

#### SHIP SUBCOMITTEE MEETING #3: Economic drivers of health

Friday, December 20th, 1:00 – 3:00pm 800 NE Oregon Street, Suite 900 Portland, OR 97232

OR

Zoom Meeting: <u>https://zoom.us/j/393128009</u> Meeting ID: 393 128 009 Conference Line: 1 669 900 6833

Vision: Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientation, socioeconomic status, nationalities and geographic locations.

Meeting Objectives:

- Finalize key indicators
- Strategy development

1:00 – 1:15	Welcome, agenda overview, subcommittee business
1:15- 2:00	Finalize key indicators
2:00-2:50	Strategy development brainstorm
2:50 – 2:55	Public Comment
2:55 – 3:00	<ul> <li>Wrap-up &amp; Next Steps</li> <li>Next meeting: January 24th</li> </ul>

#### **Welcome & introductions**

Share name, agency and pronouns

#### **Subcommittee Business**

- Zoom functions
  - Please enable your video
  - Breakout rooms
  - Join via computer and/or phone
- Narrowing to three workgroups
- SHIP <u>Navigation Map</u> in lieu of subcommittee digest

#### **Indicator finalization**

Vision: Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientations, socioeconomic status, nationalities and geographic locations.

## Outcome indicator: Long term measure that would indicate goal is achieved.

Criteria:

- addresses a health disparity
- has community acceptance is the right measure for the issue and is easy to understand by community members
- is feasible data is already collected, or mechanism for data has been identified
- state-wide indicator e.g. not Medicaid data as that is a subset of the population
- collected annually progress can be measured over the 5 years

### **Physical Environment**

Housing and Transportation (H+T®) Affordability Index (The Center for Neighborhood Technology)

#### **Economic Viability**

- HUD Cost Burden increasing percentage of residents that are spending less than 30% of housing.
  - Data from the Oregon Housing Community Service reporting
- Increase in percentage of residents earning at least the Self-Sufficiency standard.
  - Data from the Self-Sufficiency Standard for Oregon
- Opportunity Index increase Oregon's economy score by 2.5 point over 5 years.
  - Data from <u>Opportunity Index</u> Economy Dimension

### **Food Insecurity**

Placeholder: Will be updated after 12/19 workgroup meeting

#### **Strategy identification**

Vision: Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientations, socioeconomic status, nationalities and geographic locations.

Goal: Broad statement(s) of what we're trying to accomplish within a given priority area to achieve the vision.

Outcome indicator: Long term measure that would indicate goal is achieved.

Strategy: Policy, community and individual level interventions needed to achieve the goal

Process measure: Short term measure that would indicate strategy has been achieved.

Actions: Specific tasks needed to implement strategy

#### **Getting clear on language - Example**

Vision: Oregon will be a place where health and wellbeing are achieved across the lifespan for people of all races, ethnicities, disabilities, genders, sexual orientations, socioeconomic status, nationalities and geographic locations.

Goal(s): Improve health by decreasing economic and social inequities

Outcome indicator: Poverty level

Strategy: Renew and raise Oregon's earned income tax credit (EITC)

Process measure" Percentage of eligible families who claim the EITC

#### **Strategy development**

- Goal: Identify a total of 10-15 strategies at policy, community and individual level
  - Existing strategies
  - New strategies
  - Interventions needed to make progress towards the goals
- Process
  - Identify possible strategies
  - Apply criteria to narrow strategies
  - Identify approximately 3 5 strategies for each layer of framework

Selection criteria	Definition
Proven impact on disparities	<ul> <li>Strategy addresses disparities in priority populations (POC, low income, disability, LGBTQ, rural/frontier)</li> </ul>
Will achieve intended outcome	<ul> <li>Right strategy for the goal</li> <li>Strategy aligns with evidence-based or promising practice</li> </ul>
Politically feasible	Ability to influence and implement a policy change
Resourced or likely to be resourced	<ul> <li>Funding is available or likely to be available</li> <li>Local expertise exists</li> </ul>
Relevant to community	<ul> <li>Strategy is in use in local community</li> <li>Strategy is realistic and of interest from a local perspective</li> </ul>
Alignment with other strategic initiatives (locally or federally)	Strategy nationally recognized or recommended
Change likely in next 5 years	Impacts likely to be seen within 5 years of implementation
Addresses lifespan	<ul> <li>Relevant to a wide range of age</li> <li>Relevant to young children or older adults</li> </ul>

