¹ Included in the external cause total, but not shown as a subset, are deaths resulting from complications of medical and surgical care (Y40-Y84, Y88); therefore, the sums of the subsets under external causes may not equal the total shown.

Quantity is zero.

² Includes both drownings that involved watercraft (ICD-10: V90, V92) as well as those that did not (ICD-10: W65-W74).

³ Abuse and neglect deaths are underreported on death certificates.

Includes overdoses which occurred by any manner, as well as deaths, when present, resulting from substance abuse (O35.4 and P04.3) by mothers during pregnancy, a cause not included in this category elsewhere in this report.
