

**Evaluative Criteria for 2024 VBP Deliverables:
VBP Questionnaire + PCPCH and CDA Data Template**

As described in Exhibit H, Section 6, Paragraphs a and b of the [2024](#) contract, each Coordinated Care Organization (CCO) is required to complete and submit the VBP Questionnaire (previously VBP Pre-Interview Questionnaire) and PCPCH and CDA Data Template by **May 3, 2024**. Please refer to each deliverable for instructions on how to complete and submit the document. Beginning in 2024, OHA will no longer be conducting VBP interviews with CCOs.

For each deliverable, your CCO will be evaluated for:

- Completeness
- Consistency
- Progress in meeting requirements

Your CCO will be evaluated based on whether or not criteria are met in each of these areas (“criteria met,” “criteria partially met,” or “criteria not met”). Guidance for meeting criteria in each area are provided below. Written feedback will be provided for each deliverable.

VBP Questionnaire

Evaluative Criteria	Criteria Met	Criteria Partially Met	Criteria Not Met
Completeness			
Consistency			
Progress in meeting requirements			

Completeness: Is there a response for each question? Does the response answer each part of the question and include all required information?

Consistency: Is the information provided consistent with information provided through other VBP deliverables, for this year and for previous years?

Progress in meeting requirements: Is the CCO on track to meet the VBP requirements of the CCO contract and specifications provided in the VBP Technical Guide?

- Annual VBP targets: Is the CCO on track to make the required percentage of annual payments to providers through contracts that include a qualifying VBP component? (Exhibit H, Section 4)
- Care delivery area (CDA) VBP requirements: Has the CCO developed new or expanded VBPs in each required care delivery area? (Exhibit H, Section 2)

- PCPCH program investments: Are per-member-per-month infrastructure payments separable from other payments made to PCPCH clinics? (Exhibit H, Section 3; VBP Technical Guide pg. 12)
