

ISSUANCE OF A PERMIT TO REDRILL AN OIL OR GAS WELL

(The September 1999 stipulations approved by the State geologist are conditions of this permit. Notify DOGAMI to witness BOP tests and tag cement plugs.)

OPERATOR: Enerfin Resources Northwest

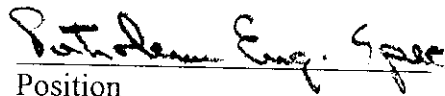

WELL NAME: BP 14-26-64 RD #1

PERMIT NUMBER: 461

We will want to inspect the blow-out equipment so please contract us before the surface casing pressure tests. We will also want to tag the cement plugs and witness the flow-test of the well. Call approximately 24-hours before these are scheduled.
