Lonnie Tucker
Brendan Watkins
Scott Winkles

Chair James Dalton called the meeting to order at 1:00 P.M.

ADMINISTRATION

A.1. BOARD MEETING MINUTES OF MAY 18, 2012

The Board unanimously approved the minutes from the May 18, 2012 Board meeting.

A.2. DIRECTOR'S REPORT

Executive Director Paul Cleary presented the Forward Looking calendar noting the next Board meeting will be September 28, 2012. Agenda items will include the adoption of the 2013-15 individual employer rates and an update on revised Governmental Accounting Standards Board (GASB) pension accounting and reporting standards. Cleary explained the new GASB standards could impact which actuarial methods are used and how employers report their pension information.

The November 30, 2012 Board meeting will be the final meeting for 2012. Agenda items will include an update to the 2010 cost allocation, benefit modification and system financial concepts analysis in preparation for the 2013 legislative session, and an OPERF asset/liability study update. The Board meeting will be followed by an Audit Committee meeting.

Cleary presented the OPERF investment returns for July 31, 2012. He stated the regular account was up by 7.81 percent and the variable was up 7.36 percent for the year-to-date.

Cleary noted a separate report provided to the Oregon Investment Council (OIC) members showed the 10-year returns as of June 30, 2012 were 7.44 percent which is in the top one percent of public funds greater than \$10 billion.

Cleary noted that the 2011-13 biennial operating budget shows a positive variance of approximately 2% through June.

Cleary noted that the Quarterly Member Transactions report shows a slowdown in retirements compared to 2011 and in those activities linked to processing retirements. He reported that the benefit estimate requests backlog will be completed by the end of September. He commended staff for completing 68 percent of the July retirements with 45 days. He noted this is the highest 45-day completion rate reported since PERS has been tracking this measure, and reflects various process improvements and joint partnerships among the Divisions.

Cleary presented the update for the Strunk/Eugene Overpayment Recovery Project. The report included the schedule for member notification. The goal is to have all over payment amounts received or payment plans established by the end of the fiscal year.

Cleary provided an update on the Retiree Health Insurance Third-Party Administrator and Consulting Contract awards. He reported after a strong competitive process, the contract was awarded to incumbent, Butler Partners and Associates. Cleary reported the Request for Proposal for Retiree Health Insurance Third-Party Administrator services is scheduled to be issued in January 2013. The proposed timeline will require the Benefit Help Solutions' contract to be extended through December 31, 2013 to allow time to complete the process.

Cleary presented a memo that outlined the Assumed Earnings Rate Review schedule and detailed the sequence of OIC and Board actions that occur on a regularly ongoing cycle in determining the assumed earnings rate.

Cleary reported that the OIC will examine the OPERF asset allocation and related return expectations on September 18, 2012 and that an asset/liability study update will be completed for presentation at the December 5, 2012 OIC meeting.

Deputy Director Steve Rodeman introduced Marjorie Taylor who will be joining PERS on September 10, 2012 as the Senior Policy Advisor. She will be a key link to PERS stakeholder groups, legislators, and other constituents who want to have a policy and legislative point of contact with PERS. Taylor comes from the Department of Administrative Services where she has been the State-wide Legislative Coordinator.

Paul Cleary introduced Krystal Gema who was nominated by Governor Kitzhaber for the PERS Board. The Senate is scheduled to confirm executive appointments on September 14, 2012. If confirmed, Gema will begin her term on October 1, 2012. The September 28, 2012 meeting will be Chair Dalton's last board meeting.

NOTICE OF RULEMAKING

B.1. NOTICE OF JUDGE MEMBER RULES

Rodeman presented the notice of rulemaking for Judge Member rules. These modifications make minor housekeeping edits, update citations, and deleted references to disability retirement standards. No board action was required at this time.

B.2. NOTICE OF PUBLIC CONTRACTING RULES

Rodeman presented the notice of rulemaking for Public Contracting rules. These will establish uniform rules that apply when PERS has independent contract authority and the public contracting code does not apply. These rules are based on the Department of Justice model public contract rules. No Board action was required at this time.

RULE ADOPTION

B.3. ADOPTION OF DISABILITY APPLICATION RULES

Rodeman presented the Disability Application rules for adoption. These modifications are necessary to clarify when a disability application should be submitted for those who have been out on disability for an extended period of time and have since returned to work. No changes have been made since the rules were presented during the May Board meeting.

Vice-Chair Laurie Warner moved and Board member Pat West seconded to adopt the Disability Application rules as presented. Motion passed unanimously.

ACTION AND DISCUSSION ITEMS

C.1. APPOINT OSGP ADVISORY COMMITTEE MEMBERS

Deferred Compensation Manager Gay Lynn Bath presented the Oregon Savings Growth Plan (OSGP) Advisory Committee appointments for board approval. Bath provided an overview of the responsibilities of the committee members.

Board member John Thomas moved and West seconded to approve the OSGP Advisory Committee appointments as presented. Motion passed unanimously.

C.2. 2011 SYSTEM-WIDE VALUATION RESULTS

Milliman actuaries Matt Larrabee and Scott Peppernau presented a summary of the December 31, 2011 System-wide Actuarial Valuations results for Tier One/Tier Two and Oregon Service Retirement Plan (OPSRP) programs and retiree healthcare programs.

Larrabee explained that actuarial valuations are conducted annually and alternate between “rate-setting valuations” and “advisory valuations”. Employer contribution rates from a rate-setting valuation go into effect 18 months subsequent to the valuation date. Larrabee noted this is a rate-setting valuation which will be used to set employer contribution rates for July 2013

through June 2015. A list of individual employer contribution rates for the upcoming biennium will be included in the September Board meeting materials and should be posted on the PERS website prior to the meeting. After the September Board meeting, Milliman will provide PERS staff with individual employer reports. PERS will deliver these reports to employers sometime in October.

Director Cleary commended the extensive work the Board did in 2004 in establishing various funding principles. Cleary noted the new GASB standards are encouraging all pension systems to adopt a formal funding policy. PERS is ahead of the curve as these elements have been in place for almost six years.

Larrabee described the continuing impacts of the 2008 market downturn and effects of the 2010-2011 investment returns on system funded status, rate setting collars, and system-wide employer rates. He explained rates are more likely to remain the same or higher for the foreseeable future. He noted earnings would have to be well above the assumption for rates to be lower.

Chair Dalton reiterated that even if the 8 percent assumption is met for the next 10 to 15 years, the rates will remain at this level.

Larrabee reported system-wide base employer contribution rates, without side account offsets, will be 21.4 percent of payroll beginning July 1, 2013. System-wide net employer contribution rates, with side account offsets, will be 15.7 percent of payroll beginning July 1, 2013.

Board members provided comment and follow-up questions.

