* Excludes Capital Construction expenditures

Summary of Revenue Changes

Principal revenue sources for the Public Employees Retirement System (PERS) include investment earnings, employer contributions, member contributions, and fees. Employee contributions, whether made by employees or by employers on employees' behalf, are credited to members' Individual Account Program (IAP) accounts. Funding for administration of the IAP accounts is drawn from the accounts.

The PERS operating budget is funded from investment earnings. Net earnings, if any, are then distributed to employee, employer, and reserve accounts as directed by statute and board crediting decisions. Revenues to fund administrative activities for deferred compensation programs come largely from participant fees.

There were no revenue forecast changes, fee ratifications, revenue source changes or other significant revenue actions approved by the Subcommittee.

Summary of Subcommittee Action

PERS is responsible for administering retirement programs for public employees, including state, school, and local government workers. PERS distributes \$2.5 billion in retirement benefits annually. The agency manages a number of programs, including the Tier One-Tier Two Retirement programs, the Oregon Public Service Retirement Program (OPSRP) and the Individual Account Program (IAP), three health insurance programs, Social Security Administration activities, and a deferred compensation program.

BUDGET NARRATIVE

The Subcommittee approved a budget of \$87,065,359 Other Funds, \$6,286,947,122 Other Funds Non-limited, and 394.88 full-time equivalent (FTE) positions. Other Funds and FTE are increased from the 2007-09 Essential Budget Level (EBL) by 51.1 percent and 50.4 percent respectively while Other Funds Non-limited are unchanged. Compared with the 2005-07 Legislatively Approved Budget, Other Funds and FTE are increased by 3.5 percent and 4.2 percent respectively. The approved budget includes 301 permanent and 100 limited duration positions, almost all of the limited duration positions were established as limited duration in the 2005-07 biennium. These positions are being re-established to continue implementation of the *Strunk* and *City of Eugene* settlements and replacement of the agency's legacy information system, Retirement Information Management System (RIMS), with jClarety.

The Subcommittee reduced Other Funds by \$1,165,484, eliminated four positions, and reduced FTE by 8.75, for the two percent in efficiencies presented by the agency. The Subcommittee restored \$254,546 Other Funds, 2 positions, and 2.00 FTE to improve retirement services to members.

The Subcommittee discussed the agency's progress in implementing the *Strunk/Eugene* decisions, converting from RIMS to jClarety, and managing ongoing workload. PERS was directed to report to the Joint Committee on Ways and Means or Emergency Board, as appropriate, in the first and third quarters of calendar 2008 with updates to its performance measures and other data demonstrating its progress in each of these areas.

Tier One and Tier Two Plan

The Tier One and Tier Two Plan program unit accounts for employer contributions and interest earnings related to PERS Tier One and Tier Two plans. It also reflects the retirement payments made to Tier One and Tier Two retirees, as well as activity related to the agency's health insurance programs. As a result of statutory changes to the Tier One and Tier Two plans, this program unit no longer includes employee contributions as those are directed to the Oregon Public Service Retirement Plan (OPSRP) Individual Account Program (IAP). This program unit is made up entirely of Other Funds Nonlimited. The Subcommittee approved the budget requested for this program unit.

Oregon Public Service Retirement Plan

This program accounts for employee contributions into the IAP, including contributions made by employers on behalf of employees. It also reflects employer contributions for the defined benefit portion of the OPSRP plan. This program unit is made up entirely of Other Funds Nonlimited. The Subcommittee approved the budget requested for this program unit.

Operations

This program unit includes the operational costs associated with administration of the agency's various retirement related plans and programs.

BUDGET NARRATIVE

The Subcommittee approved Package 802 that reduced the budget for the two percent efficiency reductions identified by PERS. Specific reductions are:

- Elimination of two limited duration imaging positions originally planned for the Strunk/Eugene benefit adjustment work: (\$144,554) Other Funds, (2) positions, and (2.00) FTE:
- Reduction in temporary staffing for year-end processing due to implementation of jClarety: (\$53,000) Other Funds.
- Elimination of filming of records for archival purposes following shift to digital imaging (\$50,000) Other Funds.
- Elimination of published handbook for judge members in favor of website-based program materials (\$8,712) Other Funds.
- Deferral of actuarial audit until 2008 when it will be conducted concurrently with system valuation: (\$105,000) Other Funds.
- Elimination of a contracts and procurement position due to process streamlining: (\$113,284) Other Funds, (1) position, and (1.00) FTE.
- Reduction of Department of Justice costs: (\$87,053) Other Funds by denying hearings when no material facts are in dispute.
- Elimination of a contributions and banking position due to process streamlining: (\$117,387) Other Funds, (1) position, and (1.00) FTE.
- Reduction in frequency of newsletter production and mailings, increasing reliance on website for communications with members and retirees: (\$43,000) Other Funds.
- Implementation of a workforce management program to phase-out Strunk/Eugene project at the end of the biennium by non-positions specific reductions in Personal Services costs and FTE: (\$443,494) Other Funds and (4.75) FTE.

The Subcommittee discussed opportunities to improve services to members as they move into retirement. Package 806 was approved to restore \$254,546 Other Funds from the efficiency savings in Package 802 and establish two permanent full-time Retirement Counselor 2 positions to provide assistance with retirement form completion in areas of the state outside the Willamette Valley. Opportunities for members to have their benefit estimates explained and to review their application forms with a PERS staff member prior to submittal would be provided in conjunction with group presentations and other scheduled travel. PERS will reassign duties of two existing positions and increase use of overtime to expand its face-to-face application assistance to Willamette Valley members. PERS will also work with its stakeholders to improve access to web-based retirement tools and with private-sector vendors to make pre-retirement education workshops more broadly available throughout the state.

The Subcommittee approved funding for limited duration positions to continue the adjustment of 1999 earnings crediting and subsequent year account balances, and all related benefit payments, for some 45,000 retirees and benefit recipients. The project (labeled the *Strunk/Eugene* project) is expected to be substantially complete by the end of the 2007-09 biennium. All positions in this package are limited duration and are continued from the 2005-07 biennium. It also approved funding for continuation of the Retirement Information Management System (RIMS) conversion. This conversion project converts the agency's major information technology system for Tiers 1 and 2 to jClarety (the new system for OPSRP). The 44 month project is projected to be completed in November 2009.

The Subcommittee approved funding to continue labor intensive retirement benefit calculations and processing activities. Of the 25 positions approved, 23 are limited duration. Approximately 6,000 retirements are expected in each year of the 2007-09 biennium, consistent with the current biennium. Until the RIMS conversion is complete, the workload needs to be addressed with additional staffing. The conversion of RIMS, coupled with workflow process improvements will enable PERS to reduce staffing in 2009-11. Also to address workload issues, the

BUDGET NARRATIVE

Subcommittee approved additional staff to improve the collection, preparation, and integrity of data needed for efficient and accurate benefit calculations. The staff are involved in call center operations, employer reporting support, data quality assurance, and member separation processing. Because of the ongoing infrastructure needs, 15 of the 23 positions in this approved are permanent. The Subcommittee also provided resources for operations and infrastructure support. This provides back office support improvements in processing and contracting, human resources, information technology maintenance, document imaging, and workload balancing.

Additionally, the Subcommittee approved \$1 million Other Funds expenditure limitation for legal representation by outside council for litigation, contested cases, and fiduciary responsibilities. PERS is required by statute to obtain outside council for these types of issues. No positions are included in the package. It is expected that legal costs will decrease after all litigation and other issues resulting from the 2003 reform legislation has been settled.

Debt Service

This program includes debt service on Certificates of Participation sold to finance construction of the PERS headquarters building in Tigard and replacement of the RIMS legacy information system. The Subcommittee approved the requested budget for this program.

Summary of Performance Measure Action

The Subcommittee approved performance measures as submitted by the agency, with the exception of Key Performance Measure #8, Employer Satisfaction. The Subcommittee directed that this measure be made part of Key Performance Measure #6, Customer Satisfaction.

See attached Legislatively Adopted 2007-09 Key Performance Measures form.

BUDGET NARRATIVE

Summary of Subcommittee Action

Senate Bill 5549 appropriates General Fund to the Emergency Board for general purpose and targeted special purpose appropriations, and makes other adjustments to individual agency budget and position authority as described below.

Other omnibus adjustments reflect reductions in the hourly rate for Department of Justice attorney charges, adjusted treasury debt management charges that reflect updated information on agencies' relative debt levels and new debt issuances, and reductions in Public Employee Retirement System (PERS) rates. The PERS rate for state agencies is reduced from 12.98 percent as assumed in the Governor's budget to the final rate of 12.71 percent. The rate for judges is reduced from 27.14 percent to 25.70 percent. The combined result of these changes in assessments and charges on agency budgets are presented in Attachment 1. Total savings are \$6.6 million General Fund, \$0.1 million Lottery Funds, \$ 4.9 million Other Funds and \$1.9 million Federal Funds.

Emergency Board

The Emergency Board allocates General Fund and provides Other Funds and Federal Funds expenditure limitation to state agencies for unanticipated needs in approved agency budgets when the Legislature is not in session. The Subcommittee appropriated \$30 million General Fund to the Emergency Board for general purposes.

The Subcommittee made nine special purpose appropriations to the Emergency Board, totaling \$141,950,000:

- \$125,000,000 to finance negotiated increases in state employee salary and benefit changes. This special purpose appropriation expires July 1, 2008 if not allocated before that date.
- \$1,000,000 for the Department of Justice for the on-going legal costs associated with the state's defense of the revenue stream generated from the Master Settlement Agreement entered into with major tobacco companies. This appropriation is in addition to \$1 million appropriated for this purpose to the Department of Justice in Senate Bill 5520-A. If allocated, the funds may be used for staff as well as outside counsel.
- \$9,000,000 for Oregon State Police, Oregon Wireless Interoperability Network (OWIN), to be used to assist in funding any further costs for the OWIN project for the 2007-09 biennium after review by the Legislature or the Emergency Board.
- \$600,000 for the Legislative Administration Committee to support the Interim Committee on Court Facilities.
- \$550,000 for the Legislative Administration Committee, for planning, debt service, and relocation costs of legislative and executive branch agencies during renovation of the Capitol building.
- \$700,000 for the Government Standards and Practices Commission to support development of an electronic report filing system.
- \$800,000 for the Department of Education for local option equalization grants.
- \$1,800,000 for the Secretary of State for costs associated with a statewide special election to be held in November, 2007.
- \$2,500,000 for state agencies' continuous improvement projects.

SB 5549-A
Page 7 of 15

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 19

BUDGET NARRATIVE

The \$125 million special purpose appropriation to the Emergency Board for negotiated salary and benefit increases for state employees is to be spread proportionately among represented, nonrepresented, management, and executive service employees. It is understood that there may be differences in how each proportional share is spent and that the Executive Branch may choose to focus the new and existing management and executive service compensation funds on recruitment and retention issues. Any increases granted in excess of the proportional share must be paid for by agencies. The Executive Branch is expected to report to the Emergency Board, at the time of distribution of the special purpose appropriation, on: actual compensation changes, any changes that require agencies to cover additional costs and the agency plans on how such costs will be paid for, and the amount of rollup for the 2009-11 biennium as a result of decisions made by the Executive Branch on final compensation packages granted to employees.

Unless otherwise noted, if these special purpose appropriations are not allocated by the Emergency Board before December 1, 2008, any remaining funds become available to the Emergency Board for general purposes.

Adjustments to Approved Budgets

Administrative Services, Department of

The Subcommittee approved a \$2.8 million General Fund appropriation to be paid to the Oregon Historical Society. This funding will enable the Society to extend museum and public access hours, digitize photos and other holdings, and host regional workshops.

The bill reduces three Other Funds expenditure limitations to resolve an inadvertent double count in Senate Bill 5502 (2007), the primary DAS budget bill: State Data Center is reduced by \$20,283,644; State Services Division by \$4,773,888, and other operating expenses by \$53,052,670.

Columbia River Gorge Commission

The Subcommittee appropriated \$61,906 General Fund to enable the Commission to hire a project manager to assess and track the condition of the Columbia River Gorge's scenic, cultural, recreational and environmental resources and to provide public outreach.

Commission on Children and Families, State

An additional \$200,000 General Fund is appropriated to the State Commission on Children and Families for the Children's Relief Nursery in Multnomah County. These funds are to be used to support the organization's work with the Center for Family Success with at-risk TANF families and children of incarcerated parents.

Department of Corrections

The General Fund appropriation for the Department of Corrections is reduced by \$1,000,000, from the agency's Operations Division.

Community Colleges and Workforce Development, Department of

A General Fund appropriation of \$600,000 is made to the Department of Community Colleges and Workforce Development to be distributed equally to the Sabin-Schellenberg Skills Center of the North Clackamas School District #12 and the Portland Community College Skills Center.

BUDGET NARRATIVE

The Department's Federal Funds expenditure limitation is increased by \$3.0 million to accommodate receipt of a Workforce Innovation in Regional Economic Development (WIRED) grant from the U.S. Department of Labor. The total grant amount of \$5.0 million will be expended over the 2007-09 and the 2009-11 biennia. The Department was given approval to apply for the grant by the Joint Committee on Ways and Means in April 2007. The Department of Labor began the WIRED initiative in February 2006 to assist regional workforce investment efforts in expanding high-skill and high-wage employment opportunities. Funds may be used to expand job training services and information and to provide training to individual workers. The funds awarded to Oregon will be distributed to regional workforce agencies serving the Portland and Salem metropolitan areas.

Economic and Community Development Department

An appropriation of \$1.0 million General Fund is made to the Oregon Arts Commission/Cultural Trust for the Creative Oregon Initiative, to increase support for Oregon's arts, cultural, and creative sectors by providing technical assistance, leadership development, and capacity building for medium to large arts organizations.

Department of Education

\$160,000 General Fund is appropriated to the Department of Education, to be directed to the Classroom Law Project to further the mission of expanding civics education in Oregon with an emphasis on staff development.

An additional \$300,000 General Fund appropriation is made for the administration of a budget note for a study on alternative methods to funding transportation costs for students. The Department is to report to the interim Joint Committee on Ways and Means or the Emergency Board on the options available, along with recommendations on suggested changes, before the 2009 legislative session.

Energy, Department of

The Other Funds expenditure limitation provided for the Department of Energy's Public Purpose Fund (OMSI) in Senate Bill 5512 (2007) is increased by \$4.6 million for the purpose of OMSI debt service. The General Fund appropriated to the Department in the same bill is decreased by \$1.5 million.

Geology and Mineral Industries, Department of

The Subcommittee approved funding for the Light Imaging and Detection Radar (LIDAR) system. The \$139,249 General Fund appropriation is for a full-time limited duration Information Systems Specialist 6 position (1.00 full-time equivalent) for the system; the Lottery Funds and Other Funds expenditure limitations are increased by \$1,500,000 each, for a total of \$3,139,249. This is a one-time expenditure. The Lottery Funds are Measure 66 Capital funds from the Oregon Watershed Enhancement Board. The addition of the funds is expected to increase LIDAR mapping and possibly leverage other sources of funding.

Governor's Office

\$200,000 Other Funds expenditure limitation is supplied for support of the Education System Design Team, per House Bill 3141. The revenue will be transferred from the State School Fund.

BUDGET NARRATIVE

Department of Higher Education

The Subcommittee approved a \$1.0 million General Fund appropriation for the Oregon Solutions program at Portland State University. All of the funds provided in this appropriation shall be allocated to support the Oregon Solutions program, and none shall be used to support other activities of the University or the Department. The Subcommittee also added a \$150,000 General Fund appropriation for the NEW Leadership Oregon program at Portland State University, to fund a Program Director position.

The Other Funds expenditure limitation for the Oregon State University Forest Research Laboratory is increased by \$700,000 and 7 positions (6.50 full-time equivalent) to accommodate an increase in the Forest Products Harvest Tax included in House Bill 2115. The tax rate is increased from 67 cents per million board feet to 92 cents per million board feet for calendar years 2008 and 2009.

Department of Human Services

The Subcommittee recommended an additional General Fund appropriation in the amount of \$1,511,832 to enhance nursing facility Certified Nursing Assistant staffing levels. This restores full General Fund support for a policy package proposed by the Governor to implement recommendations from the Nursing Facility Staffing Commission.

The Subcommittee recommended an additional \$4,000,000 for the In-Home Care Workers program. It also added \$220,000 General Fund for community-based, non-profit Centers for Independent Living, who help persons with severe disabilities maintain or increase their level of independence.

Judicial Department

The Subcommittee approved a one-time \$700,000 General Fund appropriation for the purpose of a grant to the Oregon State Bar for legal aid services. In addition, \$955,105 General Fund is approved for judges' salaries. Senate Bill 5518, the main appropriation bill for the Judicial Department, provided \$7.5 million General Fund to increase judges' salaries by 14 percent effective July 1, 2007 and an additional three percent July 1, 2008. This additional funding brings the first year increase to 16 percent.

Justice, Department of

The Department of Justice's Other Funds limitation is increased by \$2,215,294 to provide legal case review for the Department of Human Service's child welfare staff and to provide consistent legal representation in shelter case and pre-jurisdictional hearings. This amount is in addition to the \$2.6 million Other Funds limitation included in the Department of Justice budget bill (Senate Bill 5520) for this purpose. The combined amount corresponds to the General Fund and federal funding available for this purpose in the Department of Human Services budget. No positions are added, but the 16 positions established in Senate Bill 5520 are increased by 5.71 full-time equivalent with these added resources.

House Bill 2469 establishes a child support pass-through which requires the Department of Justice to pay the first \$50 of child support collected each month (up to \$200 per family) directly to the family for those households receiving Temporary Assistance to Needy Families (TANF). Currently all of the child support payment is used to offset the cost of the child support program at the Department of Justice. With the pass-through payment to families, it is estimated that the child support program will lose a total of \$925,485 revenue in the nine months after the October 2008 effective date of this change. This bill reduces the Other Funds limitation by \$925,485 and backfills the lost revenue with \$925,485 General Fund.

BUDGET NARRATIVE

The budget bill for the Department of Justice (Senate Bill 5520) did not include Other Funds expenditure limitation for the agency's responsibilities in reviewing and processing Ballot Measure 37 claims. This bill provides a total \$2,219,482 Other Funds expenditure limitation for this purpose, for 17 positions (14.75 full-time equivalent). These amounts reflect the amount available in the budget for the Department of Land Conservation and Development for legal costs for Ballot Measure 37 claims. There is also a \$1.5 million General Fund special purpose appropriation to the Emergency Board for the Department of Land Conservation and Development (DLCD) for this purpose. If the Emergency Board allocates that \$1.5 million to DLCD, the Department of Justice will need to return to the Emergency Board for further expenditure limitation authority.

Land Conservation and Development, Department of

The Subcommittee approved an additional \$1,985,146 General Fund appropriation to meet expected costs associated with processing Ballot Measure 37 claims. The appropriation is associated with House Bill 3546, which extends from 180 days to 540 days the period for government entities to review and act upon claims submitted pursuant to Ballot Measure 37 (2004) after November 1, 2006, before the property owner is entitled to just compensation and may file a civil action. In order to incorporate the provisions of House Bill 3546, positions approved in House Bill 5033 in Package 101 were adjusted as follows, reducing a net 5.50 full-time equivalent positions:

- Change one limited-duration, full-time Principal Executive Manager D position and one limited-duration, full-time Administrative Specialist 2 position, phased-in effective July 1, 2007, to permanent status.
- Establish one limited-duration, full-time Office Specialist 1 position, phased-in effective July 1, 2007, and phased-out effective June 30, 2008 (0.50 full-time equivalent); one permanent, full-time Operations and Policy Analyst 1, phased-in effective July 1, 2007 (1.00 full-time equivalent); four limited-duration, full-time Program Analyst 2 positions, phased-in July 1, 2007, and phased-out June 30, 2008 (2.00 full-time equivalent); two permanent, full-time Planner 3 positions, phased-in July 1, 2007 (2.00 full-time equivalent).
- Reduce months on six limited-duration, full-time positions, so that they are phased-in July 1, 2007, and phased-out effective June 30, 2008 (reduction of 3.00 full-time equivalent). The positions consist of one Administrative Specialist 1, one Administrative Specialist 2, and four Planner 3 positions.
- Eliminate three limited duration, full-time Program Technician 2 positions and five limited-duration, full-time Planner 3 positions (reduction of 8.00 full-time equivalent).

Concurrently, funding for the "Big Look" was decreased by \$400,000 General Fund. The Department is directed to provide minimal staff support for activities related to the "Big Look". The Department may redirect staff to other activities.

Legislative Administration Committee

The Legislative Administration Committee is appropriated \$3,999,943 General Fund for debt service costs for the Capitol Renovation project, and \$1,106,869 General Fund for other costs associated with the project, including relocation costs. Other Funds expenditure limitation is increased by \$770,000 for Certificates of Participation cost of issuance expense.

The funding for debt service and other related costs for the renovation of the Capitol wings is based on what is known today about the potential project costs. Final plans and costs are dependent on actual contracts, and approved budgets and staffing levels for the legislative agencies. In addition, there will be relocation costs for legislative and Executive Branch staff that will need to move out of the Capitol building in order for the

BUDGET NARRATIVE

renovation project to be completed. Therefore, to cover the possibility of other adjustments to the total cost for the project, \$550,000 is appropriated to the Emergency Board in a special purpose appropriation for potential costs when final plans are approved

Oregon Liquor Control Commission

The Other Funds expenditure limitation for OLCC is increased to accommodate \$1,278,000 in carryforward funds that are dedicated to completion of the Information Technology infrastructure enhancement.

Long Term Care Ombudsman

To respond to the increasing number of Oregonians residing in long-term care facilities, the Subcommittee approved a \$86,664 General Fund appropriation and added \$69,750 Other Funds expenditure limitation for a second permanent, full-time Deputy State Long Term Care Ombudsman position, to begin January 1, 2008. This will allow the agency to increase the number of volunteer ombudsman by as many as 30. Increasing the staff and number of volunteer ombudsman is expected to decrease the average time to close non-abuse complaint cases and increase the percentage of facilities visited at least once a quarter.

Military Department, Oregon

The Military Department, for the Office of Emergency Management 9-1-1 program, receives an increase of \$6,303,131 Other Funds expenditure limitation to distribute 2005-07 revenues collected to support public safety answering points.

The Subcommittee funded a limited duration Emergency Management policy advisor position (1.00 full-time equivalent) under the Department's Emergency Management Program. The funding for the position includes \$94,600 General Fund and an equal amount of Other Funds expenditure limitation.

The Subcommittee also appropriated \$500,000 General Fund for the Oregon Military Emergency Financial Assistance Program. This program provides hardship grants and loans to guard members and immediate family members of the Oregon National Guard on active duty. Expenditures from the Emergency Financial Assistance Fund are made as Other Funds. The Department has existing Other Funds limitation within its base budget for this program. The \$500,000 is a one-time appropriation to be phased-out of the Department's budget for the 2009-11 biennium.

The Subcommittee instructed the Department of Revenue to report to the Department of Administrative Services Budget and Management Division and the Legislative Fiscal Office on the amount(s) of 2006 and 2007 state income tax check-off revenue transferred to the Oregon Military Emergency Financial Assistance Program. Check-off revenue is the dedicated source of funding for the program.

Oregon Youth Authority

Earlier in the session it became known that the OYA would need to restructure its capital construction request to incorporate more recent information with respect to rehabilitating and reopening the Oak Creek youth correctional facility in Albany. The Public Safety Subcommittee approved the agency's operating budget without funding the costs associated with the capital construction projects, with the understanding that OYA would present an updated capital construction plan. The updated plan has been approved as part of House Bill 5006, the Capital Construction bill. Senate Bill 5549 includes the related \$632,668 General Fund debt service on Certificates of Participation to be issued for these projects during the 2007-09 biennium, and added \$99,999 Other Funds expenditure limitation to cover the COPs cost of issuance.

SB 5549-A
Page 12 of 15

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 24

BUDGET NARRATIVE

An additional \$400,000 General Fund is appropriated for special payments to be targeted to youth gang intervention services in east Multnomah County. This amount is in addition to the \$3.4 million General Fund included for Multnomah County youth gang services in Senate Bill 5544.

Parks and Recreation, Oregon Department of

The Subcommittee approved an increase of \$600,000 Federal Funds expenditure limitation to expend a Coastal and Estuarine Land Conservation Program (CELP) grant. The CELP provides funding for public land purchases to achieve conservation purposes. The grant will be used to acquire 319 acres along Beaver Creek in Lincoln County. This land is upstream from Ona Beach state park. The acquisition would help conserve wetlands and the Beaver Creek Watershed, as well as provide recreational opportunities through a water trail. The acquisition is consistent with Oregon Parks and Recreation Commission's Investment Strategy and Acquisition Plan.

Public Defense Services Commission

The Subcommittee approved a supplemental General Fund appropriation of \$1,950,000, which will establish a juvenile appellate unit and increase funding for contracted attorneys.

Public Utility Commission

In an action affecting this agency and the Department of Transportation, the Oregon Board of Maritime Pilots is transferred to the Public Utility Commission. The Subcommittee added \$276,566 Other Funds expenditure limitation and one position (1.00 full-time equivalent) to this budget to accommodate the transfer.

State Lands, Department of

The Subcommittee approved increases in expenditure limitations for Federal and Other Funds grants that may be received before either an Emergency Board meeting or the 2008 Special Session. The Department received approval to apply for these grants. The South Slough National Estuarine Research Reserve (SSNERR) may receive grant funds for an estuary monitoring grant, for example. So, \$100,000 Federal Funds expenditure limitation and one limited duration Natural Resource Specialist 3 position (0.50 full-time equivalent) is added. SSNERR also has a history of success in obtaining grants from parties other than the Federal government, so \$75,000 Other Funds expenditure limitation is added. Also, the Department may be successful in its application for a federal grant to preserve the Fender's Blue Butterfly. The grant request is for \$750,000 Federal Funds and would be passed through to the Trust for Public Land to acquire 1,400 acres of land in the Eola Hills west of Salem.

The expenditure limitations above are approved with the understanding that the Department of Administrative Services will unschedule the funds until official notice of awards are received and the agency demonstrates the need to expend the funds as required to the Legislative Fiscal Office and the Department of Administrative Services.

State Police, Oregon Department of

The budget bill for the Oregon State Police (OSP) (Senate Bill 5533) included \$3,679,588 Other Funds expenditure limitation for staff and other costs for the planning and development of the Oregon Wireless Interoperability Network project. The budget bill for OSP assumed that this was to be limitation with two years of duration. Since this is a major capital construction project, it is more appropriate for this limitation to be six years in duration, the standard for capital construction projects. House Bill 5006, the Capital Construction bill, includes the necessary six-year limitation to replace that in the OSP budget bill.

SB 5549-A
Page 13 of 15

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 25

BUDGET NARRATIVE

OSP anticipated receiving 29 patrol vehicles by the end of the 2005-07 biennium. Prior to delivery, however, the manufacturer identified possible equipment defects and recalled all of the vehicles for further inspection, thus delaying delivery until after the start of the new biennium. The cost of the vehicles, \$661,658 General Fund, is disappropriated from the 2005-07 biennium and appropriated for the 2007-09 biennium.

Other Funds expenditure limitation for the Office of the State Fire Marshal is increased by \$449,999 for a web-based incident reporting system, funded with a combination of Fire Insurance Premium Tax, Hazardous Substance fee, and Petroleum Load Fee revenues. The Department of Administrative Services (DAS) is requested to unschedule the \$449,999 until the Office of the State Fire Marshal presents information to the Legislative Fiscal Office and DAS Budget and Management Division on updated costs, long range plans for the use of the revenue sources, and how the project fits into the overall strategic information management plan of the Oregon State Police.

Transportation, Oregon Department of

In an action affecting this agency and the Public Utility Commission, the Oregon Board of Maritime Pilots is transferred from the Department of Transportation. The Subcommittee reduced this Department's Other Funds expenditure limitation by \$276,566, and eliminated one position (1.00 full-time equivalent) to accommodate the transfer.

