

present workings are ^{at} about 200 ft of depth -
600 ft of tunnel in ledge -
also at tapping of 600 ft about
60 ft from surface.
Tunnel size 4 1/2 by 6
Small blacksmith shop on cabin
Cost of development work \$10,000.00
vein 9-12 ft.
1,000 tons of ore on dump

ready for stoping
can drive in with team to
mine.
Can get within 1/2 mile with truck
very little cost would finish road
to mine.
Oregon Lumber Co. has narrow
gauge road running within
1/2 mile under construction
We think the ^{ore} ~~ore~~ ^{will} ~~will~~
average at the present depth 5.00
gold content about \$10.00
silver copper and other
metals - 10.00
conservative estimate
