

### **OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21**

## Updated 7/29/2020

Under ODE's *Ready Schools, Safe Learners* guidance, each school<sup>1</sup> has been directed to submit a plan to the district<sup>2</sup> in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the *Ready Schools, Safe Learners* guidance document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,<sup>3</sup> parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation.

### 1. Please fill out information:

SCHOOL/DISTRI	SCHOOL/DISTRICT/PROGRAM INFORMATION		
Name of School, District or Program	Under the Son School		
Key Contact Person for this Plan	Karin Rietmann		
Phone Number of this Person	547-215-3314		
Email Address of this Person	<u>Underthesonschool@gmail.com</u>		
Sectors and position titles of those who	Director and Assistant Director of school, Teachers, Pastor		
informed the plan	and Trustees of Grace Baptist Church		
Local public health office(s) or officers(s)	Alisha Southwick		
Name of person Designated to Establish,	Karin Rietmann		
Implement and Enforce Physical Distancing			
Requirements			
Intended Effective Dates for this Plan	August 25 2020 – August 25 2021		
ESD Region	Intermountain ESD		

2. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

We have held several informational meetings with the Grace Baptist Church body. We have had several teacher meetings, trainings, and discussions. Through face book we have had solicited impute from our parents and others in the community. We also participate in community events, such as the Farmer's Market craft booth.

3. Indicate which instructional model will be used.

<sup>&</sup>lt;sup>1</sup> For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings.

<sup>2</sup> For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

<sup>&</sup>lt;sup>3</sup> Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a government-to-government basis.

	Select One:  ☑ On-Site Learning	☐ Hybrid Learning	☐ Comprehensive Distance Learni	ng

The remainder of this operational blueprint is not applicable to schools operating a Comprehensive Distance Learning Model.

### **ESSENTIAL REQUIREMENTS FOR HYBRID / ON-SITE OPERATIONAL BLUEPRINT**

This section must be completed by any school that is providing instruction through On-Site or Hybrid Instructional Models.

Schools providing Comprehensive Distance Learning Instructional Models do not need to complete this section.

### 1. Public Health Protocols

#### 1a. COMMUNICABLE DISEASE MANAGEMENT PLAN FOR COVID-19

#### OHA/ODE Requirements

- Implement measures to limit the spreads of COVID-19 within the school setting.
- Update written Communicable Disease Management Plan to specifically address the prevention of the spread of COVID-19.
- Designate a person at each school to establish, implement and enforce physical distancing requirements, consistent with this guidance and other guidance from OHA.
- Include names of the LPHA staff, school nurses, and other medical experts who provided support and resources to the district/school policies and plans. Review relevant local, state, and national evidence to inform plan.
- Process and procedures established to train all staff in sections 1 - 3 of the *Ready Schools*, *Safe Learners* guidance. Consider conducting the training virtually, or, if in-person, ensure physical distancing is maintained to the maximum extent possible.
- Protocol to notify the local public health authority (<u>LPHA Directory</u> <u>by County</u>) of any confirmed COVID-19 cases among students or staff.
- Plans for systematic disinfection of classrooms, offices, bathrooms and activity areas.
- Process to report to the LPHA any cluster of any illness among staff or students.
- Protocol to cooperate with the LPHA recommendations and provide all logs and information in a timely manner.

### Hybrid/Onsite Plan

Under the Son School will follow the published Communicable Disease Guidelines from the Oregon Department of Education and the Oregon Health Authority.

Under the Son School will hand out their Communicable Disease Guidelines for parents (https://docs.google.com/document/d/1QnCiWiuY9yRhWBHI2Q3OscytNoODpf2ioSQdknZm3WE/edit?usp=sharing). This handout will include information on Covid-19 and its symptoms. Parent will sign and date a form indicating they have read this handout.

Karin Rietmann will be our designated person to ensure that requirements and guidelines are being met.

Alisha Southwick is our LPHA.

Karin Rietmann will be holding 2 required trainings on August 24<sup>th</sup> and 25<sup>th</sup>, to ensure that staff is ready to follow the ODE guidelines. Trainings will also be held at the beginning of each month so that teachers remain informed and updated as the guidelines change.

Teachers will report any confirmed Covid-19 cases to Karin Rietmann, who will then call Alisha Southwick and turn in all cohort logs.

Classrooms will be wiped down, after each class, with an EPA list N disinfectant. Teachers will log what they cleaned, the disinfectant they used and when it was cleaned. Bathrooms will be wiped down after, each class use, with a disinfectant wipe and then thoroughly cleaned at the end of the day.

Teachers will report any confirmed Covid-19 cases to Karin Rietmann, who will then call Alisha Southwick and turn in all cohort logs.

Under the Son will cooperate with the LPHA and attempt to follow all recommendations within the week given. Will also turn all logs into the LPHA within the 72 hours.

