.3 Supervision of Youth
Staff positions should provide direct personal supervision and be located within the living units of youth to allow workers to hear and respond immediately to needs. Staff interactions are based on training and experience with the youth developmental approach.

ORS 169.076(1) Juvenile detention facilities shall provide sufficient staff to perform all audio and visual functions involving security, control, custody and supervision of all confined detainees, with personal inspection at least once each hour. The supervision may include the use of electronic monitoring equipment when approved by the governing body of the area in which the facility is located.

ORS 169.740(2)(a)(b) Facilities shall provide for personal inspection of each juvenile at least once each hour unless a particular situation requires more frequent inspection. Each facility shall provide for personal or electronically monitored supervision on each floor where juveniles are detained.

3.4 Control of Contraband
ORS 169.760(2) Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility, ORS 169.076, 169.078, 169.740 and 169.750, with respect to the use of internal searches upon a detained juvenile.

ORS 169.750(4) Juvenile detention facilities may not cause to be made an internal examination of a detained juvenile’s anus or vagina, except upon probable cause that contraband, as defined in ORS 162.135 (1), will be found upon such examination and then only by a licensed physician or a nurse.

ORS 169.740 Juvenile detention facilities shall provide for the private and unrestricted receipt and sending of mail (unless otherwise ordered by the juvenile court following a hearing). Incoming mail may be opened in the presence of the juvenile on reasonable suspicion that the
mail contains contraband as defined in ORS 162.135 (1), and incoming packages shall be opened in the presence of the juvenile and their contents may be held until the juvenile is released. The juvenile shall be informed of any confiscated contraband.

3.5 Use of Force
Use of force should always be the last resort after verbal de-escalation has been attempted and the least amount used, unless there is an immediate risk of protection of others or self, prevention of escape or severe property damage.

ORS 161.205 Juvenile detention facilities shall have policy, procedure and practice in keeping with statutory standards on the use of physical force. The use of physical force is justifiable and not criminal under any of the following circumstances:

1. A parent, guardian or other person entrusted with the care and supervision of a minor may use reasonable physical force when the person reasonably believes it necessary to maintain discipline or promote the welfare of the minor. A teacher may use reasonable physical force upon a student when the teacher reasonably believes it necessary to maintain order in the school or classroom.

2. An authorized official of a juvenile detention facility may use physical force when and to the extent that the official reasonably believes it necessary to maintain order and discipline or as is authorized by law.

3. A person acting under a reasonable belief that another person is about to commit suicide or to inflict serious physical self-injury may use physical force upon that person to the extent that the person reasonably believes it necessary to thwart the result.

4. A person may use physical force upon another person in self-defense or in defending a third person, in defending property, in making an arrest or in preventing an escape, as prescribed in chapter 743, Oregon Laws 1971.

ORS 169.760 Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility, ORS 169.076, 169.078, 169.740 and 169.750, with respect to the use of physical restraints, physical force, chemical agents, internal searches and isolation of or upon a detained juvenile.

ORS 169.750 Juvenile detention facilities may not administer physical punishment to any detainee at any time.

ORS 169.750(1)(2) Juvenile detention facilities may not for purposes of discipline or punishment impose any infliction of or threat of physical injury or pain. A facility may not use
any physical force, other means of physical control or isolation upon a detained juvenile except as reasonably necessary and justified to prevent escape from the facility, physical injury to another person, to protect a detained juvenile from physical self-injury or to prevent destruction of property, or to effectuate the confinement of the juvenile in room lock or isolation as provided for in ORS 169.090, 169.730 to 169.800, 419A.050 and 419A.052, and for only as long as it appears that the danger exists.

A use of force or other physical means of control may not employ the use of restraining devices for a purpose other than to prevent physical injury or escape, or, in any case, for a period in excess of six hours. However, the time during which a detained juvenile is being transported to another facility pursuant to court order shall not be counted within the six hours.

ORS 169.740(2)(i) Juvenile detention facilities shall make a written report, one copy of which shall be maintained in a general log, of each use of physical force, restraint, isolation, room lock or internal search, setting forth in detail the reason such action that was taken and the name of the staff person taking such action.