Chair Dalton noted that it is a painful situation for employers, but the system funding needs to be restored. He urged the Board members to continue to use the funding principles that have been developed over the last decade and to “think long and hard” before taking the easy solution of pushing the cost out to future generations.

C.3. 2013-15 AGENCY REQUEST BUDGET APPROVAL

Rodeman presented the 2013-15 Agency Request Budget (ARB) for Board approval to submit to the Department Administrative Services/Budget and Management and the Legislative Fiscal Office. Rodeman described the strategies and objectives used in preparing the budget request. Rodeman also noted that the agency continues to strive to keep expenses down and hold the number of staff positions constant while managing increased workload and improving key performance measures. Both total staffing and total expenditures have decreased over the last decade.

Thomas moved and Warner seconded to approve submission of the 2013-15 Agency Request Budget as presented. Motion passed unanimously.

Board members took the opportunity to commend PERS staff for the continued improvements in providing services to PERS members and employers, and thanked them on behalf of all the various interests that PERS serves.

Marc Feldsman addressed the Board inquiring on how many current active and inactive members are eligible to retire and their percentage of the non-retired PERS population. Cleary responded there are about 70,000 members eligible to retire which represents about 35 percent of the non-retired PERS population.

Dalton adjourned the meeting at 2:20 PM for an executive session.

The Board ended the executive session at 3:08 PM and Dalton reconvened the meeting with no decisions required. Dalton adjourned the meeting at 3:08 PM.

Respectfully submitted,

A handwritten signature in black ink that reads "Paul R. Cleary". The signature is written in a cursive style with a large initial "P" and "C".

Paul R. Cleary
Executive Director

September 28, 2012

TO: Members of the PERS Board
FROM: Kyle J. Knoll, Budget Officer
SUBJECT: September 2012 Budget Report

2011-13 OPERATIONS BUDGET

Operating expenditures for July and August 2012 were \$2,967,975 and \$2,694,769 respectively.

- To date, through the first fourteen months (58.33%) of the 2011-13 biennium, the Agency has expended a total of \$41,302,251, or 53.46% of PERS' legislatively approved operating budget of \$77,260,820.
- The current projected positive variance is \$2,124,207, or approximately 2.7% of the operating budget.

STRUNK EUGENE OVERPAYMENT RECOVERY PROJECT

Operating expenses for July and August 2012 were \$12,764 and \$97,009 respectively. To date, the Agency has expended a total of \$109,773, or 5.3% of PERS' legislatively approved budget of \$2,071,410. Project expenditures should accelerate as the project is now staffed up. Also, as accounts are referred outside the agency and expenses are incurred in those third-party recovery efforts, those expenditures will begin to be recognized.

September 28, 2012

TO: Members of the PERS Board
FROM: David Crosley, Communications Officer
SUBJECT: 2012 Customer Service Survey Results

PERS conducted customer satisfaction surveys for members (including retirees) and employers in August 2012. This was the seventh year of our survey program.

The 2005 Legislature adopted standardized customer service performance measures and survey questions for all agencies in all branches of state government. The measures require agencies to survey customers and report results in their budget presentations.

Our 2012 surveys continue to show good overall ratings from both members and employers. We will continue to conduct yearly surveys to measure and trend improvement in our customer service.

MEMBER CUSTOMER SATISFACTION SURVEY

BACKGROUND

PERS posted a customer service survey on its website in the member and retiree sections during August 2012. We also placed a hard copy of the survey in the August 1 retiree newsletter, *Perspectives*, that retirees could complete and mail to PERS. Retirees also had the option of completing the survey online. The August 1 *Perspectives* newsletter for active members noted that the survey was available online. In total, we received approximately 1,700 responses, a number of which included individual comments. In comparison, we received fewer than 1,600 responses in 2011.

We identified two key issues and suggestions from the comments received as detailed below. We also describe our strategies to address those items and the methodologies used in the survey. The following graphs and charts display the survey results and provide a comparison of responses for the 2008-2012 survey years.

In addition to the core questions, we also asked for input regarding the PERS website:

- Was the PERS website easy to navigate?
- Did you find the information you wanted?
- Are there any changes you would make to the PERS website?

Approximately 78 percent of respondents said the website was easy to navigate and approximately 72 percent found the information they were seeking. In many cases where information was not found, benefit recipients were looking for individual amounts owed as part of the Strunk and Eugene Overpayment Recovery Project.

Another questions asked: "If you rated PERS 'Fair' or 'Poor' in any part of question 3, please tell us why you did not rate us 'Excellent' or 'Good.'" Many noted their dissatisfaction with having to repay PERS based on erroneous 1999 earnings crediting and the associated legislative actions and court rulings.

An additional question this year asked: “Are PERS forms easy to understand and use?” More than 78 percent of respondents answered “yes,” with less than seven percent answering “no.” The remainder had “not used” PERS forms.