To implement provisions in Senate Bill 994, the Department's Other Funds expenditure limitation is increased by \$56,250,000 to distribute funds to counties in prescribed amounts on or before November 1, 2008. If the Secure Rural Schools (PL 106.393) program is re-authorized, or equivalent federal funding becomes available, counties are required to provide 10.89 percent (collectively about \$5.9 million) to match the money received. If PL 106-393 is not re-authorized, the Oregon Transportation Commission may determine how counties may match the funds provided. Each county is required to use the money to finance transportation projects that they select in consultation with the cities within the county and other advisory groups.

Treasurer of State

The Subcommittee added a \$1 Other Funds expenditure limitation for state treasury operations and a \$1 Other Funds expenditure limitation for the Oregon 529 college savings network for relocation costs resulting from the Capitol renovation. The office may return to the Emergency Board for additional limitation when the actual costs are known.

Veterans' Affairs, Oregon Department of

A General Fund appropriation of \$29,600 was approved under ORS 406.310 for the Department's payment to the Military Order of the Purple Heart, which has assisted Oregon veterans working with the federal Veterans Administration. This appropriation allows the Department to include the Order with the other national service organizations (American Legion, Disabled American Veterans, and the Veterans of Foreign Wars) with whom the State partners.

Water Resources Department

The Subcommittee approved a one-time \$25,000 General Fund appropriation to support the Umatilla Basin Project Phase II feasibility study and \$25,000 General Fund for the Walla Walla Instream Flow project.

BUDGET NARRATIVE

Adjustments to 2005-07 Budgets

State Police, Oregon Department of

The Oregon State Police anticipated receiving 29 patrol vehicles by the end of the 2005-07 biennium. Prior to delivery, however, the manufacturer identified possible equipment defects and recalled all of the vehicles for further inspection, thus delaying delivery until after the start of the new biennium. The cost of the vehicles \$661,658 General Fund, is disappropriated from the 2005-07 biennium and appropriated for the 2007-09 biennium.

Emergency Board

The Subcommittee reduced the 2005-07 general purpose Emergency Fund by \$1,657,119.

Department of Education

The Department's Other Funds expenditure limitation is increased by \$100,000 to backfill unexpected current biennium costs.

BUDGET NARRATIVE

Summary of Revenue Changes

The Joint Ways and Means Subcommittee on General Government approved Package 106 (Ratification of Fee Revenue) with no revisions.

While no specific revenue changes were directed by the Joint Subcommittee, the agency may need to update its revenues in the ORBITS system to reflect changes in estimates that have occurred between initial budget development and passage of the budget.

Summary of Subcommittee Action

The Public Employees Retirement System (PERS) is responsible for administering retirement programs for public employees, including state, school, and local government workers. The agency's mission statement is as follows: We are a well-respected organization that serves our members by enabling informed retirement and health benefit decisions and delivering retirement and health benefits, effectively and efficiently. In support of its mission, the agency manages a number of programs, including the Tier One-Tier Two Retirement program, the Oregon Public Service Retirement Program (OPSRP), three health insurance programs, Social Security Administration activities, and a deferred compensation program. The agency is also engaged in multiple projects related to implementation and replacement of program technology platforms.

The agency has identified the 2005-07 biennium as a "transition" or "rebuilding" biennium. As a result, its budget establishes a number of positions in core operational areas and maintains a significant number of limited-duration positions for program needs. The Joint Subcommittee approved a budget of \$5,728,584,312 total funds and 380 positions (379.00 full-time equivalent) for PERS. This is an increase of \$1,417,373 total funds from the Governor's Recommended Budget. The increase relates primarily to the operational impact stemming from the recent Supreme Court ruling on the Strunk lawsuit.

Tier One and Tier Two Plan – 100

The Tier One and Tier Two Plan program unit accounts for employee and employer contributions and interest earnings related to PERS Tier One and Tier Two plans. It also reflects the retirement payments made to Tier One and Tier Two retirees, as well as activity related to the agency's health insurance programs. In the 2005-07 biennium and beyond, this program unit will no longer reflect employee contributions as those will be directed to the Oregon Public Service Retirement Plan (OPSRP) Individual Account Program (IAP). This program unit is made up entirely of Other Funds Nonlimited.

The Joint Subcommittee approved the budget for this program unit with no changes.

The approved budget includes Package 090 (Analyst Adjustments) at the level recommended by the Governor. This package moves third-party administration costs for health insurance benefit programs out of the Operations program unit and into the Tier 1 and Tier 2 Plan program.

BUDGET NARRATIVE

Oregon Public Service Retirement Plan – 200

This program accounts for employee contributions into the IAP, including contributions made by employers on behalf of employees. It also reflects employer contributions for the defined benefit portion of the OPSRP plan. While this program unit will account for retirement payments and IAP account payouts for OPSRP retirees, this activity is expected to be minimal for the 2005-07 biennium. This program unit is made up entirely of Other Funds Nonlimited.

The Joint Subcommittee approved the budget for this program unit with no changes.

The approved budget includes Package 090 (Analyst Adjustments) at the level recommended by the Governor. This package moves third-party administration costs for the Individual Account Program out of the Operations program unit and into the Oregon Public Service Retirement Plan program unit.

Operations – 300

This program accounts for the operational costs associated with administration of the agency's various retirement related programs.

The Joint Subcommittee made the following standard adjustments:

- Reduction of \$253,578 Other Funds expenditure limitation for the PERS rate reduction.
- Reduction of \$68,054 Other Funds expenditure limitation for the Attorney General rate reduction.

While these changes relate to the Base Budget, Essential Packages, and Policy Packages, they are reflected in Package 801 (LFO Analyst Adjustments).

The Joint Subcommittee approved Package 090 (Analyst Adjustments) with no revisions. This package includes the removal of the third-party administration costs associated with the Individual Account Program and health insurance programs as referenced above. The package also includes elimination of seven information systems positions that were approved by the November 2003 Emergency Board but never used for the approved purpose.

The Joint Subcommittee approved Package 101 (PERS Restructure and Support) with no revisions. This package includes a number of actions intended to stabilize and strengthen the agency's operational infrastructure.

The Joint Subcommittee approved Package 102 (Legal Services) with no revisions. The package includes expenditure limitation for professional legal services outside of the Attorney General line-item.

The Joint Subcommittee approved Package 103 (Resolve Accumulated Workload) with no revisions. This package requests a number of limited-duration, full-time positions across six divisions to address workload and backlog issues that have accumulated in various program areas.

BUDGET NARRATIVE

Package 104 (PERS Reform Legislation Implementation) originally requested 34 limited-duration positions (34.00 full-time equivalent) to complete implementation activities related to 2003 reform legislation. The Joint Subcommittee approved changes to the package to reflect the estimated operational impact of the recent Supreme Court ruling related to the Strunk lawsuit. The change results in elimination of 22 positions (22.00 full-time equivalent) in Package 104, including position numbers 0710403 – 0710424. These original positions were for purposes of COLA recalculations required under the original reform legislation. The Joint Subcommittee revision includes reductions of \$2,061,959 Other Funds expenditure limitation for Personal Services and \$128,700 Other Funds expenditure limitation for Services and Supplies.

While the positions eliminated in Package 104 are no longer necessary for the originally intended purpose, the Strunk ruling will result in an additional operational impact on the agency. The Joint Subcommittee approved the establishment of 33 positions (33.00 full-time equivalent) for purposes of implementing the Supreme Court's ruling. This work includes, but is not limited to, adjustments to all Tier 1 member accounts by crediting eight percent earnings for 2003. The approved positions, shown in Package 810 (Additional Ways and Means Adjustments), include the following:

- One limited-duration, full-time Project Manager 1 position (1.00 full-time equivalent);
- Two limited-duration, full-time Program Technician 1 positions (2.00 full-time equivalent);
- Seven limited-duration, full-time Retirement Counselor 2 positions (7.00 full-time equivalent);
- Thirteen limited-duration, full-time Retirement Counselor 1 positions (13.00 full-time equivalent);
- Two limited-duration, full-time Office Specialist 2 positions (2.00 full-time equivalent);
- One limited-duration, full-time Support Services Supervisor 1 position (1.00 full-time equivalent);
- One limited-duration, full-time Information Specialist position (1.00 full-time equivalent);
- One limited-duration, full-time Office Specialist 1 position (1.00 full-time equivalent);
- Two limited-duration, full-time Data Entry Operator positions (2.00 full-time equivalent);
- One limited-duration, full-time Administrative Specialist 1 position (1.00 full-time equivalent);
- One limited-duration, full-time Word Processing Technician 3 position (1.00 full-time equivalent); and,
- One limited-duration, full-time Compliance Specialist 1 position (1.00 full-time equivalent).

The package also includes \$2,985,614 Other Funds expenditure limitation for Personal Services and \$944,050 Other Funds expenditure limitation for Services and Supplies. The Services and Supplies expenditure limitation includes \$750,000 OF for IT professional services. The net addition to the Department's budget related to the Strunk ruling, which includes the adjustments to Package 104 and the addition of Package 810, is \$1,739,005 Other Funds expenditure limitation and 11 limited-duration, full-time positions (11.00 full-time equivalent).

The Joint Subcommittee approved Package 105 (Information Technology Initiatives) with no revisions. This package includes expenditure limitation for information technology initiatives, including digital imaging activities and software and development support for the jClarety platform.

The Joint Subcommittee approved Package 107 (RIMS Replacement) with no revisions. The package includes expenditure limitation related to conversion of the agency's legacy technology platform, the RIMS system. This effort was approved at the November 2004 Emergency Board. Package 107 represents the estimated 2005-07 costs related to the replacement efforts. While no adjustments were made to the package, it is possible

BUDGET NARRATIVE

that PERS will need to approach the Emergency Board during the interim to adjust carryforward expenditure limitation related to this or other information technology projects.

Debt Service – 400

The Joint Subcommittee approved the budget for this program unit with no changes.

Summary of Performance Measure Action

At the recommendation of the agency, the Joint Subcommittee did not approve Performance Measure Number 1 and Numbers 3 – 8. The agency was directed to modify Performance Measure Number 2 (revised Number 1) “Percentage of Service Retirements Paid Within 1.5 Months From Retirement Date” to be more useful. The Joint Subcommittee approved the agency’s recommended Performance Measure Numbers 9 – 13 (revised Numbers 2 – 6) as interim measures to be reviewed again in 2007. The Joint Subcommittee directed the agency to add two new standard customer satisfaction measures under Numbers 14 and 15 (revised Numbers 7 and 8). The final measures as modified are listed on the attachment.

The Joint Subcommittee also directed the agency to report on PERS retirement income replacement ratio for members that reach normal retirement age. While this will not be a formal Key Performance Measure, the agency is asked to include this information in a report during the interim and/or to reflect it in its next budget request document.

BUDGET NARRATIVE

Summary of Revenue Changes

Actions approved in the budget bill for the Department of Administrative Services (House Bill 5130), the budget bill for the State Library (House Bill 5115), and the budget bill for the Secretary of State (Senate Bill 5602) will reduce assessments and charges to state agencies by \$18.0 million total funds, with General Fund savings of \$5.5 million. Individual agency budgets will reflect the reduced assessment and charge amounts.

Summary of Subcommittee Action

Department of Administrative Services

House Bill 5166 established a budget for the new State Data Center, within the Department of Administrative Service (DAS). However, that bill did not make the corresponding adjustments to the budget for the DAS Information Resources Management Division. The Subcommittee on Capital Construction and Bonding approved a reduction of \$35,665,294 Other Funds expenditure limitation for the DAS Information Resources Management Division to reflect the transfer of operations to the State Data Center.

Adjustments to Various Assessments and Charges

House Bill 5176-A makes adjustments to 2005-07 budgeted expenditures for state agencies to reflect the impact of a number of changes to DAS assessments and charges, including the following:

- Reduction in the State Controller's Division Oregon State Payroll System user charges.
- Reduction in the Mall Plaza debt service.
- Elimination of the assessment for the Progress Board.
- Reduction in the uniform rent rate for office space of \$0.08 per square foot per month.
- Reduction in the fleet rate.
- Reduction reflecting the elimination of the Public Employees Benefits Board (PEBB) Wellness program.
- Reduction in telecom costs as a result of the Smart Buy program.
- Changes related to the recent restructure/rebuild of the DAS Information Resources Management Division, including a new assessment for a second phase of Cyber Security activities.

The bill also makes adjustments to several other assessments and charges, as follows:

- Treasury Debt Management charges have been adjusted to reflect updated information on agencies' relative debt levels and new debt issuances.
- Library assessment has been reduced consistent with the Legislatively Adopted Budget for the State Library.
- DAS Human Resource Services Division charges have been adjusted among agencies to better reflect workload, netting to zero.

5176-A
2 of 3

BUDGET NARRATIVE

- Secretary of State Audits Division assessment has been reduced, consistent with the Legislatively Adopted Budget for the Secretary of State.

The combined results of the changes in assessments and charges are reflected in changes to state agency budgets and are presented in Attachment 1. Savings total \$5.5 million General Fund, \$0.3 million Lottery Funds, \$7.4 million Other Funds, and \$4.8 million Federal Funds.

Public Employees Retirement System

Agency Summary

The Public Employees Retirement System (PERS) provides a full range of retirement services to public employers and public employees throughout the State of Oregon. These services are provided to approximately 885 state and local government entities across the State. The agency administers the Tier One and Tier Two Retirement Program (ORS 238), the Oregon Public Service Retirement Program (ORS 238A), the Individual Account Program, the Oregon Savings Growth Plan (a deferred compensation program), the Public Employee Benefit Equalization Fund, Social Security Administration program, and the Retiree Health Insurance program. PERS also administers the financing of two projects that were funded by Certificates of Participation.

Mission Statement and Statutory Authority

Mission statement of PERS:

We are a well-respected organization that serves our members by enabling informed retirement and health benefit decisions and delivering retirement and health benefits, effectively and efficiently.

We achieve this by being:

- **Trustworthy:** We build trust internally and with all stakeholders.
- **Transparent:** Our work is transparent, direct and open.
- **Member-focused:** We care about our members. We ensure that members receive their legitimate benefits. We seek to understand and meet member needs.
- **Inclusive:** We uphold our stakeholders' right to provide input into decisions that affect them.
- **Objective:** We administer the law objectively, not subject to political pressure or improper influence.
- **Straightforward:** We strive for simplicity. We aim to make our benefits and services easy to understand, straightforward to administer, and efficient to implement.
- **Data-protective:** We maintain and improve the integrity of member data through our processes, business rules, decision making, and any quick fixes.
- **Aligned:** We're focused on our objectives. We keep strategy and resources aligned, and deliver results, even as priorities change.
- **Clear:** Our communications are clear, consistent and concise, and meet stakeholder needs.
- **Courageous:** We're willing to make hard decisions in order to implement our strategy and to deliver according to the charter of the organization.
- **Competitive:** We understand the financial implications of all our decisions and aim to operate competitively.
- **Careful:** We anticipate and manage risks to support financial stability for members, employers and taxpayers.

 - ORS 237.410 to 237.520

Oregon Administrative Rules, Chapter 459, govern the implementation of PERS' statutory responsibilities.

2007-13 Six-Year Agency Plan

PERS continues to be a retirement system and an agency in transition. In the 2005-07 biennium, the agency made considerable progress implementing the new programs, Oregon Public Service Retirement Program (OPSRP) and Individual Account Program (IAP), but still faces significant challenges. One of the continuing issues for the agency is fully transitioning from the outdated and inefficient retirement information technology (IT) platform, the Retirement Information Management System (RIMS), to a new, more responsive IT platform, jClarety. The planning stage of this project began in the 2003-05 biennium, with initial new system implementation beginning in 2004. This project is expected to continue through 2009, due to the complexity of business processes and scope of the information being transferred from the legacy system to the new integrated application.

Furthermore, the 2003 PERS reform legislation, which included the creation of a third pension program, Oregon Public Service Retirement Program (OPSRP), and the member-funded Individual Account Program (IAP), resulted in a retirement system with more components, which require additional services by the agency and its staff. PERS continues to prioritize the implementation of the new programs and mandated benefit changes in a timely manner, while also complying with related court rulings.

Budget Page 58

BUDGET NARRATIVE

These factors, combined with an aging member base, continue to accelerate demand for retirement and other member services. At times, the agency's organizational structure, management resources, and information technology systems have been stretched to the point that member and employer services have failed to meet customer expectations and agency performance objectives. Addressing those needs is the key focus of the agency's six-year plan.

During the 2003-05 biennium, PERS implemented numerous initiatives to address and resolve the agency's structural and service problems. The agency succeeded in revising PERS' mission and objectives, formally assessing the agency's system of central services, reviewing and revising performance measures, and forming a Business Transition Team. The primary focus of 2003-05 was to assess, reorganize, and stabilize the agency and its operations in the short-term, which deferred development of long-term strategic and tactical plans to the 2005-07 and 2007-09 biennia.

At the end of 2005, the PERS Board approved seven overall goals of the agency for both the short-term and long-term within the strategic planning period of 2007-2013:

- Produce timely and accurate payment of PERS benefits
- Deliver high-quality customer service
- Optimize organizational effectiveness and efficiency
- Develop cost-efficient and cost-effective business processes
- Ensure agency staff have the skill set required to support strategic outcomes
- Provide a secured information environment
- Deliver clear, concise, and accurate agency communications

During the 2007-09 biennium, PERS plans to build upon past efforts, improve staff efficiencies, and enhance member and stakeholder services. PERS has a number of long-term initiatives that are central to fulfilling the agency's mission and objectives. These include:

- Replace the Retirement Information Management System (RIMS) legacy system. The planning stage of this project began in the 2003-05 biennium with planned development activities extending into 2007-09. The proposed approach is to convert the Retirement Information Management System (RIMS) to a dynamic, web-based system using the jClarety software system.
- Continually assess and restructure the PERS organization to better use the anticipated efficiencies gained from the implementation of jClarety and the conversion of the Retirement Information Management System (RIMS). These changes will evolve as business processes are converted from one system to another. A key PERS Board and agency long-term objective is to reduce the number of temporary and limited duration staff and stabilize the overall administrative costs needed to provide PERS' core retirement services.
- Simplify agency processes through operational changes, greater automation, and conversion of current IT systems. Work with the Legislature to simplify plan components and service delivery requirements; and avoid additional complexity at the administrative level.

BUDGET NARRATIVE

2007-09 Two Year Agency Plan

Agency Programs

The program operations of PERS have a significant impact on Oregon's economy. PERS provides retirement services to roughly 10 percent of Oregon's population, and the agency distributes \$2.5 billion in benefits annually to Oregonians who served in the public sector. The individual programs administered by the PERS agency are described as follows:

Tier One and Tier Two Program

The Tier One and Tier Two Program (ORS 238) is a statutorily created program funded with Other Fund revenues that provides retirement services to approximately 190,000 non-retired members and 103,000 retirees and beneficiaries who became employees with a participating public employer prior to August 29, 2003. Active Tier One and Tier Two membership will decline over time as the program is now closed to new members. However, due to the aging demographics of the Tier One and Tier Two membership, agency retirement workloads will increase over the next 8 to 10 years. The Tier One and Tier Two Program's services include:

- Providing information to members regarding retirement, disability, and death benefits, providing benefit estimates, and explaining plan options for members and beneficiaries. PERS projects that between 12,000 and 16,000 members will retire during the next biennium.
- Maintaining data and accounts for active members that include recording changes in employment, crediting interest and purchased service time, and generating annual member account statements. Under the 2003 legislative reforms, employee contributions from Tier One and Tier Two members were redirected into a separate Individual Account Program (IAP) effective January 1, 2004.
- Calculating and paying benefits. PERS issues approximately \$2.5 billion in benefit payments annually to over 100,000 retirees and their beneficiaries.

Retiree Health Insurance Services

PERS serves as a group sponsor, providing health insurance services to approximately 49,000 retirees and dependents. PERS designs benefits, devises specifications, analyzes carrier responses, and awards contracts based on care quality and cost containment. PERS uses a third-party administrator to provide these services directly to members.

Retiree Health Insurance Services is composed of the following three state-mandated activities:

Retirement Health Insurance Account (RHIA)

This program provides a \$60 per month subsidy to offset the cost of insurance premiums with PERS-sponsored insurance carriers for participating retirees of Medicare eligible age or older. All PERS' employers fund this subsidy through contributions. Approximately 36,400 persons receive this subsidy.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 60

BUDGET NARRATIVE

Retirement Health Insurance Premium Account (RHIPA)

This program subsidizes the cost of insurance premiums in PERS-sponsored health plans for those retired former State of Oregon employees who are not yet of Medicare age, and who did not stay enrolled in the state employee health insurance plans sponsored by the Public Employee Benefit Board. The subsidy, which is funded by the State of Oregon through its contribution rate, is based on the number of years the retiree was employed in state service. Approximately 860 persons receive this subsidy.

Standard Retirement Health Insurance Account (SRHIA)

SRHIA covers all administrative services related to PERS' health insurance services that are not specific to RHIA and RHIPA. This program encompasses health insurance-related administrative activities such as premium transfers, third-party administrative agreements, and consultant services. Member fees and earnings on dollars held by SRHIA fund this activity.

Benefit Equalization Fund (BEF)

The Legislature created the Benefit Equalization Fund (BEF) in 1997 to allow a full payment of PERS' pension benefits to retirees whose benefits would otherwise be capped by Internal Revenue Code (IRC) Section 415, that limits benefits in excess of approximately \$129,000 per year (for a general service retiree at age 58). The BEF began paying members affected by IRC 415 in 1998. The fund serves approximately 100 members. Benefit changes for new retirees related to PERS' reforms, combined with periodic adjustments to the IRC 415 cap, will slow the growth of and eventually shrink the BEF. Fees assessed to participating employers fund the BEF.

Social Security Administration (SSA)

PERS has the statutorily mandated responsibility to administer federal Social Security Administration (SSA) programs to over 1,000 Oregon public employers. The SSA has preferred to work directly with employers for the past several years, thus limiting certain agency activity. However, delegated responsibilities also increased recently, causing increasing agency involvement in employer education, audits, SSA coverage referendums, and other ancillary duties. Annual fees assessed to participating employers fund the SSA service.

Deferred Compensation Program

The Deferred Compensation Program offered by PERS provides the opportunity for public employees to voluntarily save additional funds to supplement their retirement benefits. This program, also known as the Oregon Savings Growth Plan (OSGP), is available to both state and local government employees. This program benefits participants by providing an incentive for saving additional funds to be used at retirement, while reducing current taxable income. It presently serves approximately 21,000 current and former state and local employees. Plan assets are valued at approximately \$870 million. Deferred compensation participants fund all costs of plan administration.

A third-party administrator provides the OSGP record keeping and investment account services. Investment alternatives are selected with assistance of Oregon State Treasury staff with oversight from the Oregon Investment Council (OIC). Agency staff manages the third-party administrators'

BUDGET NARRATIVE

contracts, provides educational support, monitors participant satisfaction, and assists participants with issues irresolvable by the third-party administrator. Member contributions and related earnings fund the administration of the OSGP.

In 1997, the Legislative Assembly authorized PERS to extend deferred compensation services to local government employees through its third-party agreement. PERS' responsibilities are to coordinate local government applications and to provide information about the program to local public employers. Once local employers sign onto the program, they work directly with PERS' third-party administrator and the Treasury Department.

Oregon Public Service Retirement Plan (OPSRP)

The Oregon Public Service Retirement Plan (OPSRP), authorized by the 2003 Legislature (ORS 238A) and financed with Other Funds, provides both defined contribution-type and defined benefit pension programs. Public employees hired on or after August 29, 2003, and inactive Tier One and Tier-Two members who return to employment following a six-month or greater break in service, participate in the OPSRP Pension Program. As of July 2006, the OPSRP Pension Program had approximately 25,000 members. All active Tier One, Tier Two, and OPSRP members also participate in the OPSRP Individual Account Program (IAP).

OPSRP Individual Account Program

The Individual Account Program (IAP) is a defined contribution-type retirement savings program that requires all active members (Tier One, Tier Two, and OPSRP) to contribute 6 percent of their salary into a supplemental retirement savings account invested as part of the Oregon Public Employees Retirement Fund (OPERF) regular account under the oversight of the Oregon Investment Council (OIC). The Individual Account Program (IAP) program became effective on January 1, 2004.

At retirement, members can choose to receive their IAP account balance in a lump-sum payment, or in equal installments over a 5, 10, 15, or 20 year period. A third-party administrator provides record keeping services. Member contributions, and earnings on those contributions, fund the administrative costs related to the IAP. Under the IAP, there is no guarantee of a certain investment return or retirement amount. Members make contributions that are invested and subject to market fluctuation. Employers may or may not also make contributions. When a member retires, he or she receives the accumulated contributions plus or minus any earnings or losses that accrue while the account is active.

OPSRP Pension Program

The OPSRP Pension Program is a defined benefit pension program solely funded by employer contributions and associated earnings. Most employees who start work with a participating public employer on or after August 29, 2003 participate in the OPSRP Pension Program. An employee becomes fully vested into the program upon working five consecutive years in a qualifying position. The members' retirement benefits are based on their final average salary, length of service, and type of service (general vs. police/fire).

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 62

BUDGET NARRATIVE

Debt Service

Certificates of Participation (COPs) were issued to finance two PERS' projects. Although PERS has significant resources available to fund such projects, the capital markets were utilized due to interest costs being less than the potential investment opportunity costs related to alternative financing methods. The revenue source that services the Certificates of Participation (COPs) is Other Funds. These two projects are:

PERS Headquarters Building

In the mid-1990's, PERS recognized that the former headquarters location in Portland no longer served the long-term needs of the agency. As a result, PERS, in cooperation with Department of Administrative Services (DAS) State Facilities, built a headquarters building in Tigard in 1997 with land and construction costs financed through the issuance of a COP. Investment earnings on the PERS' fund will be used to repay the remaining COP balance (\$5.825 million as of 06-30-06) in May 2017.

Oregon Public Service Retirement Plan Information Technology Project

The Legislature recognized that initial revenues from the IAP and OPSRP Pension Program would not suffice to cover related program start-up expenses. As a result, PERS was authorized to borrow funds from the Tier One and Tier Two Program assets and to issue a COP. After a cost-benefit analysis, PERS requested the issuance of a five-year COP for \$9,865,000 to cover the capital costs of purchasing and installing jClarety based systems to support the OPSRP programs. OPSRP contributions and earnings primarily service the COP debt. The final payment will occur on May 1, 2009.

Environmental Factors

The primary environmental factors affecting the PERS system can be summarized in three specific issue areas:

- Retirement program changes and an aging member population continue to increase the demand for PERS retirement services.
- The continued deterioration of PERS' outdated information technology systems has caused reduced service levels, workload backlogs, declining accuracy, and inefficient utilization of agency resources. This factor is being addressed through the RIMS Conversion Project (RCP).
- Oregon Supreme Court rulings on two prominent cases, known as the *Strunk* and *Eugene* cases and the related Board settlement agreement, required the agency to retroactively adjust account balances and the benefits for members and retirees, and to recover any overpaid amounts resulting from those changes. This created a significant workload for PERS and requires additional resources to complete the adjustments and recover any over-paid benefits from members and retirees in a timely manner.

These combined factors present unique challenges that PERS continues to address by stabilizing and improving operations, resolving accumulated workloads, and permanently implementing changes resulting from the 2003 PERS reform legislation and associated court rulings.

BUDGET NARRATIVE

Aging of PERS Membership and Participants

Membership and participant demographics indicate the demand for PERS' services will continue to increase. PERS currently is equipped to handle approximately 4,000 retirements per year. The previous baseline of 4,000 expected retirements per year is no longer valid, and a higher baseline of at least 6,000 retirements per year (a 50 percent increase) is expected for the 2007-09 biennium. This demographic trend of increasing retirees is expected to continue through 2013 before leveling out. In 2003, retirements spiked to 12,000 due to benefit changes brought on by the 2003 Legislative reform. As of June 30, 2006, approximately 49,000 members (about 25 percent of active and inactive members) were eligible for immediate retirement.

Member retirement typically impacts other activities and services. As a member approaches retirement, requests for estimates and retirement information increase significantly. The retirement process itself triggers significant data compilation and verification to support the benefit calculation, the notice of entitlement, and resolve any subsequent contest of benefits. In addition, many retiring members choose to participate in PERS' Health Insurance Program. Finally, the newly hired replacement employee must be established on PERS' database under OPSRP, where management of their service data and IAP begins. All of these activities are volume driven and compose a major part of PERS' services and related operational demands.