ORS 169.740(2)(j) Juvenile detention facilities shall notify the attorney and parent or guardian of a detained youth after the use of any physical force upon the youth as soon as reasonable after the use of force and by mailing a copy of the written report within 24 hours after the use of force.

Best Practices
1. Facility staff receive regular training in conflict management, de-escalation of confrontations, crisis intervention techniques, management of assaultive behavior, minimizing trauma involved in the use of physical force and the facility’s continuum of methods of control.
2. Facility staff receive regular training on situations in which use of physical force is or is not justified, permitted methods of physical force, appropriate techniques for use of physical force and guidance to staff in deciding what level of physical force to use if that becomes necessary.
3. Staff follow a graduated set of interventions that avoid the use of physical force, employ a range of interventions or actions behavior using physical force and permit only the least restrictive measure in order to prevent physical harm to youth or others.
4. Only staff specifically trained in the use of physical force are permitted to use such techniques or devices. Staff only use approved techniques.
5. Staff only use approved physical force techniques when a youth’s behavior threatens imminent harm to the youth or others. Staff may use approved physical force
techniques when a youth is engaging in property destruction that involves an imminent threat to the youth’s safety or the safety of others.

6. Staff only use physical force by employing the least restrictive appropriate means and only for the amount of time necessary to bring the situation under control. As soon as a youth regains self-control and staff assesses the youth for safety, staff stop using physical force.

7. Staff will complete incident reports on all issues involving the use of physical force for behavioral interventions.

8. Staff ensure that all youth who are the subject of a use of physical force notify medical staff within one hour of the use of physical force of the incident involving the youth and see a qualified medical professional if injuries occurred based on the recommendation of the medical staff.

9. Facility administrators will review all incidents involving the use of physical force to explore what might have prevented the need for force and alternative ways of handling the situation. The review should include an interview with the youth, all witnesses, and review of any existing video footage.

3.6 Use of Restraints
Restraints should only be used, as for as long as necessary, to prevent self-injury, injury to others, severe property damage that involves imminent threat to safety, attempted escape or for transportation purposes.

ORS 169.760(2) Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility, ORS 169.076, 169.078, 169.740 and 169.750, with respect to the use of physical restraints, force, chemical agents, internal searches and isolation of or upon a detained juvenile.

Juvenile detention facilities may not impose physical restraint for the purposes of discipline or punishment. Use of physical force or other means of physical control are prohibited except as reasonably necessary and justified to prevent escape from the facility, physical injury to another person, to protect a detained juvenile from physical self-injury or to prevent destruction of property, or to effectuate the confinement of the juvenile in room lock or isolation as provided for in ORS 169.090, 169.730 to 169.800, 419A.050 and 419A.052, and for only so long as it appears that the danger exists. A use of force or other physical means of control may not employ the use of restraining devices for a purpose other than to prevent physical injury or escape, or, in any case, for a period in excess of six hours. However, the time
during which a detained juvenile is being transported to another facility pursuant to court order shall not be counted within the six hours.

**ORS 169.740(2)(i)** Juvenile detention facilities shall make a written report, one copy of which shall be maintained in a general log, of each use of restraint, setting forth in detail the reason such action was taken and the name of the staff person taking such action.

**ORS 169.740(2)(j)** Juvenile detention facilities shall notify the attorney and the parent or guardian of the detained youth after the use of any use of restraint upon the youth as soon as reasonable after the use and by mailing a copy of the written report within 24 hours after the use.

**Best Practices**

1. Staff receive regular training in conflict management, de-escalation of confrontations, crisis intervention techniques management of assaultive behavior, minimizing trauma involved in the use of mechanical restraints and the facility’s continuum of methods of control.

2. Staff receive regular training on situations in which use of mechanical restraints is or is not justified, permitted methods of restraint and appropriate techniques for use of restraints and guidance to staff in deciding what level of restraint to use if that becomes necessary.

3. Staff only use mechanical restraints when a youth’s behavior threatens imminent harm to the youth or others. Staff may use approved mechanical restraints when a youth is engaging in property destruction that involves an imminent threat to the youth’s safety or safety of others.

