

*High School Success Plan
2021-2023*

Lead Organization	Baker Creek School (Yamhill JDEP)
Goal #1	100% of students enrolled for at least one week will have an individualized educational plan and profile that will outline one or several academic and/or career pathways.
Short-Term Outcome	The teacher will meet with the EA three times a week to review student lists and needs. Any students that qualify for extra support based on grants, will be referred for long term support from a transition specialist (either county or Bars to Bridges).
Long-Term Outcome	The drop out rate for JDEP youth that have gone through Baker Creek will be less than 20%. We do not have the exact number at this time (aside from JDEP #) and so will track that number and also make sure to support students in locating their next educational placement.
Dropout Prevention Activity #1	Staff will help youth develop an individualized educational plan for credit attainment. Culturally specific mentoring will continue for students qualifying through grants.
Goal(s) this activity addresses	Goal 1