Before entry into school all staff and students will have their temperature take and logged. Parents will be asked if their student or anyone in their immediate family has been exposed to Covid-19 or is sick. Staff will be asked to answer the same questions. Under the Son will follow the LPHA advice on restricting students and staff from school.

- Protocol to isolate any ill or exposed persons from physical contact with others.
- Protocol for communicating potential COVID-19 cases to the school community and other stakeholders (see section 1e of the *Ready Schools, Safe Learners* guidance).
- □ Create a system for maintaining daily logs for each student/cohort for the purposes of contact tracing. This system needs to be made in consultation with a school/district nurse or an LPHA official. Sample logs are available as a part of the Oregon School Nurses Association COVID-19 Toolkit.
  - If a student(s) is part of a stable cohort (a group of students that are consistently in contact with each other or in multiple cohort groups) that conform to the requirements of cohorting (see section 1d of the *Ready Schools*, *Safe Learners* guidance), the daily log may be maintained for the cohort.
  - If a student(s) is not part of a stable cohort, then an individual student log must be maintained.
- Required components of individual daily student/cohort logs include:
  - Child's name
  - Drop off/pick up time
  - Parent/guardian name and emergency contact information
  - All staff (including itinerant staff, district staff, substitutes, and guest teachers) names and phone numbers who interact with a stable cohort or individual student
- Protocol to record/keep daily logs to be used for contact tracing for a minimum of four weeks to assist the LPHA as needed.
- Process to ensure that all itinerant and all district staff (maintenance, administrative, delivery, nutrition, and any other staff) who move between buildings keep a log or calendar with a running four-week

### Hybrid/Onsite Plan

Any student or staff who is ill, while at school, will be placed in a designated area until they are able to leave. The area will then be sanitized.

Under the Son will call all the parents of potential Covid-19 case. We will also post it on our school site. See enclosed example of student / cohort longs

Each teacher will have a Teacher's Handbook. Student/cohort longs, student emergency contacts, staff name and numbers, will all be kept organized in the Teacher's Handbook. At the end of 4 weeks, the student/cohort longs will be filed in the school's personal information filing cabinet.

Teachers will each have a three-ring binder that will be for keeping the cohort longs and student emergency contact information in. Cleaning logs will also be kept in this notebook. This will be their Teacher's Handbook

Student/cohort log:

https://docs.google.com/document/d/1WDbS4AGfjPZagQrB6EoE5Otc4ZXIYfJH2f2L8Xw-2 A/edit?usp=sharing

A separate sheet with each child's emergency contact information will be includes in the teacher's book, along with the cohort longs.

Cohort logs will be kept in the Teacher's Handbook for 4 weeks. At the end of 4 weeks they will turn them into Karin Rietmann. Mrs. Rietmann will file these to keep in case of tracing needs.

There is only one building to our school. We have no itinerant staff.

OH	IA/ODE Requirements	Hybrid/Onsite Plan
	history of their time in each school	Teachers will report any confirmed Covid-19 cases to Karin Rietmann, who will then call Alisha

	outbreaks (see section 3 of the	
	Ready Schools, Safe Learners	
	guidance).	

#### **1b. HIGH-RISK POPULATIONS**

### **OHA/ODE Requirements**

Serve students in high-risk population(s) whether learning is happening through On-Site, Hybrid (partially On-Site and partially Comprehensive Distance Learning models), or Comprehensive Distance Learning models.

# Medically Fragile, Complex and Nursing-Dependent Student Requirements

- All districts must account for students who have health conditions that require additional nursing services. Oregon law (ORS 336.201) defines three levels of severity related to required nursing services:
  - Medically Complex: Are students who may have an unstable health condition and who may require daily professional nursing services.
- Staff and school administrators, in partnership with school nurses, or other school health providers, should work with interdisciplinary teams to address individual student needs. The school registered nurse (RN) is responsible for nursing care provided to individual students as outlined in ODE guidance and state law:
  - Communicate with parents and health care providers to determine return to school status and current needs of the student.
  - Coordinate and update other health services the student may be receiving in addition to nursing services. This may include speech language pathology, occupational therapy, physical therapy, as well as behavioral and mental health services.
  - Modify Health Management Plans, Care Plans, IEPs, or 504 or other student-level medical plans, as indicated, to address current health care considerations.
  - The RN practicing in the school setting should be supported to remain up to date on current guidelines and access professional support such as evidence-based resources from the Oregon School Nurses Association.
  - Service provision should consider health and safety as well as legal standards.
  - Work with an interdisciplinary team to meet requirements of ADA and FAPE.
  - High-risk individuals may meet criteria for exclusion during a local health crisis.
  - Refer to updated state and national guidance and resources such as:
    - U.S. Department of Education Supplemental Fact Sheet: Addressing the Risk of COVID-19 in Preschool, Elementary and Secondary Schools

### **Hybrid/Onsite Plan**

Under the Son School does not employ a school nurse or have the resources to do so. Any medical fragile student would have to provide their own nurse. We would meet with the student's parents and nurse to come up with a plan that would be beneficial to the student.