4. Staff only use mechanical restraints by employing the least restrictive appropriate means and only for the amount of time necessary to bring the situation under control. As soon as a youth regains self-control and staff assesses youth for safety, staff stop using mechanical restraints.

5. Facilities will have written policies regarding transportation of youth in restraints and the types of restraints which are approved.

6. Staff never leave youth who are sleeping in restraints.

7. Staff never leave youth who are in restraints alone.

8. Facilities will have written policies, procedures and actual practices to minimize;
   a. The use of any kind of restraint device other than handcuffs or belly belts/chains and leg shackles during transportation.
   b. Use of chemical agents, including pepper spray, tear gas and mace.
   c. Use of chemical or medical restraints.
d. Hog tying youth or placing youth in restraints in other positions that could restrict breathing.

e. Restraining youth to fixed objects, including beds or walls.

f. Restraining youth in a prone position and putting pressure on the youth’s back, or restraining youth in a position that may restrict their airway.

g. Using mechanical restraints for punishment, discipline, retaliation, or treatment.

h. Use of belly belts/chains or leg shackles on pregnant girls.

9. Staff will complete incident reports on all issues involving the use of mechanical restraints.

10. Staff ensure that all youth who are the subject of a use of restraint incident notify a qualified medical professional within one hour of the use of restraint.

11. Facility administrators will review all incidents involving the use of restraints to explore what might have prevented the need for force or restraint and alternative ways of handling the situation.

3.7 Room-lock

“Room-lock” means confinement of a juvenile in any sleeping room, other than an isolation room, except during regular sleeping periods. A statutory exception applies to facilities serving counties with a population less than 70,000, based on the 1980 census, “room lock” does not include confining a juvenile in a sleeping room when all detained juveniles of the same sex are similarly confined due solely to the limitations of physical facilities or staff. These guidelines, however, apply to all juvenile detention facilities.

Brief periods of timeouts are not considered room-lock and is seen as serving only a “cooling off” purpose, is short in duration with the time period 5 to 20 minutes—specified at the time of assignment. Voluntary “time-out” at the request of the youth is not considered room-lock, and the youth shall enter general population as soon as they request to re-enter. Youth on “medical down” status will not be considered on room-lock.

ORS 169.760(2), ORS 169.730 Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility with respect to the use of physical restraints, physical force, chemical agents, and internal searches of a detained juvenile.

ORS 169.750(7) Juvenile detention facilities may not discipline or punish any juvenile for conduct or behavior by room lock for a period in excess of 12 hours, or by denial of any privilege, regularly awarded other detained adults or juveniles, for more than one day, except after:
a) Advising the juvenile in writing of the alleged offensive conduct or behavior;
b) Providing the juvenile the opportunity to a hearing before a staff member who was not a witness to the alleged offensive conduct or behavior;
c) Providing the juvenile the opportunity to produce witnesses and evidence and to cross-examine witnesses;
d) Providing the detained juvenile the opportunity to testify, at the sole option of the juvenile; and
e) A finding that the alleged conduct or behavior was proven by a preponderance of the evidence and that it violated a rule of conduct or behavior of the facility as provided for in ORS 169.076 (12) or constituted a crime under the laws of this state.

ORS 169.750(3) Juvenile detention facilities may not use room lock except for the discipline and punishment of a detained juvenile for violation of a rule of conduct or behavior of the facility as provided for in ORS 169.076 (12) or for conduct that constitutes a crime under the laws of this state or that would justify physical force, control or isolation under subsection (2) of this section.

ORS 169.750(2)(b) Juvenile detention facilities may not use force or other physical means of control that employ isolation for a period in excess of six hours.

ORS 169.740(2)(i) Juvenile detention facilities shall make a written report, one copy of which shall be maintained in a general log, of each use of physical force, restraint, isolation, room lock or internal search, setting forth in detail the reason such action was taken and the name of the staff person taking such action.

Juvenile detention facilities shall notify the attorney and the parent or guardian of the detained juvenile after the use of any physical force, restraint, isolation or internal search as soon as is reasonable after the use and by mailing a copy of the report within 24 hours after the use.