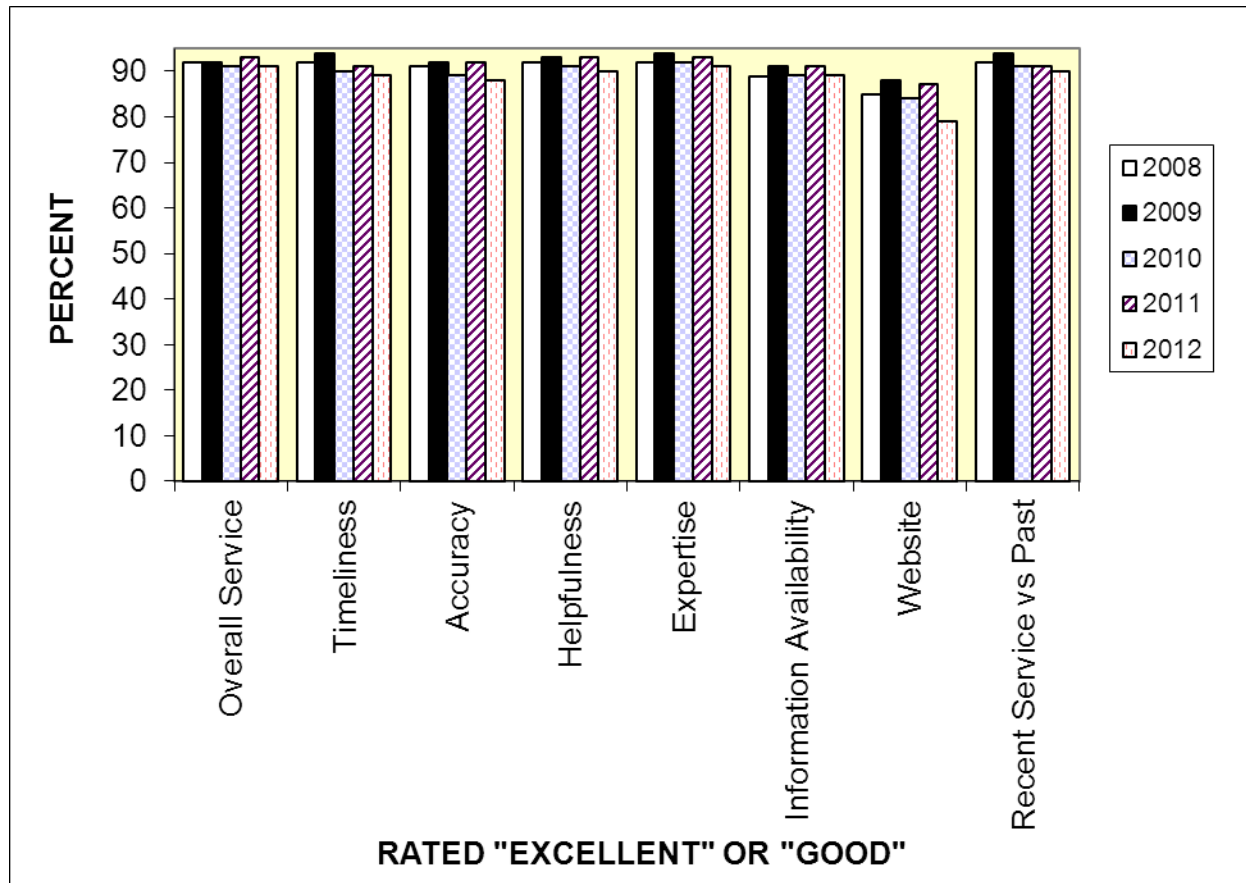

Percent of member respondents rating “excellent” or “good” (the state’s Key Performance Measures do not include the “Don’t Know” responses; the numbers in the graph have been rebaselined to exclude those responses).

Numerical member results (numbers rounded; may not equal 100%)

How do you rate...	Percent				
	Excellent	Good	Fair	Poor	Don’t Know
The overall quality of service?	58	28	6	3	5
The timeliness of services PERS provides?	57	28	5	5	5
PERS’ ability to provide services accurately the first time?	56	26	6	5	7
PERS’ helpfulness?	61	24	5	4	6
The knowledge and expertise of PERS employees?	55	27	5	3	10
The availability of information at PERS?	52	30	6	4	7
The PERS website?	21	22	8	4	45
Our service in the past year compared to previous years?	45	24	5	4	23

Comparison of 2008-2012 Member Results

KEY MEMBER ISSUES AND SUGGESTIONS (in order of number of responses)

1. Retiree’s would like to receive a more timely option change benefit increase in the case of a beneficiary’s death.

Retiree’s feel that it can take too long to receive an option change and the additional monthly benefit in cases where a beneficiary dies and the retiree is entitled to a higher benefit because of the option selected at retirement.

Resolution: The Benefit Payments Division and Customer Services Division are working together to process these benefit changes for approximately 150 recipients. The goal is to process all current requests by the end of 2012.

2. Benefit recipients who are receiving estimated payments would like to receive final payments.

Benefit recipients receiving estimated payments would like to switch to a final benefit amount.

Resolution: The Benefit Payments Division anticipates providing a final benefit amount for the approximately 200 benefit recipients receiving an estimated payment by the end of 2012.

SURVEY METHODOLOGIES

To maximize member response, PERS created this survey online and posted it in a prominent spot on our home page. We also published the location of the survey in our member and retiree newsletters, inviting members and retirees to participate. The online survey ran throughout August 2012.

Further, we placed a hard copy of the survey in the newsletter that goes to retired members and they had several weeks to complete and mail the survey to PERS.

We used surveymonkey.com to create the survey, using the six key questions the state requires all state agencies to use for the Customer Satisfaction Performance Measure survey.

The survey included a comments section. The most common comments are summarized and addressed in the respective Key Issues and Suggestions section of this report.

The survey report combines the online and hard copy responses, even though only retired members received hard copies.

EMPLOYER CUSTOMER SATISFACTION SURVEY

BACKGROUND

PERS surveyed employers online for the sixth consecutive year. The 2012 results are discussed below.

The employer satisfaction survey was posted online throughout August 2012. Employers received an e-mail inviting them to take the survey; 286 responses were received, a number of which included individual comments. In comparison, we received 140 responses in 2011.

We identified two key issues and suggestions from the comments received as detailed below. We also describe our strategies to address those items and the methodologies used in the survey.

The following graphs and charts display the survey results and provide a comparison of responses for the 2008-2012 survey years.

Again this year, we used three supplemental questions regarding the PERS employer website:

- Was the PERS employer website easy to navigate?
- Did you find the information you wanted?
- Are there any changes you would make to the PERS website?

More than 70 percent of employers responded that the employer website is “easy” or “somewhat easy” to navigate and 75 percent of employers responded that information they were seeking was “easy” or “somewhat easy” to find.

Another questions asked: “If you rated PERS ‘Fair’ or ‘Poor’ in any part of question 3, please tell us why you did not rate us ‘Excellent’ or ‘Good.’ ” Some employer noted that PERS’ employer representatives should be available by telephone or email throughout the day. However, the representatives are available from 8 a.m. to 5 p.m. Monday through Friday.

An additional question this year asked: “Are PERS’ employer forms easy to understand and use?” More than 73 percent of employers who responded answered “yes,” with approximately four percent answering “no.” The remainder had “not used” PERS employer forms.

Percent of employer respondents rating “excellent” or “good” (the state’s Key Performance Measures do not include the “Don’t Know” responses; the numbers in the graph have been rebaselined to exclude those responses).

Numerical employer results (numbers rounded; may not equal 100%)

How do you rate...	Percent				
	Excellent	Good	Fair	Poor	Don’t Know
The overall quality of service?	21	53	19	6	1
The timeliness of services PERS provides?	22	51	14	11	2
PERS’ ability to provide services accurately the first time?	24	48	19	7	3
PERS’ helpfulness?	31	45	17	6	1
The knowledge and expertise of PERS employees?	32	48	16	3	2
The availability of information at PERS?	22	49	20	8	1
The PERS employer website?	17	51	14	4	14
Our service in the past year compared to previous years?	19	46	11	11	13

Comparison of 2008-2012 Employer Results

KEY EMPLOYER ISSUES AND SUGGESTIONS (in order of number of responses)

1. Employers want telephone access to Employer Service Center representatives throughout the business day.

Employers want to speak with an Employer Service Center representative during all business hours.

Resolution: The Employer Call Center is open from 8:30 a.m. until 12:00 p.m. weekdays. The call center is not open all day because staff need time to work directly with their caseloads. However, employers can also call their designated Employer Service Center representative at any time during the day and direct phone numbers for staff are posted on the PERS website. We will renew education efforts to let employers know that they have access to a representative throughout the work day.

2. Employers requested that PERS process unposted employee records in a more timely manner.

In 2011, PERS deployed new functionality that enables the system to use a qualifying or non-qualifying designation to make decisions on PERS eligibility. This is necessary for data accuracy. This change requires staff to correct data going back to 2004 and has prevented records from posting, requiring PERS staff intervention.

