

*High School Success Plan*  
*2021-2023*

**Lead Organization** **Jordan Valley High School**

<b>Goal #1</b>	All students that enter high school as 9th graders will have the opportunity to be involved in our CTE program. Remodel and update our Ag Science classroom in order to provide students with the opportunity to have access to a fully functional Ag Science room and lab.
<b>Short-Term Outcome</b>	Our participation in CTE should increase and gain more interest due to having a proper lab facility. This will allow students the opportunity to get involved in more classes that we will be able to offer
<b>Long-Term Outcome</b>	We will see an increase in the shift of students choosing to pursue a CTE pathway. By being able to experience plant/animal systems in a classroom designed for it student engagement and interest will therefore increase.
<b>Goal #2</b>	Remodel and update our Ag Science classroom in order to provide students with the opportunity to have access to a fully functional Ag Science room and lab.
<b>Career Technical Education Activity #1</b>	The activity of remodeling and updating our Ag Science room will hit our goal by providing the space and opportunity for a much better CTE experience and target supports for our economically disadvantaged student population. We have partnerships with our community that utilizing this room will assist with, it will help our CTE program, and will also benefit students on their graduation and advanced coursework tracks.
<b>Goal(s) this activity addresses</b>	Goal 1 , Goal 2