### 1c. PHYSICAL DISTANCING

ОН	A/ODE Requirements	Hybrid/Onsite Plan
$\boxtimes$	Establish a minimum of 35 square feet per person when	Room 1 – 202 square feet = 5.77 people
	determining room capacity. Calculate only with usable classroom	Room 2 – 427.125 square feet = 12.2 people
	space, understanding that desks and room set-up will require use	Room 3 – 350.385 square feet = 10 people
	of all space in the calculation. This also applies for professional	Room 4 – 350. 158 square feet = 10 people
	development and staff gatherings.	
$\boxtimes$	Support physical distancing in all daily activities and instruction,	Students will sit at desks or tables that are spaced to allow for physical
	maintaining at least six feet between individuals to the maximum	distancing. Hallways will be designated with one-way traffic. Marked
	extent possible.	spots on the floor will show students where to stand when standing in
$\boxtimes$	Minimize time standing in lines and take steps to ensure that six	line.
	feet of distance between students is maintained, including marking	
	spacing on floor, one-way traffic flow in constrained spaces, etc.	Student drop off and pick up time will be staggered to reduce the
$\boxtimes$		mixing of cohorts.
	building (e.g., rotating groups by days or location, staggered	
	schedules to avoid hallway crowding and gathering).	Teachers will sing songs and review lessons to help students learn how
$\boxtimes$	Plan for students who will need additional support in learning how	to wash hands, cover coughs and sneezes, and physical distance.
	to maintain physical distancing requirements. Provide instruction;	
	don't employ punitive discipline.	
$\boxtimes$	Staff should maintain physical distancing during all staff meetings	
	and conferences, or consider remote web-based meetings.	

	1d. COHORTING			
ОН	A/ODE Requirements	Hybrid/Onsite Plan		
	Where feasible, establish stable cohorts: groups should be no larger than can be accommodated by the space available to provide 35 square feet	Under the Son School will establish stable cohorts according to the available space in each room. We will limit each cohort based on the square footage of each room.		
	<ul> <li>per person, including staff.</li> <li>The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading</li> </ul>	Teacher's will maintain a Teacher's Handbook. In each Handbook will contain the daily logs for their cohort. Emergency contacts and teacher information will be included in this notebook.		
$\boxtimes$	disease increases.  Students cannot be part of any single cohort, or part of multiple cohorts that exceed a total of 100	Teachers will each have a three-ring binder that will be for keeping the cohort longs and student emergency contact information in. Cleaning logs will also be kept in this notebook. This will be their Teacher's Handbook		
	people within the educational week. Schools should plan to limit cohort sizes to allow for efficient contact-tracing and minimal risk for exposure.	Student/cohort log: https://docs.google.com/document/d/1WDbS4AGfjPZagQrB6EoE5Otc4ZXIYfJH2f2L8Xw- 2_A/edit?usp=sharing		
	Each school must have a system for daily logs to ensure contract tracing among the cohort (see section 1a of the <i>Ready Schools, Safe Learners</i> guidance).	Cohorts will stay in their own classrooms during school time. Each class will have assigned times for bathroom breaks, recess, and lunch. Common areas will be sanitized after each class use.		
	Minimize interaction between students in different stable cohorts (e.g., access to restrooms, activities, common areas). Provide access to All Gender/Gender Neutral restrooms.			

OH	IA/ODE Requirements	Hybrid/Onsite Plan
$\boxtimes$	Cleaning and wiping surfaces (e.g., desks, door	A cleaning log will be included in the Teacher's Handbook. Bathrooms and playground
	handles, etc.) must be maintained between	equipment will be wiped down between cohorts. Any supplies that is shared by
	multiple student uses, even in the same cohort.	students will be cleaned between student uses.
$\boxtimes$	Design cohorts such that all students (including	
	those protected under ADA and IDEA) maintain	Students will be split into cohorts based on their grade level, age and needs, to provide
	access to general education, grade level learning	them with best access to an education.
	standards, and peers.	
$\boxtimes$	Staff who interact with multiple stable cohorts	All staff will wear either a mask or face shield. Staff will wash hands or sanitize when
	must wash/sanitize their hands between	they move between cohorts.
	interactions with different stable cohorts.	