Resolution: PERS staff has been working diligently to correct this data and have made great strides, posting all payroll reports for 2011 and exceeding goals for 2012 payroll reports. In July 2012, PERS also brought in a team of temporary staff, and together with PERS staff, they have corrected over 145,000 suspended records for 2011. Our goal is to have all the 2011 suspended records posted by year end.

SURVEY METHODOLOGIES

To maximize employer response, we created this survey online and sent an email to all employers inviting them to participate. A follow-up email was sent to employers approximately one week before the survey deadline. The survey ran throughout August 2012. We set the survey so more than one employee per employer could respond since we often interact with more than one employer contact.

We used surveymonkey.com to create the survey, using the six key questions the state requires all state agencies to use for the Customer Satisfaction Performance Measure survey. Again this year we included two additional key questions:

1. "How do you rate the PERS website?"
2. "How do your rate our service in the past year compared to our service in previous years?"

The survey included a comments section. The most common comments are summarized and addressed in the respective Key Issues and Suggestions section of this report.

SUBJECT: Board Best Practices Key Performance Measure Review

BACKGROUND

The 2005 Legislature directed the Department of Administrative Services (DAS) and the Legislative Fiscal Office (LFO) to develop a key performance measure (KPM) and specific criteria for certain boards and commissions to use in evaluating their practices and performance. The measure and criteria were later adopted by the Legislature and incorporated in applicable agency budget reports during the 2007 session. The Legislature requested that the key performance measure and evaluation criteria (“best practices”) be applied to all boards and commissions that have governance oversight with budgeting and hiring authority, such as the PERS Board.

Starting in 2008, the PERS Board began conducting its’ self-assessment against 15 “Best Practices Criteria” for boards and commissions as prescribed by the Legislature. The PERS Board also added a mid-range scoring option of “meets but needs improvement” along with three additional criteria that are rated in the PERS survey but not incorporated in the overall KPM calculation.

DISCUSSION

The 2011 best practices assessment was distributed to Board members on September 14th as an electronic survey with a request to return the completed survey by September 24, 2012.

Staff will compile the results of the respective Board member assessments and present them as a walk-in item for further discussion at the September 28, 2012 Board meeting. Following that discussion, staff will complete the DAS key performance measure scorecard which will only cover the 15 standard best practices and be limited to a “yes” or “no” scoring. Staff propose to follow past practice and roll the Board’s “fully meets” and “meets but needs improvement” responses into the “yes” column for the DAS scorecard.

PERS BOARD BEST PRACTICES WORKSHEET

Best Practices Criteria	System for Achieving Success
-------------------------	------------------------------

Best Practice: Executive Director Performance

<p>1. Executive Director's performance expectations are current.</p>	<p>The Board establishes clear performance expectations for the Director not less than biennially. This includes overall expectations in the Director's position description, as well as any specific expectations contained in the Board's policy agenda and other meeting-specific directives. The Executive Director apprises the Board of divisional appointments and organizational changes and provides open access to executive team members. Regular interactions by the executive team with the Board are encouraged.</p>
<p>Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/></p>	

<p>2. Executive Director's performance is evaluated each biennium.</p>	<p>The Board reviews the Director's performance on at least a biennial basis. In addition, regular informal feedback is provided to the Executive Director as needed.</p>
<p>Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/></p>	

Best Practice: Strategic Management

<p>3. The Agency's mission and high-level goals are current and applicable.</p>	<p>The Board reviews and approves the agency mission statement, core values, and operating principles. The Board performs biennial reviews of agency progress on key strategic initiatives and objectives as part of the budget development process.</p>
<p>Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/></p>	

<p>4. The Board reviews the <i>Annual Performance Progress Report</i>.</p>	<p>The Board has the opportunity to review the annual report and provide comments to the Executive Director.</p>
<p>Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/></p>	

Best Practice: Strategic Policy Development

<p>5. The Board is appropriately involved in review of the Agency's key communications.</p>	<p>The Board, both directly and through its subcommittees (Audit, Actuarial, Legislative, Litigation, Health Insurance) is involved in the agency's public process and key media communications. The Executive Director coordinates regularly with the Governor's Office and reports to the Board on communications. During legislative sessions, the Executive Director and staff regularly report and review legislative concepts and positions with Board members. The Board approves the agency mission statement, core values, and operating principles.</p>
<p>Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/></p>	

6. The Board is appropriately involved in policy-making activities.	The Board reviews and approves all agency rulemaking proposals and legislative concepts and participates in key legislative discussions and hearings as appropriate. The Board utilizes a legislative subcommittee to provide staff feedback during legislative sessions and is regularly updated on legislative implementation and other agency projects with policy implications (e.g., court decision implementation). The Board chair meets with the Executive Director to plan Board meetings and ensure the agenda and supporting materials cover all key policy issues.
Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/>	

7. The Agency's policy option packages are aligned with mission/goals.	The Board has early involvement and regular updates on proposed budget policy option packages and legislative concepts. The Board reviews the Agency Request Budget and supporting materials (including the strategic outlook and key performance measures) in public meetings.
Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/>	

Best Practice: Fiscal Oversight

8. The Board reviews all proposed budgets and supplemental requests.	The Board reviews and approves proposed biennial budget requests and all supplementary budget or Emergency Board funding requests.
Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/>	

9. The Board periodically reviews key financial information and audit findings.	The Board receives agency operating budget reports and PERS fund investment updates at each regularly scheduled board meeting and receives regular presentations from investment officers, auditors and actuaries. The Audit Committee convenes 3-4 times each year to meet with internal and external auditors (contract or Audits Division) to review internal and external audit reports (including the Comprehensive Annual Financial Report (CAFR)), management letters and internal control reports, as well as staff responses and corrective measures implemented to improve internal controls and operations. The Board regularly reviews experience studies, system valuations and financial modeling reports with its actuary.
Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/>	

10. The Board appropriately accounts for resources.	The Board and Audit Committee regularly review budgetary and other key financial and audit reports to ensure that the agency is appropriately accounting for resources. The Chief Audit Executive has direct access to the Board and Audit Committee members.
Fully Meets <input type="checkbox"/> Meets But Needs Improvement <input type="checkbox"/> Does Not Meet <input type="checkbox"/>

September 28, 2012

TO: Members of the PERS Board
FROM: Steven Patrick Rodeman, Deputy Director
SUBJECT: Adoption of Judge Member Rules
OAR 459-040-0020, *Judge Member Disability Retirement*
OAR 459-040-0080, *Required Minimum Distribution of Judge Member Death Benefits*

OVERVIEW

- Action: Adoption of modifications to the Judge Member Rules.
- Reason: Clarify administration of the judge member retirement program.
- Policy Issue: No policy issues have been identified at this time.