BUDGET NARRATIVE

Complex, Changing Service Delivery Requirements

PERS' statutes have evolved over the past 60 years and now encompass more than 100 pages. The context, terms, and relationships between statutes have become more complex. A total of 18 separate bills brought more than 100 modifications to the body of PERS' statutes in the 1999 and 2001 legislative sessions alone. In 2003, the Legislature made broad, sweeping changes to the current PERS' retirement system by adding the new OPSRP Pension and Individual Account Programs. The sum of the changes mandated in 2003 had a major effect on PERS' programs and benefit structures, and created multiple special projects. PERS found both its administration and infrastructure wholly inadequate to meet the expectations of stakeholders. The complexity and volume of changes to PERS' statutes also led to significant litigation from both employers and members, continued acceleration in the number of contested cases, and delays in providing even the most basic services to PERS' members. The 2005 legislative session brought minor changes and refinements. PERS also anticipates only minor changes and refinements in the 2007 legislative session.

The uniqueness of the PERS' pension benefit structures causes difficulties in direct application of Internal Revenue Code (IRC) requirements in several critical areas. A primary issue is the application of defined benefit regulations to aspects of the PERS' plan similar to a defined-contribution plan (Money Match). This does not always allow for direct correlation of IRC rules to PERS' specific needs, nor can PERS easily utilize the interpretations provided other public pension systems by the IRS.

Statutory changes, federal agencies, and court decisions continue to reshape and refine the agency's ground rules. New legislation, legal interpretations, and regulatory changes require increased flexibility and adaptability from PERS at the administrative level and throughout its business processes and IT systems.

Information Technology Base Conversion

With 264 permanent staff in the base budget, PERS provides a variety of retirement services to 315,000 Oregonians (Tier One, Tier Two, and OPSRP active, dormant and retiree members and their beneficiaries) and approximately 885 public employers. The agency augments staff-provided services through the use of various information technology platforms, and in the case of its Retiree Health Insurance, Individual Account and Deferred Compensation Programs, third-party administrators. The agency's primary technology system is the Retirement Information Management System (RIMS), designed in the mid-1980s for the pension benefit structure in place at that time. Although RIMS performed adequately through the mid-1990s, its operation has become increasingly inflexible and resource intensive. The system's inadequacy has been greatly accelerated by the rapid rise in retirement volumes, revisions to the Tier One and Tier Two Program in 2003, and the addition of the OPSRP Pension Program and IAP.

RIMS is processing a shrinking number of transaction types while the agency has expended more and more resources to moderate the system's decline. When new, RIMS processed approximately 80 percent of all retirement calculations. Now, the percentage has declined to under 50 percent; manual computations on desktop applications are used to cover the gap. The increase in manual desktop application-supported activity, coupled with growing demand, has stretched staff and other resources. This has impacted service and accuracy levels, as well as contributed to accumulated workload and other adjustments, which further strain resources.

BUDGET NARRATIVE

Beginning in 1997, PERS proposed a number of initiatives to arrest RIMS' decline and to install new technologies that will eventually supplant RIMS with more efficient and accurate systems. However, the agency was unable to present a general technology strategy acceptable to the Legislature, leaving PERS to continue providing services to its members with the outmoded RIMS system. With Legislative approval of the Oregon Public Service Retirement Plan (OPSRP), PERS implemented a modern pension administration system, based on the jClarety software platform, to administer the new plan. The goal of PERS is to have a single, integrated system to improve member service and efficiency. PERS is currently working to migrate member data from the RIMS system to jClarety, which will serve both the OPSRP Pension and the Tier One and Tier Two Program. The transition to the new system is scheduled to be completed by Fall 2009. During the course of the project, functionality will be transitioned incrementally from RIMS to jClarety to alleviate some of the system deficiencies along the way.

Agency Initiatives

The core of PERS' two-year plan is to advance and, where scheduled, complete on-going special projects; to facilitate continued structural and operational changes; and to streamline processes within the agency to deliver more accurate and timely customer service to PERS' members and employers.

For the 2007-09 biennium, PERS will be focused on the following initiatives to succeed in propelling the agency forward:

- Continue 2005-07 work to strengthen and stabilize core agency infrastructure
- Improve service levels for all divisions
- Develop quality assurance for core processes
- Improve and streamline existing processes and procedures
- Advance, and where scheduled, complete special projects, including *Strunk* and *Eugene* implementation, IAP remediation and RIMS conversion

PERS developed the following strategies and policy option packages to accomplish these initiatives:

- Strunk/Eugene Project
- RIMS Conversion Project (RCP)
- Retirement Processing Support
- Operations and Infrastructure Support
- Legal Services Support

Strunk/Eugene Project

Oregon Supreme Court rulings issued in March 2005 (*Strunk*) and August 2005 (*City of Eugene*) triggered a process whereby PERS must re-calculate member account balances and benefits for a large number of members and retirees, and recover any amounts that PERS over-paid based on those

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 68

BUDGET NARRATIVE

rulings. In order to comply with the court rulings and the associated *City of Eugene* settlement agreement, PERS is using additional limited duration staff to handle associated account balance recalculations, benefit payment adjustments, and overpayment recoveries.

Expected Outcome

PERS will correct member and retiree account balances, adjust benefit payments, and collect the overpayments to adhere to the Supreme Court rulings and associated settlement agreement, while continuing to provide core retirement services.

Request Reference

Policy Package #110 Strunk/Eugene Project

RIMS Conversion Project

RIMS contains only 50-60 percent of the required functionality for PERS' business processes. Desktop applications and off-line systems have filled in the gaps, leading to broken processes, multiple data sources, inefficient work flows, inaccurate benefit calculations, and inadequate customer/member service. PERS is currently working to transition RIMS functionality into jClarety, thus simplifying the technical and administrative environment at PERS by providing one integrated system for all retirement programs and options.

Expected Outcome

PERS' benefit estimates and payment calculations will be more efficient and simplified. Agency customers and other stakeholders will have immediate access to benefit plan data and other administrative features, rather than relying on PERS' staff to provide this information.

Request Reference

Policy Package #111 RIMS Conversion Project (RCP)

Retirement Processing

Because of the decreasing capability of the RIMS system to handle benefit calculations, there has been an upswing in the desktop applications-supported work required to process benefit calculations and payments. During the 2007-09 biennium, there is a continued need for limited duration positions to support these core operation activities while the RIMS Conversion Project(RCP) progresses. PERS anticipates that there will be at least 6,000 annual retirements during the 2007-09 biennium.

Expected Outcome

Temporarily utilizing the limited duration positions allows PERS to handle ongoing workload and new service demands from members and retirees while the RIMS Conversion Project (RCP) progresses, with the anticipation that system efficiency gains will occur as functionality is transitioned from RIMS to jClarety and when the project is completed.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 69

BUDGET NARRATIVE

Request Reference

Policy Package #112 Retirement Processing
Policy Package #113 Retirement Data Support

Operations and Infrastructure Support

PERS proposes to stabilize and strengthen the core agency infrastructure to ensure that resources are coupled with best practices to increase overall efficiency and effectiveness. The proposal includes a continuation of ongoing improvements in agency procurement and contracting, human resources, technical documentation, technology support, management support, and workload balancing that were initiated during the 2005-07 biennium.

Expenditure limitation and position authority are requested to implement administrative changes to the core infrastructure of PERS. Changes include improved retirement data support; short-term assistance in human resources; and, development of technical documentation. Both packages contain a mix of permanent and limited duration positions, with the majority of the positions already existing in the 2005-07 biennium.

Expected Outcome

If implemented, PERS anticipates meeting current and projected workload volumes while keeping additional backlogs from occurring.

Request Reference

Policy Package #113 Retirement Data Support
Policy Package #114 Operations and Infrastructure Support

Legal Services

PERS requests a continuation of \$1 million to fund legal services provided by outside counsel, when necessary, for the 2007-09 biennium. While the key Oregon Supreme Court decisions on PERS reform have been issued, litigation continues in a number of forums on specific implementation issues. These legal services are provided by outside counsel independent of the Office of Attorney General.

Expected Outcome

Utilize the continued funding to provide legal services for the agency.

BUDGET NARRATIVE

Criteria for 2007-09 Budget Development

The overall focus for PERS' 2007-09 budget is to improve the agency's efficiency and effectiveness in the services provided to employers, members and retirees. Agency initiatives (packages) were specifically crafted to increase accountability and responsiveness to employers, members, retirees, and other major stakeholders. Each proposed initiative shares the following goals:

- Become a higher producing and more flexible agency by strengthening and stabilizing the agency's core infrastructure
- Be able to address and respond to increasing workload volumes in all divisions of the agency
- Reverse the decline in member services and customer satisfaction
- Complete projects in a timely and efficient manner

The strategy for attaining these objectives involves completing special, limited-duration projects, e.g., Strunk/Eugene and IAP remediation, while also amplifying existing efforts to improve the agency's operations and processes. These projects are part of a re-structuring push that the agency began planning during the 2003-2005 biennium and implementing during the 2005-07 biennium.

Key Performance Measure Criteria

Overview: Benchmarking PERS Administration

PERS does not have a direct tie to any of the Oregon Benchmarks, but rather looks to statutorily mandated program services and its mission as a basis for measuring administrative performance. While PERS uses a wide range of tools to assess its administrative performance, there are two primary sources that the agency has traditionally employed to conduct this assessment. The first is a third-party, contracted annual peer group comparison with other public pension systems using various operational performance and cost criteria (i.e., CEM Benchmarking, Inc. survey). The second is a set of performance measures which are reviewed and approved by the Oregon Progress Board.

Background on Performance Measures: 2003-05 Biennium Review:

In 2003, a review of PERS' Key Performance Measures (KPMs) by PERS' internal audit staff showed significant deficiencies in the data and efficacy of the majority of the measures. Upon closer inspection, the majority of PERS' Key Performance Measures (KPMs) had the following weaknesses:

- **Effectiveness of KPMs:** PERS has grown significantly over the previous 10 years in both size of operations and the number of services provided. PERS' KPMs had not been adjusted since the 1995-97 biennium to reflect those changes. As a result, many of the measures were ineffective in communicating the agency's performance.
- **Accuracy of Data:** PERS' internal audit staff were unable to verify the data which formed the basis for several of PERS' KPMs. In addition, the data underlying some of the measures provided deceptive results.

In 2004, PERS decided to revise and update its performance measures to make them accurately represent PERS' administrative operations and performance.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 71

BUDGET NARRATIVE

Next Phase of Performance Measures

During the 2003-05 biennium, PERS created an interim set of measures that provided the PERS Board, management, the Legislature, and other stakeholders with a representative view of PERS' administrative performance. The 2005 Legislature approved the interim set of measures to be used during the 2005-07 biennium and then refined thereafter.

PERS objectives in developing a set of KPMs are as follows

- Performance measures must be comparable to at least one previous year's data so that a trend can be established.
- Whenever possible, compare the performance with that of a peer group.
- Underlying data must be reasonably accurate.
- Performance measures represent an efficiency, effectiveness, or results oriented measure.
- If possible, continue to use current performance measures that have sufficient data accuracy and efficacy to be valid and meaningful.

Based on these criteria, PERS has made several refinements, additions, and deletions to the interim set of measures. PERS' 2007-09 Proposed KPMs include:

1. Retirement Program: Timely Retirement Payments – Percent of initial service retirements paid within 45 days from retirement date. This measure is the only viable carryover from the previous set of performance measures. This measure monitors the percentage of retirees who receive their initial retirement check within 45 days from date of retirement. This measure is important as it assesses the effectiveness of a wide range of coordinated activities that must come together in order to calculate, set-up, and pay a benefit. Delays in completing a process or obtaining needed information, as well as a sudden surge in retirements, can cause a delay (interruption in cash flow to retirees) in a member receiving their initial benefit payment. As a result, this measure is a good measure of PERS' overall pension inception abilities, which is of critical importance to PERS' members when they retire. PERS' long-term goal is to issue 80 percent of all initial benefit payments within 45 days of a member's effective date of retirement.

2. Retirement Program: Total Benefit Admin Costs – Total benefit administration costs per member. This is a cost-effectiveness measure, which shows the per member cost of PERS' administration. This measure is important because PERS, as a fiduciary of the retirement trust for over 300,000 members and retirees, has a responsibility to provide its pension services at a reasonable cost. PERS' long-term goal is to keep its cost per member from increasing, in an environment of rising industry costs.

3. Retirement Program: Staff to Member Ratio – Ratio of FTE staff to total membership. This efficiency measure shows the ratio of PERS' staff to the number of members to whom PERS provides services. This measure reflects how efficiently PERS utilizes its staff in providing retirement services. PERS' long-term goal is to gradually increase the number of members served per employee. This will be a difficult challenge in the short run as PERS is requesting a number of limited duration staff to handle the Strunk/Eugene Project. Over time, this goal can be achieved as manual processes are converted to automated processes, which will reduce the need for total staff and resources to handle increased workload.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 72

BUDGET NARRATIVE

4. Deferred Compensation Program: Average Dollars Deferred – Average monthly deferral per active state employee deferred compensation participant. This measure reflects the amount of dollars, on average that state employee participants in the Deferred Compensation Program are deferring per month. Because the Deferred Compensation Program is voluntary, the level of dollars deferred reflects the success of the information that PERS provides to potential participants (so that they want to contribute more) and the value of the Deferred Compensation Program as perceived by the state employee participants (the higher the value, the more dollars will be deferred). The goal for this KPM is to increase the average monthly deferral by 5 percent per year.

5. Deferred Compensation Program: Level of Participation – Percent of state employees participating in the deferred compensation program. This measure shows the level of participation in the Deferred Compensation Program among state employees. Because the Deferred Compensation Program is voluntary, the level of participation is important as it measures the level of usage, and therefore, perceived value, with which participants and potential participants view the Deferred Compensation Program. It is PERS' goal to increase the participation level among state employees 1 percent per year.

6. Customer Service: Member Customer Satisfaction – Percent of customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise, and availability of information. Effective during the 2007-09 biennium, the Department of Administrative Services (DAS) and the Legislature required all agencies to add a standardized customer service performance questionnaire that includes questions covering six topics: timeliness, accuracy, helpfulness, expertise, availability of information, and overall service. The results of this questionnaire will provide valuable and useful data to the agency on customer service expectations and areas that need improvement.

7. Customer Service: Timely Benefit Estimates – Percent of benefit estimates processed within 30 days. One of the main services PERS provides to its members is an estimate of the benefits the member is likely to receive. Therefore, once a member requests an eligible benefit estimate, PERS needs to quickly process and provide the estimate so that the member is able to use this vital information to help make retirement planning decisions. The goal of this measure is to set and meet a target percentage of eligible benefit estimates that are processed within 30 days of the request. This will increase overall member satisfaction with the services provided by PERS.

8. Customer Service: Employer Satisfaction – Percent of employer customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise, and availability of information. Because PERS is the mandatory public employee retirement system for state agencies and school districts, as well as the chosen system for most Oregon governments, PERS has a key responsibility to provide quality service to employers. The employer customer is a key customer group for PERS, but it is unique from, and has a starkly different makeup than the member/retiree customer group. Each group is unique and has needs that often compete with those of the other group. As such, we feel it is important to represent the customer satisfaction of both groups separately. This measure is based on an agency-administered survey.

BUDGET NARRATIVE

9. Board of Directors: Board of Directors Best Practices – Percent of total best practices met by the PERS Board. This is a new measure developed by the Department of Administrative Services (DAS) and Legislative Fiscal Office (LFO) that will be required for all applicable boards and commissions beginning with the 2007-09 biennium. Targets are to be determined.

Results

Retirement Program

PERS' per member costs are currently higher than those of other similar-size pension systems. One of the reasons for this is that PERS now administers multiple plans (Tier One and Tier Two, OPSRP, and IAP), and operations are currently more staff intensive and expensive as a result. Contributing to this issue is PERS' outmoded IT infrastructure that is also undergoing conversion. Costs are also impacted by the large amount of "re-work" associated with the *Strunk* and *Eugene* rulings. The following is a breakdown by year of PERS' costs:

Year	PERS Admin Costs per Member
2003	\$65/member
2004	\$100/member
2005	\$139/member
2006	\$120/member

The same trends and manually-intensive processes mentioned above have a similar effect on another KPM that focuses on PERS' staff to member ratio:

Year	Ratio of PERS' Staff to Members
2003	1: 1,350 members
2004	1: 851 members
2005	1: 849 member
2006	1: 835 members

Demographic research shows that in the next five-to-ten years, there will be a surging number of members who qualify for retirement benefits. While the rising volume of retirements is an issue facing most public pension systems, PERS has the additional burden of an outmoded IT system, which causes PERS disproportionately higher staffing needs. This situation is expected to continue until the older IT system can be replaced and the operational demands of statutory changes, program expansions (OPSRP and IAP) and the *Strunk* and *Eugene* court rulings are completely accommodated.

PERS Customer Service

PERS' main priority is delivering benefits to members in an accurate and timely manner. Since 2000, service levels to retirees have dropped considerably. In 2005, only 15 percent of new retirees received their initial benefit payment within 45 days of retirement date, versus 79 percent in 2000. This considerable drop in service can largely be attributed to statutory changes made to the PERS Tier One and Tier Two Program. These

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 74

BUDGET NARRATIVE

structural and legal changes, coupled with the associated court rulings and the inability of PERS' IT systems to accommodate those changes, created a system that was ill prepared to handle the increased numbers of retirees. As a result, PERS has been forced to use more desktop application-supported and time-consuming processes to calculate member benefits, while simultaneously facing an increasing retirement workload.

Conclusion

The PERS' Retirement Program delivery has been substantially challenged in recent years. This reflects a number of factors, such as an aging membership which has a sharply increasing need for PERS services, the addition of significant new program components, and inflexible, outmoded IT systems. While PERS service and efficiency levels have most likely reached their lowest point, the agency is prioritizing additional action to ensure that the deterioration has been halted and a foundation for rapid improvements is set in place.

Deferred Compensation Program/Oregon Savings Growth Program (OSGP)

Average state employee compensation deferrals continue to grow at a healthy rate. In 2006, participating state employees deferred an average of \$372 per month. Because the Deferred Compensation Program is voluntary for state employees, to have both a high rate of penetration and a high average monthly deferral rate reflects that the Deferred Compensation Program is well known and represents an important retirement savings tool for many state employees. With an industry average monthly savings rate of \$326, OSGP participants defer 14 percent more than peer system employees. This success reflects a number of factors including, but not limited to: low administrative program costs, wide range of investment options, ongoing educational programs, and an aging demographic.

While the performance measures for the Deferred Compensation Program assess the state employee program only, OSGP has seen growing interest in its Local Government Deferred Compensation Program as well. Since 2000, the local government program has gone from approximately 200 participants to nearly 2,198. The Deferred Compensation Program is a highly successful program among state employees in terms of both usage by its targeted population and the level in which participants are deferring. With the Deferred Compensation Program now being offered to local governments, its usage is expanding statewide.

Expected Results

Retirement System Program

PERS' program objectives during the 2007-09 biennium are to continue to improve its IT systems, to complete benefit readjustments related to the *Strunk* and *Eugene* court cases, and strengthen agency core operations and infrastructure. By the end of the 2007-09 biennium, PERS will be able to increase efficiency through business process and system improvements. With the special project completions, PERS should also be able to avoid an increase in its administrative cost per member. In addition, with new systems coming on line and the elimination of backlogs, PERS expects its customer service to improve significantly. Although PERS anticipates it will be difficult to attain the long-term strategic target of "80 percent of initial retirements paid within 45 days from retirement date" by the end of the 2007-09 biennium, it does expect to see improvement from the current 12 percent level.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 75

BUDGET NARRATIVE

Deferred Compensation Program

PERS anticipates continued success with its Deferred Compensation Program in the 2007-09 biennium. Since PERS has already attained significant penetration and deferral levels among State of Oregon employees, it plans to refocus its efforts on increasing participation and deferrals among local governments. OSGP plans to expand its number of local governments participating in the program from the current 154, and will work to raise the participation rates of local government staffs from the current 2,198 participants. Even though growth in the Deferred Compensation Program participation rate among local government employees had been relatively slow during previous biennia due to negative market and economic factors, these factors have either reversed or moderated creating a good climate for increased participation.

Assessing Customer Service

The proposed key performance measures for 2007-09 include three new measures, two of which directly relate to measuring customer service. This increased attention to assessing the delivery of PERS service to members and employers will provide performance metrics and insight into how PERS can improve its customer services and customer satisfaction.

ENDNOTES

Mission: We are a well-respected organization that serves its members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently

ⁱ PROPOSED KPM #1 - RATIONALE FOR REQUESTED CHANGE: OLD WORDING: Percent of service retirements paid within 1.5 months from retirement date. There is a slight wording change for clarity and to keep the title consistent with the short title format that is new to the forms for 2007-09.

ⁱⁱ PROPOSED KPM #2 - RATIONALE FOR REQUESTED CHANGE: OLD WORDING: Total Benefit Administration Costs Per Active Member and Annuitant (including special projects). There is a slight wording change for clarity and to keep the title consistent with the short title format that is new to the forms for 2007-09. There is also a data change with this measure. Originally, this measure was set up to exclude supplemental benefit program costs (like those for the Deferred Comp program and Retiree Health Insurance program), and to exclude the inactive members from the total membership count. The reason for these exclusions was so the data would exactly coincide with the data and measurement scale set by CEM Benchmarking, Inc. (an external benefit administration benchmarking firm comparing PERS to its retirement system peers). While the exact peer comparison is beneficial, we feel that it is more meaningful to PERS and its stakeholders to present the full cost per member, including all program costs and all members. And this change will not entirely eliminate the peer comparison component from this measure, as PERS is still able to compare individual activity costs versus those of its peers. We have left the approved 2005-07 targets for FY06-07 per KPM instructions, but have adjusted the targets for FY08-09 based on this data change. The targets listed for FY08-09 reflect a lower cost per member than our budget request level. This is to make the targets more ambitious and to keep with the overall goal of providing cost-efficient services through efficiencies and cost savings.

ⁱⁱⁱ PROPOSED KPM #3 - RATIONALE FOR REQUESTED CHANGE: OLD WORDING: Member to Staff Ratio. This title was technically incorrect and misleading, as the ratio shows the number of FTE employees per number of members and retirees. There is also a data change with this measure. Originally, this measure was set up to limit out the inactive members, and limit out the staffing (direct and support) associated with PERS' supplemental benefit programs (Deferred Comp and Retiree Health Insurance). The reason for these limitations was so that the measure would exactly coincide with the measurement scale set by CEM Benchmarking, Inc. (an external benefit administration benchmarking firm comparing PERS to its retirement system peers). We have concluded that it's more important to present this measure reflecting the full PERS membership and staff levels. And we will not lose all peer comparison by structuring our own KPM in this manner. We have adjusted our targets for FY08-09 to reflect projected membership levels for the biennium, and the requested staffing in the Agency Request Budget, also factoring in subsequent permanent FTE administrative actions.

^{iv} PROPOSED KPM #4 - RATIONALE FOR REQUESTED CHANGE: There is a data change with this measure. Previously, this measure had factored in the average monthly deferrals of the entire Oregon Savings Growth Plan (OSGP) populous. But in order to keep this KPM consistent with the other Deferred Compensation measure (KPM #5), PERS would like to only factor in the average monthly deferrals of state employees. KPM #5 measures the level of Deferred Compensation participation among state employees, since all of the eligible participant data in this group is immediately verifiable. The same data for the other local government OSGP participation is not as easily verifiable, and is significantly affected by other retirement savings plans available to those groups. The targets for FY08-09 reflect this data change. There is also a slight wording change with this KPM to coincide with the data change and to accommodate the new KPM document format of a short title followed by a brief explanation.

^v PROPOSED KPM #5- RATIONALE FOR REQUESTED CHANGE: There is new data associated with this measure. Previously, PERS had included the still open accounts of inactive participants (retired/terminated) in calculating total participants, but only factored in current state employee numbers for the count of eligible participants. This had the effect of incorrectly increasing the participation percentage. To correct this, PERS will only include current state employees in the participant count (numerator), which is an accurate comparison to the count of total active state employees (denominator). There is no requested wording change. The title is only arranged differently to accommodate the new KPM document format of a short title followed by a brief explanation. The same wording as previously approved is still being used.

^{vi} PROPOSED KPM #6- RATIONALE FOR REQUESTED CHANGE: LFO has agreed to this and a request for a change is not required. PERS recently created a survey to obtain customer data responsive to this KPM, and will utilize the data for future performance reports. Data results for FY06 have been included. For this measure, all members are

included. Employer customers will be measured in a newly requested KPM (#8). The member/retiree customer group has a starkly different makeup than the employer customer group. Each group is unique and has needs that often compete with those of the other group. As such, we feel it's important to present the customer satisfaction of both groups separately.

vii PROPOSED KPM #7 - RATIONALE FOR REQUESTED CHANGE: This new measure does not replace a requested deletion. We will add targets through FY09 once the data has been retrieved and analyzed.

viii PROPOSED KPM #8- RATIONALE FOR REQUESTED CHANGE: This new measure does not replace a requested deletion. Data results for FY06 are included. Unlike KPM #6, which measure the customer satisfaction of members and retirees in six areas, this KPM would measure the customer satisfaction of employers in the six categories (overall, timeliness, accuracy, helpfulness, expertise, and availability of information). The Employer customer is a key customer group for PERS, but it is unique from, and has a starkly different makeup than the member/retiree customer group. Each group is unique and has needs that often compete with those of the other group. As such, we feel it's important to represent the customer satisfaction of both groups separately.

ix PROPOSED KPM #9 - RATIONALE FOR REQUESTED CHANGE: This new measure does not replace a requested deletion. This is a new measure developed by the Department of Admin Services (DAS) and Legislative Fiscal Office (LFO), and will be required for all applicable boards and commissions beginning with the 2007-09 biennium. Targets are to be determined.

x OLD KPM #2 - RATIONALE FOR DELETION: Total Benefit Administration Costs Per Active Member and Annuitant (excluding special projects). This measure is redundant with 2005-07 KPM #3 Total Benefit Admin costs (including special projects), involves a subjective exclusion of "project" costs, and does not add value beyond other existing KPMs.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

I. EXECUTIVE SUMMARY

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

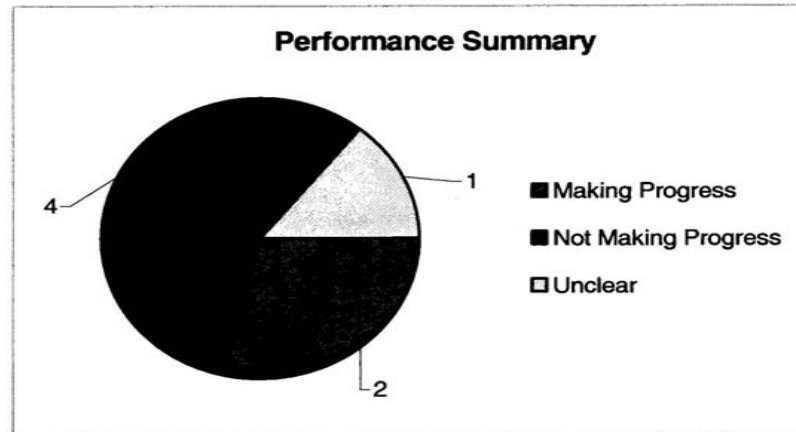

Contact: Matthew Rickard, Budget Analyst	Phone: (503) 603-7576
Alternate: Kyle Knoll, Budget Officer	Phone: (503) 603-7568

1. SCOPE OF REPORT

The Public Employees Retirement System (PERS) provides a full range of retirement services to public employers and public employees throughout the State of Oregon. These services are provided to approximately 885 state and local government entities across the State. The agency administers the Tier One and Tier Two Retirement Programs (ORS 238), the Oregon Public Service Retirement Program (or OPSRP, ORS 238A), the Individual Account Program (IAP), the Oregon Savings Growth Plan (a deferred compensation program), the Public Employee Benefit Equalization Fund, the Social Security Administration program, and the Retiree Health Insurance program. PERS also administers the financing of two projects that were funded by Certificates of Participation.