### 1e. PUBLIC HEALTH COMMUNICATION

#### OHA/ODE Requirements **Hybrid/Onsite Plan** □ Communicate to staff at the start of On-Site instruction and at Teachers will have two trainings, before school starts, to explain how periodic intervals explaining infection control measures that are the school will run during COVID and the new measures in place to being implemented to prevent spread of disease. prevent the spread of COVID. Teachers will also attend monthly □ Develop protocols for communicating with students, families and meetings to keep them up to date on infectious control measures. staff who have come into close contact with a confirmed case. Teachers will use one or more of the following ways to inform families The definition of exposure is being within 6 feet of a of a confirmed COVID case and how the school is responding to it. COVID-19 case for 15 minutes (or longer). Phone call to parents ☑ Develop protocols for communicating immediately with staff, families, and the community when a new case(s) of COVID-19 is E-mail diagnosed in students or staff members, including a description of Text message how the school or district is responding. Social media site (Facebook page) Provide all information in languages and formats accessible to the

#### 1h. FACE COVERINGS, FACE SHIELDS, AND CLEAR PLASTIC BARRIERS

### OHA/ODE Requirements

- □ Face coverings or face shields for all staff, contractors, other service providers, or visitors or volunteers following <u>CDC guidelines</u> Face Coverings.
- Face coverings or face shields for all students in grades Kindergarten and up following CDC guidelines Face Coverings.
- If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time, the school/team must:
- □ Face masks for school RNs or other medical personnel when providing direct contact care and monitoring of staff/students displaying symptoms. School nurses should also wear appropriate Personal Protective Equipment (PPE) for their role.

#### Protections under the ADA or IDEA

- If any student requires an accommodation to meet the requirement for face coverings, districts and schools should work to limit the student's proximity to students and staff to the extent possible to minimize the possibility of exposure. Appropriate accommodations could include:
  - Offering different types of face coverings and face shields that may meet the needs of the student.
  - Spaces away from peers while the face covering is removed; students should not be left alone or unsupervised.
  - Short periods of the educational day that do not include wearing the face covering, while following the other health strategies to reduce the spread of disease;
  - Additional instructional supports to effectively wear a face covering;
- For students with existing medical conditions, doctor's orders to not wear face coverings, or other health related concerns, schools/districts must not deny access to On-Site instruction.
- Schools and districts must comply with the established IEP/504 plan prior to the closure of in-person instruction in March of 2020.
  - If a student eligible for, or receiving services under a 504/IEP, cannot wear a face covering due to the nature of the disability, the school or district must:
    - Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan including on-site instruction with accommodations or adjustments.
    - 2. Placement determinations cannot be made due solely to the inability to wear a face covering.

### **Hybrid/Onsite Plan**

Under the Son School has provided face shields for all the teachers. Teacher may wear masks instead of the shield.

Under the Son School has included child size face masks on their school supply list. We also have boxes of disposable masks for students who forget their masks.

Teachers will work to encourage students to keep their masks on and educate them on when it is appropriate to remove the mask (like when taking a drink).

Each teacher will be provided with a box of disposable masks and tissues, hand sanitizer, and a face shield

A student who has problems wearing a mask will not be denied instructions. Staff will work with the student's parent to find a suitable alternative such as a face shield or a set aside time when student can remove mask for a small break ( student would be spaced away from peers during this break).

accommodations and modifications to support students.  • Students protected under ADA/IDEA, who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering, the school or district must:  1. Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan.  2. The team must determine that the disability is not prohibiting the student from meeting the requirement.  • If the team determines that the disability is not prohibiting the student from meeting the requirement, follow the requirements for students eligible for, or receiving services under, a 504/IEP who cannot wear a face covering due to the nature of the disability,  • If a student's 504/IEP plan included supports/goals/instruction for behavior or social emotional learning, the school team must evaluate the student's plan prior to providing instruction through Comprehensive Distance Learning.  3. Hold a 504/IEP meeting to determine equitable access to educational opportunities which may include limited on-site instruction, on-site instruction with accommodations, or Comprehensive Distance Learning.  □ Districts must consider child find implications for students who are not currently eligible for, or receiving services under, a 504/IEP who demonstrate an inability to consistently wear a face covering or face shield as required. Ongoing inability to emosternt way be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504. If a staff member 's proximity to students and staff to the extent possible to minimize the possibility of exposure.	OHA	/ODE Requirements	Hybrid/Onsite Plan
students.  Students protected under ADA/IDEA, who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering, the school or district must:  1. Review the 504/IEP to ensure access to instruction in a manner comparable to what was originally established in the student's plan.  2. The team must determine that the disability is not prohibiting the student from meeting the requirement.  • If the team determines that the disability is prohibiting the student from meeting the requirement, follow the requirement for students eligible for, or receiving services under, a 504/IEP who cannot wear a face covering due to the nature of the disability.  • If a student's 504/IEP plan included supports/goals/instruction for behavior or social emotional learning, the school team must evaluate the student's plan prior to providing instruction through Comprehensive Distance Learning.  3. Hold a 504/IEP meeting to determine equitable access to educational opportunities which may include limited on-site instruction, on-site instruction with accommodations, or Comprehensive Distance Learning.  Districts must consider child find implications for students who are not currently eligible for, or receiving services under, a 504/IEP who demonstrate an inability to consistently wear a face covering or face shield as required. Ongoing inability to meet this requirement may be evidence of the need for an evaluation to determine eligibility for support under IDEA or Section 504. ### 1i. ISOLATION MEASURES

OHA/ODE Requirements		
$\boxtimes$	Protocols for exclusion and	
	isolation for sick students and staff	
	whether identified at the time of	
	bus pick-up, arrival to school, or at	
	any time during the school day.	
	Protocols for screening students	

Protocols for screening students, as well as exclusion and isolation protocols for sick students and staff identified at the time of arrival or during the school day.

