

Select Your Signing Supervisor

The Signing Supervisor is required anytime there is a qualifying Electrical license on your online application. If you have a single Signing Supervisor associated to your license, it will default automatically and you do not need to take any action. However, if you have more than one Signing Supervisor associated to your license, you must select the correct one for the permit you are applying for. If you are not applying for an Electrical permit, you can simply delete your Electrical license from the application.

1. An error message will display when you have more than one Signing Supervisor associated to your Electrical license and you are required to select one.

Licensed Professional List

The professional licenses listed will be submitted with the application.

 **An error has occurred.**
You must associate an electrical supervisor to this permit record. To do so, click on your electrical license number, choose a supervisor and click 'Save' before continuing your application.