PERS programs addressed by these measures: Tier One-Tier Two Programs, Oregon Public Service Retirement Plan (OPSRP), the Individual Account Program, the Benefit Equalization Fund (KPMs #1-4 and 7 address these programs together), and the Deferred Compensation Program (KPMs #5-6)

PERS programs not addressed by these measures: Retiree Health Insurance program, the Social Security Administration program and Debt Service.

2. THE OREGON CONTEXT

The program operations of PERS have a significant impact on Oregon's economy. PERS provides retirement services to roughly 10 percent of Oregon's population, and the agency distributes \$2.5 billion in benefits annually to Oregonians that served in the public sector. This large distribution of benefit payments (over \$200 million each month) has a direct impact on the Oregon economy.

The Tier One-Tier Two, OPSRP and IAP programs provide retirement services to approximately 215,000 non-retired members and 103,000 retirees and beneficiaries. The retiree Health Insurance program serves as a group sponsor, providing health insurance services to approximately 49,000 retirees and dependents. With approximately 10 percent of Oregonians directly affected (and many more who are family members of those directly affected), the importance of delivering high-quality, cost-efficient services is evident.

3. PERFORMANCE SUMMARY

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

I. EXECUTIVE SUMMARY

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

Two KPMs, Average Dollars Deferred By Participant (page 12) and Level of Participation (page 14) are making progress, while four KPMs, Annuity Pension Inceptions (page 4), Total Benefit Admin Costs w/o projects (page 6), Total Benefit Admin Costs w/projects (page 8) and Member to Staff Ratio (page 10) are not making progress. For the newest KPM, Customer Service (page 16), progress is unclear, as no targets were established for 2005-07.

4. CHALLENGES

The PERS Retirement Program delivery has been substantially challenged in recent years. This reflects a number of factors such as an aging membership which has a sharply increasing need for PERS services, a multi-faceted, multiple tiered system, the addition of significant new program components, and inflexible and outmoded IT systems. Adding to these challenges is the substantial amount of work necessary to comply with the *Strunk* and *Eugene* Oregon Supreme Court rulings that affected some 190,000 active and inactive member accounts, and approximately 55,000 retired, withdrawn or otherwise impacted benefit recipient accounts. While PERS service and efficiency levels have been dramatically impacted, the agency is prioritizing additional action to ensure that the deterioration has been halted and a foundation for rapid improvements is set in place.

Challenges impacting the Deferred Compensation Program (OSGP) include the recent economic cycle, and the large numbers of soon-to-retire baby boomers. The cyclical economy has impacted participants' ability and willingness to increase their monthly deferrals, and the large number of upcoming retirements will have an impact on the participation level as many withdraw or roll their accounts to other institutions. Despite these challenges, the OSGP is taking steps to keep eligible employees and participants educated about the advantages of participating in this supplemental retirement savings program.

5. RESOURCES USED AND EFFICIENCY

For 2006, PERS expended \$37.8 million in administrative and special project expenditures, and \$2.7 billion in total expenditures (this includes benefit payments). Efficiency measures include KPM #2 and #3 – Total Benefit Administration Costs (with and without special projects), and #4 Member to Staff Ratio. The performance in these measures demonstrates that PERS is currently undertaking a multitude of special projects and operations (e.g. The *Strunk* and *Eugene* project) while simultaneously administering a rapidly changing and increasing core program workload. Some of this inefficiency will be resolved as PERS completes projects designed to shift the agency from staff intensive processes to more efficient automated processes. With the completion of special projects, various limited duration positions will also be eliminated, reducing cost and staffing levels.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

KPMI #1	SERVICE RETIREMENTS Percent of service retirements paid within 1.5 months from retirement date.	Measure since: 1995
Goal	To deliver retirement benefits effectively and efficiently.	
Oregon Context	Oregon Benchmark #58: Independent Seniors. Encourage member independence and financial well-being into retirement.	
Data source	Benefit Payments Division (BPD) statistics.	
Owner	BPD Administrator Craig Stroud, 503-431-8259	

1. OUR STRATEGY

PERS' main priority is delivering benefits to members in an accurate and timely manner. While statute requires PERS to issue the first benefit payment within 92 days from retirement date, PERS' goal is to provide even quicker service to reduce potential cash flow interruption for the retiree.

2. ABOUT THE TARGETS

The target of 80% was set many years ago. While many factors have caused performance to drop significantly, the goal is still to provide the first benefit payment as quickly and accurately as possible.

3. HOW WE ARE DOING

During 2006, PERS issued 12% of its pension inceptions within 1.5 months of the retirement date, down slightly from 15% in 2005. This continues the trend of lower performance over the last four years. While performance remained above 70% in the years prior to 2002, it has hovered between 6% and 15% since 2003, when PERS reform created two new programs (OPSRP and IAP) and revised the Tier One-Tier Two program while also triggering a record number of retirements.

4. HOW WE COMPARE

When compared to other pension systems peers, PERS lags behind in this area of service. According to CEM Benchmarking, Inc. (a Benefit Administration benchmarking firm), other pension systems in PERS' peer group were able to pay 75% of pension inceptions within one month of the final pay check date in 2006. While this is significantly higher than PERS' performance, it is important to note that other systems have different statutory requirements and fewer program options than PERS. Moreover, pension systems in PERS' peer group issue 73% of their initial benefit payments based on estimates (making corrections and finalizing the benefit later on), rather than issuing finalized benefit payments as PERS strives to produce (PERS only issued 2% of initial payments based on estimates in 2006).

5. FACTORS AFFECTING RESULTS

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

In general, PERS would have a difficult time keeping pace with its peers in this category due to its multi-faceted, multiple tiered system, which makes the pension inception process much more difficult, and due to PERS' desire to issue final rather than estimated benefits. But recent factors have caused service levels to slip significantly. This drop in service can be attributed to statutory changes made to the PERS Tier One-Tier Two programs, and the concurrent implementation of two new programs (OPSRP and IAP). These structural and legal changes were coupled with the associated *Strunk* and *Eugene* court rulings and the inability of PERS' IT systems to accommodate those changes. As a result, PERS has been forced to use more desktop application supported and time consuming processes to calculate member benefits, while simultaneously facing an increasing retirement workload.

6. WHAT NEEDS TO BE DONE

This data is being used in support of plans currently in action to update and replace PERS' outmoded IT system. Once the IT system upgrade has been fully implemented in late 2009, PERS will be able to convert many of its benefit inception procedures to much more automated processes. This will help to speed up the service and return the performance to more appropriate service levels.

7. ABOUT THE DATA

This data is being reported on the Oregon Fiscal Year basis. While the integrity of this data has not been in question, previous wording of this KPM made analysis of the data confusing. The wording was changed for 2005-07 to make the data much easier to communicate.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

KPMI #2	TOTAL BENEFIT ADMINISTRATION COSTS Total benefit administration costs per active member and annuitant (excluding special projects).	Measure since: 2006
Goal	Reduce administrative costs while maintaining high level of service to members and employers.	
Oregon Context	Oregon Benchmark #35: Public Management Quality & #9c: Cost of Doing Business/ Taxes & Charges. Increase service cost-effectiveness to stakeholders.	
Data source	Budget/personnel statistics, PERS CAFR, report from CEM Benchmarking, Inc. comparing PERS to its peers.	
Owner	Fiscal Services Administrator Dave Tyler, 503-603-7709	

1. OUR STRATEGY

PERS strives to deliver high-quality, low-cost service to members and employers. PERS is aware that administrative costs, funded through investment earnings, have an effect on Employer rates and member account earnings crediting. PERS long-term approach is to make processes more efficient through automation, and reduce the need for staff intensive desktop procedures.

2. ABOUT THE TARGETS

The targets are set based on peer performance reported by a benefit administration comparison expert, CEM Benchmarking, Inc. The targets are aligned with the median value of PERS' peer group, and the aim is to be at or below this value. Although PERS is currently a high-cost organization as compared to its peers, it is the long-term goal to be much more comparatively cost-efficient through system and process improvements.

3. HOW WE ARE DOING

PERS operating costs (excluding special projects) have risen since 2003, with the implementation of new and revised retirement programs following PERS reform. While costs remained between \$55 to \$65 per Active Member and Retiree from 2001 to 2003, they climbed to a high of \$103 in 2005. While the 2006 cost of \$94 per Active Member and Retiree remains high as compared to those earlier years, it is down 10% from the previous year's level.

4. HOW WE COMPARE

In 2006, CEM Benchmarking, Inc. reported that the average cost (less special projects) per active member and retiree amongst PERS' peers was \$68. While PERS' costs for 2006 are down to \$94 per active/retiree, it does remain higher than average peer levels reflecting higher transaction volumes per member, more extensive employer data collection and services, and less automation than our peers.

5. FACTORS AFFECTING RESULTS

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

PERS' per member/retiree costs are currently above the peer median cost of other similar size pension systems. PERS' operations are currently more staff intensive and expensive than other pension systems because of the continuing challenges of implementing the 2003 reform legislation, administering a multi-faceted, multiple tiered system, and having an outmoded IT infrastructure that is also undergoing conversion. Costs are also impacted by the large amount of "re-work" associated with the *Strunk* and *Eugene* rulings.

6. WHAT NEEDS TO BE DONE

PERS is committed to having its operating expenditures comparable with industry standards and similarly composed retirement systems. Successful completion of the *Strunk* and *Eugene* project (scheduled for completion in June 2009) will reduce PERS staffing levels by over 40 FTE. Other long-term cost savings will be realized when PERS completes the conversion of its outdated Retirement Information Management System (RIMS), which is scheduled for completion by December of 2009. This IT system conversion will allow PERS to replace many of its current desktop application supported processes with more cost efficient automated processes.

7. ABOUT THE DATA

This measure is based on data for the Oregon fiscal year period. All of PERS' cost and volume related data is submitted to CEM Benchmarking, Inc in the form of an annual benefit administration survey they conduct involving over 55 leading global pension systems (27 in the US). The fiscal year data is submitted each October, and CEM compiles the data and prepares a customized report for PERS that is released in January. This comprehensive report summarizes PERS' data and performance compared to that of its peers.

This measure is based on PERS' total annual expenditures as reported in its CAFR. For comparison purposes, all of the supplemental benefit expenditures are pulled out (for PERS this includes costs related to the Deferred Comp and retiree Health Insurance programs), because CEM found that many of the pension systems supported a wide range of varying supplemental benefit programs (or none at all), and it was very difficult to compare that aspect from system to system. This measure also pulls out special project costs. CEM defines these as capital projects or very rare one-time projects outside the course of normal business (and they limit what is applied to that category). Although the peer group information for 2006 will not be available until January of 2007, PERS is still able to compile its own 2006 data for this measure, since it is based on financial data that is readily available.

NOTE: This KPM is being requested to be deleted with the 2007-09 KPM request, because it is redundant and less meaningful than the other benefit administration cost KPM.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

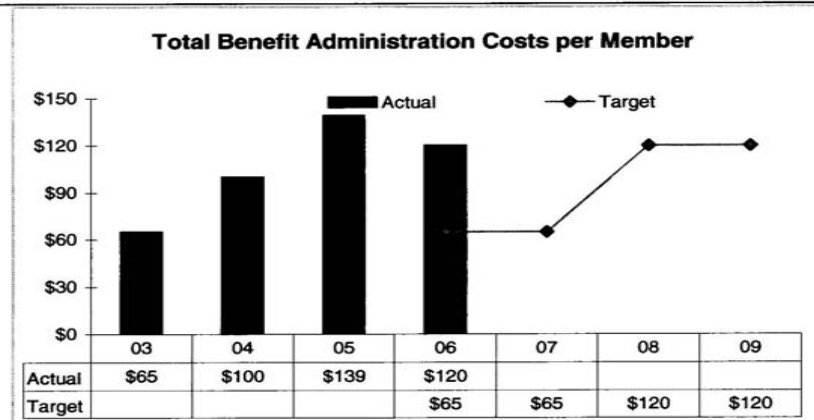

KPMI #3	TOTAL BENEFIT ADMINISTRATION COSTS Total benefit administration costs per active member and annuitant (INCLUDING special projects).	Measure since: 2006
Goal	Reduce administrative costs while maintaining high levels of service to members and employers.	
Oregon Context	Oregon Benchmark #35: Public Management Quality & #9c: Cost of Doing Business/ Taxes & Charges. Increase service cost-effectiveness to stakeholders.	
Data source	Budget/personnel statistics, PERS CAFR, report from CEM Benchmarking, Inc. comparing PERS to its peers.	
Owner	Fiscal Services Administrator Dave Tyler, 503-603-7709	

1. OUR STRATEGY

PERS strives to deliver high-quality, low-cost service to members and employers. PERS is aware that administrative costs, funded through investment earnings, have an effect on Employer rates and member account earnings crediting. The successful completion of the *Strunk* and *Eugene* project and the Retirement Information Management System (RIMS) Conversion project will help to reduce PERS' annual operating expenditures.

2. ABOUT THE TARGETS

The targets for the 2005-07 biennium were set based on 2004 peer median performance reported by a benefit administration comparison consultant, CEM Benchmarking, Inc. But the cost reporting structure used by CEM Benchmarking omits the following key pieces of data: 1) Portions of peer costs such as supplemental benefit programs (Def Comp and Retiree Health Insurance) and 2) Inactive members. CEM makes these adjustments in order to compare retirement systems on an "equal" plain. Unfortunately, this renders the resulting measurement of PERS' adjusted costs much less relevant to stakeholders. In order to correct this, PERS has implemented data changes with this KPM and the Staff to Member KPM. The data changes will allow PERS to present this KPM reporting the total unadjusted PERS administrative costs as published in its Comprehensive Annual Financial Report (CAFR) per the total unadjusted membership.

3. HOW WE ARE DOING

For 2006, PERS' cost per member is \$120, down from \$139 in 2005. Despite this decrease, costs remain high as compared to lower levels in 2003 and 2004, which reflects 2003 legislation that added the administration of two more retirement programs in 2004 (bringing the total administered PERS programs to four), and the addition of the *Strunk/Eugene* and RIMS Conversion projects in 2005. The long-range target is to be at or below the 2006 cost per member.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

II. KEY MEASURE ANALYSIS

4. HOW WE COMPARE

Because the overall adjusted cost per member structure used by CEM Benchmarking, Inc. will no longer be used for this KPM, PERS will instead focus on how it compares to its peers on an individual activity level. For 2006, CEM Benchmarking, Inc. reported that while PERS' costs were higher than its peers for many activities, there were also some activities that PERS' costs were lower than those of its peers. When compared to its peer median costs per member or employer served, PERS was more expensive for activities such as Pension Inceptions (\$434 vs. \$287), Written Estimates (\$62 vs. \$58), Employer Billing and Inspection (\$355 vs. \$296), Employer Data (\$39 vs. \$20), Services to Employers (\$2,531 vs. \$536), Refunds (\$239 vs. \$40), Disability (\$2,785 vs. \$1,178), Financial Admin/Oversight (\$14 vs. \$8), Rules Design and Interpretation (\$12 vs. \$5) and Major Projects (\$31 vs. \$11). But PERS was less expensive per member/employer served than its peer median for activities like Paying Pensions (\$8 vs. \$15), Counseling, Member Contact and Mass Communication (\$65 vs. \$200), and Purchases (\$66 vs. \$174).

5. FACTORS AFFECTING RESULTS

Some of the cost differences reported above can be attributed to how various retirement systems might organize their processes differently than PERS. For example, PERS spends more than its peer median on billing and collecting data from employers in order to save costs later on processing pension inceptions. PERS is also using 100% electronic data exchange reporting for employers which has higher front-end costs but creates long-term efficiencies.

Other cost differences can be explained by PERS' operations that are currently more staff intensive and expensive than other pension systems because of the challenges of maintaining multiple programs resulting from 2003 reform legislation, administering a multi-faceted system with multiple tiers, and having an outmoded IT infrastructure that is also undergoing conversion. For example, the multiple programs, rule sets and out-dated IT system have made eligibility testing a more staff intensive and costly process for PERS, as evident of its higher pension inception costs. To help remedy this in the long run, PERS is investing more money than its peers in special projects (such as the RIMS Conversion Project) that will help to automate some of the more costly desktop processes.

Costs are also impacted by the large amount of "re-work" associated with the *Strunk* and *Eugene* court rulings. While in 2004, PERS Pension Inception cost per member was slightly lower than its peer median (\$249 vs. \$250), the costs for the same activity in 2005 and 2006 have jumped significantly. Following the 2003 legislation, PERS had begun making earnings crediting adjustments. When some of the reform changes were subsequently overturned, PERS had to go back and readjust the same accounts and retirements. These adjustments and re-work added to much higher pension inception costs for PERS in 2005 and in 2006 when the *Strunk* and *Eugene* project commenced.

6. WHAT NEEDS TO BE DONE

PERS is committed to completing each of its projects on schedule and within budget. It is safe to assume that with completion of its special projects, PERS overall costs will be reduced (especially the costs associated with the *Strunk* and *Eugene* project). But completion of the current projects will also have an effect on future costs. Long-term cost savings will eventually be realized as PERS completes the RCP project (scheduled for completion by December of 2009), and replaces many of its current desktop supported processes with much more cost efficient automated processes.

7. ABOUT THE DATA

This measure is based on data for the Oregon fiscal year period. As mentioned above in the Target discussion, PERS is making a significant data change with this measure. Because the cost reporting structure used by CEM Benchmarking omits key pieces of data like supplemental benefit program costs (Def Comp and Retiree Health Ins.) and inactive members, the resulting measurement of PERS' adjusted costs is much less relevant to stakeholders. In order to correct this, PERS has implemented data changes with this KPM and the Staff to Member KPM. The data changes will allow PERS to present this KPM

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

using total unadjusted PERS administrative costs (as published in its CAFR) per the total unadjusted membership. The CEM data will continue to be used for peer group comparisons at the individual activity level.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

KPM #4	MEMBER TO STAFF RATIO Ratio of Active Members and Annuitants to full-time equivalent (FTE) staff.	Measure since: 2006
Goal	Increase productivity of staff to improve service to members and retirees.	
Oregon Context	Oregon Benchmark #35: Public Management Quality. Increase efficiency of service to members.	
Data source	Budget/personnel statistics, report from CEM Benchmarking, Inc. comparing PERS to its peers.	
Owner	Fiscal Services Administrator Dave Tyler, 503-603-7709	

1. OUR STRATEGY

PERS aims to deliver high-quality service while remaining cost-efficient. In order to accomplish this PERS needs to keep staffing numbers reasonable while continuing to meet statutory obligations and without sacrificing service.

2. ABOUT THE TARGETS

The targets for the 2005-07 biennium were set based on 2004 peer median performance reported by a benefit administration comparison consultant, CEM Benchmarking, Inc. The targets for these years were aligned with the median value of PERS' peer group, and the aim was to be at or below this value, subject to adjustment for varying program types. But the staff ratio measure used by CEM omits staffing associated with supplemental benefit programs (Def. Comp. and Ret. Health Ins.), and inactive members. CEM makes these omissions when comparing retirement systems, because the numbers vary greatly from system to system. But these adjustments make the data less meaningful to PERS stakeholders, and it cannot be tied to any published PERS documents. So PERS has implemented data changes with this KPM and the previous Cost per Member KPM. The data changes will allow PERS to present this KPM using actual verifiable data as published in its CAFR and official personnel reports. The requested targets for 2007-09 are based on projected membership levels for that biennium, and the staffing included in the Agency Request Budget.

3. HOW WE ARE DOING

PERS' staff to member ratio dropped to 1:835 in 2006, down slightly from 1:849 in 2005. This continues the trend of lower staff to member ratios since 2003. Over the course of those three years, the ratio has remained in the 850 range, reflecting the new retirement programs created under the 2003 PERS reform, the associated workload increases, and the special projects ongoing throughout that period.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

II. KEY MEASURE ANALYSIS

4. HOW WE COMPARE

Since PERS is moving away from using the adjusted staffing and membership criteria used by CEM Benchmarking, PERS will instead focus on how it compares to its peers on an individual benefit administration activity level. For Fiscal Year 2006, CEM Benchmarking, Inc. reported that PERS is higher staffed (thus serving fewer members and employers per FTE staff) than many of its peers. But although PERS serves fewer members or employers per FTE for many benefit administration activities, there are also activities that PERS serves more per FTE than its peers. When compared to its peer median, PERS served fewer members per single FTE for activities like Pension Inceptions (215 vs. 416), Written Estimates (1,744 vs. 2,056), Mass Communication (18,795 vs. 25,094), Refunds (465 vs. 2,444) and Disability (45 vs. 104). But PERS was able to serve more members per single FTE than its peer median for activities like Paying Pensions (16,613 vs. 11,804), Group Counseling and Member Contacts (17,401 vs. 15,141) and Purchases (1,656 vs. 729).

5. FACTORS AFFECTING RESULTS

PERS was observed to be the second most complex system among 20 other similar sized public pension systems as identified in the Cost Effectiveness Measurement (CEM) survey. This complexity is driven by PERS' service to multiple classes of public employees, including part-time employees, the large number of retirement options, multiple retirement benefit calculations, and a number of other benefit add-ons. The complexity has made it difficult to provide automated IT based applications and solutions, particularly given the outmoded nature of its Retirement Information Management System (RIMS), which requires more staff to provide basic services. Moreover, PERS is currently doing a substantial amount of "re-work" to comply with the *Strunk* and *Eugene* rulings that affected some 190,000 active and inactive member accounts, and approximately 55,000 retired, withdrawn, or otherwise impacted benefit recipient accounts.

The 2003 PERS reform legislation has contributed to increased staffing by adding two new retirement programs (OPSRP and IAP). PERS went from an agency of 273 positions in FY 01-03 to 420 positions in FY 03-05 when the reform legislation implementation began and many permanent and limited duration staff were added. PERS' Agency Request Budget for 2007-09 includes staffing at just over 400 positions.

6. WHAT NEEDS TO BE DONE

Demographic research shows that in the next five-to-ten years, there will be a surging number of members who qualify for retirement benefits. While the rising volume of retirements is an issue facing most public pension systems, PERS has the additional burden of an outmoded IT system, which causes PERS' disproportionately higher staffing needs. This situation is expected to continue until the legacy IT systems can be replaced and the operational demands of statutory changes, program expansions (OPSRP and IAP) and the *Strunk* and *Eugene* court rulings are accommodated.

And with the completion of projects staffed by limited duration employees, like the *Strunk/Eugene* project, staffing levels will drop accordingly. In the long-term, projects like the RIMS Conversion project will also lead to a more automated-processes approach, lowering PERS' dependency on staff-intensive desktop application processes.

7. ABOUT THE DATA

This measure is based on data for the Oregon fiscal year period. As mentioned above in the Target discussion, PERS is implementing data changes with this KPM in order to make it more relevant to stakeholders and to make the data more easily verifiable. This measure will now be based on the full staffing levels according to official DAS Budget and Management records and reported in the Position Inventory Control System (PICS) records. The membership data is based on the information published in the PERS Comprehensive Annual Financial Report.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

KPMI #5	AVERAGE DOLLARS DEFERRED BY PARTICIPANT The average monthly deferral for Deferred Compensation program participants.	Measure since: 2006
Goal	Increase voluntary participation by members in Deferred Compensation Program	
Oregon Context	Encourage member independence and financial well-being into retirement. Has an effect on Oregon Benchmark #58: Independent Seniors.	
Data source	Deferred Compensation records, along with reports from the Oregon Savings Growth Plan (OSGP) Third party administrator, Citistreet	
Owner	Deferred Compensation Administrator, Gay Lynn Bath, 503-378-3730 ext. 86425	

1. OUR STRATEGY

PERS' Deferred Compensation program, the Oregon Savings Growth Plan (OSGP) understands that the financial demands of current and future retirees are increasing. And with rising health care costs and the uncertain future of Social Security, the OSGP aims to provide Oregon public employees with another option to help supplement their PERS benefits and help bridge the gap between retirees' expected needs and their PERS benefits. In order to remain a valued option for PERS members, OSGP's goal is to provide solid investment options through its third-party administrator, and to educate participants about the importance of retirement preparation through increased deferrals.

2. ABOUT THE TARGETS

Targets for the 2005-07 biennium were set based on a data model that was inconsistent with the other Deferred Compensation KPM. PERS is implementing a data change with this measure to factor in the average monthly deferrals of state employees only, in order for it to match the state employment-only measurement criteria for the Deferred Compensation participation KPM. This will make it much easier for stakeholders to understand and compare the two measures. The requested targets for 2007-09 are based on the updated data, and OSGP's goal to increase average monthly deferrals by 5% each year.

3. HOW WE ARE DOING

The average monthly deferral for OSGP participants has increased steadily since 2003. The performance has remained at or near the targeted 5% growth throughout this time period. In 2006, the average monthly deferral was \$372, which was an increase of 5.1% from 2005.

4. HOW WE COMPARE

In 2005, the industry average monthly savings rate was \$326. Since OSGP participants are contributing more dollars on average than their industry peers, it demonstrates OSGP's perceived value to its members.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

5. FACTORS AFFECTING RESULTS

One factor that could affect results over the next several years is the large number of potential retiring participants. There is a large number of participants who are either already eligible to retire, or will become eligible during the next few years. These retiring participants are generally higher paid than their replacements, so this could reduce the average deferrals for a period of time.

6. WHAT NEEDS TO BE DONE

As participants retire, the OSGP will need to continue educating the remaining and new participants on the importance of retirement savings. The OSGP has recently added some simple marketing in the form of plan information printed on the back of state employees' pay stubs to increase awareness about the program. The results have been observed as inquiries and participation have increased.

7. ABOUT THE DATA

This data is reported on the Oregon Fiscal Year basis. The data is provided by the OSGP's third-party administrator, Citistreet, and is easily verifiable by looking at monthly deferral records. This measurement factors in deferrals from all state employee groups.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

KPMI #6	LEVEL OF PARTICIPATION The percentage of eligible state employees who participate in the Deferred Compensation program.	Measure since: 2006
Goal	Increase voluntary participation by state employee members in Deferred Compensation Program	
Oregon Context	Encourage member independence and financial well-being into retirement. Has an effect on Oregon Benchmark #58: Independent Seniors.	
Data source	Deferred Compensation records, along with reports from the Oregon Savings Growth Plan (OSGP) Third party administrator, Citistreet	
Owner	Deferred Compensation Administrator, Gay Lynn Bath, 503-378-3730 ext. 86425.	

1. OUR STRATEGY

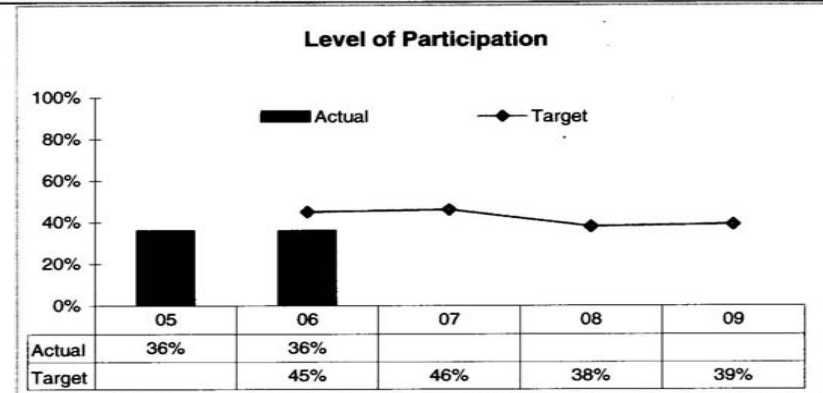

PERS' Deferred Compensation program, the Oregon Savings Growth Plan (OSGP) understands that the financial demands of current and future retirees are increasing. And with rising health costs and the uncertain future of Social Security, the OSGP aims to provide Oregon public employees with another option to help supplement their PERS benefits and help bridge the gap between retirees' expected needs and their PERS benefits. In order to remain a valued option for PERS members, OSGP's goal is to provide solid investment options through its third-party administrator, and to educate participants about the importance of retirement preparation through participation in this supplemental program.

