

# EnDeare™

For over 30 years people have trusted the researched based technology of the large piston-driven designed breast pumps. Hygeia is happy to announce that we plan to continue to supply our customers with these proven designs. Our EnDeare™ is a hospital grade multi-user with an external piston design.

# Universal Deluxe Personal Accessory Set

Hygeia offers many Personal Accessory Set PAS options to fit your needs. Recent improvements include.

- Removeable flanges makes it quick and easy to change flange size
- Added two sizes for flanges
- Added two additional duckbill valves
- Added two off-set valves & spare membranes

Shown below is the Universal Deluxe Personal Accessory set which is our most popular PAS because it works with all Hygeia pumps as well as similarly designed pumps without sacrificing effectiveness.