### Hybrid/Onsite Plan

Students who are identified as sick at the time of drop off will be sent home immediately (Under the Son School does not have a bus service). Students who are identified as sick during the school day will be immediately quarantined in a designated area and their parent called to pick them up. A staff will supervise the sick student while maintaining a six-foot space. Staff who become sick, while at school, will also be sent home immediately.

- Work with school nurses, health care providers, or other staff with expertise to determine necessary modifications to areas where staff/students will be isolated.
- Consider required physical arrangements to reduce risk of disease transmission.
- Plan for the needs of generally well students who need medication or routine treatment, as well as students who may show signs of illness.
- ⊠ Students and staff who report or develop symptoms must be isolated in a designated isolation area in the school, with adequate space and staff supervision and symptom monitoring by a school nurse, other school-based health care provider or school staff until they are able to go home. Anyone providing supervision and symptom monitoring must wear appropriate face covering or face shields.
  - School nurse and health staff in close contact with symptomatic individuals (less than six feet) should wear a medical-grade face mask. Other Personal **Protective Equipment** (PPE) may be needed depending on symptoms and care provided. Consult a nurse or health care professional regarding appropriate use of PPE. Any PPE used during care of a symptomatic individual should be properly removed and disposed of prior to exiting the care space.
  - After removing PPE, hands should be immediately cleaned with soap and water for at least 20 seconds. If soap and water are not available, hands can be cleaned with an alcoholbased hand sanitizer that contains 60-95% alcohol.

### Hybrid/Onsite Plan

All students and staff will be screened before entry into school building. Staff will meet students at the drop off point. Before parents can leave, teachers will take the student's temperature and ask parents about COVID exposure. Any student who appears sick, has been in direct contact with someone who is sick, or who has a temperature of 100.4 or more, will be sent home immediately.

After the sick staff or student leave the designated isolation area will be properly sanitized.

Under the Son School will hand out their Communicable Disease Guidelines for parents (https://docs.google.com/document/d/1QnCiWiuY9yRhWBHI2Q3OscytNoODpf2ioSQdknZm3WE/edit?usp=sharing). This handout will include information on Covid-19 and its symptoms. Parent will sign and date a form indicating they have read this handout.

Students or staff who develop symptoms while at school will be isolated in a designated area. Teachers will record and monitor students in their Teacher's Handbook. All notebooks will be turned over the LPHA within 72 hours. Teachers will wear a mask or face shield while providing care.

### OHA/ODE Requirements Hybrid/Onsite Plan If able to do so safely, a symptomatic individual should wear a face covering. To reduce fear, anxiety, or shame related to isolation, provide a clear explanation of procedures, including use of PPE and handwashing. Parents of the sick student will be called to come and pick up their child. □ Establish procedures for safely transporting anyone who is sick to their home or to a health care Under the Son School will hand out their Communicable Disease Guidelines for parents facility. (https://docs.google.com/document/d/1QnCiWiuY9yRhWBHI2Q3OscytNoODpf2ioSQdknZm3WE/edit?usp=sharing). Staff and students who are ill must This handout will include information on Covid-19 and its symptoms. It also lets parents know when a stay home from school and must child can return to school and what to expect from the school should there be a COVID exposure. be sent home if they become ill at Parent will sign and date a form indicating they have read this handout. school, particularly if they have COVID-19 symptoms. Symptomatic staff or students should be evaluated and seek COVID-19 testing from their regular physician or through the local public health authority. If they have a positive COVID-19 viral (PCR) test result, the person should remain home for at least 10 days after illness onset and 24 hours after fever is gone, without use of fever reducing medicine, and other symptoms are improving. If they have a negative COVID-19 viral test (and if they have multiple tests, all tests are negative), they should remain home until 24 hours after fever is gone, without use of fever reducing medicine, and other symptoms are improving. If a clear alternative diagnosis is identified as the cause of the person's illness (e.g., a positive strep throat test), then usual disease-specific return-to-school guidance should be followed and person should be fever-free for 24 hours, without use of fever reducing medicine. A physician note is

## 2. Facilities and School Operations

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for higher risk activities (see section 5f of the *Ready Schools, Safe Learners* guidance).

#### 2a. ENROLLMENT

(Note: Section 2a does not apply to private schools.)