BACKGROUND

Legislation in 2005 (House Bill 3238) requires agencies to review new rules adopted since January 1, 2006, within five years of the date the new rules are adopted. The rules contained in Chapter 459, Division 40 – Judge Member Program, were adopted on July 26, 2007, and the five-year review of these rules was completed on July 26, 2012. The proposed modifications to OAR 459-040-0020 and 459-040-0080 include housekeeping edits to delete and update rule citations and deletion of the separate date of disability retirement standard for judge members.

SUMMARY OF MODIFICATIONS TO RULES SINCE NOTICE

The rules have not been modified since notice to the Board at the August 28, 2012 Board meeting.

PUBLIC COMMENT AND HEARING TESTIMONY

A rulemaking hearing was held on September 18, 2012, at 3:00 p.m. at PERS headquarters in Tigard. No members of the public attended the hearing. The public comment period ended on September 21, 2012, at 5:00 p.m.

LEGAL REVIEW

The attached draft rules were submitted to the Department of Justice for legal review and any comments or changes are incorporated in the rules as presented for adoption.

IMPACT

Mandatory: No.

Impact: Clarification of procedures in administration of judge member retirement will benefit members, employers, and staff.

Cost: There are no discrete costs attributable to the rules.

RULEMAKING TIMELINE

August 15, 2012	Staff began the rulemaking process by filing Notice of Rulemaking with the Secretary of State.
August 28, 2012	PERS Board notified that staff began the rulemaking process.
September 1, 2012	<i>Oregon Bulletin</i> published the Notice. Notice was sent to employers, legislators, and interested parties. Public comment period began.
September 18, 2012	Rulemaking hearing held at 3:00 p.m. in Tigard.
September 21, 2012	Public comment period ended at 5:00 p.m.
September 28, 2012	Board may adopt the permanent rule modifications.

BOARD OPTIONS

The Board may:

1. Pass a motion to “adopt modifications to the Judge Member rules, as presented.”
2. Direct staff to make other changes to the rules or explore other options.

STAFF RECOMMENDATION

Staff recommends the Board choose Option #1.

- Clarify administration of the judge member retirement program.

If the Board does not adopt: Staff would return with rule modifications that more closely fit the Board’s policy direction if the Board determines that a change is warranted.

B.1. Attachment 1 – 459-040-0020, *Judge Member Disability Retirement*

B.1. Attachment 2 – 459-040-0080, *Required Minimum Distribution of Judge Member Death Benefits*

**OREGON ADMINISTRATIVE RULE
PUBLIC EMPLOYEES RETIREMENT BOARD
CHAPTER 459
DIVISION 040 – JUDGE MEMBERS**

1 **459-040-0020**

2 **Judge Member Disability Retirement**

3 A judge member who meets the requirements of ORS 238.555 may apply for
4 disability retirement. The provisions of OAR Chapter 459, Division 15 apply to judge
5 member disability retirement with the following exceptions:

6 (1) The terms “member” and “employee member” in Division 15 mean a judge
7 member as defined in ORS 238.500.

8 (2) “Normal retirement age” means the age at which a judge member may retire
9 without a reduced benefit as set forth under ORS 238.535.

10 *[(3) “Qualifying position” as defined in OAR 459-015-0001(18) does not apply to*
11 *judge members.]*

12 *[(4) A judge member’s effective disability retirement date is the first day of the*
13 *month following the month in which the judge member’s disability retirement application*
14 *is approved.]*

15 *[(5)]*(3) A judge member must have six years of service as a judge member to be
16 eligible for non-duty disability retirement.

17 *[(6)]*(4) If a judge member meets the eligibility criteria for disability retirement, the
18 member’s disability retirement allowance shall be based on creditable service time as
19 though the member had continuously worked as a judge pursuant to ORS 238.555(1) or
20 (2).

21 *[(7)]*(5) *[PERS judge membership is terminated by withdrawal of the member*
22 *account balance as provided in ORS 238.545.]* Former PERS judge members who have

1 terminated *[their]* membership through a withdrawal [under ORS 238.545](#) are not
2 eligible to receive PERS disability retirement allowances.

3 *[(8) OAR 459-015-0060 does not apply to judge members.]*

4 Stat. Auth: ORS 238.650

5 Stats. Implemented: ORS 238.555

**OREGON ADMINISTRATIVE RULE

September 28, 2012

TO: Members of the PERS Board

FROM: Marjorie Taylor, Senior Policy Advisor

SUBJECT: Legislative Advisory Committee Membership

OVERVIEW

- Subject: Statute requires the Board to appoint a committee to provide advice on legislative proposals impacting PERS.
- Action: Appoint 12 members to the Legislative Advisory Committee.
- Reasons: In preparation for the 2013 session, the committee's membership should be refreshed so staff can engage them in reviewing the anticipated legislative proposals that may be introduced to modify the PERS plan design.

BACKGROUND

By statute, ORS 238.660(9), the PERS Board is charge with reviewing legislative proposals for changes in PERS benefits, and acting as policy advisor to the Legislative Assembly on those changes. ORS 238.660(10) requires the Board to appoint a committee to advise the Board on legislative proposals that impact PERS benefits. The committee must include an equal number of members representing labor and management. In preparation for the 2013 session, when a member of legislative proposals affecting PERS are expected to be introduced, staff is requesting the PERS Board to refresh the Legislative Advisory Committee's membership so we can engage them this fall to begin analysis of these proposals.

RECOMMENDED APPOINTMENTS

The proposed membership is balanced between labor and management representatives, and includes members who participated in previous Advisory Committee meetings. All proposed members have been contacted and are willing to serve on the committee. Staff anticipates engaging the committee in October and through the intervening months so PERS proposals can be fully vetted prior to the 2013 legislative session.

Name	Representing
Mary Botkin	American Federation of State, County and Municipal Employees
Lance Colley	Roseburg Public Schools
Andrea Cooper	Oregon Education Association
Brian DeLashmutt	Oregon Nurses Association / Oregon State Police Officers Association
Mike Eliason	Association of Oregon Counties
*TBD	Oregon Department of Administrative Services
Bob Livingston	Oregon State Fire Fighters Council

Cheri Helt	Oregon School Boards Association
Tricia Smith	Oregon School Employees Association
Hasina Squires	Special Districts Association of Oregon
Art Towers	Service Employees International Union
Scott Winkels	League of Oregon Cities

* Representative appointed by DAS to be identified by September 27

Board Options:

The Board may:

1. Approve the recommended appointments, effective immediately.
2. Direct staff to solicit different or additional candidates for appointment.

Staff Recommendation:

Staff recommends the Board choose Option 1 above.

Reason: Staff needs to engage the committee members soon to adequately evaluate legislative proposals prior to the 2013 session.