Best Practices
1. Prior to using room-lock, staff use less restrictive techniques, including talking with youth to de-escalate the situation and bringing in staff, qualified mental health professionals (if available). Prior to using room-lock or immediately after placing a youth in room confinement, staff explain to the youth the reasons for the room confinement and the fact that he or she will be released upon regaining self-control.
2. Staff only use room lock as a temporary response to behavior that threatens immediate harm to the youth or others. Staff may use room lock when a youth is engaging in property destruction that threatens immediate harm to the youth or others.
3. **Staff never use room lock for discipline, punishment, administrative convenience, retaliation, staffing shortages, or reasons other than a temporary response to behavior that threatens immediate harm to youth or others.**

4. **Staff do not place youth in room-lock for fixed periods of time. Staff return youth to programming as soon as the youth has regained self-control and is no longer engaging in behavior that threatens immediate harm to the youth or others.**

5. **During the time that a youth is in room-lock, staff engage in crisis intervention techniques and one-on-one observation.**

6. **Staff develop special individualized programming for youth with persistent behavior problems that threaten the safety of youth or staff or the security of the facility. Staff do not use room-lock as a substitute for special individualized programming.**

7. **During room-lock, staff should make visual contact with the youth at least every 15 minutes, depending on his/her emotional state. Youth who are highly emotional should receive visual contact from staff at least every 5 minutes.**

### 3.8 Isolation

Isolation should only occur when no other means can be used to accomplish the immediate safety and security of the youth and staff. The use of isolation should be for as short a time as possible. As soon as the youth no longer poses a threat, the isolation should be ended and the youth should be reintegrated back into programming.

“Isolation” means confinement of a juvenile in any room which lacks toilet facilities, furniture, reading and recreation materials or access to light and air comparable to that in other rooms used for the detention of juveniles.

### 3.9 Emergency Evacuation and Management

Facilities will have written policies in place to address procedures within the facility. A written plan will also include for evacuations and shelter in place for emergency response. The plan will identify partnering agencies for transportation, shelter and other services where youth may be housed for a period of time until the immediate emergency is over and youth can return safely to the facility.

### Best Practices

1. The facility’s plan is created through collaboration with partnering agencies and detail plans for a prioritized list of emergencies. Juvenile Department Director and Detention Manager will review and update the plan.

2. The facility plan will take into consideration:
   a. Characteristics of the facility,
b. Hazard profile,
c. Allocating responsibilities of staff,
d. Communication procedures,
e. Shelter in Place and Evacuation,
f. Aftercare

3. The facility includes the emergency preparedness and evacuation training for all staff on an annual basis.

SECTION 4: PROGRAMS AND SERVICES

All programs and services should have a core principle of ensuring best practices and grounded in the adolescent developmental approach. Focus should be on teaching coping skills and incentivizing pro-social behavior.

4.2 Education in Juvenile Detention

Facility advocates for quality education for youth in juvenile detention facilities. Every confined youth is entitled to free and appropriate public educational services, offered in a dedicated educational space, delivered by trained, state certified or licensed educational staff, working cooperatively with juvenile justice staff. Education should meet the requirements so that the youth will be able to graduate with an Oregon diploma. Quality education services should
include assessment, remedial and grade-level instruction, special education and curriculum based on the individual needs of students. Educational information should follow the youth in preparation for the achievement of future academic and vocational objectives. Quality education should be delivered utilizing a variety of strategies, in accordance with learning theory regarding at-risk and delinquent youth, including hands-on, experiential learning, social skill development and service learning activities.

ORS 169.760(3) Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility with respect to a detained juvenile's access to education.

The facility and educational staff will promote a safe, healthy facility-wide climate that prioritizes education, provides the conditions for learning, and encourages the necessary behavioral and social support services that address the individual needs of all youth, including those with disabilities and English learners.
4. Educational staff request a youth’s educational records from his or her prior school, including Individual Education Plans (IEP) and 504 plans, within 24 hours of the youth’s admission or the next business day, whichever is later.

5. The facility will have a policy to outline processes for education staff, students, parents and guardians, probation officers, mental health counselors, educational advocates, attorneys, and detention staff to voice concerns and recommendations when developing an educational program for the youth.