#### OHA/ODE Requirements **Hybrid/Onsite Plan** Under the Son School is based on a first come/ first serve policy due to Enroll all students (includes foreign exchange students) following the standard Oregon Department of Education guidelines. our limited class size. It is our policy not to disenroll students for non-Do not disenroll students for non-attendance if they meet the attendance but only for non-payment. following conditions: Are identified as high-risk, or otherwise considered to be part of a population vulnerable to infection with COVID-19, or Have COVID-19 symptoms for 10 consecutive school days or longer. Design attendance policies to account for students who do not attend in-person due to student or family health and safety concerns.

### 2b. ATTENDANCE

(Note: Section 2b does not apply to private schools.)

	(Note: Section 25 does not apply to private sensois,)

requirements.		

### 2d. SCHOOL SPECIFIC FUNCTIONS/FACILITY FEATURES

#### OHA/ODE Requirements **Hybrid/Onsite Plan** ☐ Handwashing: All people on campus should be advised and Handwashing: all staff and students will have access to hand encouraged to wash their hands frequently. washing or hand sanitizer. Staff and students will wash hands ☐ **Equipment:** Develop and use sanitizing protocols for all equipment upon entering the school, after bathroom breaks, and before and after meals. Multiple opportunities to wash hands will be given. used by more than one individual or purchase equipment for individual use. In the event handwashing is not available, teachers will dispense ☐ **Events:** Cancel, modify, or postpone field trips, assemblies, athletic hand sanitizer. events, practices, special performances, school-wide parent **Equipment:** All sharing of supplies will be restricted when meetings and other large gatherings to meet requirements for possible. Students will have their own personal supplies that is physical distancing. kept in their personal pencil box, in their personal cubbies. Any ☐ **Transitions/Hallways:** Limit transitions to the extent possible. shared equipment will be sanitized between students. Create hallway procedures to promote physical distancing and minimize gatherings. **Events:** All off-site field trips have been canceled. On-site events ☐ Personal Property: Establish policies for personal property being will be modified to follow cohorting and social distancing brought to school (e.g., refillable water bottles, school supplies, guidelines. headphones/earbuds, cell phones, books, instruments, etc.). If personal items are brought to school, they must be labeled prior to Transitions/Hallways: Hallways will include directional traffic entering school and use should be limited to the item owner. marking to reduce contact. Students will stay in their own classroom. Personal Property: All personal property will be labeled. Each child will have a plastic milk crate that will be labeled with their name on it. Coats, backpacks, lunchboxes and pencil boxes will be kept in their crate. Crates will be sanitized weekly.

### **2e. ARRIVAL AND DISMISSAL**

#### OHA/ODE Requirements Hybrid/Onsite Plan Physical distancing, stable cohorts, square footage, and cleaning Staff will meet students at the drop off point. Before parents can requirements must be maintained during arrival and dismissal leave, teachers will take the student's temperature and ask parents about COVID exposure. Any student who appears sick, has been in procedures. direct contact with someone who is sick, or who has a temperature of 100.4 or more, will be sent home immediately. dismissal times. Assign students or cohorts to an entrance; assign staff member(s) 2<sup>nd</sup> and 3<sup>rd</sup> grades – arrival time 8:30 to 8:45am pick up time 3:00pm to conduct visual screenings (see section 1f of the Ready Schools, Safe Learners guidance).

Kindergarten and 1st grades – arrival time 8:45am to 9:00am / pick up

contact tracing by the LPHA. Sign-in procedures are not a replacement for entrance and screening requirements. Students

Ensure accurate sign-in/sign-out protocols to help facilitate

time 2:45pm to 3:00pm

entering school after arrival times must be screened for the primary symptoms of concern.

- Eliminate shared pen and paper sign-in/sign-out sheets.
- Ensure hand sanitizer is available if signing children in or out on an electronic device.
- ☑ Ensure hand sanitizer dispensers are easily accessible near all entry doors and other high-traffic areas. Establish and clearly communicate procedures for keeping caregiver drop-off/pick-up as brief as possible.

### Hybrid/Onsite Plan

**Pre-** K – arrival time 9:00am to 9:15am / pick up time 11:30 to 11:45am

Preschool – arrival time 9:15 to 9:30 / pick up time 11:45 to 12:00am

See example of Student log. Only teachers will sign their students in.

Touchless hand sanitizers have been ordered and will be installed by the two major entrances into the school building.

### 2f. CLASSROOMS/REPURPOSED LEARNING SPACES

### OHA/ODE Requirements

- Seating: Rearrange student desks and other seat spaces so that staff and students' physical bodies are six feet apart to the maximum extent possible while also maintaining 35 square feet per person; assign seating so students are in the same seat at all times.
- Materials: Avoid sharing of community supplies when possible (e.g., scissors, pencils, etc.). Clean these items frequently. Provide hand sanitizer and tissues for use by students and staff.
- Handwashing: Remind students (with signage and regular verbal reminders from staff) of the utmost importance of hand hygiene and respiratory etiquette. Respiratory etiquette means covering coughs and sneezes with an elbow or a tissue. Tissues should be disposed of in a garbage can, then hands washed or sanitized immediately.
  - Wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.

