GENERAL INFORMATION

This worksheet is used to calculate permit fees in order to determine plan review fees. This worksheet must be submitted with the Prefabricated Structure Plan Review Application (form 2557) when submitting a plan application for a new prefabricated structure or for certain component buildings.

- Building valuation is based on a building type/occupancy. Structural permit fees are also based on the plan type (custom plan or design master plan).
- Fee amounts calculated on this worksheet must be transferred to the appropriate field on the plan review application form.
- Fees listed are the ones most commonly used. For complete list of fees, refer to the appropriate Oregon Administrative Rule.

Notice: Permit fees pay for certain inspection costs where this office performs required inspections. Paying permits fees at time of plan submittal is an option. If permit fees are not paid at this time, fees for inspections performed by this office are billed to the manufacturer after inspections are completed by this office. For design master plans, permit fees cover inspection fees only for first structure where this office performs the inspection.

BUILDING VALUATION

1. Building use:

2. Building occupancy:

3. Type of construction:

4. Square footage of building:

5. Building valuation shall be based on one of the following:

- Multiply amount in Table 1-S (building occupancy type) by the square footage of the building: \$ _____
- Invoice price: \$ _____
- Free-on-board (FOB) factory price: \$ _____
- Sprinkler/fire alarms: Multiply square footage in Line 4 by \$2.16 per square feet: \$ _____

6. Total building valuation: \$ _____

STRUCTURAL PERMIT FEE CALCULATION

7. **Custom plans** – Use building valuation on Line 6 with Table 1-PF to calculate permit fee

- a. First fee increment amount (for the valuation range) \$ _____
 - b. Additional fee amount (remaining valuation multiplied by fee amount) \$ _____
 - c. **Total structural permit fee:** Add Lines 7a and 7b \$ _____ 70711/1191
8. 12 percent surcharge: Multiply Line 7c by 0.12 \$ _____ 70711/1291

9. **Design master plans** – Use building valuation on Line 6 with Table 2-PF to calculate permit fee

- a. First fee increment amount (for the valuation range) \$ _____
 - b. Additional fee amount (remaining valuation multiplied by fee amount) \$ _____
 - c. **Total structural permit fee:** Add Lines 9a and 9b \$ _____ 70711/1191
10. Twelve percent surcharge: Multiply the total on Line 9c by 0.12 \$ _____ 70711/1291

STRUCTURAL PLAN REVIEW FEE

- 11. **Custom plan** review fee: Multiply the total on Line 7c by 0.65. \$ _____ 70711/1190
- 12. **Design master plan** review fee: Multiply the total on Line 9c by 0.65. \$ _____ 70711/1190

FIRE AND LIFE-SAFETY PLAN REVIEW FEE (if required)

Required regardless of size for occupancy A, E, I, H, and for all other buildings that are more than 4,000 square feet, more than 20 feet in height, or both. See applicable information in OSSC Section 106.

- 13. **Fire and life-safety plan review:** Multiply the total on Line 7c or Line 9c by 0.40 \$ _____ 70711/1190

BUILDING VALUATION DATA/PHASED PROJECTS/DEFERRED SUBMITTALS
(OAR 918-460-0030 and 918-480-0020 – effective 1/1/02)

The valuation of building construction for building permit purpose shall be the total construction cost for all classes of work. The plan review and building permit fee will be based on valuation computed from the following average values, which were compiled in April 2001. See OAR 918-460-0070 and 918-480-0030 for fees related to phased projects and deferred submittals. Permit fees for less than a complete structure will be based upon the percent of construction to be completed under the permit as determined by the jurisdiction having authority. The cost is intended to comply with the definition of "valuation" in Section 223 of the State of Oregon Structural Specialty Code and includes architectural, structural, electrical, plumbing, heating, and ventilation devices and equipment, except as specifically listed below. It also includes the contractors' profit, which should not be omitted.
