TABLE 6-42. Unintentional Injury Deaths for Selected Causes,
by County of Injury, Oregon, 2005

¹ The county of death is used in lieu of the county of injury for those few cases where the county of injury was not reported by the certifying physician.

² Includes all unintentional injury deaths, not just those in the seven categories shown.

³ Includes overdoses from all drugs/medications; ICD-10 codes do not distinguish between illicit and licit drugs.

⁴ Includes poisonings by substances other than drugs, such as carbon monoxide and alcohol.

⁵ Includes both drownings and other mishaps, but not voluntarily jumping from a watercraft.

Quantity is zero.