### Hybrid/Onsite Plan

- Seating: Student's desks or tables will be placed so that the students are 6 feet apart. When needing to work one-on-one with students' teachers will call no more than 2 students at a time to work with, to maintain distance. Student's desks and cubbies will be labeled with their names so they use the same one at all times.
- Materials: Each classroom will limit sharing of community supplies. Any shared supplies will be sanitized between users. Hand sanitizer and tissues will be available for use by students and staff. Staff will have access to sanitizing wipes.
- Handwashing: All staff and students will wash hands upon entry into school building. Frequent hand washing opportunities will be given. Teachers will model and practice proper hand washing procedures in class. Signage will also be posted, above the sinks, for older students and staff.

### 2g. PLAYGROUNDS, FIELDS, RECESS, BREAKS, AND RESTROOMS

### OHA/ODE Requirements

- Keep school playgrounds closed to the general public until park playground equipment and benches reopen in the community (see Oregon Health Authority's <u>Specific Guidance for Outdoor</u> Recreation Organizations).
- After using the restroom students must wash hands with soap and water for 20 seconds. Soap must be made available to students and staff.
- ☑ Before and after using playground equipment, students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol.
- Designate playground and shared equipment solely for the use of one cohort at a time. Disinfect at least daily or between use as much as possible in accordance with <u>CDC guidance</u>.
- Cleaning requirements must be maintained (see section 2j of the Ready Schools, Safe Learners guidance).
- Maintain physical distancing requirements, stable cohorts, and square footage requirements.
- Provide signage and restrict access to outdoor equipment (including sports equipment, etc.).
- Design recess activities that allow for physical distancing and maintenance of stable cohorts.
- Clean all outdoor equipment at least daily or between use as much as possible in accordance with <u>CDC guidance</u>.
- Limit staff rooms, common staff lunch areas, and workspaces to single person usage at a time, maintaining six feet of distance between adults.

### **Hybrid/Onsite Plan**

Under the Son's playground is closed to the public. The gate is locked after hours.

Students will wash hands after each restroom use. Teachers will help younger students to wash. Signs about washing hands will be posted above the sink for older students.

Teachers will take students for a restroom break before and after using playground equipment. Teachers will oversee hand washing.

Each cohort will have an assigned playground time. Playground equipment will be disinfected after each cohort use.

Under the Son School will maintain and clean and disinfected environment by following the CDC guidelines.

Cohorts will be established based on the square footage of each classroom. Teachers will work with students on social distancing.

Each cohort will have an assigned recess time. All equipment will be sanitized after each cohort use. Equipment that cannot be sanitized will be put away.

### **2h. MEAL SERVICE/NUTRITION**

#### **OHA/ODE Requirements** Hybrid/Onsite Plan Students, who stay all day, will bring their own lunches. Teachers will Include meal services/nutrition staff in planning for school reentry. wash hands, wear masks and gloves while helping students with their Staff serving meals must wear face shields or face covering (see ...) lunches. All tables will be wiped down prior to lunch time. Students section 1h of the Ready Schools, Safe Learners guidance). will wash their hands before and after lunch. Students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol before Teachers will eat lunch at their desks away from students. meals and should be encouraged to do so after. Appropriate daily cleaning of meal items (e.g., plates, utensils, transport items) in classrooms where meals are consumed. ☑ Cleaning and sanitizing of meal touch-points and meal counting system between stable cohorts. □ Adequate cleaning of tables between meal periods. Since staff must remove their face coverings during eating and ■ drinking, staff should eat snacks and meals independently, and not in staff rooms when other people are present. Consider staggering times for staff breaks, to prevent congregation in shared spaces.

#### 2i. TRANSPORTATION

OHA	/ODE Requirements	Hybrid/Onsite Plan
$\boxtimes$	Include transportation departments (and associated contracted	Under the Son does not provide transportation for students. Parents
	providers, if used) in planning for return to service.	must provide their own transportation.
	Buses are cleaned frequently. Conduct targeted cleanings between	
	routes, with a focus on disinfecting frequently touched surfaces of	
	the bus (see section 2j of the <i>Ready Schools, Safe Learners</i>	
	guidance).	
	Develop protocol for loading/unloading that includes visual	
	screening for students exhibiting symptoms and logs for contact-	
	tracing. This can be done at the time of arrival and departure.	
	<ul> <li>If a student displays COVID-19 symptoms, provide a face</li> </ul>	
	shield or face covering (unless they are already wearing	
	one) and keep six feet away from others. Continue	
	transporting the student.	
	<ul> <li>If arriving at school, notify staff to begin isolation</li> </ul>	
	measures.	
	<ul> <li>If transporting for dismissal and the student</li> </ul>	
	displays an onset of symptoms, notify the	
	school.	
	Consult with parents/guardians of students who may require	
	additional support (e.g., students who experience a disability and	
	require specialized transportation as a related service) to	
	appropriately provide service.	
	Drivers wear face shields or face coverings when not actively	
	driving and operating the bus.	
	Inform parents/guardians of practical changes to transportation	
	service (i.e., physical distancing at bus stops and while	
	loading/unloading, potential for increased route time due to	
	additional precautions, sanitizing practices, and face coverings).	
	Face coverings or face shields for all students in grades	
	Kindergarten and up following CDC guidelines applying the	
	guidance in section 1h of the <i>Ready Schools, Safe Learners</i>	
	guidance to transportation settings.	