6. School classes are held in dedicated classroom spaces that are conducive to teaching and learning and that accommodate the needs of youth with disabilities.

7. The JDEP provides educational resources and materials comparable to those available to public school students, including but not limited to textbooks, art materials, writing materials, computers and other education-related technology, except where security concerns make it unsafe to use those materials at the facility.

8. An accreditation or oversight (Oregon Department of Education) entity bi-annually reviews and evaluates the facility’s school and school administrators review the findings and address any deficiencies.

9. The facility will allow for rigorous and relevant curricula aligned with state and academic and career and vocational technical education standards that utilize instructional methods, tool, materials and practices that promote college and career-readiness.

10. The JDEP has a procedure to identify English Language Learner (ELL) youth. Educational Staff provide ELL students with an appropriate educational program that addresses their language needs and that provides meaningful access to the curriculum in accordance with state and federal law.

11. The JDEP has procedures in place to identify and assess youth who may have a disability, but who have not been previously identified, in conformity with state and federal requirements for special education. The school program will provide IEP and 504 services by certified or credentialed by the state for the services they provide.

12. The JDEP provides transition services that facilitate a student’s movement from school to post-school activities as required by a youth’s IEP or 504 plan. Post-school activities include, but are not limited to employment, postsecondary education, vocational training, continuing and adult education and independent living.

13. Establish a written communication plan (MOU) to ensure collaboration and communication between the facility and educational staff. Both the facility and education staff will be consistent in behavioral and social support approaches to ensure a safe environment where students feel safe to learn.

14. Develop the infrastructure needed to share, collect track and analyze student data on a set of prescribed indicators relevant to incarcerated youth and using these indicators to
evaluate and improve school performance, track recidivism and other key performance measures.

15. Both the facility and educational staff will implement effective transitional practices and services, such as every student leaves with a plan for the student to reconnect with an educational institution.

16. Promote and involve professional development activities to educational staff.

4.3 Extended Detention Programs

OAR 213-050-0060(e) Juvenile detention facilities shall insure that educational programs are available to all juveniles placed in extended detention in accordance with Oregon Department of Education standards in OAR Chapter 581. ORS 169.740(2)(g) Juvenile detention facilities shall provide for physical exercise of any juvenile held in excess of five judicial days.

Best Practices

1. Staff keep youth occupied through a comprehensive multi-disciplinary program. Staff post and adhere to a daily schedule or activities in each living unit that incorporates both structured and free time. Staff log the date and reasons for any deviations from scheduled activities. Youth with physical disabilities have the opportunity to participate in recreational activities.

2. Staff, volunteers, contractors and community groups provide additional structured programming reflecting the interests and needs of various racial, ethnic, LGBTQ+ and cultural groups within the facility. The facility provides opportunities for youth to provide input into the programming at the facility.

3. The facility offers a range of culturally appropriate activities such as art, music, drama, writing, health, hygiene skills, fitness, meditation/yoga, substance abuse prevention, mentoring and voluntary religious or spiritual groups. When possible, programming is provided by community-based organizations that offer the opportunity for continuity once the youth is released.
4. Equivalent gender-responsive programming exists for female and male youth in the facility. Facilities do not limit access to recreation and vocational opportunities on the basis of gender. “Equivalent” does not mean that programming for males and females is identical, but that male and female youth have reasonable opportunities for similar activities and an opportunity to participate in programs, physical activities and recreational opportunities of comparable quality.

5. Transgender and gender non-conforming youth are not prohibited from participating in gender-responsive programming, and may choose the programming options that are safest and healthiest for them.

6. The facility offers special recreational programming for youth who are pregnant or youth with disabilities.

7. Youth in the facility, including youth on disciplinary or restricted status received at least one hour of large muscle exercise every weekday and at least two hours of large muscle exercise each weekend day in a communal space outside of their own room. Best Practices

Each facility must designate an ADA coordinator and maintain a written policy addressing disability-related accommodations. Youth and families should be notified of the opportunity to request an accommodation and the process through which to do so. A request for a disability-related accommodation or modification must be granted or must trigger an interactive process designed to meet the need and ensure full participation without imposing an undue burden on the facility or fundamentally altering the program. That process, and the outcome, should be documented.

