

Tracking Home Visiting Effectiveness in Oregon (THEO) Status Update

December 2022

2022 THEO Rollout to Babies First! and CaCoon

The rollout of the THEO database to Babies First! and CaCoon agencies is complete. Thank you to all of the staff for completing the training and for your patience throughout the process. We are grateful for your dedication to this work and your commitment to providing data that will help us better understand these programs and improve systems of care for our clients. Your hard work and perseverance are greatly appreciated.

The THEO project team is currently collecting training evaluation surveys from participating agencies and will send out post-implementation surveys to all participants in February 2023 (90 days post-rollout) in order to collect feedback on the overall experience of the rollout as well as to check-in on questions and support needs that may have come up. Your feedback is important to us, thank you for taking the time to complete the survey.

THEO User Resources and Support

THEO user resources are posted on the [THEO User Resources: Babies First! and CaCoon Agencies](#) page.

Resources included on webpage:

- Data collection schedule tools
- User Manual
