TABLE 6-45. Unintentional Injury Deaths for Selected Causes, by County of Injury, Oregon, 2012

<sup>1</sup> The county of death is used in lieu of the county of injury for those few cases where the county of injury was not reported by the certifying physician.
<sup>2</sup> Includes all unintentional injury deaths, not just those in the seven categories shown.

<sup>3</sup> Includes overdoses from all drugs/medications; ICD-10 codes do not distinguish between illicit and licit drugs.
<sup>4</sup> Includes poisonings by substances other than drugs, such as carbon monoxide and alcohol.

<sup>5</sup> Includes both drownings and other mishaps, but not voluntarily jumping from a watercraft.

Quantity is zero.
