# OHCS update

**Neeti Vyas**, M.B.B.S., MPH, CIC  
Congregate Care Epidemiologist 2  
Infection Prevention and Control  
OREGON HEALTH AUTHORITY  
Public Health Division  
COVID-19 Response and Recovery Unit (CRRU)  
[Neeti.Vyas@dhsosha.state.or.us](mailto:Neeti.Vyas@dhsosha.state.or.us)

The logo for the Oregon Health Authority. It features the word "Oregon" in a smaller, orange, serif font, positioned above the word "Health" in a large, dark blue, serif font. Below "Health" is the word "Authority" in a smaller, orange, serif font. A thin blue horizontal line is positioned below the word "Health".

# Lineage Prevalence Over Time

# Multiple Layers Improve Success

The Swiss Cheese Respiratory Pandemic Defense recognizes that no single intervention is perfect at preventing the spread of the coronavirus. Each intervention (layer) has holes.

# Response and Prevention Recommendations

- Early intervention- This includes providing guidance for testing, infection control practices (e.g., cohorting, ventilation, PPE use), and access to vaccines and medical care.
- Isolation- 10 days;
- Residents of congregate living settings may return to work or school after completion of their 5-day isolation period provided they have been fever-free for at least 24 hours, their symptoms are improving, and they are able to mask while around other people for the remaining 5 days of their isolation period.
- Continue to isolate from other residents in the congregate living setting for the full 10-day isolation period.

# Response and Prevention Recommendations

- Quarantine- 10 days ;Residents (regardless of vaccination status) and staff (who are not up to date on COVID-19 vaccination) of non-healthcare congregate facilities
- Residents of non-healthcare congregate living settings who attend school or work outside of that setting are allowed to return to work or school after exposure to a confirmed or presumptive COVID-19 case, presuming that they remain asymptomatic

# Updates and Resources

- 117,614 test kits have been distributed to CoC's

- Free air purifiers for high-risk wildfire zones