5.5 Dress, Grooming, and Personal Hygiene

ORS 169.760(6) Juvenile detention facilities shall have established comprehensive written policies providing for the least restrictive alternative consistent with the safety and security of the facility with respect to dress and grooming code which will allow for individual identity of detained juveniles.

Best Practices
1. The facility permits youth to gather for religious services. Staff and individuals who provide religious programming do not compel youth to participate in religious activities, nor do they pressure youth to adopt a particular faith, religion or religious practice. SECTION 6: BEHAVIOR MANAGEMENT SYSTEM

Implementation and delivery of a positive approach across the spectrum of service delivery options. Practices should increase the frequency of positive behaviors to meet universal needs for safety, belonging, achievement, responsibility and empathy. Juvenile justice service providers must strive to train and provide supportive resources to better enable staff in applying practices that build youth strengths and increase long term positive change rather than through punishment and short-term compliance. Strategies should focus on creating a culture that reinforces positive behavior and uses problems as opportunities for learning and growth.

Programs need to recognize the strengths of stress adapted youth in order to turn trauma into resilience. Programs must have involved leaders who can assess the milieu, provide clear direction and expectations for staff in line with best practice, and reinforce the fidelity of programmatic implementation.

A youth handbook or information that contains all facility violations, ranges of penalties and disciplinary procedures is provided to each youth and staff member and is translated into those languages spoken by significant numbers of youths. Signed acknowledgment of receipt of the rule book is maintained in each youth’s file. When a literacy or language problem prevents a youth from understanding the rule book, a staff member or translator assists the youth in understanding the rules.

APPENDIX B

JUVENILE JUSTICE AND DELINQUENCY PREVENTION ACT SUMMARY

Detention facilities shall be administered in compliance with the requirements of the federal Juvenile Justice and Delinquency Prevention Act of 2002, implementing regulations into policies.

Federal Rules and Regulations
Deinstitutionalization of Status Offenders (DSO), Sight and Sound Separation, and Disproportionate Minority Contact (DMC) are the core protection requirements that apply to juvenile detention centers. The Jail Removal requirement is not applicable as juvenile offenders may be held in or sentenced to juvenile detention facilities for longer than six hours.

Section 223(a)11
Deinstitutionalization of Status Offenders (DSO)

The JJDP Act states that status offenders and non-offenders may not be housed in secure facilities for their offenses at any time – minus some exceptions. Additionally, accused status offenders who fail to appear for court hearings must remain status offenders and cannot be upgraded to delinquent offenders for their failure to appear.

The following are exceptions which apply to juvenile detention centers:

Youth Handgun Safety Act Possession Exemption
The Youth Handgun Safety Act (18 U.S.C. 922(x)) prohibits possession of a handgun by a minor under the age of 18. There are exceptions to this Act such as using a handgun in a gun safety course or hunting under the supervision of an adult. Because the Youth Handgun Safety Act applies only to juveniles and handgun possession, it fits the definition of a status offense since, in most cases, it would not be a crime if committed by an adult. However, the Violent Crime Control and Law Enforcement Act of 1994, Subtitle B, Youth Handgun Safety, amended the JJDP Act to provide that juveniles who violate U.S.C. Title 18, Section 922(x), or a similar state law can be placed in secure detention or correctional facilities without violating the DSO requirement. Youth held in juvenile detention or correctional facilities solely for possession of a handgun are exempt from violation; however, the JJDPA compliance monitor must capture that information yearly for OJJDP.