guidance to transportation settings.	
2j. CLEANING, DISINFEO	CTION, AND VENTILATION
OHA/ODE Requirements	Hybrid/Onsite Plan
□ Clean, sanitize, and disinfect frequently touched surfaces (e.g., playground equipment, door handles, sink handles, drinking fountains, transport vehicles) and shared objects (e.g., toys, games, art supplies) between uses multiple times per day.	

Maintain clean and disinfected (<u>CDC guidance</u>) environments, including classrooms, cafeteria settings and restrooms.

- Clean and disinfect playground equipment at least daily or between use as much as possible in accordance with <u>CDC</u> guidance.
- Apply disinfectants safely and correctly following labeling direction as specified by the manufacturer. Keep these products away from students.
- ☑ To reduce the risk of asthma, choose disinfectant products on the EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide, citric acid, or lactic acid) and avoid products that mix these with asthma-causing ingredients like peroxyacetic acid, sodium hypochlorite (bleach), or quaternary ammonium compounds.
- Operate ventilation systems properly and/or increase circulation of outdoor air as much as possible by opening windows and doors, using fans, and through other methods. Consider running ventilation systems continuously and changing the filters more frequently. Do <u>not</u> use fans if they pose a safety or health risk, such as increasing exposure to pollen/allergies or exacerbating asthma symptoms. For example, do not use fans if doors and windows are closed and the fans are recirculating the classroom air.
- Consider the need for increased ventilation in areas where students with special health care needs receive medication or treatments.
- Facilities should be cleaned and disinfected at least daily to prevent transmission of the virus from surfaces (see <u>CDC's</u> <u>guidance on disinfecting public spaces</u>).
- Air circulation and filtration are helpful factors in reducing airborne viruses. Consider modification or enhancement of building ventilation where feasible (see <u>CDC's guidance on ventilation and filtration</u> and <u>American Society of Heating, Refrigerating, and Air-Conditioning Engineers' guidance</u>).

### Hybrid/Onsite Plan

All frequently touched surfaces will be disinfected after each class's use and at the end of the of the school day. Under the Son School will use the CDC guidelines to help maintain a clean and disinfected environment.

Playground equipment will be disinfected after each cohort use.

Disinfectants will be locked away from students. Teachers will be trained on how to use disinfectants and how to properly sanitize.

Under the Son School plans on using Lysol disinfect wipes during and after classes. After school staff will be using diluted bleach to wipe down all frequently touched surfaces, bathrooms, and playground equipment. We are continuing to research cleaners to find the best possible for killing germs and being asthma safe.

All classrooms have windows that open. Ventilations system has been checked. Filters changed to HEPA filters. System runs on a timer all day. All classrooms will have access to a fan if needed.

### **2k. HEALTH SERVICES**

### OHA/ODE Requirements

- ✓ OAR 581-022-2220 Health Services, requires districts to "maintain a prevention-oriented health services program for all students" including space to isolate sick students and services for students with special health care needs. While OAR 581-022-2220 does not apply to private schools, private schools must provide a space to isolate sick students and provide services for students with special health care needs.
- Licensed, experienced health staff should be included on teams to determine district health service priorities. Collaborate with health professionals such as school nurses; SBHC staff; mental and behavioral health providers; physical, occupational, speech, and respiratory therapists; and School Based Health Centers (SBHC).

### **Hybrid/Onsite Plan**

A space will be provided to isolate any stick student. Under the Son will collaborate with the LPHA.

### 21. BOARDING SCHOOLS AND RESIDENTIAL PROGRAMS ONLY

### OHA/ODE Requirements

- ☐ Provide specific plan details and adjustments in Operational Blueprints that address staff and student safety, which includes how you will approach:
  - Contact tracing
  - The intersection of cohort designs in residential settings (by wing or common restrooms) with cohort designs in the instructional settings. The same cohorting parameter limiting total cohort size to 100 people applies.
  - Quarantine of exposed staff or students
  - Isolation of infected staff or students

### Hybrid/Onsite Plan