2. ABOUT THE TARGETS

Targets for the 2005-07 biennium were based on data containing an incorrect assumption that was not discovered until January 2007. The previous data had included the still open accounts of inactive participants (retired/terminated) in calculating total participants, but only factored in current state employee numbers in calculating eligible participants. This had the effect of increasing the participation percentage in error. In order to correct this, PERS is implementing a data change to factor in only the accounts of active state employees in calculating participants. The targets for 2007-09 are based on the corrected data, and OSGP's goal to gradually increase the participation level by 1% annually.

3. HOW WE ARE DOING

State government employee participation in the OSGP has remained steady at 36% over the last two years. While the underlying data shows a slight 0.1% increase from 2005 to 2006 (36.1% to 36.2%), the participation rate generally does not change very much from year to year.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

4. HOW WE COMPARE

The National Association of Government Defined Contribution Administrators (NAGDCA) conducts an annual survey that measures participation in optional state and local government defined contribution plans. For 2005, NAGDCA reported that among the 29 responding state plans, 21% of the eligible employees participated in optional defined contribution programs like OSGP. So the OSGP is performing well ahead of the national average participation rate for similar plans.

5. FACTORS AFFECTING RESULTS

Because the Deferred Compensation Program is voluntary for state employees, to have both a high rate of penetration and a high average monthly deferral rate reflects that the Deferred Compensation program is both well known and represents an important retirement savings tool for many state employees. Despite this, there are other factors that will affect (and possibly decrease) the ongoing participation rates. There are a large number of baby boomer generation employees who are set to retire in the near future. Many of these retirees will withdraw their OSGP accounts or roll them into other retirement accounts and the demographics of their replacements (normally younger and lower paid) will create a challenge for increasing participation rates and deferral amounts.

6. WHAT NEEDS TO BE DONE

Data shows that participation does not change drastically from year to year. And when factoring in the effect that the many upcoming retirements will have on OSGP participation rates, it will be important for the OSGP to educate and remind existing and new eligible employees of the benefits of participating in the program. One tactic the OSGP has recently used is adding some simple marketing in the form of plan information printed on the back of state employees' pay stubs to increase awareness about the program. This has resulted in increased interest in the program.

7. ABOUT THE DATA

This data is reported on the Oregon Fiscal Year basis. The data is provided by the OSGP's third-party administrator, Citistreet. Because the available records of certain participating employee groups (Higher Ed, miscellaneous small agencies and participating local government entities) are more difficult to verify, only Oregon State Payroll System (OSPS) employees are factored in this measure. The OSPS records are easily verifiable and make for stable comparison from year to year.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

KPM #7	CUSTOMER SATISFACTION Percent of customers rating their satisfaction with the agency's customer service as "good" or "excellent": overall, timeliness, accuracy, helpfulness, expertise, availability of information	Measure since: 2006
Goal	To improve customer satisfaction through effective and efficient delivery of retirement benefits.	
Oregon Context	#35: Public Management Quality - Citizen satisfaction with government services.	
Data source	Agency-administered survey (Survey Monkey online tool was used, along with a hard copy provided in the retiree newsletter).	
Owner	CSD Administrator Jeannette Zang, 503-603-7703 & BPD Administrator Craig Stroud, 503-431-8259	

1. OUR STRATEGY

PERS is committed to providing high-quality, low-cost customer service. The goal is to deliver effective and efficient service to PERS members and stakeholders.

The customer satisfaction surveys will help to determine areas of strength and needed improvement. PERS management will make strategic decisions based on the results to place resources and effort where improvement is needed.

2. ABOUT THE TARGETS

Since this is the first year of customer satisfaction measurement in this manner, no targets were previously established. Future targets will be set at 80% of customers rating their PERS service as good or excellent.

3. HOW WE ARE DOING

In 2006 PERS scored in a fairly tight range between 63.2% and 71.4% across all categories, with 66.6% of member and retiree customers rating PERS overall service as Excellent or Good. Member and retiree customers rated PERS highest in Expertise (71.4%) and Helpfulness (68.9%), and lowest in Availability of Information (63.2%).

4. HOW WE COMPARE

PERS does use the services of a Benefit Administration benchmarking consultant (CEM Benchmarking, Inc.), but customer satisfaction is not one of the comparators.

5. FACTORS AFFECTING RESULTS

Recent PERS reform plan changes and Oregon Supreme Court rulings in the *Strunk* and *Eugene* cases have reduced many members' current and future benefits, and in turn have impacted members' view of PERS. While PERS is simply responsible to execute the plan changes and court rulings, the negative

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

II. KEY MEASURE ANALYSIS

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

impact on members' benefits does color their view of PERS' service. Despite this potential downward bias, the results above do give a good initial gauge of PERS' performance in meeting members' needs.

The lower rating in Availability of Information may be due to a lack of information regarding the affects of the *Strunk* and *Eugene* cases. In the spring of 2005, PERS was in the planning stage of how it would carry out the *Strunk* ruling which restored frozen COLA's and required crediting Tier One member regular accounts with the assumed rate each year. But PERS could not take action until the final ruling in the *Eugene* case in late Summer 2005, which would reduce previously posted earnings and affect benefits already paid. PERS had communicated to members that their accounts and benefits would be affected, but the extent was not known until the final ruling. PERS did not have all of the information to provide to members, particularly as to the effect at the individual level, which can only be determined through the ongoing *Strunk* and *Eugene* benefit adjustment process. Nonetheless, information availability will be a continued area of focused improvement in PERS' delivery of customer service.

6. WHAT NEEDS TO BE DONE

PERS will need to continue to develop effective communication modes and techniques to ensure that its members receive all available information. Something that has helped is a clear plan in executing the *Strunk* and *Eugene* project. With the plan in place, it is easier to communicate the course of action to members. And a successful project completion (scheduled for June 2009) will help PERS gain its members' trust in the information provided to them.

7. ABOUT OUR CUSTOMER SERVICE SURVEY

The Customer Satisfaction survey was conducted by PERS staff using the online Survey Monkey tool and hard copy surveys mailed to retirees. The survey was open from August 1 through 31. The population can be classified as consumers, as members and retirees are end users of PERS services. For the sampling frame, PERS left the survey open to all members (active and inactive) and retirees. The survey was advertised in the *Perspectives* newsletter (a PERS-produced newsletter sent to all members and retirees), which listed the web link to take part in the survey. Since PERS left the survey open to the full population of members and retirees, the sampling procedure could be considered a passive census. Out of 315,000 members and retirees PERS received 1,986 responses, a .6% response rate. There was no weighting involved with the tabulation of results.

BUDGET NARRATIVE

PUBLIC EMPLOYEE RETIREMENT SYSTEM

III. USING PERFORMANCE DATA

Agency Mission: We are a well-respected organization that serves our members by enabling informed retirement and health benefits decisions and delivering retirement and health benefits effectively and efficiently.

Contact: Matthew Rickard, Budget Analyst	Phone: (503) 603-7576
Alternate: Kyle Knoll, Budget Officer	Phone: (503) 603-7568

The following questions indicate how performance measures and data are used for management and accountability purposes.	
1 INCLUSIVITY Describe the involvement of the following groups in the development of the agency's performance measures.	<ul style="list-style-type: none"> Staff: The 2005-07 approved KPMs were developed by PERS staff with the assistance of student interns. Elected Officials: Elected officials have reviewed and approved the 2005-07 KPMs as a part of the Ways and Means process. Stakeholders: Staff met with key management and stakeholders to determine how each measured success. The KPMs were then formed using strict selection criteria to ensure accuracy, longevity and applicability to each program. Citizens: While citizens are not involved in the KPM formation process, the annual results are posted on the OPB and PERS websites for the general public to view.
2 MANAGING FOR RESULTS How are performance measures used for management of the agency? What changes have been made in the past year?	The results are used to gauge PERS' progress versus previous performance, as well as its peers. The results are also used in the formation of business plans and in development of the agency's biennial budget. All but one of the KPMs are new for 2005-07, so this is the first year of data for most of them. The agency's six-year strategic plan and two-year tactical plan are also linked to the performance measures to guide longer-term management of the agency.
3 STAFF TRAINING What training has staff had in the past year on the practical value and use of performance measures?	In the KPM formulation process, meetings with managers and stakeholders have taken place to educate them on the KPM process, and to help them understand how the measures can be useful in program and agency management. Staff working directly with the KPMs also have attended Oregon Progress Board (OPB) trainings and participate in most of the OPB quarterly roundtables and informational meetings.
4 COMMUNICATING RESULTS How does the agency communicate performance results to each of the following audiences and for what purpose?	<ul style="list-style-type: none"> Staff: Results are posted on PERS' internal network, along with sectional budget execution reports for managers, and posted on the PERS website for general staff. Elected Officials: Results are communicated through the Annual Performance Progress Report, and as part of the agency's biennial budget request. Stakeholders: Results are reported directly to the PERS Board, and posted on the PERS website for other stakeholders. Citizens: The results are posted on the OPB website and the PERS website.

BUDGET NARRATIVE

Major Information Technology Projects \$500,000+

In Policy Package 111, PERS proposes to continue the RIMS Conversion Project (RCP) into the 2007-09 biennium. This request is a continuation of the pension administration IT system replacement project that started in the 2003-05 biennium and has continued throughout the 2005-07 biennium. The total cost of the project remains at \$27.5 million. The 2007-09 biennium portion of these costs is expected to be \$13.5 million. The expected completion date for this project is November 2009.

The RIMS Conversion Project (RCP) is Phase II of a two-phase project to implement an enterprise-wide technology architecture, the goal of which is to create an integrated platform for providing pension administration services across all agency-administered retirement programs. The RCP will extend and further customize the jClarety application template implemented in Phase I to administer the Oregon Public Service Retirement Plan (OPSRP) established by the 2003 reform legislation. The scope of RCP includes the retirement plan administration components needed to administer the PERS Chapter 238 Plan, currently being managed by the Retirement Information Management System (RIMS), and its associated desktop applications, and manual processes. This project will provide PERS with an integrated platform for providing member services and benefits across all retirement programs.

The RCP directly supports the agency's strategic business plan. Specifically, the agency's six-year strategic outlook identifies several key outcomes that staff is committed to achieving. Among them are: a) calculate timely and accurate payment of PERS benefits, b) deliver high quality customer service, c) optimize business processes to be efficient and cost-effective, and d) maintain a secured information environment. The RCP impacts each of these goals by providing an integrated application to collect member data and automate the calculation and distribution of member benefits. To meet the agency's goals and objectives, the RCP will enable PERS staff to:

- Dramatically improve service to its members, retirees, and employers:
 - Provide timely and accurate benefits by ensuring accurate data and by automating calculations
 - Provide high-quality customer service through the use of an integrated contact management system.
 - Provide high-quality customer service through the use of a member self-service feature, which allows members to get plan information, forms, and updates, as well as view their account information, modify select information, and create retirement estimates
 - Provide high-quality customer service through the use of an employer self-service feature which allows employers to submit and correct member information online
- Improve staff productivity:
 - Improve the accuracy and timeliness of data and information in the system through the use of online data edits and reports
 - Reduce the processing time and error rate by eliminating the need for manual process and offline processing
 - Improve process management and operational efficiency through the use of a workflow engine
 - Improve document management through the use of an integrated content management system

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 108

BUDGET NARRATIVE

- Redesign and implement a comprehensive set of automated benefit and customer service processes
- Eliminate the time consuming activities relating to the processing of paper requests and forms
- Maintain the security of member information:
 - Implement robust data security tools
 - Implement role-based access methodology for system access
 - Incorporate the agency's data classification and access procedures

In addition, the RCP directly supports the Governor's *Oregon Principles* that "state government is stable, responsive and accountable to Oregonians." During the last two biennia, PERS has undergone significant reform, resulting in many changes to the retirement system. While these changes will serve to stabilize the retirement system in the long term, in the short term, the agency has struggled to keep pace with the changes from a technology perspective. The completion of the RCP will enable the agency to stabilize its operations and become both transparent and accountable to Oregonians. Agency staff believe that, with the implementation of the planned technology, Oregon public employees will have better, more timely, and more complete access to their retirement benefits and information.

This project has a solid governance structure. The deputy director of the agency serves as the executive sponsor for the project. A Steering Committee, which includes executives and senior managers, meets weekly to discuss project activities, priorities, and direction. The agency has contracted with a professional project management firm and has implemented project management techniques and principles in compliance with the industry standard Project Management Book of Knowledge (PMBOK). In addition, the agency has engaged quality assurance oversight from the Department of Administrative Services (DAS) and performs periodic third party quality assurance reviews.

The agency has taken a process-driven approach for this project. Executives and managers believe that PERS can gain significant operational efficiencies by streamlining business processes and reducing the need for manual activities. In order to realize these process improvements, the agency has identified Business Process Owners (BPOs) who are responsible for redesigning both the look and feel of the system as well as the underlining processes that the system supports. The BPOs are the key decision makers for system design at the tactical level. In conjunction with rethinking and redesigning PERS' business processes, the agency is implementing an electronic workflow tool. This tool will enable PERS to follow consistent, repeatable processes that integrate with the new pension administration application. To ensure that the key processes at the agency have been implemented efficiently in the new system, the RCP team has been undergoing an end-to-end process review, beginning in the fall of 2006. This review will allow PERS to redesign key processes so that they can be effectively programmed in the new system. The BPOs are the key drivers of this analysis.

BUDGET NARRATIVE

House Bill 3182 Reductions Reduction Options

Overview

Agencies are required to provide a reduction plan that, if adopted, would reduce agency limited expenditures by at least 10 percent of the Modified Essential Budget Level. For the 2007-09 biennium that equates to \$5,762,366 for the Administration program. The majority of PERS' reduction options include administrative support, centrally provided support services, publication activities, and customer services that allow program managers and staff to focus on providing mandated services to members and employers. This report lists reduction options in priority of elimination.

Revenues to fund administrative expenditures are obtained from the various PERS' trusts and activities in accordance with statute and administrative rules. Costs are assigned to these trusts and activities through the PERS' cost allocation system. Adoption of reduction options reduces the fiscal impact to the various trusts.

Budget Page 112

BUDGET NARRATIVE

HOUSE BILL 3182 REDUCTIONS

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
1. Eliminate toll-free telephone line	Requires members and employers outside of the Portland area to incur long-distance charges to contact PERS by telephone. (160,000 calls, assuming an average of 10 minutes per call, charged at current rate of \$.06 per minute)	\$96,000 Other Funds	Shifts cost of long-distance communication from PERS to employers, members and retirees when they are located outside of the Portland Metro area. Does not impact services provided.
2. Reduce printed publications and materials	Eliminates distribution of quarterly information publications and specialty information, such as judge member handbooks and beneficiary Q&As. Slows maintenance of policy and procedure documentation by reducing a full-time position to part-time. (1 positions, .50 FTE)	\$143,660 Other Funds	While quarterly mail publications cease, PERS' website continues to provide information to those with Internet access. Reduced policy and procedure maintenance may lead to inconsistent or out-of-date practices.
3. Reduce internal audits	Eliminates one internal auditor position, 1.00 FTE.	\$137,178 Other Funds	Reduces internal audit staff to pre-2003 PERS Reform status of two internal auditors. Limits capability to perform investigations and internal audit studies.
4. Reduce AG fees	Prioritize review of public contracts to just those contracts required by OAR 137-045-0030.	\$14,250 Other Funds	Decreases legal sufficiency review, increases risk, especially when combined with other potential FTE reductions
5. Eliminate CYE 2006 Valuation	Reduces annual valuation activities to a single biennial valuation as required by ORS.	\$230,000 Other Funds	Elimination of the 2006 Actuarial Valuation would mean that PERS Board would not benefit from a better, more current view of the system's changing costs and funding status. Reduces Board/stakeholder ability for policy decisions and system dynamics
6. Reduce Information Technology support	Eliminate network consulting services and reduce system modifications consulting work by 50 percent. Reduce and delay scheduled replacement of hardware, software and ancillary equipment.	\$499,850 Other Funds	Reduces the agency's ability to respond quickly to legislative changes that require IT modifications. Increased risk of failed desktop equipment, possibly leading to service delays.

Legislatively Adopted

Budget Page 113

BUDGET NARRATIVE

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
7. Eliminate centrally coordinated supply ordering and contracting temporary services	Eliminates 1 position, 1.00 FTE, which is responsible for coordinating supply ordering, production printing, and communications with temporary employment agencies (QRFs).	\$113,284 Other Funds	Disperses supply ordering and contracting with temporary agencies, increases chance of inconsistent ordering practices. Shifts production printing responsibilities to manager or other mailroom staff.
8. Eliminate training coordinator	Eliminates 1 position, 1.00 FTE, responsible for ensuring coordination of training materials and training plans.	\$151,530 Other Funds	Hinders ability to ensure staff receives consistent and up-to-date training. Increases likelihood of inconsistent retirement application processing.
9. Eliminate Independent Medical Exams (IME) and review of disability claims	Eliminates professional services contract budget available for expert witness and physicians	\$256,719 Other Funds	Eliminates IMEs for denied claims or pre-hearing claims.
10. Eliminate cashier position within Contributions and Banking	This position prepares deposits, reconciles and balances to the lockbox, and inputs data into Employer Contributions and Reporting System (ECRS).	\$137,387 Other Funds	Elimination of this position would result in redirecting the cashiering duties to staff at higher level. The data entry into ECRS will possibly go away when there is an electronic interface from jClarety into ECRS. Until that time, those duties would also have been reallocated.
11. Eliminate CSD support position	Eliminates 1 position, 1.00 FTE, responsible for providing administrative support to the division administrator.	\$105,773 Other Funds	Duties to be absorbed by remaining staff and division managers.
12. Eliminate review of disability claims	End contract with physician to review disability claims for adequacy and accuracy.	\$75,000 Other Funds	Eliminates review of disability claims for adequacy and confirmation that the diagnosis matches the claims of incapacitation. Eliminates independent medical exams for denied claims or denied claims that are moving toward a hearing.
13. Reduce legal services.	Reduces budget available for services provided by the Department of Justice.	\$162,053 Other Funds	Requires in-house staff to absorb extra workload and the agency to reduce reliance on outside legal counsel.
14. Eliminate deputy director support	Eliminates 1 position, 1.00 FTE, executive support specialist	\$100,541 Other Funds	Other executive support staff would absorb duties.

BUDGET NARRATIVE

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
15. Reduce Social Security Program	Eliminates 1 position, 1.00 FTE, responsible for the Social Security Program	\$146,133 Other Funds	Reduces services to employers regarding Social Security Program updates, changes in regulations and new rules.
16. Eliminate support position to FSD administrator	Eliminates 1 position, 1.00 FTE, responsible for providing administrative support to the division administrator.	\$93,356 Other Funds	Eliminates support position for division administrator. Remaining staff, including payroll clerk and division managers, would absorb duties.
17. Reduce PPLAD administrative support	Eliminates 1 position, .50 FTE, responsible for providing administrative support to the division administrator.	\$93,368 Other Funds	Duties would have to be absorbed by other staff.
18. Defer actuarial audit	Defer the actuarial audit until the 2007 Valuation. Delays review of methods, assumptions, and general costing of the system for two additional years.	\$105,000 Other Funds	The industry standard for an actuarial audit is approximately once every five years. PERS next audit was planned for the 2005 Valuation (6 yr cycle).
19. Reduce Quality Assurance section	Eliminates 1 position and reduces a second position from full-time to half-time, 1.50 FTE).	\$247,597 Other Funds	Agency has significant IT projects planned for the next two biennia. The major one is RIMS replacement, in which quality assurance is essential for the success of the project.
20. Reduce team support for MERS	Eliminates 3 positions, 3.00 FTE.	\$245,611 Other Funds	Eliminates administration support for the MERS team (within CSD), which places a greater workload on the other team members (RC1 and RC2 staff).
21. Reduce administration support for Deferred Compensation in Salem office	Reduces training and development specialist from 1.00 FTE to .50 FTE. Closes the Salem office and reassigns staff to Tigard office. Eliminates 2 administrative support positions, 2.00 FTE. Eliminates Health Insurance manager's office assistant, 1.00 FTE.	\$478,875 Other Funds	Reduced staff availability to train state employees or employers. Increased potential for very limited growth in OSGP Program, potentially resulting in increased participant costs. No local access to member resources and eliminates Salem form drop-offs. Members must travel to Tigard or use mail/telephone/web for information.

BUDGET NARRATIVE

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
22. Reduce SES and TOS support positions	Eliminates 2 developer positions, 2.00 FTE, in the Software Engineering section. Eliminates 1 network help desk position, 1.00 FTE, in the Technical Operations section.	\$465,721 Other Funds	Impairs the agency's ability to maintain current operations, implement legislation, and reduces the increase in workloads. TOS reduction would negatively affect the response to system and user issues.
23. Eliminate GL accountant position	Eliminates the General Ledger accountant position, 1.00 FTE, in the Financial Reporting section.	\$130,829 Other Funds	Redirects duties for reconciling RIMS to GL, releasing SFMA batches and processing jClarety transactions for the SFMA interface. Impacts timeliness of transaction processing and increases potential for OT.
24. Eliminate CSD "Work in Progress Desk"	Eliminates 6 positions, 6.00 FTE, all public service reps, in the Member/Employer Relations section	\$604,959 Other Funds	Eliminates return mail, forms fulfillment, and results in service desk reassignments.
25. Reduces Group Counseling	Eliminates 2 presenter positions, 2.00 FTE, and decreases funding for travel expenditures by reducing the number of presentations offered.	\$288,702 Other Funds	Eliminates all group counseling except for members within one year of retirement.
26. Reduce Litigation Services	10 percent reduction of AG budget	\$108,036 Other Funds	Further reduction of this amount would require in-house staff to absorb extra workload and the agency to increase reliance on outside legal counsel.
27. Eliminates position in Contribution and Banking Services	Eliminates 1 position, 1.00 FTE, responsible for register reconciliations and monitoring TRFA invoicing.	\$121,431 Other Funds	All the registers would be reallocated to the "Check Recon Desk" which could greatly reduce the ability to provide members with manual checks. We could only issue manual checks in cases of dire emergency or in cases where the RIMS system just can't produce an accurate check to the member. Employer refunds would have to be absorbed by MERS section. TRFA monthly invoicing would have to be absorbed by Accounts Receivable position.
28. Reduce Correspondence/Call Center	Eliminate all member written correspondence and reduce telephone services by additional 25 percent Eliminate 3.00 FTE counselors.	\$409,523 Other Funds	Requires members to communicate through written correspondence or via telephone. Anticipate increased number of phone calls and increased wait/hold times.

REVENUES

Revenue Discussion

PERS provides administrative support to a number of programs and related retirement activities. Every program account and activity has dedicated revenue sources authorized by statute. Revenue streams for several of the programs and activities are combined for revenue projection purposes because the revenue sources are similar. Revenues for the Public Employees Retirement Fund (PERF) (ORS 238), Oregon Public Service Retirement Plan (OPSRP) (ORS 238A), Benefit Equalization Fund (BEF) (ORS 238.485), Retirement Health Insurance Account (RHIA) (ORS 238.420), and Retirement Health Insurance Premium Account (RHIPA) (ORS 238.415) are combined. The Deferred Compensation Program (State) (ORS 243) and the Standard Retiree Health Insurance Account (SRHIA) (ORS 238.410(7)) have different funding sources and are discussed separately.

PERS expects adequate revenues for all programs and activities during the 2007-09 biennium.

Source of Funds

Revenue sources include investment earnings, contributions, and fees from employers and public employees (members). Primary revenue sources for SRHIA are investment earnings and contributions from retirees or a spouse or dependent of a deceased retired member. PERS derives revenues to fund administrative activities for the Deferred Compensation Program primarily through a participant fee. All revenue is Other Funds and no matching funds are required.

Retirement System (PERF) Revenue, RHIA and RHIPA

Revenues for the Pension System, which currently makes up 97 percent of PERS' revenues, are to be used solely for the benefit of the PERS members as described in ORS 238.660 (2).

Investment Earnings

Historically, investment earnings have provided the largest single source of system revenues. If investment earnings less administrative expenses are below the assumed earnings rate at the end of the calendar year, those who established membership in the system before January 1, 1996, and alternate payees of those members, will be credited the assumed rate and the difference made up from the Tier One Rate Guarantee Reserve. Any earnings in excess of the assumed earnings rate shall first be deposited in that reserve until the reserve is fully funded with amounts determined by the PERS Board based on advice from the PERS' actuary. Both earnings and losses are distributed to members' accounts that have variable annuity accounts (ORS 238.260) and/or Tier Two members' regular accounts for those who became members, and their alternate payees, on or after January 1, 1996. Members may not contribute to the Variable Annuity Account after December 31, 2003. The Board may draw out of interest and investment income an amount to remain in the Fund and constitute one or more reserve accounts (ORS 238.670).

Budget Page 129

BUDGET NARRATIVE

Employee/Employer Contributions

Beginning January 1, 2004, all employee (or member) contributions, except for contributions by judge members, were prospectively placed in the OPSRP Individual Account Program (IAP). Employee contributions prior to January 1, 2004 were credited to members' accounts as directed by ORS 238.250. The employee contribution rate for PERS is 6 percent of PERS-covered salary (Judiciary is 7 percent).

Employer contributions are credited to the individual employer's accounts or to the account of the pool in which the employer participates. A portion of employer contributions is credited to the Retirement Health Insurance Premium Account (RHIPA) in accordance with ORS 238.415. Employer contribution rates effective July 2003 were based on the December 31, 2001 actuarial valuation; employer contribution rates effective July 2005 were based on the December 31, 2003 actuarial valuation. Employer rates, as a percent of PERS-covered salary, effective July 1, 2003 and 2005 are:

PERS Chapter 238 Program	July 2003	July 2005
State Agencies	11.31%	8.69%
Community Colleges	10.24%	15.73%
School Pool	11.11%	16.97%
Political Subdivisions (pooled)	8.66%	15.81%
Political Subdivisions (non-pooled)	10.60%	14.60%
Judiciary	19.39%	23.38%

*The rates listed above are gross employer rates. The State of Oregon, certain schools, community colleges, and political subdivisions have made Unfunded Actuarial Liability (UAL) payments. Their rates have been reduced and are lower than the rates shown above. Employer contributions apply to the PERS Chapter 238 Tier One and Tier Two Pension Program and the post-employment healthcare plans.

Oregon Public Service Retirement Plan Revenue

The Oregon Public Service Retirement Plan (OPSRP) is established and maintained as two tax-qualified governmental programs: a pension program and an individual account program. The assets of each program must be held in separate accounts within the Public Employees Retirement Fund (PERF) for the exclusive benefit of the participants and beneficiaries in each program (ORS 238A.025).

Investment Earnings for IAP

Each member's Individual Account as described in ORS 238A.350, is adjusted annually in accordance with rules adopted by the Board to reflect any net earnings or losses less administrative costs of maintaining the program.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 130

BUDGET NARRATIVE

Employee/Employer Contributions

Employees contribute 6 percent of their salary to an Individual Account (IAP) as directed by ORS 238A.330 and ORS 238A.335. Employer contributions are credited to the pool in which the employer participates per ORS 238A.340. Employers participating in the OPSRP Pension Program participate in the same rate sharing pool. The normal-cost employer rates beginning January 1, 2004 were 8.04 percent of covered salaries for general service employees and 11.65 percent of covered salaries for police and fire employees. Because this is a new pension program for members joining the system on or after August 29, 2003, membership size and demographic experience were not sufficient to conduct a meaningful valuation until the December 31, 2005 valuation had been completed. Completion of this valuation occurred late in the fall of 2006; once those rates are established, they will be effective July 1, 2007.

Benefit Equalization Fund (BEF) and Social Security Program

The revenues for the administration of the Benefit Equalization Fund (BEF) and the Social Security Program are derived from fees assessed to those employers receiving services from these programs. Administrative fees are reviewed and adjusted annually based on expected numbers of participating employers and projected administrative expenses. Currently, the employers are charged \$75 per month per participant (retirees receiving benefits in excess of IRS limits) and a one-time initial setup fee of \$700 per participant in the BEF program. Employers of the Social Security Program are charged an annual administration fee of \$0.25 per employee or \$10, whichever is higher.