ASSOCIATED STATUTE

238.660 Fund generally; board review of legislative proposals.

(9) The board may review legislative proposals for changes in the benefits provided under this chapter and ORS chapter 238A and may make recommendations to committees of the Legislative Assembly on those proposed changes. In making recommendations under this subsection, the board acts as a policy advisor to the Legislative Assembly and not as a fiduciary. In making recommendations under this subsection on the Oregon Public Service Retirement Plan established by ORS chapter 238A, the board shall seek to maintain the balance between benefits and costs, and the relative risk borne by employers and employees with respect to investment performance, reflected in ORS chapter 238A as in effect on January 1, 2004.

(10) The board shall appoint a committee to advise the board on legislative proposals for changes in the benefits provided under this chapter and ORS chapter 238A. The committee must have an equal number of members representing labor and management. No costs of reviewing legislative proposals and making recommendations under this subsection may be charged to the fund. Any member of the committee who is an active member of the system shall be released by the participating public employer who employs the member for the purpose of conducting the official business of the committee, and the wages or salary of the member may not be reduced by the employer during periods that the member is released from duty for the purpose of conducting the official business of the committee.

September 28, 2012

TO: Members of the PERS Board

FROM: Debra Hembree, Interim Actuarial Services Coordinator

SUBJECT: 2013-15 Individual Employer Rate Adoption

OVERVIEW

On September 28, 2012, Milliman actuaries Matt Larrabee and Scott Preppernau will present recommended 2013-15 individual employer rates for Board approval. A summary of the recommended employer contribution rates will be provided to the Board before the meeting and will be available to interested parties as a walk-in item.

These recommended rates are based on the December 31, 2011 Valuation and, if approved, will be in effect for all PERS covered payrolls dated July 1, 2013 through June 30, 2015. Milliman presented system-wide 2011 valuation results at the August 28, 2012 Board meeting.

BACKGROUND

State statute directs the PERS Board to set employer contribution rates so that they will adequately fund system liabilities. (ORS 238.225.) The Board has adopted a rate collaring methodology that provides some rate stability while still meeting system funding requirements. The collar spreads large rate increases or decreases over two or more biennia.

Due to 2008 investment losses, 2011-13 employer rates increased significantly over 2009-11 rates. The rate increase would have been even larger had it not been limited by rate collaring, which deferred part of the increase into the 2013-15 biennium.

This deferred increase, combined with 2010-2011 investment returns slightly below the assumed earnings rate, means another substantial rate increase for 2013-15. System-wide, the 2013-15 rates are about five percent of payroll above current rates and will increase total employer contributions by approximately \$900 million for the biennium.

STAFF RECOMMENDATION

Approve the 2013-15 individual employer contribution rates as recommended by the PERS actuary. Adoption of the proposed rates complies with the Board's rate setting principles and fulfills its statutory obligation to set employer rates for the 2013-15 biennium.

September 28, 2012

TO: Members of the PERS Board

FROM: Debra Hembree, Interim Actuarial Services Coordinator

SUBJECT: Revised GASB Pension Accounting and Reporting Standards

On September 28, 2012, Milliman actuaries Matt Larrabee and Scott Preppernau will present an update on revised Governmental Accounting Standards Board (GASB) standards for public pension accounting and financial reporting.

GASB is a nonprofit group that establishes financial accounting and reporting standards for state and local governments, including accounting and reporting for public pension plans. In June 2012, GASB approved major revisions to the way in which pension plan costs and liabilities are calculated and reported by plan sponsors and participating governments. Milliman will discuss these revisions and how they will impact PERS' business processes, including the actuarial valuation methodology and the financial information PERS provides to participating employers.

Milliman's report on the revised GASB standards will be provided to the Board prior to the meeting and available to interested parties as a walk-in item.

Public Employee Retirement Systems

GASB 67/68: New accounting standards for public pension plans

Matt Larrabee, FSA, EA, MAAA

Last month, the Governmental Accounting Standards Board (GASB) published new accounting standards that mark the most significant changes to the pension plan financial reporting of public sector sponsors in a generation. GASB 67 alters financial reporting for pension plans, while GASB 68 modifies reporting requirements for sponsoring employers subject to GASB standards. While compliance with the two standards is not mandatory until 2014 and 2015, respectively, the changes are substantial enough that most sponsors will need advance planning to comply. An implementation guide for the standards has not yet been published, but the material made available so far indicates five major changes that will impact public pension plans and their sponsoring employers.

Change #1: Unfunded actuarial liability, with assets measured at fair value, will be recognized on employer balance sheets

Under the current standards, it is possible for a sponsoring employer to have a substantial unfunded actuarial liability (also known as "UAL" or "shortfall") but still carry little or no balance sheet liability for the plan on its consolidated annual financial report (CAFR). This can be the case as long as the employer consistently contributes its Annual Required Contribution (ARC). The current standards allow significant leeway in determination of the ARC, including the use of asset-smoothing techniques, shortfall amortization periods of up to 30 years, and a variety of actuarial cost allocation methods to attribute projected post-retirement costs to the working careers of plan participants. Since most plans use asset-smoothing techniques, the shortfalls calculated in the first years subsequent to a market downturn, such as in 2008, do not fully reflect the downturn's effects immediately as investment losses are recognized gradually over several years.

Under the new standards, a sponsoring employer of a plan with a shortfall will have the shortfall recognized as a pension plan liability on the balance sheet of its CAFR. The shortfall will be calculated on a fair market value of assets basis, with no allowance for asset-smoothing techniques. Had these standards been in place in 2009, sponsoring employers would have seen a significant increase in the balance sheet shortfall shown in the CAFR after the 2008 downturn. In addition, all shortfall calculations will use a single mandated cost allocation method.

The method specified by GASB (Entry Age) is currently used by the majority of plan sponsors, but sponsors that presently use alternative methods will see changes in their calculated shortfalls due to the mandated switch. Due to variations that exist in applying the Entry Age cost method, even some plans already using Entry Age may need to conform to the specific variation mandated by GASB for accounting purposes, possibly resulting in significant changes in the development of normal costs and liabilities for the plan. Because the new standards de-link funding from accounting, no change in methods is necessary for funding purposes.

Employers that participate in multiple-employer retirement systems that pool experience are not immune from the new standards. The overall system shortfall will be divided among the participating sponsors, with each employer receiving a pro rata share based on its projected portion of future contributions to the system. This is a significant change in accounting procedures for these employers from the prior standards.

Change #2: Calculation of liability is revamped for some plans

In addition to the mandated cost allocation method noted above, the new standards will change the interest rate used to determine the liability (and associated balance sheet shortfall) for some sponsoring employers. Employers affected by this change are likely to see a significant increase in their calculated shortfall.

In calculating the plan liability, the current standards develop a net present value of all future projected benefit payments by discounting those payments using the plan's long-term annual investment return assumption. This is the case even for plans that, due to large shortfalls and/or inadequate funding policies, would not achieve full funding of projected benefits even if all assumptions are met and all funding policy contributions are made.

