Re: Carmen-Smith Hydroelectric Project (FERC No. 2242)  
Corrected Section 401 Water Quality Certification

Dear Ms. Boyle:

On July 23, 2018, the Oregon Department of Environmental Quality issued a Section 401 water quality certification for the Eugene Water and Electric Board's Carmen-Smith Hydroelectric Project in Lane and Linn Counties. Following issuance, a typographical error was identified on page 3 of the certification. DEQ has corrected this error in the attached certification, which supersedes the July 23, 2018, certification in its entirety.

If you have any questions regarding the certification, please contact Chris Stine at (541) 686-7810 or via email at [stine.chris@deq.state.or.us](mailto:stine.chris@deq.state.or.us).

Sincerely,

for Keith Andersen  
DEQ Western Region Administrator