Out of State Runaways (ICJ) Exemption
When youth are identified as residing outside of Oregon, it is important to communicate immediately with the Oregon ICJ office so the Oregon ICJ staff can determine whether a youth’s
situation qualifies as an ICJ matter. Out-of-state runaways may be held securely until their safe return to the home state. The agency has written policy, procedure and documentation regarding detention admissions as it relates to out-of-state runaways, including notification of a home state for safe return. Out-of-state runaways held pursuant to the Interstate Compact on Juveniles enacted by the state are excluded from the DSO requirements and may be held until they can be safely returned to the home state. Other out-of-state runaways securely held beyond 24 hours solely for the purpose of being returned to proper custody in another state in response to a want, warrant, or request from a jurisdiction in the other state or pursuant to a court order must be reported as violations of the DSO requirement. Juveniles held pursuant to the ICJ enacted by the state are excluded from the DSO requirements in total. The JJDPA compliance monitor must verify that out of state runaways being held in juvenile detention centers are being held pursuant to the Interstate Compact on Youth. Written notification of compliance is available through the Oregon ICJ office.
APPENDIX C

VALID COURT ORDER – STATUTORY EXCEPTION

[Applies to adjudicated status offenders only]

In 1980, Congress enacted a provision intended to address concerns that the DSO core requirement deprived juvenile court judges of a significant option in handling chronic status offenders who were not willing to comply with court orders. This provision was meant to be applied sparingly to the small number of status offenders that continually flout the will of the court and have exhausted all non-secure civil sanctions available. The provision provides that adjudicated status offenders found to have violated a Valid Court Order (VCO) may be sentenced to juvenile detention as a civil penalty for contempt of court.

- Adjudicated status or non-offenders cannot be held in juvenile detention centers unless all of the conditions of the Valid Court Order are met.

For the purpose of determining whether a VCO exists and a juvenile has been found in violation of that order, all of the following conditions must be present prior to secure incarceration:

A. The receiving facility must first be approved to utilize the Valid Court Order (VCO) process by the Youth Development Council.
B. The juvenile must be brought before a court of competent jurisdiction and made subject to an order issued pursuant to proper authority. The order must be one which regulates future conduct of the juvenile. Prior to issuance of the order, the juvenile must have received the full due process rights guaranteed by the Constitution of the United States.
C. The court must have entered a judgment and/or remedy in accord with established legal principles based on the facts after a hearing which observes proper procedures.
D. The juvenile must have received adequate and fair warning of the consequences of violation of the order at the time it was issued and such warning must be provided to the juvenile and to the juvenile’s attorney and/or legal guardian in writing and be reflected in the court record and proceedings.
E. All judicial proceedings related to an alleged violation of a valid court order must be held before a court of competent jurisdiction. For protective purposes or to assure appearance at the violation hearing, a juvenile accused of violating a valid court order may be held in secure detention no longer than 72 hours, exclusive of non-judicial days. However, there must be a judicial determination based on a hearing during the initial 24-hour grace period, permitted for a noncriminal juvenile offender under OJJDP monitoring policy, that there is probable cause to believe the juvenile violated the court
order. A juvenile alleged or found in a violation hearing to have violated a valid court order may be held only in a secure juvenile detention and not in an adult jail or lockup.

F. Prior to and during the violation hearing, the following due process rights must be provided:
   o The right to have the charges against the juvenile in writing served upon the juvenile in a reasonable time before the hearing;
   o The right to a hearing before the court;
   o The right to an explanation of the nature and consequences of the proceeding;
   o The right to legal counsel, and the right to have such counsel appointed by the court if indigent;
   o The right to confront witnesses;
   o The right to present witnesses;
   o The right to have a transcript of the proceedings; and
   o The right of appeal to an appropriate court.

G. In entering any order that directs or authorizes the placement of a status offender in a secure facility, the judge presiding over an initial probable cause hearing or violation hearing must determine that all the elements of a valid court order and the applicable due process rights were afforded the juvenile and, in the case of a violation hearing, the judge must obtain and review a written report that: reviews the behavior of the juvenile and the circumstances under which the juvenile was brought before the court and made subject to such order; determines the reasons for the juvenile’s behavior; and determines whether all dispositions other than secure confinement have been exhausted or are clearly inappropriate. This report must be prepared and submitted by an appropriate public agency (other than a court or law enforcement agency).

H. A non-offender such as a dependent and neglected child cannot be placed in a secure detention facility for violating a valid court order.

The presence of all of the above elements must be verified by the Compliance Monitor before the event qualifies as a Valid Court Order exception. If all are not present, the detention constitutes a violation.