SRHIA Revenue

Revenues for the Standard Retiree Health Insurance Account (SRHIA) are received from plan participants and used by the Board only to pay the cost of health insurance coverage and to pay the administrative costs incurred by the Board in administering health insurance coverage for eligible persons as defined in 238.410(b). The plan participants are the source of all revenue received, less the amount subsidized by the RHIA and RHIPA health insurance benefits, for health insurance benefits.

The PERS' Retiree Health Insurance Program offers a variety of medical health insurance carriers and two dental plan carriers for both Medicare healthcare plans and non-Medicare healthcare plans. Rates vary depending on the plan option selected by the participants. The non-Medicare plans are approximately three times the cost of the Medicare plans. However, the option costs for both types of plans are increasing. A participant in some plans benefit from a subsidy.

Deferred Compensation Program

PERS may assess a charge to the participants not to exceed 2 percent on amounts deferred, both contributions and investment earnings, to cover costs incurred for administering the program. The annual participant fee is currently .08 percent (.0008) of participant assets held in the trust. At this time PERS does not anticipate a fee increase in the 2007-09 biennium. All administrative revenue is Other Funds and no matching funds are required.

ORS 243.411 requires that all earnings of the Deferred Compensation Fund must be credited to the fund and moneys in the fund may be used solely for the purposes of implementing and administering the Deferred Compensation Program.

Budget Page 131

BUDGET NARRATIVE

Basis for 2007-09 Revenue Estimates

Projected investment income is based on an assumed future earnings rate of 8 percent annually. PERS based the total projected Tier One and Tier Two contributions on a report provided by Mercer HR Consulting based on system financial modeling data they developed. Using trend analysis of pension contributions, and separately analyzing employer prepayments funding the Unfunded Actuarial Liability (UAL), PERS projected future total contributions based on a system-wide rate average. PERS separated the 6 percent employee contribution into the OPSRP Individual Account Program (IAP) from these total projected contributions beginning January 2004. An 8 percent turnover rate, one of PERS' actuarial assumptions, was used to project the number of participants establishing membership in the system on or after August 29, 2003. Projections for future growth in the three health insurance accounts (SRHIA, RHIA, and RHIPA) were provided by the PERS Health Insurance program manager, assisted by outside health insurance consultants. When the actuaries have completed the December 2005 actuarial valuation anticipated in September, 2006, PERS will have better information to project future contributions and will periodically re-project revenues throughout the budget development process.

Other Charges for Services

ORS 238.350 states that each account in the Individual Account Program (IAP) shall be adjusted at least annually in accordance with rules adopted by the board to reflect any net earnings or losses and to pay the reasonable administrative costs of maintaining the program to the extent the earnings on the assets of the program are insufficient to pay those costs. A total of \$6,100,000 is projected for the 2007-09 biennium.

ORS 237.420 allows PERS to set a rate to cover the costs of administering the Social Security Program. That rate is currently 25 cents per employee per year or \$10, whichever is higher. A total of \$151,436 is projected for the 2007-09 biennium.

Annually, employers are invoiced a fee consisting of a \$700 initial set-up charge and a \$75 monthly ongoing administrative fee per participant to fund the administrative costs of the Benefit Equalization Fund (BEF). A total of \$243,879 is projected for the 2007-09 biennium.

ORS 238.465(9) charges both the member and the alternate payee an administrative expense in an amount not more than \$300 in total for related costs of obtaining data or making calculations that are necessary by a court-ordered divorce judgment, order, or agreement. PERS estimates a total of \$105,210 in the 2007-09 biennium.

ORS 238.705 allows PERS to charge employers delinquent in remitting contributions 1 percent per month on the total amount of contributions due. Employers that are delinquent in providing annual reports, or supplying annual employee information, are charged a penalty of the lesser of \$2,000 or 1 percent of the total annual contributions for each month they are late. PERS estimates a total of \$50,000 employer late penalty fees in the 2007-09 biennium.

OAR 459-060-0010 was established in fiscal year ending 2002. This fee is for providing public records documents. PERS estimates a total of \$700 in the 2007-09 biennium.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 132

BUDGET NARRATIVE

By rule, OAR 459-005-0250, PERS established a new charge to the member of \$60 per additional estimate to cover administrative costs of providing members additional retirement benefit estimates after the two allowed at no cost. PERS estimates a total of \$600 of benefit estimate service charges in the 2007-09 biennium.

PERS collects fees for various other services provided. PERS estimates a total of \$8,000 in the 2007-09 biennium based on historical trend analysis.

Projected revenue for the Deferred Compensation Program in the 2007-09 biennium is based on historical data. The participant fee will remain the same and the amount collected is not anticipated to vary significantly from historical patterns. The Local Government Deferred Compensation (ORS 243.474-243.478) and State Deferred Compensation Programs are projected as a single amount, although the revenue sources associated with the Local Government Deferred Compensation Program is insignificant as compared to the State Deferred Compensation program. The total projected revenue is \$1,390,126 in the 2007-09 biennium.

Other Revenue

Other revenue consists of prior period reductions of expense, surplus sales, MICR errors, total of checks that have been outstanding for over 2 years and are no longer negotiable, and other revenue. PERS projects revenue from these sources of \$10,000 in the 2007-09 biennium.

Public Employees Retirement System Revenues by Source (in millions)					
Fiscal Year	Employee and Member Contributions	Employer Contributions	Contributions from Other Sources	Net Investment Income and Other Income	Total

BUDGET NARRATIVE

Tier One and Tier Two Program (ORS Chapter 238)

Overview

Approximately 885 public employers, employing approximately 95 percent of all public employees in Oregon, participate in the death, disability, retirement, and retiree health care benefit programs administered by PERS. This includes all state agencies, all public school districts, and the majority of local government entities. Active Tier One and Tier Two membership totals approximately 190,000 non-retired members and 103,000 retirees and beneficiaries receiving monthly retirement benefits. This program was closed to new members on August 29, 2003, corresponding to the passage of House Bill 2020 (Chapter 733, Oregon Laws 2003). That legislation created a new retirement program, OPSRP, for members hired after that date.

The Tier One and Tier Two Program accounts for employee and employer contributions and investment earnings related to Tier One and Tier Two members and employer accounts, and reflects the retirement payments made to Tier One and Tier Two retirees and beneficiaries. In the 2005-07 biennium and beyond, this program unit will no longer reflect employee contributions, as those have been directed to the OPSRP IAP effective January 1, 2004. Employer contributions continue to come into the Tier One and Tier Two Program.

This program unit is made up entirely of Other Funds, non-limited.

Base Budget Adjustments

Changes have been made to both revenues and expenditures to reflect updated projections and inflation for contracted services.

BUDGET NARRATIVE

Oregon Public Service Retirement Plan (ORS Chapter 238A)

Overview

The 2003 Legislature created the Oregon Public Service Retirement Plan (OPSRP) program via passage of House Bill 2020 (2003). OPSRP is a hybrid retirement program with two components: the Pension Program and the Individual Account Program (IAP). The OPSRP Pension Program is funded solely by employer contributions and investment earnings. Generally, the program is designed to provide a benefit that approximates 45 percent of a member's final average salary for a 30-year public service career (general services). The IAP has no guaranteed payment or return. Members make contributions; employers may or may not also make contributions. When a member retires, he or she receives the contributions plus any accrued earnings (or losses). The IAP requires PERS' members to contribute an amount equal to six percent of eligible salary to an IAP account. At retirement, members will receive the balance of this account, including accrued earnings while the account is active, either as a lump-sum or in equal installments over a specified period of their choice.

Employers participating in PERS as of August 28, 2003 must participate in the OPSRP. If an employer had a class of employees not participating in PERS as of August 28, 2003, it need not offer OPSRP membership to those employees. Non-participating employers for PERS may choose to enter OPSRP offering only the pension program, only the IAP, or both. There are approximately 25,000 members of the OPSRP Pension Program as of July, 2006.

Beginning January 1, 2004, Tier One and Tier Two Program member contributions also go into the IAP portion of OPSRP. Tier One and Tier Two members retain their existing PERS accounts, but any future member contributions will be deposited in the member's IAP, not into the member's Tier One and Tier Two account. A PERS member who has a qualifying break in service becomes a member of OPSRP pension program for any subsequent employment upon returning to service.

This program accounts for employee member contributions into the IAP, employer contributions into the OPSRP Pension Plan, and IAP account withdrawals and distributions to Tier One and Tier Two retirees. While this program unit will account for retirement payments and IAP account payments for OPSRP retirees, this activity is expected to remain minimal for the 2007-09 biennium. The program unit also outlines the fund transfer from plan assets to the Operations program unit to pay for program administrative activities.

This program unit is made up entirely of Other Funds, non-limited.

BUDGET NARRATIVE

Operations

Overview

As previously stated, PERS administers a number of retirement related programs for approximately 885 public employers in Oregon, including all state agencies, all public school districts, and the majority of local government entities. The five-member Public Employee Retirement Board (PERB) provides administrative oversight for all PERS' programs.

PERS' Operations employs a common pyramid-style organizational structure. The agency is functionally separated into six divisions to reduce overlap and clearly designate responsibilities. Within the divisions, sections exist that focus upon specific activities involved in agency and program support. The major areas of activity are employer reporting, customer service, death benefits, disability retirement benefits, sponsorship of group health insurance plans, Deferred Compensation (OSGP), and Social Security coverage.

PERS orders its divisions as follows: Central Administration, Benefit Payments Division (BPD), Fiscal Services Division (FSD), Information Systems Division (ISD), Customer Services Division (CSD), and Policy, Planning, and Legislative Analysis Division (PPLAD).

Central Administration

The Central Administration Division, in conjunction with the PERS Board, provides the central direction, planning and leadership for PERS. The Division consists of the Executive Director, Deputy Director, Human Resources, Internal Audits, Retiree Health Insurance (SHRIA, RHIA, RHIPA), Social Security Program, and Deferred Compensation (OSGP).

Benefit Payments Division (BPD)

The Benefit Payments Division (BPD) is responsible for incepting, maintaining, and ending retirement, death, and disability payments. This includes determining or validating benefit eligibility; calculating and adjusting benefits; processing death, disability, and divorce transactions; communicating with members and stakeholders on actions; and supporting special projects such as the RIMS Conversion Project (RCP). In addition, BPD is the primary division responsible for implementing the Oregon Supreme Court rulings and related settlement agreement in both the *Strunk* and *Eugene* cases.

Fiscal Services Division (FSD)

The Fiscal Services Division (FSD) provides comprehensive financial and administrative services to the agency. This includes financial accounting, reporting, and tax services for all PERS' trust and agency fund activities including the Retirement Fund, Deferred Compensation Funds, Benefit Equalization Fund, health insurance programs, and Social Security Program. FSD is responsible for agency fiscal operations duties, including the receipt, posting, and deposit of over \$1 billion annually in member and employer contributions; and the disbursement of over \$2.5 billion in annual member and beneficiary benefits. Other fiscal activities include preparation, maintenance, and reporting of the agency's biennial budget; coordination of actuarial services; fiscal analysis; accounts receivable; accounts payable; contracts; and

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 147

BUDGET NARRATIVE

procurement. FSD also contains the Auxiliary Services Unit that manages office supplies, general building maintenance, shipping and receiving, and other various ancillary tasks.

Information Services Division (ISD)

The Information Services Division (ISD) provides technical support to all other divisions of the agency. ISD ensures that agency staff have the appropriate tools and automation necessary to complete their duties and provide customer service to members, employers and other stakeholders. The Division supervises the operation of PERS' complex IT systems and supports the many desktop computers while maintaining older systems, such as the RIMS mainframe application. Help desk support, installation and training, software development, and quality assurance all fall under ISD's responsibilities. In addition, the Imaging & Information Management section maintains records from numerous sources. The infrastructure and technical components of RIMS conversion to the jClarety application takes place within ISD.

Customer Services Division (CSD)

The Customer Services Division (CSD) provides the window for member, employer, and public interaction with PERS. One of the larger PERS' divisions, CSD answers member queries; conducts group counseling; coordinates communications through print, the Internet and other media; and produces benefit estimates and member account statements. CSD also houses the Member and Employer Relations (MERS) section. MERS enrolls and manages member service data and accounts; and also handles employer reporting, training, outreach and communication; and the annual reconciliation process.

Policy, Planning and Legislative Analysis Division (PPLAD)

PPLAD facilitates PERS' legislative, rulemaking, legal services, and agency determination review and contested case activities. PPLAD drafts administrative rules, coordinates legal counsel, and ensures compliance with state and federal statutes, rules and court decisions.

Base Budget Adjustments

The 2007-09 Other Funds Limitation base budget is adjusted downward by (\$7,389,196) Other Funds due primarily to the phasing out of 116 limited duration positions, 116.37 FTE. The services, supplies, and capital outlay expenditures associated with these positions and the various projects associated with 2003 PERS reform are contained in the 021 Phase-out essential package.

BUDGET NARRATIVE

Operations

Package 010 Non-PICS Personal Services/Vacancy Factor

Package Description

This package contains a total increase of \$33,660 Other Funds. The increase is due primarily to the net increase of \$62,147 for the PERS portion of the pension obligation bond. This package includes standard inflation of 3.10 percent on non-PICS personal service expenses such as temporary employees, overtime, shift and other differentials, and unemployment compensation; this accounts for \$34,509 including other payroll expenses. There is a reduction of (\$29,481) for mass transit taxes. Vacancy savings is "increased" by (\$33,515) when compared to the 2005-07 biennium.

Package 030 Inflation and Price List Adjustments

Package Description

The total cost of and goods and services increases by \$786,857 Other Funds when compared to the 2007-09 base budget. The Department of Administrative Services (DAS) Price List of Goods and Services and the general inflation factors are the basis for calculating cost increases in services, supplies, and capital outlay. Biennial inflation factors used include the standard 3.1 percent for general inflation and a medial inflation rate of 5.4 percent for professional service contract providers who review retirement disability applications and other services required by the PERS Retirement Disability program. Attorney General expenditures increase by \$132,675, reflecting a composite 14 percent increase based on the mix of services utilized by PERS. Facilities Rental and Taxes expenditures decrease by \$598. This amount, plus a fund shift of \$43,567 in package 060, equals a total of \$167,685 in this account. This amount is necessary to cover PERS estimated Archives Building rental and offsite document storage in the 2007-09 biennium. PERS budgets Central Hearings Panel Charges in account 4350, Dispute Resolution Services. These expenditures increase by \$9,586, reflecting a 13 percent increase.

The DAS Price List includes assessment charges by DAS and the Secretary of State as well as costs for central services and other selected items. State Government Service Charges are increased by a \$282,798. This increase is solely the result of charges or price lists provided by DAS or the agencies. The detail of the changes is listed below:

	<u>2005-07</u>	<u>2007-09</u>	<u>Difference</u>
• Audits Division Assessment	\$350,000	\$350,000	\$ 0
• Central Government.....	101,222	248,478	147,256
• DAS Service Charges/Assessments	687,188	812,883	125,695

Package 060 Technical Adjustments

Package Description

A one-time technical adjustment, a shift of \$43,567 of the Facility Maintenance budget account to the Facility Rental budget account, is necessary to accurately reflect PERS' estimated rent in the Archives Building and offsite document storage during the 2007-09 biennium. This shift between accounts does not increase the overall Agency Request Budget.

BUDGET NARRATIVE

Operations

Package 110 Strunk/Eugene Project

Package Description

Purpose: To fulfill PERS' obligation to comply with the Oregon Supreme Court rulings in both the *Strunk* and *City of Eugene* cases. Pursuant to the Court rulings and related settlement agreement, PERS must re-calculate member account balances, adjust certain retiree benefits, restore Cost-of-Living Adjustments (COLAs), and recover overpayments that were made based on an over-crediting of 1999 earnings to Tier One member regular accounts.

How achieved: PERS requests the continuation of 57 limited duration positions, 57.00 FTE, and \$6,343,237 in Other Funds Limitation, to complete this short-term project by the end of the 2007-09 biennium. Positions cross all division lines in the agency and include all activities related to benefit adjustments and payment collection, such as scanning and imaging retiree records and correspondence, benefit recalculations, database changes that result from benefit recalculations, benefit adjustments, and overpayment collection and recovery activities.

Project Overview

The 2003 PERS reform legislation and the Oregon Supreme Court decisions in the *Strunk* and *Eugene* cases and related settlement agreement define the parameters within which PERS can implement the project. The Court ruled that the Board's Settlement Agreement and the 2003 PERS reform legislation have resolved the issues in the *Eugene* case. The court's *Strunk* ruling, combined with the Settlement Agreement, requires PERS to:

- Re-allocate the 1999 earnings to Tier One member regular accounts at 11.33 percent instead of 20 percent.
- Credit the assumed rate, currently 8 percent, to Tier One accounts for 2003 and 2004.
- Reinstate the Cost-of-Living Adjustments (COLAs) for retirees that were frozen due to the 2003 PERS Reform Legislation. All members who retired between April 2000 and April 2004 who had their COLA "frozen" are entitled to have those withheld amounts credited to them.

For those Tier One members who retired, withdrew, or received benefit payments after the 1999 earnings crediting was effective (April 1, 2000), PERS is required to:

- Adjust monthly benefit payments for the 1999 earnings allocation of 11.33 percent, and collect overpayments that occurred up to that adjustment date. Adjustments are calculated by comparing what should have been paid to what was actually paid. For recipients who still owe a balance to the PERS' fund, PERS makes calculations of how much the benefit needs to be reduced to repay the balance based on each member's projected longevity and retirement option. This is known as the Actuarial Reduction Method, or ARM adjustment. Benefit payments may be reduced in the short-term, but would increase at the next and subsequent COLA dates. In some cases, PERS will correct previous benefit underpayments with lump-sum payments to the affected retiree.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 159

BUDGET NARRATIVE

- If a benefit recipient still owes a balance to PERS after all the appropriate adjustments, the recipient may opt to pay the entire amount owed in a lump-sum payment rather than taking an ARM adjustment. The recipient's monthly payments will then only be adjusted going forward based on the 11.33 percent earnings reallocation for 1999 (and subsequent COLA adjustments).
- For recipients who are no longer receiving a monthly PERS benefit payment, (members, beneficiaries, or alternate payees who retired, withdrew, or received a death benefit), PERS will calculate the lump-sum amount of their overpayment and pursue normal collection efforts and repayment plans to recover the overpayment amount.

Scope of Project

The scope of the project is complex, as it requires a historical adjustment of each member's account information, a re-calculation and adjustment of the benefits, an accuracy check, and then notification and collection of overpayments, or payment of underpayments. PERS' actuary estimates that the combined fiscal impact of the Strunk/Eugene Project to be a total of \$1.45 billion in reduced future distributions to active, inactive and retired members, and collection of \$150 million in overpaid benefits.

- The *Strunk* decision impacts every PERS' Tier One member who did not receive 2003 investment earnings, which includes 105,000 members and 4,300 retirees.
- The *Eugene* decision impacts every PERS' Tier One member who receives 1999 interest earnings, which includes 100,000 members and 35,000 retirees.
- There are 21,563 retirees who need to receive COLA adjustments according to the *Strunk* and *Eugene* decisions.
- Each impacted benefit recipient has approximately 12-30 financial adjustment transactions applied to their account.
- About 60 percent of the original retirements were processed manually using desk-top applications.
- No automated system exists to make the required corrections for the affected benefit recipients.

Core Principles

- The negative adjustment on retiree's current benefit payment is as small as possible.
- The account processing priority and order is transparent and communicated to stakeholders for input.
- Communications are complete, understandable, concise; PERS proactively answers potential questions.
- The project is efficiently completed and does not put undue burden on other business operations.
- The impact of this project on RIMS Conversion Project (RCP) is well-planned and managed for success.
- Members of the Strunk/Eugene Project team are 100 percent dedicated to project.
- Strive to make the process as efficient as possible. Only have to touch each member's account once before the final transaction.

BUDGET NARRATIVE

Success Criteria

- Recipients incur no disruption in the receipt of monthly PERS benefits.
- The identified population of accounts requiring adjustment includes all impacted accounts.
- All account balance and benefit payment adjustments are complete, accurate, and fully auditable so we can accurately report on the process and results. This means all underlying data issues must be resolved.
- Invoicing and accounts receivable processes optimize collections.
- 2004 member statements can be created from Phase I of this project.
- No data becomes corrupt or lost due to project processing.
- Complete project within the approved budget and timeline.

Actuarial Reduction Method (ARM)

The primary method of collecting benefit overpayments is the Actuarial Reduction Method (ARM). This method of collection minimizes the negative impact to a retiree's cash flow. The ARM, as described in ORS 238.715(1)(b), reduces the member's payment by an amount determined by the actuaries to be adequate to recover the overpayment during the entire period the monthly payments are made to the recipient. The actuary's determination of the reduction is based on average mortality. This method is also used to calculate a retiree's monthly benefit. The benefit is payable for the life of the retiree, but the actuary must estimate how long the retiree's life span will be. Affected retirees will also be offered a one-time opportunity to repay the benefit overpayment in a single lump sum. Monthly payments would then only be adjusted going forward based on the 11.33 percent earnings reallocation for 1999 and applicable Cost of Living Adjustment (COLA) increases.

Benefit Payments Division (BPD)

The Benefit Payments Division (BPD) is the primary PERS' Division responsible for implementing the *Strunk* and *Eugene* adjustments. BPD has created a special section of its division, the Strunk/Eugene Adjustment Section (SEAS), devoted to executing the project. Lack of automation requires PERS to correct a majority of the original manual calculations with additional manual desk-top application supported processes.

PERS requests to extend the current 35.00 FTE limited duration BPD positions that are working on the Strunk/Eugene Project benefit adjustments.

- 1.00 FTE Principle Executive/Manager E
- 1.00 FTE Project Manager 2
- 2.00 FTE Principle Executive/Manager B
- 2.00 FTE Operations and Policy Analyst 2
- 1.00 FTE Operations and Policy Analyst 1
- 7.00 FTE Retirement Counselor 2
- 18.00 FTE Retirement Counselor 1
- 3.00 FTE Office Specialist 2

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 161

BUDGET NARRATIVE

Customer Services Division (CSD)

The Customer Services Division operates the Customer Service Center (CSC), which answers members' questions and deals with members' problems when they contact the agency. CSD includes the customer service desk, call center service, group presentations, written and email correspondence, account balance and benefit verifications, member eligibility, and related database fixes and account adjustments.

PERS requests nine limited duration positions (9.00 FTE) to focus on *Strunk* and *Eugene*-affected member eligibility and account issues, to support additional phone volume, and to manually process database fixes to impacted Retirement Information Management System (RIMS) data. The existing RIMS application does not have the functionality to open and adjust retiree accounts for many data related issues. Therefore, some account adjustments require manual corrections via database fixes. These adjustments require staff with programming and technical analysis skills. Three limited duration positions address database fixes as individual accounts must be manually corrected on the RIMS database. The remaining six positions address eligibility issues associated with the project.

- 2.00 FTE Operations Policy Analyst 2
- 1.00 FTE Information Services Specialist 4
- 5.00 FTE Retirement Counselor 2
- 1.00 FTE Retirement Counselor 1

Information Services Division (ISD)

The Information Services Division (ISD) provides technical support to the other divisions within the agency. The Software Engineering Section (SES) within the division provides application development and maintenance support to all agency information systems and applications. PERS requests professional services budget approval of \$200,000 to enable the agency to adequately perform the needed programming changes associated with the Strunk/Eugene Project. The required changes to RIMS will be limited to those necessary to meet goals of the project. It is expected that a combination of internal staff and contractors will perform the programming changes.

Image and Information Management (IIM) is a section within the division that provides records management support to approximately 400 agency personnel. PERS requests the addition of 10 Office Assistant 2 limited duration positions (10.00 FTE) for the duration of the Strunk/Eugene Project. The positions are responsible for providing imaging support to other divisions, especially the Benefit Payments Division (BPD), in response to the increased workload of the Strunk/Eugene Project. The section estimates that retrieving, indexing, and imaging over 1,000,000 documents and microfilm images will require two fully staffed shifts to maximize equipment capacity. New equipment was purchased in the 2005-07 biennium to accommodate the additional staff and will replace the agency's oldest imaging equipment as it reaches the end of its useful life.

- 10.00 FTE Office Assistant 2

BUDGET NARRATIVE

Policy, Planning, and Legislative Analysis Division (PPLAD)

This Division manages the agency's need for outside legal services during litigation and provides support for contested cases and appeals. The agency anticipates that a number of affected retirees will appeal or contest the re-calculations required by the *Strunk* and *Eugene* decisions. PERS requests a continuation of an existing limited duration position during the 2007-09 biennium to provide support and coordinate appeals that result from this project.

- 1.00 FTE Compliance Specialist 1

Fiscal Services Division (FSD)

The Fiscal Services Division provides comprehensive financial and administrative services to the agency. PERS requests the continuation of two limited duration Revenue Agent positions to work with the Accounts Receivable Manager to collect funds over-paid to the affected retirees. This activity involves written, phone, and personal contact with retirees and other benefit recipients who have been overpaid but are difficult to contact. In some cases, this contact must be made across state lines, which requires the Revenue Agents to work with Department of Justice staff to secure repayment or with the Collections Unit of the Oregon Department of Revenue, to whom many of these accounts will ultimately be assigned.

- 2.00 FTE Revenue Agent 1

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS' programs and activities in accordance with statute and administrative rules. Costs are appropriately assigned to these programs and activities through the PERS' cost allocation system.

2009-11 Fiscal Impact: The agency anticipates the activities of the Strunk/Eugene Project to be completed by the end of the 2007-09 biennium. However, collection activities associated with the project will likely continue into the 2009-11 biennium. PERS does not anticipate any material fiscal impact in 2009-11.

Package 111 Retirement Information Management System (RIMS) Conversion Project (RCP)

Package Description

Purpose: To enable the agency to operate more efficiently and effectively through the implementation of a modern pension administration system (jClarety). This system will leverage the technology and investment the agency has already made to implement the jClarety system for the OPSRP Pension Plan adopted in 2003 as part of PERS' reform.

How Achieved: PERS is currently in the process of executing a two-phase project designed to create an integrated platform for providing pension administration services across all retirement programs. Phase I was the Pension Administration System Implementation Project, which began in September of 2003. The purpose of Phase I of the project was to provide the basic technology and platform needed to administer the Chapter 238A Oregon Public Service Retirement Plan (OPSRP) established by House Bill 2020 (2003). The project was designed to fulfill the legislatively mandated requirement for PERS to "take all steps necessary to develop and implement a dedicated information technology system to manage" the OPSRP. The project focuses on the implementation of a generalized "off the shelf" retirement administration system called "jClarety," a common retirement information management system being used in a number of states across the country. An important goal of Phase I was to implement the system with as little customization as is possible. Phase I has been completed as part of the 2005-07 biennial budget.

Phase II is the RIMS Conversion Program (RCP). The purpose of the RCP is to extend and further customize the jClarety application developed in Phase I. The scope of the project includes the retirement plan administration components necessary to administer the PERS Chapter 238 Plan (Tier One and Tier Two), currently being managed by the Retirement Information Management System (RIMS), and its associated desktop applications and manual processes. Phase II began in earnest in the summer of 2005 and was originally scheduled to be completed in August 2008.

Rationale for RIMS Conversion Project (RCP)

PERS' primary line-of-business application, RIMS, was designed in the mid-1980s. Although adequate through the mid-1990s, the system has proven to be increasingly inadequate, inflexible and resource intensive in today's environment. Furthermore, with the passage of reform legislation in the 2003 Legislative session, two new retirement programs were created that require new and different rules, processes, and procedures (the Individual Account Program [IAP], and the Oregon Public Service Retirement Program [OPSRP] for members hired after August 28, 2003.) These new requirements, along with the steady deterioration of RIMS, led the agency to approach the legislature and obtain approval to acquire and implement a new pension administration system.

RCP Re-baselining

During the spring and summer of 2006, PERS' staff adjusted the project timeline and added additional functionality into Phase II. These changes were necessary because of a significant increase in agency workload brought on by two Supreme Court decisions (*Strunk* and *Eugene*), and by gaps

Budget Page 170

BUDGET NARRATIVE

in system functionality from Phase I due to the rapid deployment requirements and “off-the-shelf” nature of the Phase I implementation. The project schedule for Phase II has been extended approximately 14 months. The current completion date for Phase II is now scheduled for November 2009. The total cost of the RIMS Conversion Project (RCP) including contingencies remains at \$27.5 million, as originally presented to the Legislative Emergency Board in December 2004.

PERS requests \$13,539,844 in Other Funds Limitation to continue the RCP Project for the 2007-09 biennium. This provides funding for six limited duration positions to serve as backfill positions for key project team members, software and hardware costs, data processing costs, and professional services costs. The professional services expenditures include the implementation contractor, a professional project management consultancy, and quality assurance oversight (both DAS and external third party).

- 1.00 FTE Compliance Specialist 2
- 1.00 FTE Operations and Policy Analyst 3
- 2.00 FTE Principle Executive/Manager D
- 2.00 FTE Accountant 3

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS’ programs and activities in accordance with statute and administrative rules. Costs are appropriately assigned to these programs and activities through the PERS’ cost allocation system.

2009-11 Fiscal Impact: Continuation of the RIMS Conversion Project (RCP) has a fiscal impact of \$3.5-4 million Other Funds in 2009-11 to complete the project by November 2009. The majority of those costs will be for final contract payments to the primary project vendor, as well as the continued backfill support for agency staff that is key to the successful project completion. The total project cost is anticipated to remain at \$27.5 million, as originally presented in November 2004.

Major Information Technology Projects \$500,000+: This is a major information technology project that requires additional budget documentation. The appropriate documents and forms are being submitted with the 2007-09 requested budget.

Operations

Package 112 Retirement Processing

Package Description

Purpose: This package focuses on improving PERS' core retirement processing duties and responsibilities by enhancing the retirement benefit calculation and payment processes to better handle the current and projected retirement volumes in the various pension programs and the IAP.

How Achieved: PERS requests 25.00 FTE positions and \$2,651,079 in Other Funds Limitation to enact the retirement processing project in the 2007-09 biennium.

The package supports three initiatives within the agency:

- Improve services levels for core retirement processes
- Support and complete prioritized agency projects, such as Strunk/Eugene, RIMS Conversion and IAP Remediation
- Improve internal quality assurance and quality control processes for all core functions

The successful outcome of each of these initiatives is supported by the following strategies:

- Improving customer service levels
 - Retirement volume support for an average of 6,000 retirements per year
 - Judge member retirement calculations
- Support and completion of agency projects
 - Additional technical support
 - Benefit set-up and issuance
 - Individual Account Program (IAP) withdrawals and distributions
- Internal quality assurance and quality control
 - Management support and span of control
 - Internal training
 - Application intake/validation

PERS continues to experience increased numbers of members that are eligible for retirement benefits. PERS currently has the base budget staff and resources to process 4,000 retirements per year. However, experience and demographic data forecast approximately 6,000 members retiring annually through the 2007-09 biennium, with increasing retirement volumes continuing through 2013.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 175

BUDGET NARRATIVE

In addition to this increased demand, PERS continues to operate with an outdated information technology system (RIMS), which currently handles only 50 percent of the required retirement calculations. Moreover, a retirement or withdrawal from PERS' pension programs now also involves the processing of a distribution or withdrawal from the IAP, which also represents a growing workload.

Improving Customer Service Levels

The Benefit Payments Division (BPD) is responsible for incepting, maintaining, and ending retirement, death, and disability payments, which includes determining benefit eligibility, adjusting benefits, communications with members and other stakeholders, and supporting agency special projects, such as the Strunk/Eugene, the RIMS Conversion Project (RCP), and IAP remediation.

The combination of declining functionality of the RIMS retirement system for calculating benefits, increased demand for services from members, and increased processing requirements from new laws have reduced BPD's service levels for its primary responsibilities. PERS is currently meeting the statutory timeframes with limited duration staff approved for the 2005-07 biennium. The agency requests that the positions be maintained until the jClarety retirement administration system is fully functional. At that time, PERS will again evaluate its permanent staffing needs.

Retirement Volume Support

PERS' base budget is sufficient to process 4,000 annual retirements. Current biennium retirement activity and PERS' membership demographics continue to forecast 6,000 retirements per year, with increasing retirement inceptions through 2013. PERS requests the continuation of limited duration positions to meet projected retirement volumes until such time that functionality in the new jClarety retirement system is delivered and fully evaluated. At that time, PERS will evaluate appropriate staffing and classification levels, and request necessary adjustments on a permanent basis.

Current retirement calculation processes require 4.00 FTE to process approximately 1,000 new retirement inceptions per year. As a result, PERS requests the continuance of eight limited duration positions to process anticipated retirements through 2007-09:

- 1.00 FTE Principal Executive/Manager A
- 1.00 FTE Office Specialist 2
- 3.00 FTE Retirement Counselor 1
- 3.00 FTE Retirement Counselor 2

Judge Calculations

The judge member population demographics have been trending upward resulting in increased workload for PERS in the areas of benefit estimates and calculations. Calculations associated with judges are unique and complex. The specialization of judge calculations, rules, and processes reduces the benefit of cross training non-dedicated section staff in the intricacies of judge calculations. PERS currently has one staff position dedicated to judge member estimates and calculations. To meet the long-term increase in workload and service demands, PERS requests an additional staff position.

- 1.0 FTE Retirement Counselor 2

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 176

BUDGET NARRATIVE

Support of Agency Projects

Part of BPD's recent decline in service level is caused by diverting resources to help the agency complete special projects such as the Strunk/Eugene Project and the RIMS Conversion Project (RCP). Completion of these projects will allow the division to reincorporate its resources to its core activities of retirement benefit processing and help significantly increase service levels.

- Approximately one-third of BPD staff is comprised of limited-duration positions that are working on the Strunk/Eugene Project or resolving backlogs.
- Staff resources are spread thin due to special projects, and there is little flexibility to handle unexpected spikes in member demand for services. This reduces the service levels that BPD can provide.
- The RCP has a projected completion date of November, 2009 whereby BPD and other PERS divisions have an opportunity to re-direct resources to their core functions that are currently being devoted to the project.

PERS requests the continuation of 3.00 FTE limited duration positions that were approved in the 2005-07 biennium and an additional 1.00 FTE limited duration position to handle the increased demand for payment adjustments/reconciliations and additional RCP support.

- 2.0 FTE Operations Policy Analyst 2
- 2.0 FTE Retirement Counselor 2

Benefit Set-up and Issuance

PERS does not expect full efficiency of the jClarety retirement administration system, the primary deliverable of the re-baselined RCP, until late-2009. As a result, PERS requests to continue the development of processes and procedures of retirements and withdrawals for both the OPSRP Pension and IAP disbursements. This will allow for timely, accurate and efficient processing of OPSRP distributions. The OPSRP team's disbursement process and procedures are independent from BPD's PERS Tier One and Tier Two processes for retirements. This separation will exist until jClarety is functional for all benefit distributions.

PERS is requesting the continuation of the 4 limited duration staff originally approved in the 2003-05 biennium. Permanent staff approved in 2003-05 will then cover ongoing program activities. The limited duration staff requested is as follows:

- 1.00 FTE Principal Executive/Manager B
- 1.00 FTE Retirement Counselor 2
- 2.00 FTE Office Specialist 2

IAP Withdrawals

Following the implementation of PERS' reform in 2003, the agency diverted positions within the Customer Service Center (CSC) to handle the Tier One and Tier Two Program and IAP withdrawal/refund processes. This situation has created a strain within the Customer Service Division (CSD) because the agency took on new workload without additional staff resources due to the uncertain demand associated with that new workload.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 177

BUDGET NARRATIVE

PERS requests that 2.00 FTE limited duration positions be approved for the 2007-09 biennium. One position is new, while the other is a continuation of an approved limited duration position from 2005-07 biennium. These positions are essential for the agency to handle an increased workload and increase the quality of service to members involving IAP withdrawals and refunds.

- 2.00 FTE Retirement Counselor 1

Core Internal Training and Quality Assurance

In the 2005-07 biennium, PERS was approved for a limited duration Trainer position to develop desk-level training in the Benefit Payments Division (BPD) for PERS' retirement programs and two computer systems. The Trainer works closely with BPD managers, as well as managers from other PERS' divisions, to ensure the training is current and aligned with changing processes, procedures, and business rules (especially associated with changes in business processes from RIMS to jClarety). During 2005-07, the Trainer position developed a core framework of ORS Chapter 238 training for all BPD sections and staff, specific to the BPD functions and processes. The centralized training is provided to all newly hired BPD staff at the RC1 classification or higher, and complements the existing general training provided by PERS' Human Resources Division.

Core training subjects include:

- The calculation methodology for the Tier One and Tier Two Program
- Introduction for new hires to various RIMS processes, as well as to the jClarety functionality for member demographic, salary, contribution, and status information
- Key business rules, policies, procedures, protocols, and BPD process organization

The BPD Trainer position has increased the consistency of benefit payment transaction processing, which in turn increases transaction accuracy. The Trainer position will add a greater emphasis on OPSRP defined benefit calculations and processes during the 2007-09 biennium. This training position will help the agency establish its core processes for the new OPSRP Pension Plan and prepare benefit payment staff to handle benefit calculations associated with the OPSRP Pension Plan.

PERS requests the continuation of the Trainer position with the additional responsibility of providing quality assurance services. The additional responsibilities include routinely evaluating the effectiveness of all BPD transaction types, providing feedback to BPD management on transaction quality, and incorporating findings into targeted training materials to eliminate quality problems. PERS requests that the current 1.00 FTE limited duration RC2 position be turned into a 1.00 FTE permanent position to reflect the added responsibilities and core nature of the position.

- 1.0 FTE Operations Policy Analyst 2

Retiree Application Intake/Validation Service

In the 2005-07 biennium, management redesigned the retirement application intake and validation processes. Limited duration staff approved in the 05-07 budget enabled management to focus more scrutiny on the quality of retirement application data and on preparing the member account for subsequent downstream calculation processes. These processes are manually intense and require staff to review documents and data for

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 178

BUDGET NARRATIVE

reasonableness, eligibility, and the ability for PERS to administer. The processes now include more clearly defined steps, each designed to identify data or retirement application errors or questions. The increased upfront scrutiny requires more staff resources, but pays-off through increased accuracy and reduced reworking of retirement benefit calculations. This helps the agency deliver more timely and accurate benefit payments to our retirees.

PERS requests that 5.00 FTE limited duration positions be continued from the 2005-07 biennium because retiree application intake still requires considerable manual processing. The agency expects that until the RIMS Conversion Project (RCP) is complete and some of the work can be automated, the need for manually processing the applications will remain through the 2007-09 biennium.

- 1.0 FTE Retirement Counselor 2
- 4.0 FTE Office Specialist 2

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS programs and activities in accordance with statute and administrative rules. Costs are appropriately assigned to these programs and activities through the PERS cost allocation system.

2009-11 Fiscal Impact: The two permanent positions, judge calculations and trainer/quality assurance, will continue into the 2009-11 biennium. The fiscal impact is \$228,523 Other Funds for personal services and an additional \$11,750 for services and supplies, totaling \$240,273 Other Funds.

Package 113 Retirement Data Support

Package Description

Purpose: To meet the increasing demands of members and employers seeking information about PERS and its services, to resolve information and data issues when they arise to facilitate more accurate and timely retirement calculations; and to support the data needs of other divisions within the agency.

How Achieved: PERS requests 23.00 FTE positions and \$2,598,488 in Other Funds Limitation to fund this package during the 2007-09 biennium. All positions for this package are a mix of permanent and limited duration positions within the Customer Service Division (CSD), the majority of which currently exist as limited duration positions in the 2005-07 biennium. CSD handles most of the agency's direct communication with PERS members and employers. CSD also manages the collection, organization, and quality assurance of PERS member and employer information so that PERS can provide quality service to its stakeholders.

To improve internal and external service levels for all CSD processes, this package seeks to accomplish the following objectives for the 2007-09 biennium:

- Strengthen core operations in the CSD
- Standardize and simplify method of correcting data problems
- Establish centralized data quality processes for the agency
- Improve the organization and communication of information

Background of Package Request

The 2003 PERS reform legislation spurred an increase in service workload for the entire agency due to the addition of the OPSRP Pension Program, Individual Account Program (IAP), and electronic employer reporting. These changes coincided with the RIMS Conversion Project (RCP) and implementation of a new information technology system, jClarety. The combination of these events diverted considerable PERS' resources from regular duties toward training staff and educating employers on how to deal with the changes brought on by the 2003 reforms.

In 2003, CSD assumed responsibility for the Chapter 238 (Tier One and Tier Two) member withdrawal/refund process. Responsibility for the Chapter 238A IAP withdrawal/refund processes was added in 2004 without additional staff resources. In 2005, the agency reorganized and shifted duties and resources within CSD to meet the increased workload. The shift to real-time electronic data reporting has uncovered data quality issues, which now must be resolved quickly to complete member records and pay member benefits in an accurate and timely manner. The division continues to face the critical data quality and technology demands of the agency, and seeks additional resources to meet those needs.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 184

BUDGET NARRATIVE

Strengthen Core Operations

Member demand for PERS' services, especially services provided by the Customer Services Call Center has increased over the past few years, leaving the agency under-resourced to handle the high demand and respond to phone calls and written correspondence. Much of the increased demand for services stems from the implementation of the IAP program for all PERS' members, but primarily from Tier-One and Tier-Two members who are quickly approaching retirement. PERS requests the establishment of 4.00 FTE permanent Retirement Counselor 2 positions to assist the agency in handling member inquiries and problems. These permanent positions would replace existing limited duration positions.

Processing employment separations for members who have separated from public service and/or applied for a retirement benefit has grown in complexity with the introduction of the IAP program. Separations are no longer the simple task of verifying a member account and moving forward. The separation process now involves the reconciliation and processing of information contained on three major systems: RIMS, jClarety, and CitiStreet as the IAP record keeper. Data for each system can be out of synch with the others, causing staff to use manual work-a-rounds to keep the databases synchronized. PERS requests the establishment of 4.00 FTE permanent positions (currently a single limited-duration position in 2005-07) to handle member separation duties. These positions will process the member benefit application preparation, including separation processing and eligibility studies, database fixes for benefits applications in progress, database fixes for the agency, Chapter 238 and 238A withdrawal/refund processing, and identify potential loss of membership.

- 1.00 FTE Retirement Counselor 1
- 7.00 FTE Retirement Counselor 2

Loss of Membership (LOM) Refunds

The CSD handles the agency's Loss of Membership (LOM) refunds, which seek to locate Chapter 238 account owners who have separated from public service and refund their accounts. A project was approved during the 2005-07 biennium, but as of July 2006, there were approximately 24,000 LOM accounts with account balances totaling \$41 million remaining. PERS is required by law to refund member accounts that are in LOM status. To do this, PERS has partnered with the Department of State Lands to improve efforts to notify individuals who are in LOM status and refund their account balances to them, much like how the unclaimed property program works. The primary difficulties in this project are:

- Working between RIMS and jClarety to determine the correct status of the account
- Obtaining current contact information for members who have not been in public service for five or more years

PERS requests the establishment of a permanent position to continue the work approved during the 2005-07 biennium.

- 1.00 Retirement Counselor 1

Continue Employer Data Exchange (EDX) Support for Employers

The Employer Data Exchange (EDX) team develops and maintains employer relationships, provides technical assistance to employers on data reporting, communicates changes in reporting requirements due to system enhancements or legislation, and is responsible for the annual

BUDGET NARRATIVE

reconciliation project. This team also provides education and training for 885 PERS-participating employers by responding to general and specific questions related to statutes, regulations, and employer reporting.

PERS requests that the current 5.00 FTE limited duration positions that were created for the 2005-07 biennium be made into 5.00 FTE permanent positions to aid with EDX. Continuing resources are required due to ongoing complexity of employer reporting, incomplete functionality, and the need for outreach and support of employers in their reporting efforts.

- 5.00 FTE Retirement Counselor 1

Standardize and Simplify Method of Correcting Data Problems by Maintaining the Technical Team (MERS)

The CSD Tech Team plays a pivotal role in gathering, organizing, and presenting data, as well as the implementation of technical tools both for the division and for the entire agency. Its responsibilities include:

- Providing jClarety/RIMS database research and analysis for the agency, the employers and the public
- Creating and maintaining databases and other desktop solutions that are essential to the day to day functioning of the agency
- Assisting in the development and implementation of a PERS' data warehouse
- Testing of new functionality for the RIMS Conversion Project (RCP)

PERS requests that the current 3.00 FTE limited duration positions be extended for the 2007-09 biennium.

- 2.00 FTE Operations and Policy Analyst 2
- 1.00 FTE Information Services Specialist 6

Establish Centralized Data Quality Processes for the Agency

Without data quality and integrity, it is impossible to provide accurate information to members, employers, and the public, which affects PERS' ability to calculate accurate benefits. To provide and maintain data quality and integrity between RIMS and jClarety, streamline the data fix process, provide PERS users with a single point of contact for data problems, and maintain clear accountability for data fixes, PERS proposes the implementation of a Data Quality Unit with dedicated teams to address data migration and the data fix process. These teams will be responsible for data migration from RIMS to jClarety, database fixes for the entire agency, and special projects.

Continue Data Quality Assurance, Migration and Database Fix Initiatives

The agency is responsible for identifying and resolving data inconsistencies between RIMS and jClarety, and modifying member accounts due to implementation of legislative changes, RIMS Conversion Project (RCP), and employer reporting updates. These on-going initiatives ensure that data fixes are processed in a timely and efficient manner, by either addressing the problems directly or organizing the necessary resources. Teams within the CSD also perform regular monitoring and analysis of agency data sources to proactively identify and address data issues before they have major operational impacts. It is especially important to maintain accurate data while the agency transitions its information management systems from RIMS

BUDGET NARRATIVE

to the jClarety platform. PERS requests that the current 3.00 FTE limited duration positions that were approved for the 2005-07 biennium be extended into the 2007-09 biennium.

- 1.00 FTE Principal Executive/Manager B
- 2.00 FTE Operations Policy Analyst 2

Continue the Account Reconciliation Team within Member Employer Relations (MERS)

The Account Reconciliation Team (ART) resolves issues that affect employer accounts. Its functions include resolving annuals, defining workflow process between divisions regarding employer penalties, creating and collecting employer invoices for the IAP until this functionality is created in jClarety, and working with suspended employer accounts receivable. To continue its work, PERS requests that the current 2.00 FTE limited duration positions approved for the 2005-07 biennium be extended into the 2007-09 biennium.

- 1.00 FTE Retirement Counselor 1
- 1.00 FTE Retirement Counselor 2

Improve the Organization and Communication of Information by Establishing a Technical Writer Position

The Communications Section of the agency is responsible for providing essential agency information to members, employers, other stakeholders, and the media. Until 2003, PERS had one retirement program, a deferred compensation plan, and a health plan. The agency now has two additional retirement components, electronic employer reporting, and a greater need to provide timely information to members, employers, and stakeholders. Generally, modifications to these programs occur every Legislative session, which means that agency publications need to be updated every two years. The dynamics of electronic employer reporting also require continual communications to employers.

PERS is also in the midst of converting to a new computer system. The agency must create technical manuals, documentation, and hundreds of policies and procedures to ensure the system will be maintained according to design. To meet this need, PERS requests 1.00 FTE permanent position to support its additional technical writing demands.

- 1.00 FTE Administrative Specialist 1

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS programs and activities in accordance with statute and administrative rules. Costs are appropriately assigned to these programs and activities through the PERS cost allocation system.

2009-11 Fiscal Impact: Seven permanent positions continue into the 2009-11 biennium. The fiscal impact is \$1,488,274 Other Funds for personal services and an additional \$88,125 Other Funds for services and supplies, totaling \$1,576,399 Other Funds.

BUDGET NARRATIVE

Operations

Package 114 Operations and Infrastructure Support

Package Description

Purpose: Continue ongoing efforts in the 2007-09 biennium to stabilize and strengthen the core agency infrastructure as well as ensure best practices to increase overall efficiency and effectiveness. This request includes improvements in agency procurement and contracting, human resources, information technology infrastructure maintenance, document imaging, and workload balancing.

How Achieved: Despite significant efforts in recent years creating a stable infrastructure and well established agency procedures, PERS still has many agency infrastructure tasks left to accomplish. Initiatives for agency improvement in 2007-09 include:

- Focus on supporting special projects, including Strunk/Eugene, IAP remediation, and RIMS conversion
- Continue 2005-07 work to strengthen and stabilize core agency infrastructure
- Improve service levels for all divisions
- Develop quality assurance for core processes
- Improve and streamline processes and procedures

Resource constraints that exist throughout the agency could keep PERS from meeting acceptable service standards in 2007-09 in the following areas:

- Human resources
- Procurement support
- IT developers and support staff
- Document imaging
- Retirement services.

Expenditure limitation and position authority are requested to implement administrative changes to the core infrastructure of PERS. Changes include short-term assistance in mail support, human resources, procurement, and development of agency business rules. To address these needs during the 2007-09 biennium, PERS requests 28.00 FTE and \$4,219,993 in Other Funds Limitation.

Human Resource (HR) Support

The agency requests that 2.00 FTE positions, one permanent Human Resources Assistant 3 position and one limited duration Human Resources Assistant 1, be created during the 2007-09 biennium. The permanent position is necessary to run the daily operations of HR and to act as a team leader to seven staff members. This position also handles the daily employee labor relations issues, oversees recruitment and classification, participates in training and development, and runs day-to-day operations. This position is important because it frees up the HR Director to concentrate on other strategic workforce management initiatives. The limited duration position was originally established in 2005-07 biennium to

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 192

BUDGET NARRATIVE

handle potential layoffs. There is still a need for this position to handle potential layoffs in the 2007-09 biennium. In addition, the agency need for position management and classification assistance has grown. Because the agency is in the middle of structural and organizational change position classification audits and requests have increased.

- 1.00 FTE Human Resources Assistant 1
- 1.00 FTE Human Resources Assistant 3

Included in Governor's Recommended Budget as modified:

- Change one permanent, full time Human Resources Assistant 3 position (1.00 FTE) to a limited duration position (1.00 FTE).

72nd Avenue Building Facility Support

During the 2003-05 and 2005-07 biennia, PERS leased 15,009 sq. ft. at 72nd Avenue in Tigard to accommodate approximately 120 staff. PERS anticipates full utilization of this space during the entire 2007-09 biennium. The operational need for a number of these limited duration staff is expected to wind down by the end of the 2007-09 biennium with the anticipated completion of the Strunk/Eugene Project (Package 110). To continue the building lease through the end of the 2007-09 biennium, PERS is requesting an increase in its Facilities Rent of \$667,060. This calculation reflects the signed lease agreement originally scheduled to end in October 2008 that has been extended throughout the 2007-09 biennium with a 3 percent inflation rate at the same square footage.

72nd Avenue Building Telecommunications

During the 2005-07 biennium, the legislature approved PERS' request for telecommunications infrastructure to improve its internal communications between the agency's 72nd Street building and its headquarters at 68th Parkway. The agency upgraded its voice communications between the two buildings by adding a second T1 line. This alleviated the capacity issue that the agency had with the single T1 line. In addition, the agency installed a fiber optic line between the two buildings to improve data communications. This gave the staff located at the 72nd Street building faster access to the computer network and applications that are located at the 68th Parkway building. This enhancement greatly improves application response time for staff. PERS requests \$80,784 in Other Funds Limitation to cover the operating costs for the 2007-09 biennium for these voice and data communications lines between the 72nd Street location and the 68th Parkway location.

72nd Avenue Building Mail Services

To provide mailroom, minor building support, and staff and mail shuttle service for the leased office space, a limited duration position was approved for the 2003-05 and 2005-07 biennia. PERS requests continuation of the 1.00 limited duration FTE position (Mail Services Assistant) to continue this support for the 72nd Avenue office in 2007-09.

- 1.00 FTE Mail Services Assistant

BUDGET NARRATIVE

PERS Headquarters Facility Maintenance

The carpet in the PERS headquarters building has deteriorated despite past attempts to repair and maintain the carpets. For the last five years, the agency has been patching the building's worn carpets, which bears an expense of \$10,000 annually. Total estimated cost to replace the carpet including labor and materials (less the current biennial maintenance cost of \$20,000) totals \$182,936 Other Funds.

Also, the interior of the PERS headquarters is in need of re-painting, as the building is approaching ten years since building completion with no major re-painting. This project will focus on hallways, restrooms, conference rooms and other areas, primarily those accessible by the general public, in need of updating. Estimated costs for this project are \$15,477.

Procurement/Contract Services

Until the 1990's, PERS' procurement and contracting activities consisted primarily of office supplies, a few maintenance contracts, and three complex contracts for program services. Procurement services were split between different individuals and sections, which contributed to inconsistent contract administration.

In 1999, PERS' need for professional and trade services grew due to the planned conversion of the information technology systems, implementation of new legislation, outside legal services, and more sophisticated financial and actuarial analysis. As a result, the contracts became complex in both scope and administration.

Because of increased volume and complexity in contracting and procurement services, PERS requested and received assistance from the Department of Administrative Services State Procurement Office (DAS-SPO), which helped PERS establish a centralized Procurement and Contracting section in 2004. The new section consists of three permanent positions, two limited duration positions, and a DAS-SPO Senior Contracts Analyst.

Given the ongoing high volume of contracting and procurement services, PERS requests continuation of the 2.00 FTE limited duration positions to provide procurement support for the Procurement and Contracting section during the 2007-09 biennium.

- 1.00 FTE Procurement and Contract Specialist 2
- 1.00 FTE Procurement and Contract Specialist 3

IT Infrastructure Maintenance

The Technical Operations section (TOS) provides information technology (IT) support services for the agency, including the design, implementation, and maintenance of the IT infrastructure. The current workload in the Application Support group has grown significantly due to the increasing complexities of systems being supported as the agency updates its technology associated with the RIMS Conversion Project (RCP). These workload demands within the Application Support group are permanent. PERS requests an addition of 1.00 FTE permanent position for Application Support Lead, as well as converting the current 2.00 FTE limited duration Application Support Systems Analysts into 2.00 FTE permanent positions. These

BUDGET NARRATIVE

positions are essential for analyzing plans, developing, integrating, and implementing critical activities that support agency operations, as well as maintaining and installing information systems software.

PERS also requests converting the current 1.00 FTE limited duration Service Desk Analyst position to a 1.00 FTE permanent position, as the service desk is the focal point of the technical (internal) customer service for the agency.

- 2.00 FTE Information Services Specialist 5
- 1.00 FTE Information Services Specialist 4
- 1.00 FTE Information Services Specialist 7

Improve Programming Knowledge Base

PERS requests expenditure limitation and position authority to convert 4.00 FTE limited duration positions into 4.00 permanent FTE to provide IT development, enhancement, and modification support for the agency. Three of these positions will be for Programmers/Developers and one is for a Requirements Analyst.

The positions provide the appropriate skill set required to effectively support the new technology brought on by the implementation of jClarety. With the current implementation of jClarety for the HB 2020 program (i.e., OPSRP and the IAP) and the expected implementation of jClarety to accommodate the existing PERS plan (i.e., the 238 Chapter Tier One and Tier Two Program), the Software Engineering Section (SES) of the agency needs to build the appropriate skill set to effectively support the new technology upon which jClarety is built.

The agency is transitioning away from the old legacy COBOL skill set to the new Java/J2EE/SQL skill set that supports the platform of the jClarety system and PERS' future development efforts. There is currently no one on staff who possesses the technical skills necessary to develop programs that will integrate into or support jClarety. PERS is entirely reliant on outside contractors for support of its major line of business application. In order to reduce risk in the project and enable ongoing support during and after implementation, PERS needs to hire and train qualified staff so that it can develop internal knowledge and expertise while the system is being implemented and while the expertise of our integration partner (Saber Solutions, formerly known as Covansys) is onsite and installing the system.

- 2.00 FTE Information Services Specialist 8
- 1.00 FTE Information Services Specialist 6
- 1.00 FTE Operations and Policy Analyst 2

Document Imaging

The Image and Information Management (IIM) section provides records management support to approximately 400 agency personnel. The group manages member, employer, and internal agency documents in various media formats including hard copy, microfilm, microfiche, and electronic.

BUDGET NARRATIVE

Records management functions include image capture, document retrieval, document retention, information support (research), and program management.

The agency is undergoing a major change in the way it provides service to its customers, namely a transition from a function-oriented organization to a process-oriented one. The primary alteration is to reposition IIM from a back-end processing unit to a front-end document intake center for the agency. It is expected that all incoming agency mail will pass through IIM, and all appropriate documents will be scanned and submitted to the workflow engine for further processing by the rest of the agency.

This change in work is very substantial for the IIM section. Today, the IIM section is at the end of the document trail. All member documents are microfilmed by IIM. Paper documents come into the agency, make their way around to the various business units, and weeks, and sometimes months, later arrive in IIM for storage of the final document on film. The process has become cumbersome and archaic. The critical function in IIM was defined as “document storage and retrieval.” With the RIMS Conversion Project (RCP), IIM becomes the “front door” for agency documents and the initiators of workflow throughout the agency. This shift requires more knowledge and higher skill levels in IIM.

PERS proposes to eliminate both the filming and the retrieval lag times by making documents available to staff within 24 hours of receipt. Currently, all new documents are digitized; however, PERS has approximately 20 million documents on microfilm to be converted to a digital image, much of which supports upcoming retirements. After these targeted documents are digitized, any authorized employee can pull-up an entire member file on their desktop PC within seconds.

PERS requests that the 2005-07 12.00 FTE limited duration positions be made permanent in order to assist IIM in converting all of the microfilmed documents for those members who will be retiring in the next 10 years, recognizing that workflow support will be a core function of the agency.

- 1.00 FTE Support Services Supervisor
- 3.00 FTE Office Specialist 1
- 2.00 FTE Data Entry Operator
- 6.00 FTE Office Assistant 2

ISD Staff Training

The agency’s legacy computer system, Retirement Information Management System (RIMS), was developed in the 1980’s to satisfy existing requirements and workloads. For the past 15-20 years, information services staff were trained primarily to maintain RIMS, an application based on outdated technologies of COBOL and CICS. In 2003, PERS chose a new business application, jClarety, to accommodate the needs of PERS’ reform legislation. The new Java-based application will deliver much needed functionality into the foreseeable future. Because the existing staff skill set is focused on outdated technology and training, the implementation and support of the new system depends heavily on outside contracting services.

Agency Request

Governor's Recommended

Legislatively Adopted

Budget Page 196

BUDGET NARRATIVE

PERS plans to move the jClarety support in-house to ensure security, control and cost effectiveness. Information Systems Division (ISD) staff require training to support, modify, and enhance the new system, as well as other new infrastructure components. The transition began in 2003-05 biennium and continues through the 2007-09 biennium. Meanwhile, PERS' plan is to continue enhancing staff skills as new technologies emerge.

PERS requests \$209,555 Other Funds Limitation to supplement the current ISD staff training budget to meet information system transition needs.

Business Rules

Business rules must be written to ensure proper implementation of the new jClarety retirement system. The rules provide the fundamental building blocks of PERS' business processes and guide creation of policies and procedures, user documentation, administrative rules, and system development. Without a complete set of business rules for jClarety, the risk of inconsistent agency practices and service increases.

PERS created a Business Rule Team within the Policy, Planning and Legislative Analysis Division (PPLAD) in the 2003-05 biennium to develop a complete library of business rules for the Tier One and Tier Two Chapter 238 Program. OPSRP required an estimated 800 total business rules (based on a similar number for the current PERS' Tier One and Tier Two Program) during the 2005-07 biennium.

PERS requests funding and position authority for 3.00 FTE limited duration Retirement Counselor 2 positions to continue the Business Rules Team through the final phase of business rules writing during the 2007-09 biennium. The current team's familiarity with the development of business rules allows a seamless transition to focus on the needs of the jClarety retirement pension administration system and the associated programs.

- 3.00 FTE Retirement Counselor 2

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS' programs and activities in accordance with statute and administrative rules. Costs are appropriately assigned to these programs and activities through the PERS' cost allocation system.

2009-11 Fiscal Impact: Twenty-one positions continue into the 2009-11 biennium resulting in a fiscal impact of 2,139,254 Other Funds for personal services and an additional \$125,425 for services and supplies, totaling \$2,264,679 Other Funds.

BUDGET NARRATIVE

Operations

Package 115 Legal Services

Package Description

Purpose: \$1,000,000 Other Funds to cover costs for legal representation provided by outside counsel.

How Achieved: PERS requests continuation of \$1,000,000 Other Funds Limitation to cover costs of legal services provided by outside counsel. The majority of PERS' legal costs continue to be driven by events that are not easily predicted, making an accurate estimate of 2007-09 expenses difficult. PERS believes the amount currently budgeted for Attorney General and standard Department of Justice (DOJ) contested cases is adequate for the 2007-09 biennium. However, there is no base budget amount in 2007-09 for legal services provided by outside legal counsel who have been retained since the 03-05 biennium.

PERS' need for legal services was increased due to a number of major lawsuits, the implementation of the Oregon Public Service Retirement Plan (OPSRP), and a significant rise in contested case hearings. In September 2003, as directed by ORS 238.657 and through discussions with the Governor's office, the PERS Board retained legal counsel independent of the Office of the Attorney General. The purpose of this counsel is to advise the PERS Board on:

- Fiduciary duties
- Litigation resulting from implementation of the 2003 reform legislation and the recent *Strunk* and *Eugene* decisions
- Federal tax issues, including plan qualification
- Administrative rule issues and contested cases that arise due to new legislation

Staffing Impact: There is no impact to agency staffing.

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS' programs and activities in accordance with Oregon Revised Statute and applicable administrative rules.

2009-11 Fiscal Impact: The anticipated impact to 2009-11 is an estimated \$1,000,000 Other Funds.

Package 802 Ways and Means Co-Chair 2 Percent Reprioritization

Package Description

Purpose: Meet the two percent efficiency reductions and fund Package 806 through a (\$1,165,484) Other Funds reduction, elimination of two limited duration and two permanent positions, and a phase-out 4.75 FTE limited duration positions.

How Achieved: The specific 2 percent efficiency reductions are as follows:

- Eliminate two limited duration (2.00 FTE) imaging positions originally planned for the Strunk/Eugene benefit adjustment work: (\$144,554) Other Funds
- Reduce temporary staffing for year-end processing due to implementation of jClarety: (\$53,000) Other Funds
- Eliminate filming of records for archival purposes following shift to digital imaging: (\$50,000) Other Funds
- Eliminate published handbook for judge members in favor of website-based program materials: (\$8,712) Other Funds
- Defer actuarial audit until 2008 when it will be conducted concurrently with the system valuation: (\$105,000) Other Funds
- Eliminate Contracts and Procurement permanent position (1.00 FTE).due to process streamlining: (\$113,284) Other Funds
- Reduce Department of Justice (DOJ) costs: (\$87,053) Other Funds by denying hearings when no material facts are in dispute.
- Reduce frequency of newsletter production and mailings, increasing reliance on website for communications with members and retirees: (\$43,000) Other Funds.
- Eliminate a Contributions and Banking permanent position (1.00 FTE) due to process streamlining: (\$117,387) Other Funds
- Implement a workforce management program to phase-out Strunk/Eugene Project at the end of the biennium by non-positions specific reductions in Personal Services costs and FTE (4.75 FTE): (\$443,494) Other Funds

Staffing Impact:

- (2.00 FTE) Limited duration imaging positions for Strunk/Eugene Project benefit adjustment work
- (1.00 FTE) Contracts and Procurement position
- (1.00 FTE) Contributions and Banking position
- (4.75 FTE) Limited duration Strunk/Eugene Project positions

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS' programs and activities in accordance with Oregon Revised Statute and applicable administrative rules.

2009-11 Fiscal Impact: There is no anticipated impact to 2009-11 Other Funds.

Package 803 Statewide Assessment Adjustments

Package Description

Purpose: (\$105,013) Other Funds reduction to reflect omnibus adjustments as stated in SB5549-A.

How Achieved: Omnibus adjustments reflect the following:

- (\$89,586) Other Funds reduction in Personal Services due to reductions in Public Employee Retirement System rates. The PERS rate for state agencies is reduced from 12.98 percent as assumed in the Governor's budget to the final rate of 12.71 percent. The rate for judges is reduced from 27.14 percent to 25.70 percent.
- (\$2,017) Other Funds reduction in Services and Supplies due to adjusted treasury debt management charges that reflect updated information on agencies' relative debt levels and new debt issuances.
- (\$13,410) Other Funds reduction in Services and Supplies to reflect reductions in the hourly rate for Department of Justice (DOJ) attorney charges.

Staffing Impact: There is no impact to agency staffing.

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS' programs and activities in accordance with Oregon Revised Statute and applicable administrative rules.

2009-11 Fiscal Impact: There is no anticipated impact to 2009-11 Other Funds.

Package 806 Table Request Budget Adjustment

Package Description

Purpose: The Subcommittee discussed opportunities to improve services to members as they move into retirement. This package was approved to restore \$254,546 Other Funds from the efficiency savings in Package 802 and establish two permanent positions (2.00 FTE) to provide assistance with retirement form completion in areas of the state outside the Willamette Valley.

How Achieved: Opportunities for members to have their benefit estimates explained and to review their application forms with a PERS' staff member prior to submittal would be provided in conjunction with group presentations and other scheduled travel. PERS will reassign duties of two existing positions and increase use of overtime to expand its face-to-face application assistance to Willamette Valley members. PERS will also work with its stakeholders to improve access to web-based retirement tools and with private-sector vendors to make pre-retirement education workshops more broadly available throughout the state.

Staffing Impact: Establish the following fulltime permanent positions:

- 2.00 FTE Retirement Counselor 2

Revenue Source: Revenues to fund administrative expenditures are obtained from the various PERS' programs and activities in accordance with Oregon Revised Statute and applicable administrative rules.

2009-11 Fiscal Impact: Two positions continue into the 2009-11 biennium, resulting in an anticipated fiscal impact of \$214,946 Other Funds for personal services and an additional \$39,600 for services and supplies, totaling \$254,546 Other Funds.

BUDGET NARRATIVE

Debt Service

Overview

This program accounts for debt service payments on Certificates of Participation (COPs) that were issued to finance two major agency projects: the PERS headquarters building construction and capital costs associated with the Oregon Public Service Retirement Plan (OPSRP) technology platform.

Although PERS has significant resources available, COPs were utilized due to interest costs being less than the potential foregone investment opportunity costs related to alternative financing methods. The revenue source that services the COPs is Other Funds. These two projects are described as follows:

PERS Headquarters Building

In the mid-1990's PERS recognized that the former headquarters location in Portland could not serve the long-term needs of the agency. As a result, PERS, cooperating with Department of Administrative Services (DAS) State Facilities, built a headquarters in Tigard in 1997 with land and construction costs financed through the issuance of a COP. The original \$8.6 million COP was partially refinanced in March of 2002 through the issuance of a second, lower rate COP. The first COP was paid off on May 1, 2006. Earnings on the PERS fund will pay off the remaining balance for the second COP (\$5.825 million as of 06-30-06) by May 2017.

Oregon Public Service Retirement Plan Information Technology Project

The Legislature recognized that revenues from the Individual Account Program (IAP) IAP and OPSRP Pension Program would not suffice to cover the initial start-up activity expenses. As a result, the Legislature authorized PERS to borrow funds from the Tier One and Tier Two Program assets and to issue a COP. After a cost-benefit analysis, PERS requested the issuance of a five-year COP for \$9,865,000 to cover the capital costs of purchasing and installing IT systems to support the OPSRP programs. OPSRP contributions and earnings primarily service the COP debt. The last payment will occur on May 1, 2009.

Base Budget Adjustments

There is a decrease of \$11,750 in Other Funds Limitation debt service. The debt service adjustment is made in accordance with budget instructions and based on established repayment schedules provided by DAS.

INFORMATION TECHNOLOGY PROJECTS IN 2007-09 (that Equal or Exceed \$150,000)

Agency Name:	PUBLIC EMPLOYEES RETIREMENT SYSTEM			
Project Name:	RIMS CONVERSION PROGRAM			
Mandated Project?	Yes or No	NO	By: Legislature, Federal Gov, Other (identify it)	
Base Budget or POP?	POP 111		Which agency or state plans or goals does it align with and/or support?	Agency goal to provide better, more accurate service to employers and members. State goal to provide better access to government services for Oregonians.

Project Description:
 The RIMS Conversion Project (RCP) is Phase II of a two-phase project to implement an enterprise-wide technology architecture, the goal of which is to create an integrated platform for providing pension administration services across all retirement programs.

RCP will extend and further customize the jClarety application template implemented in Phase I to administer the Oregon Public Service Retirement Plan (OPSRP) established by the 2003 PERS' reform. The scope of the RCP includes the retirement plan administration components needed to administer the PERS' Chapter 238 Tier One and Tier Two Program, currently being managed by the Retirement Information Management System (RIMS), its associated desktop applications, and manual processes. This project will provide PERS with an integrated platform for providing member services and benefits across all retirement plans. In addition to extending the jClarety application, the RCP will also implement electronic workflow, electronic content management and member/employer self-service systems at the agency.

The project will be completed over the course of several biennia. The expected cost of the project is \$27.5M and the expected completion date is November 2009. The 07-09 biennium costs for this project are shown in the chart schedule below.

Cost Summary						
Estimated cost by fund:	General Fund	Lottery Funds	Other Funds	Non-Limited	Federal Funds	Total Funds
	\$	\$	\$13,539,844	\$	\$	\$13,539,844

INFORMATION TECHNOLOGY PROJECTS IN 2007-09 (that Equal or Exceed \$150,000)

Agency Name:	PUBLIC EMPLOYEES RETIREMENT SYSTEM				
Project Name:	STRUNK/EUGENE PROJECT				
Mandated Project?	Yes or No	YES	By: Legislature, Federal Gov, Other (identify it)	Supreme Court Decisions	
Base Budget or POP?	POP 110		Which agency or state plans or goals does it align with and/or support?	This project implements two court rulings. The results of this project support the agency's goal of providing accurate member benefits and allow the agency to satisfy its fiduciary responsibility under Oregon statute.	

Project Description:
 To comply with the Oregon Supreme Court's rulings in the *Strunk* and *Eugene* cases, and the associated Board settlement agreement. As a result of those rulings, PERS must re-calculate member account balances, recalculate and adjust benefits, and recover over-payments made on the basis of 1999 earnings over-crediting. PERS will use additional limited duration staff to handle the increased workload associated with this project. While the majority of the costs associated with this project are related to FTE in the operational sections of the agency, there is an application modification (programming) component of the project that exceeds the \$150,000 threshold for this document. The expected programming costs associated with this project is \$200,000, which will be used to procure contract programming services to work in conjunction with business and IT staff in the design, specification and implementation of the system changes required to support successful completion of the project.

Cost Summary	General Fund	Lottery Funds	Other Funds	Non-Limited	Federal Funds	Non-Limited	Total Funds
Estimated cost by fund:	\$	\$	\$200,000	\$	\$	\$	\$200,000

Estimated Cost by category:	Personal Services	Services & Supplies	Capital Outlay	Special Payments	Debt Service
	\$200,000	\$	\$	\$	\$

Expected Start Date: 7/2007

Audit Response Report

The following reports were completed and/or issued by the Secretary of State or the Joint Legislative Audit Committee in the 2003-2005 biennium and thus far in the 2005-07 biennium:

2005-2007

- The PERS Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2006 was issued in December 2006 by the Audits Division. No reportable conditions were reported and no management letter was issued.
- jClarety Application Controls Review: The Audits Division completed an evaluation of the computer controls governing the jClarety computer application, the software being implemented as the replacement for the legacy Retirement Information Management System (RIMS). The report was presented to the PERS Audit Committee on February 16, 2007.
- The PERS' CAFR for the fiscal year ended June 30, 2005 was issued in December 2005. One reportable condition related to internal controls was reported. The Agency has implemented appropriate corrective measures.

2003-2005

- PERS' Change of Director Review: Letters dated May 11, 2004 and August 4, 2004 were issued, with no substantive findings.
- The PERS' CAFR for the fiscal year ended June 30, 2004 was issued in December 2004. One reportable condition was reported. Corrective measures have been implemented along with a work plan to prevent the problem from reoccurring in future years.
- The PERS' CAFR for the fiscal year ended June 30, 2003 was issued in December 2003. No reportable conditions were identified.

BUDGET NARRATIVE

In addition, the following reviews and engagements were conducted by the PERS Internal Audit Section, DAS, or by independent contractors during the above periods:

Report Title	Date Issued	Conducted By
Payroll Review	02/2007	PERS Internal Audits
Employee Account Review	09/06/2006	PERS Internal Audits
Quality Assurance Oversight: HB 2020 Program	05/17/2006	Agilis Solutions
Information Technology General Controls Review	10/17/2005	Quality Plus Engineering
Work-Out-of-Class Review	09/30/2005	DAS HRSD
Disabilities Risk Assessment	09/24/2005	Quality Plus Engineering
Administrative Classification Review Study	07/15/2005	DAS HRSD
jClarety Pension Plan Determination and Contribution Accuracy	03/24/2005	PERS Internal Audits
jClarety User Logical Access Review	12/09/2004	PERS Internal Audits
Member Retirement Purchases Options	09/13/2004	PERS Internal Audits
Total Lump Sum Benefit Option Review	06/22/2004	PERS Internal Audits
Assessment of PERS' Performance Measurement System Integrity and Outcomes	06/04/2004	PERS Internal Audits
Travel Card Review	06/03/2004	PERS Internal Audits
Small Purchase Order Transaction System (SPOTS) Card Review	04/28/2004	PERS Internal Audits
Travel Expense Review	04/05/2004	PERS Internal Audits
Accounts Receivable and Invoicing	03/08/2004	PERS Internal Audits
Death Benefit Unit Risk Assessment	02/05/2004	PERS Internal Audits
Minimum Account Balance	01/29/2004	PERS Internal Audits
Hardship Manual Refunds Review	10/23/2003	PERS Internal Audits

Recommendations for improvement from these reviews and engagements have been and are in the process of evaluation and implementation. Some will occur as part of the implementation of the new jClarety application.

BUDGET NARRATIVE

Affirmative Action Report

The tables below shows PERS' progress on our long-range goals set for 03-05 and 05-07 biennium. The first table is by underutilized job group categories and the second is by equal opportunity categories.

A. By Job Group Categories

JOB GROUP CATEGORY	JOB GROUP NUMBER	03-07 LONG RANGE GOALS	05-07 LONG RANGE GOALS	EMPLOYEE NUMBERS JUNE 2005	EMPLOYEE NUMBERS APRIL 2006	CHANGE	MET 05-07 GOAL?
WOMEN							
Middle management	A01	2	1	15	10	-5	NO
PEOPLE OF COLOR							
Middle management	A01	1	1	7	4	-3	NO
Upper management	A02	1	1	1	1	0	NO
Personnel/ Employment*	B10	1	1	8	6	-2	NO
Program coord/ analyst	B16	2	1	3	5	+2	YES
Administrative support	F00	1	1	11	15	+4	YES

* B10 includes retirement counselors 1 and 2. This group makes up our largest job classification at PERS or approximately 36 percent of our positions.

Although PERS met some of its goals in the last biennium, PERS continues to strive towards making positive progress on the long-range goals for the 05-07 biennium.

An area we are particularly interested in improving is attracting, hiring, and retaining people of color in our upper management positions. PERS increased our numbers in middle management, which will develop people for future upper management positions. We also have three upper management positions open at this time, creating an opportunity to attract and hire people of color into those positions.

PERS continues to have diverse interview panels and provides training for managers on interviewing and promoting cultural awareness. We have provided harassment/discrimination training for all managers and staff in 2004. We need to increase our women and people of color candidate pool and to find ways of making PERS more welcoming to diverse groups of people. In 2005, PERS hired a consultant to conduct Cultural Competency training for executives and managers in an effort to educate them on diversity and to help them gain an understanding of the advantages of creating a welcoming work environment for PERS employees with diverse backgrounds.

BUDGET NARRATIVE

Although we are a small agency, we have expanded our recruitment efforts in the Portland area through outreach programs such as the One Stop Career Center/Workforce Network, putting ads on television public channels, and ads in diverse newspapers. In 2005 and 2006, we partnered with other agencies to participate at cultural job fairs to promote working for the State and PERS.

Within our agency, the Human Resources Director has been attending new employee orientation to meet new employees and welcome them to PERS. After the cultural competency assessment and follow-up training, PERS implemented one of the consultant's recommendations by creating a Diversity Committee comprised of employees throughout the agency. The main purpose of the committee is to educate and create awareness around the importance of diversity at PERS.

B. By Equal Employment Opportunity Categories

EEO CATEGORY	JOB GROUP	03-07 LONG RANGE GOALS	05-07 LONG RANGE GOALS	EMPLOYEE NUMBERS JUNE 2005	EMPLOYEE NUMBERS APRIL 2006	CHANGE	MET 05-07 GOAL?
WOMEN	A (officials/admin)	2	1	18	11	-7	NO
AFRICAN AMERICANS	A (officials/admin)	1	1	0	0	0	NO
	B (professionals)	1	1	5	3	-2	NO
	F (admin support)	1	1	0	0	0	NO
HISPANIC AMERICANS	A (officials/admin)	1	1	1	1	+1	YES
	B (professionals)	1	1	3	4	+1	YES
ASIAN AMERICANS	B (professionals)	1	1	10	15	+5	YES
NATIVE AMERICANS	F (admin support)	1	1	0	1	+1	YES

PERS met half of the long-range goals for the 05-07 biennium. However, it is important to note that 144 of our current 388 positions are limited duration. These will end June 30, 2006 and some will have layoff rights. This may affect our goals of hiring women and people of color into permanent positions, as we do not know who will have the seniority to not be laid off.

African Americans: We have lost a bit of ground on hiring African Americans into management positions and are currently below our goal. We will continue to target this group with our outreach efforts, attending related job fairs, advertisements and through diverse interview panels. We will encourage African American employees to be part of our presentation team for recruitment. Increasing our number of African American professionals will give them experience within PERS to encourage future promotions into management.

Hispanic Americans: Although we met the long-range goals for Hispanic Americans, we continue to do outreach through the *El Hispanic* and *Observer* newspapers and our job postings go to the Hispanic Access Center/Centro Hispano. We will continue to target this group with our

BUDGET NARRATIVE

advertisements and have diverse interview panels. We will encourage Hispanic American employees to be part of our presentation team for recruitment.

Asian Americans: Although we met the long-range goals for Asian Americans, we continue to do outreach though posting jobs in the *Observer* and the *Asian Reporter* newspapers. We will continue to target this group with our advertisements and have diverse interview panels. We will encourage Asian American employees to be part of our presentation team for recruitment.

Native Americans: PERS has met the long-range goals for Native Americans. We will continue to do outreach activities by contacting the local Confederated Tribes of Grand Ronde to see if we can put ads or articles in their tribal newsletter and contact the Oregon Native American Chamber of Commerce to see about partnering with them.

Disabled: Although we do not have any long-term goals set for people with disabilities, 17 or 4 percent of our work force are people with disabilities. We post our jobs with various Vocational Rehabilitation Services in the area. We continue to be welcoming to people with disabilities by ensuring we are in compliance with the American's with Disabilities Act for access and by engaging in an interactive process around reasonable accommodation requests.

Summary

PERS does extensive recruitment through colleges, companies facing a reduction in workforce, alternative newspapers, Job Corps, the Department of Veterans Affairs Vocational Rehabilitation and Employment, other Vocational Rehabilitation Services, and the Internet. We post jobs with the Job Developers' Network Group, which posts our positions with 104 different non-profit organizations in the Portland area. We use the Career Builder website as well as Monster. We go through organizations relating to specific positions such as human resources or accounting. Through our interactions with the SE One Stop employment center, our ads go to all five of the employment centers around the Portland area.

PERS will work on increasing our diversity activities within PERS to encourage retention of women and people of color. We will write diversity articles for the Percolator, our internal newsletter, and have diversity encouraging activities through the Diversity Committee and the PERS' Your Office Committee (YOC).

BUDGET NARRATIVE

List of Efficiencies

Name of Agency: Public Employees Retirement System (PERS)

Contact Person: Brian DeForest

Telephone: (503) 603-7568

Short Description of Efficiency	Program Affected	Who/What Impacted (internal and external)	Description of Savings	Amount of Savings - if applicable (include units and time period)
Placing more disability retirees on biennial reviews	PERS Chapter 238 Disability Retirement	Disability retirees and PERS staff	Disability cases that fit certain criteria (illness/injury and length of disability status) can be placed on a biennial review cycle, as opposed to annual review. The PERS medical advisor reviews and approves the review cycle. This saves the disability retiree time and money by eliminating medical reviews and corresponding insurance issues. PERS staff saves time on case load management and spends less time supporting customer inquiries about the review process.	There are approx 6,000 disability retirees. Every case eliminated from annual review saves a minimum of one hour staff time. In addition, phone calls between staff and customers are eliminated. Staff can be re-focused toward immediate workload needs.
Capturing documents in electronic, retrievable form (FYI)	BPD	Internal - RSS staff External - retirees	Reduced time in receiving retirement documents and increased responsiveness to stakeholders.	1 to 2 days per application
Automated workflow for IAP retirement and withdrawal processing (FYI)	IAP Disbursement	Internal - IAP retirement and withdrawal team External - IAP retirees and members withdrawing	Use of FYI workflow to process IAP disbursement applications. FYI allows staff to view document images electronically view a web interface. Automated workflow manages the distribution process, provides better process controls, and increases management reporting and oversight capabilities. Reduced paper copying, printing, and routing. Eliminates lost paperwork.	An average of 500 IAP disbursements per month totaling \$1.75 million. Application process time was cut in half and currently takes approximately 55 minutes to process each application.
Implementation of automated desktop benefit calculation programs	BPD	Internal - RSS staff External - retirees	Accuracy improved, processing time shortened, rework reduced.	From 3 hours average time to 1½ hours per calculation. Average 500 calculations per month.
Reduced BPD Strunk//Eugene staff	BPD	External - stakeholders	Through the comprehensive planning and development of new processes and tools, PERS reduced the BPD Strunk/Eugene staff needs from the original projections.	Savings is expressed as cost avoidance. Reduced BPD resource need from the original estimate of 65 FTE to 37 FTE, saving 28 FTE from being requested.
Converted employer reporting of member data from paper to 100 percent electronic. Referred to as EDX	PERS Employer Reporting	External - employers and members	Better member service. Data is transferred electronically from employer payroll unit via the Internet. No manual interfacing of data between employers and PERS staff. Allows for more data to be transferred and less risk of polluting the data from manual handling.	Precise savings has not yet been determined as the system has not reached full maturity and employers are still learning the system.

BUDGET NARRATIVE

Short Description of Efficiency	Program Affected	Who/What Impacted (internal and external)	Description of Savings	Amount of Savings - if applicable (include units and time period)
Created PDF-fillable and printable forms on the PERS website	PERS Customer Service Center	External - member	Better customer service, reduced staff time and streamlined process	This provides 24/7 access to forms that previously could only be requested via phone, correspondence or in-person. Since the inception, approximately 800 forms per week have been downloaded and printed from the Internet. Period: 2005/2006
Revised web calculator to use Annual Statement data so member can receive an estimate that is equivalent to the estimate PERS could calculate internally	PERS Customer Service Center	External - member	Better customer service, reduced staff time and streamlined process	This provides 24/7 access to benefit estimates that previously could only be secured by requesting PERS to complete the estimate. Since the introduction of the new web calculator, the website receives 1900 hits per week from PERS members. Period: 2004-2006
Implemented new call center telephony system	PERS Customer Service Center	Internal - Customer Service staff External - member	Better customer service and streamlined process.	New telephone system self-directs members to PERS subject matter experts who can better answer member content-specific questions. System records all calls for training and documentation purposes. System has reduced follow-up by 20 percent. Follow-up can now be completed with only 2 staff versus 3 staff. Period: 2005-2006
Automated benefit estimate request calculation process	PERS Customer Service Center	Members as calculated by Internal Customer Service staff	Better customer service, reduced staff time and streamlined process	Automated manual calculation steps involved in performing a benefit estimate. Reduced staff time that was focused on this process and eliminated 25,000 backlog within 6 months. PERS can now meet and exceed service standards. Period: 2004-2006.