Under the new standards, plans with the challenges noted above will no longer be able to simply use the investment return assumption to discount all future benefit payments in calculating the liability and associated balance sheet shortfall. Instead, the actuary will assess when the plan's trust assets might be exhausted if all future assumptions (including contributions under the funding policy) are

met. The net present value of payments after the asset exhaustion date would not be discounted using the plan's investment return assumption. Instead, current yields on long-term, tax-free municipal bonds would be used for the discounting of payments after the asset exhaustion date. This will lead to higher reported balance sheet shortfalls for affected sponsors, since future payments discounted at the lower municipal bond rates will lead to higher net present values.

Change #3: Plans will need to develop formal funding policies separate from their financial reporting calculations

Due to the significant flexibility in calculating the ARC under the current standards, the ARC is equal to the funding policy contribution for many plan sponsors. In fact, providing this opportunity for alignment of funding and financial reporting was an objective of GASB when the current standards were issued in 1994. Under the current standards, funding policies can vary substantially for two similarly situated sponsors that both contribute their ARC. The goal of the current standards is to determine the difference between the sponsor's actual contributions and those based on its own funding policies, as long as certain minimum requirements are met. Due to this link between the ARC and the funding policy contribution, the ARC became the de facto funding policy for many sponsors.

The new standards eliminate the ARC calculation and do not provide a parallel replacement. Instead, GASB encourages sponsors to establish a formal, documented funding policy that is separate from the financial reporting calculations. Establishment of such a formal policy and demonstration that the sponsor is adhering to the policy will require sponsor planning in advance of GASB's implementation deadlines.

Change #4: Significantly expanded plan financial disclosures

Under the current standards, plan-related financial disclosures are modest for many sponsors and very limited for sponsors that participate in cost-sharing retirement systems. The new standards significantly lengthen both narrative and numerical disclosures, and there is no major exemption from the expanded disclosures for employers in cost-sharing retirement systems.

Employers will need to provide much more information about plans in which they participate. This includes detailed descriptions of funding and investment policies, the plan's governance structure and statutory authority, and the theoretical underpinnings for key assumptions such as the investment return. Required numerical disclosures include detailed descriptions of year-to-year changes in assets and liabilities plus demonstrations of the sensitivity of shortfalls to changes in the discount rate assumption.

Change #5: Much more volatile annual financial reporting entry amounts for annual plan expense

Many practitioners and sponsors feel the cornerstone number of the current standards is the ARC. The ARC often serves a dual purpose

of acting as both the annual plan expense entry on the financial statements and the de facto funding policy for many sponsors. The significant amount of flexibility allowed in ARC determination methods makes contributing the ARC a viable option for many sponsors.

The cornerstone number of the new standards, by contrast, is the plan liability and its associated balance sheet shortfall. GASB has explicitly de-linked financial reporting standards from funding policy, encouraged sponsors to establish a formal separate funding policy, and emphasized uniformity in the shortfall calculation methodology. All of this means that the annual plan expense entry on the income statement is less of a key focus and instead is more of a mathematical balancing item to get the sponsor's balance sheet from one year-end's shortfall to the next under the new standards.

Because the shortfall under the new standards uses fair market asset values, changes in the shortfall can be significant from year to year. Deviations in annual investment experience from the assumption will be recognized over five years in the annual plan expense financial reporting entry, with the not yet recognized portion held as a deferred expense item. Similar to the way that investment experience is handled, changes in liabilities will be recognized over the expected future working careers of participants. The recognition periods for both investment and liability experience will be markedly shorter than typical amortization periods employed under the current standards, which will result in larger changes from one year to the next under the new standards as compared with the current standards.

For sponsors that are subject to the discount rate changes noted in item #2 above, the reported liability in the shortfall calculation will change annually due to two additional factors. First, annual investment results will affect the projected exhaustion date at which the municipal bond rate index will begin to be used to discount benefit payments. Second, the municipal bond rate will vary from year to year with market conditions, and that variation will also affect reported liabilities and shortfalls.

Employers that participate in cost-sharing retirement systems will recognize a portion of the system's calculated plan expense entry. Employers in these sorts of programs can see an additional volatility factor to those already noted; the employer's proportional share of the system's total expense entry can vary from year to year.

All of the above changes mean that the annual expense entry is simply too volatile to serve as a funding policy, reinforcing GASB's guidance that sponsors develop funding policies that are distinct from the revised financial reporting standards.

In summary, the new GASB standards will take effect soon enough, and the changes mandated are significant enough that sponsors will need to start planning very soon for the implementation of the standards.

September 28, 2012

TO: Members of the PERS Board

FROM: Marjorie Taylor, Senior Policy Advisor

SUBJECT: Legislative Advisory Committee Membership
Supplemental Walk-in Memo

Following the release of the Board Packet last week, the Department of Administrative Services has recommended Patrick Allen, Director of the Department of Consumer and Business Services, to be appointed as the state member of the Legislative Advisory Committee.

The proposed membership roster is now complete as follows:

Name	Representing
Patrick Allen	Oregon Department of Consumer and Business Services
Mary Botkin	American Federation of State, County and Municipal Employees
Lance Colley	Roseburg Public Schools
Andrea Cooper	Oregon Education Association
Brian DeLashmutt	Oregon Nurses Association / Oregon State Police Officers Association
Mike Eliason	Association of Oregon Counties
Bob Livingston	Oregon State Fire Fighters Council
Cheri Helt	Oregon School Boards Association
Tricia Smith	Oregon School Employees Association
Hasina Squires	Special Districts Association of Oregon
Art Towers	Service Employees International Union
Scott Winkels	League of Oregon Cities

Board Options:

The Board may:

1. Approve the recommended appointments, effective immediately.
2. Direct staff to solicit different or additional candidates for appointment.

Staff Recommendation:

Staff recommends the Board choose Option 1 above.

Reason: Staff needs to engage the committee members soon to adequately evaluate legislative proposals prior to the 2013 session.

GASB 67/68: New accounting standards for public pension plans

Matt Larrabee, FSA, EA, MAAA

Last month, the Governmental Accounting Standards Board (GASB) published new accounting standards that mark the most significant changes to the pension plan financial reporting of public sector sponsors in a generation. GASB 67 alters financial reporting for pension plans, while GASB 68 modifies reporting requirements for sponsoring employers subject to GASB standards. While compliance with the two standards is not mandatory until 2014 and 2015, respectively, the changes are substantial enough that most sponsors will need advance planning to comply. An implementation guide for the standards has not yet been published, but the material made available so far indicates five major changes that will impact public pension plans and their sponsoring employers.