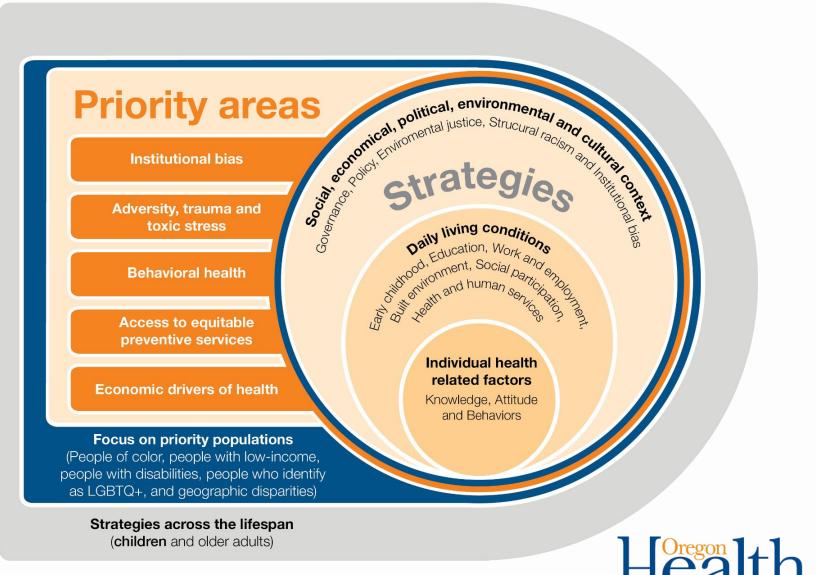

#### **Process measure development**

- Goal: Identify 1 process measure for each strategy
  - Communicate hoped for changes
  - Short term in nature (change in 1-2 years)
  - Measure progress towards strategy
- Process
  - Identify possible measures
  - Apply criteria to narrow measures
  - Identify baseline and target if available

Selection criteria	Definition
Promotes health equity	Measure addresses an area where health disparities exist
	<ul> <li>Data are reportable by race/ethnicity</li> </ul>
	Data are reportable by gender
	Data are reportable by sexual orientation
	Data are reportable by disability
	Data are reportable by income level
Respectful and relevant	Data are reportable at the county level
to local priorities	Indicator is already in use at local level
Lifespan	Data are reportable by age
Acceptable and	Right measure for the strategy
attainable	<ul> <li>Measure aligns with evidence-based or promising practice</li> </ul>
	<ul> <li>Measure is sensitive enough to capture improved performance or sensitive enough to show difference between years</li> </ul>
	<ul> <li>It is reasonable to expect improved performance on this measure.</li> </ul>
	• It is reasonable to expect improved performance on this measure.
Frequency	• Data is collected annually or every other year at minimum.
Transformative potential	Demonstrates an innovative measurement approach
	Brings forward community voice
Aligned with state	• Existing State Health Indicator, CCO Incentive Measure, Public
measures	Health Accountability Measure or other state-wide
	performance measures
Feasibility of	• Data for measure are already collected, or a mechanism for data
measurement	collection has been identified.

#### **2020 SHIP Framework**

Authority

# **Strategy brainstorm – What strategies are need to advance our goals?**

**Food insecurity:** Increase equitable access to culturally appropriate nutritious food regardless of social or structural barriers (e.g., age, location or employment) by addressing the underlying issues in food availability and stigma associated with food insecurity

**Economic viability:** Increase the percentage of Oregonians earning a livable wage by raising public awareness of the correlation between health and economic sufficiency and advocating for evidence-based policies to improve economic sufficiency.

**Physical environment:** All people in Oregon live, work, play in a safe and healthy environment and have equitable access to stable, safe, affordable housing, transportation and other essential infrastructure so that they may live a healthy life.

# **Public Comment**

### **Next Steps & Final Thoughts**

-+/Delta feedback review

- Next subcommittee meeting is January 24th
- Homework: Review documents, share ideas in basecamp or contribute ideas through the form:
