Based upon analysis and recommendations from the Year One review of adult mental health residential standardized rates that became effective July 1, 2019, the Oregon Health Authority (OHA) is planning targeted rate adjustments effective with dates of service on and after July 1, 2021.

OHA invites you to learn more about the changes planned for July 1, 2021 at a Microsoft Teams presentation hosted by OHA and Optumas, the actuarial services vendor that conducted the financial analysis for the Year One review.

### Why is this happening?

The Year One review helped OHA assess whether the current rate methodology addressed provider inequities to appropriately meet the needs identified through person-centered service planning, residential assessment and service planning processes. In advance of the next rate review, OHA has identified that additional training, technical assistance, and monitoring is needed to better assess ongoing operational and capacity impacts.

### What should you do?