Change #1: Unfunded actuarial liability, with assets measured at fair value, will be recognized on employer balance sheets

Under the current standards, it is possible for a sponsoring employer to have a substantial unfunded actuarial liability (also known as "UAL" or "shortfall") but still carry little or no balance sheet liability for the plan on its consolidated annual financial report (CAFR). This can be the case as long as the employer consistently contributes its Annual Required Contribution (ARC). The current standards allow significant leeway in determination of the ARC, including the use of asset-smoothing techniques, shortfall amortization periods of up to 30 years, and a variety of actuarial cost allocation methods to attribute projected post-retirement costs to the working careers of plan participants. Since most plans use asset-smoothing techniques, the shortfalls calculated in the first years subsequent to a market downturn, such as in 2008, do not fully reflect the downturn's effects immediately as investment losses are recognized gradually over several years.

Under the new standards, a sponsoring employer of a plan with a shortfall will have the shortfall recognized as a pension plan liability on the balance sheet of its CAFR. The shortfall will be calculated on a fair market value of assets basis, with no allowance for asset-smoothing techniques. Had these standards been in place in 2009, sponsoring employers would have seen a significant increase in the balance sheet shortfall shown in the CAFR after the 2008 downturn. In addition, all shortfall calculations will use a single mandated cost allocation method.

The method specified by GASB (Entry Age) is currently used by the majority of plan sponsors, but sponsors that presently use alternative methods will see changes in their calculated shortfalls due to the mandated switch. Due to variations that exist in applying the Entry Age cost method, even some plans already using Entry Age may need to conform to the specific variation mandated by GASB for accounting purposes, possibly resulting in significant changes in the development of normal costs and liabilities for the plan. Because the new standards de-link funding from accounting, no change in methods is necessary for funding purposes.

Employers that participate in multiple-employer retirement systems that pool experience are not immune from the new standards. The overall system shortfall will be divided among the participating sponsors, with each employer receiving a pro rata share based on its projected portion of future contributions to the system. This is a significant change in accounting procedures for these employers from the prior standards.

Change #2: Calculation of liability is revamped for some plans

In addition to the mandated cost allocation method noted above, the new standards will change the interest rate used to determine the liability (and associated balance sheet shortfall) for some sponsoring employers. Employers affected by this change are likely to see a significant increase in their calculated shortfall.

In calculating the plan liability, the current standards develop a net present value of all future projected benefit payments by discounting those payments using the plan's long-term annual investment return assumption. This is the case even for plans that, due to large shortfalls and/or inadequate funding policies, would not achieve full funding of projected benefits even if all assumptions are met and all funding policy contributions are made.

Under the new standards, plans with the challenges noted above will no longer be able to simply use the investment return assumption to discount all future benefit payments in calculating the liability and associated balance sheet shortfall. Instead, the actuary will assess when the plan's trust assets might be exhausted if all future assumptions (including contributions under the funding policy) are

met. The net present value of payments after the asset exhaustion date would not be discounted using the plan's investment return assumption. Instead, current yields on long-term, tax-free municipal bonds would be used for the discounting of payments after the asset exhaustion date. This will lead to higher reported balance sheet shortfalls for affected sponsors, since future payments discounted at the lower municipal bond rates will lead to higher net present values.

Change #3: Plans will need to develop formal funding policies separate from their financial reporting calculations

Due to the significant flexibility in calculating the ARC under the current standards, the ARC is equal to the funding policy contribution for many plan sponsors. In fact, providing this opportunity for alignment of funding and financial reporting was an objective of GASB when the current standards were issued in 1994. Under the current standards, funding policies can vary substantially for two similarly situated sponsors that both contribute their ARC. The goal of the current standards is to determine the difference between the sponsor's actual contributions and those based on its own funding policies, as long as certain minimum requirements are met. Due to this link between the ARC and the funding policy contribution, the ARC became the de facto funding policy for many sponsors.

The new standards eliminate the ARC calculation and do not provide a parallel replacement. Instead, GASB encourages sponsors to establish a formal, documented funding policy that is separate from the financial reporting calculations. Establishment of such a formal policy and demonstration that the sponsor is adhering to the policy will require sponsor planning in advance of GASB's implementation deadlines.

Change #4: Significantly expanded plan financial disclosures

Under the current standards, plan-related financial disclosures are modest for many sponsors and very limited for sponsors that participate in cost-sharing retirement systems. The new standards significantly lengthen both narrative and numerical disclosures, and there is no major exemption from the expanded disclosures for employers in cost-sharing retirement systems.

Employers will need to provide much more information about plans in which they participate. This includes detailed descriptions of funding and investment policies, the plan's governance structure and statutory authority, and the theoretical underpinnings for key assumptions such as the investment return. Required numerical disclosures include detailed descriptions of year-to-year changes in assets and liabilities plus demonstrations of the sensitivity of shortfalls to changes in the discount rate assumption.

Change #5: Much more volatile annual financial reporting entry amounts for annual plan expense

Many practitioners and sponsors feel the cornerstone number of the current standards is the ARC. The ARC often serves a dual purpose

of acting as both the annual plan expense entry on the financial statements and the de facto funding policy for many sponsors. The significant amount of flexibility allowed in ARC determination methods makes contributing the ARC a viable option for many sponsors.

The cornerstone number of the new standards, by contrast, is the plan liability and its associated balance sheet shortfall. GASB has explicitly de-linked financial reporting standards from funding policy, encouraged sponsors to establish a formal separate funding policy, and emphasized uniformity in the shortfall calculation methodology. All of this means that the annual plan expense entry on the income statement is less of a key focus and instead is more of a mathematical balancing item to get the sponsor's balance sheet from one year-end's shortfall to the next under the new standards.

Because the shortfall under the new standards uses fair market asset values, changes in the shortfall can be significant from year to year. Deviations in annual investment experience from the assumption will be recognized over five years in the annual plan expense financial reporting entry, with the not yet recognized portion held as a deferred expense item. Similar to the way that investment experience is handled, changes in liabilities will be recognized over the expected future working careers of participants. The recognition periods for both investment and liability experience will be markedly shorter than typical amortization periods employed under the current standards, which will result in larger changes from one year to the next under the new standards as compared with the current standards.

For sponsors that are subject to the discount rate changes noted in item #2 above, the reported liability in the shortfall calculation will change annually due to two additional factors. First, annual investment results will affect the projected exhaustion date at which the municipal bond rate index will begin to be used to discount benefit payments. Second, the municipal bond rate will vary from year to year with market conditions, and that variation will also affect reported liabilities and shortfalls.

Employers that participate in cost-sharing retirement systems will recognize a portion of the system's calculated plan expense entry. Employers in these sorts of programs can see an additional volatility factor to those already noted; the employer's proportional share of the system's total expense entry can vary from year to year.

All of the above changes mean that the annual expense entry is simply too volatile to serve as a funding policy, reinforcing GASB's guidance that sponsors develop funding policies that are distinct from the revised financial reporting standards.

In summary, the new GASB standards will take effect soon enough, and the changes mandated are significant enough that sponsors will need to start planning very soon for the implementation of the standards.
